Accelerated Learning for the 21st Century Colin Rose.2011-11-02 We live in an era when the unprecedented speed of change means: The only certainty is uncertainty; you can't predict what skills will be useful in ten years time; in most professions knowledge is doubling every two or three years; and no job is forever--so being employable means being flexible and retraining regularly. Accelerated Learning into the 21st Century contains a simple but proven plan that delivers the one key skill that every working person, every parent and student must master, and every teacher should teach: it's learning how to learn. The theory of eight multiple intelligences (linguistic, logical-mathematical, visual-spatial, kinesthetic, musical, interpersonal, intrapersonal, and naturalist) developed by Howard Gardner at Harvard University provides a foundation for the six-step MASTER-Mind system to facilitate learning (an acronym for Mind, Acquire, Search, Trigger, Exhibit, and Review), and is enhanced by the latest findings on the value of emotion and memory on the process of learning. Combined with motivational stories of success applying these principles, and putting forth a clear vision of how the United States can dramatically improve the education system to remain competitive in the next century, Accelerated Learning into the 21st Century is a dynamic tool for self-improvement by individuals as diverse as schoolchildren and corporate executives.

Conducting and Rehearsing the Instrumental Music Ensemble John F. Colson.2012-08-09

Conducting and Rehearsing the Instrumental Music Ensemble is the most comprehensive guide on the rehearsal process for conducting instrumental music ensembles. Ideal for the advanced instrumental music conductor seeking to look beyond basic conducting technique, this work breaks the multidimensional activity of working with an ensemble, orchestra, or band into its constituent components. Advanced students of conducting will find within the full range of conducting activities:

- Chapters on the infrastructure of the rehearsal, the rehearsal environment, 10 rehearsal essentials, score study, music imagery, inner singing, and rehearsal procedures (with an emphasis on an integrated approach to rehearsing)
- The technical priorities of intonation and tuning, rhythm patterns, ensemble sonority (tone, balance, blend, color and texture), and articulation
- The musical priorities of tempo and ensemble precision, phrasing and the musical line, style and interpretation, dynamics and musical expression
- Emphasizing the expectations of 21st-century conductors, the challenges of conducting and rehearsing contemporary music, preparing conductor profiles and self-evaluations, and moving from the rehearsal process to concert performance

Conducting and Rehearsing the Instrumental Music Ensemble is a great resource for teachers and students of conducting, as well as current conductors wishing to further hone their skills.

Contest and Concert Pieces for Flute and Piano James R. Briscoe.2015-03-01 The Paris Conservatoire's rigorous curriculum for training both singers and instrumentalists led to a wealth of musical treasures in the form of pieces composed specifically for the end-of-year examinations, which culminated in a public prize competition, the Concours du Conservatoire. The solos composed for these examinations, both the sight-reading works and the longer contest pieces (morceaux de concours), constitute the first extended series of compositions for woodwinds, brass, and harp in music history, being composed nearly annually for each instrument beginning in the 1830s. The wealth of musical treasures resulting from this systematic accumulation of works represents the historical core of these instrumental repertoires today. The present volume contains a selection of morceaux de concours and other pieces written in a similar style, representing some of the most influential flutists and composers associated with the Conservatoire.

In Harmony Dr. Lisa Redpath.2022-06-01 In Harmony: The Complementary Musical Tales of the Brockton Symphony Orchestra, Sharon Civic Orchestra, and Sharon Community Chamber Orchestra is a stirring, historical account of these three Massachusetts ensembles. Each chapter documents the orchestras' operations ranging from their founders to the conductors, repertoire, players, soloists, volunteers, fundraisers, behind-the-scenes realities, and special features. While details of each organization are presented in depth, a seasoning of interesting, humorous, and at times tragic human-interest stories make these tales come alive. Musicians, audience members, supporters, and readers with a passion for history will find connections to the events told here. Welcome to the inside world of these venerable ensembles which take their places in the history of orchestras with pride. In Harmony is the most extensive and intriguing exploration into community orchestras in the literature. Musical portraits are enlivened by real-life adventure stories such as survival by WWII refugees, the guarding of Stradivari violins, performing during power failures, and the dodging of puddles caused by leaking concert hall ceilings. Most notable are the contributions made by core players whose passion for orchestral music-making inspires them to share their talent, time, and commitment with the community, often as part of their life's work. Over time, thousands of audience members have enjoyed their concerts, scores of youth musicians have been awarded performance opportunities and scholarships, and players have felt great satisfaction in their calling to perform. Significant details illuminate the history of the Brockton Symphony Orchestra dating back to 1925 and the central roles that women played in the establishment of the Sharon Civic Orchestra and Sharon Community Chamber Orchestra. The orchestras have been led by conductors from both the local and national stage. Famous performers such as Charles Castleman, Midori, and Gil Shaham were guest soloists with the Brockton Symphony during the early days of their careers. The overall cavalcade of esteemed stars included Karl Ulrich Schnabel, Leonard Rose, Samuel Mayes, Boston Symphony Orchestra members and many others! The conductors, soloists, volunteers, and most

importantly, the players, have devoted their lives to the making of symphonic music for all to enjoy. Their tales are masterpieces.

The Flute Book Nancy Toff.2012-08-02 Teachers and flutists at all levels have praised Nancy Toff's *The Flute Book*, a unique one-stop guide to the flute and its music. Organized into four main parts--The Instrument, Performance, The Music, and Repertoire Catalog--the book begins with a description of the instrument and its making, offers information on choosing and caring for a flute, sketches a history of the flute, and discusses differences between members of the flute family. In the Performance section, readers learn about breathing, tone, vibrato, articulation, technique, style, performing, and recording. In the extensive analysis of flute literature that follows, Toff places individual pieces in historical context. The book ends with a comprehensive catalog of solo and chamber repertoire, and includes appendices with fingering charts as well as lists of current flute manufacturers, repair shops, sources for flute music and books, and flute clubs and related organizations worldwide. In this Third Edition, Toff has updated the book to reflect technology's advancements--like new digital recording technology and recordings' more prevalent online availability--over the last decade. She has also accounted for new scholarship on baroque literature; recent developments such as the contrabass flute, quarter-tone flute, and various manufacturing refinements and experiments; consumers' purchase prices for flutes; and a thoroughly updated repertoire catalog and appendices.
