Teatro completo Miguel Mihura. 2004 En 1943, dos de los tres inventores que se repartían la escena tras levantarse el telón de Ni pobre ni rico, sino todo lo contrario, mantenían el siguiente diálogo: «—También he inventado una máquina muy grande. —¿Y para qué sirve? —No sirve para nada, pero es muy grande. En eso consiste su mérito: no cabe en una habitación». Cuarenta años después, un crítico dijo de las famosas esculturas de Richard Serra: su mérito consiste en que pesan más de 30 toneladas y no caben en una habitación. Nihil novum. Cien años hace que nació Miguel Mihura; setenta y dos que escribió Tres sombreros de copa. «Lo inverosímil, lo desorbitado, lo incongruente, lo absurdo, lo arbitrario, la guerra al lugar común y al tópico, el inconformismo, estaban patentes en mi primera obra escrita en 1932», declaraba el autor. Conviene recordar que esa primera obra fue escrita diecisiete años antes que La cantante calva, de Ionesco. Pero, mientras Ionesco pudo estrenarla al año siguiente, Mihura tuvo que esperar veinte para estrenar la suya. La voz del precursor en el desierto. El teatro de Mihura levanta en escena una memorable galería de seres y situaciones. Personajes que quieren «sentir y padecer y reír y hablar con libertad», como la Irene de Mi adorado Juan: ese hombre «que no hace daño a nadie, ni ambiciona nada, ni pone zancadillas, ni pretende ser algo más de lo que es»; personajes automarginados, que prefieren vivir en las márgenes de un río antes que en un ambiente edificado sobre tópicos; que miran el trabajo con distanciamiento y despegue, no con la idolatría de una sociedad consumista que lo ha sacralizado para poder consumir más. Juan, el adorado Juan, «al éxito, a la fama, al dinero, a la vanidad, prefería el sol, los amigos, la humildad y las siestas interminables».

Mobile Screens Nanna Verhoeff. 2012 Nanna Verhoeff's new book is a must for anybody interested in visual culture and media theory. It offers a rich and stimulating theoretical account of the central dimension of our contemporary existence—interfacing and navigating both data and physical world through a variety of screens (game consoles, mobile phones, car interfaces, GPS devices, etc.). In the process of exploring these new screen practices, Verhoeff offers fresh perspectives on many of the key questions in media and new media studies as well as a number of new original theoretical concepts. As the first theoretical manual for the society of mobile screens, this book will become an essential reference for all future investigations of our mobile screen condition.—Lev Manovich.—Publisher's description.

THE EARLY GRADE READING ASSESSMENT Amber K. Gove, Anna Wetterberg. 2011-09-28 The Early Grade Reading Assessment (EGRA) measures students' progress towards reading. EGRA gauges early literacy skills through a 15-minute individual oral assessment of five fundamental reading skills. RTI worked with education experts to develop the EGRA in 2006, and it has been piloted and implemented in more than 40 countries. This volume aims to take stock of the substantial amount of information and experience generated through the use of EGRA, and to share this knowledge with practitioners, policymakers, and international donors. Chapters cover not only particular applications of the instrument but also put EGRA in the context of broader issues and developments in literacy and education.

The Transatlantic Hispanic Baroque Harald E. Braun, Jesús Pérez-Magallón. 2016-03-03 Gathering a group of internationally renowned scholars, this volume presents cutting-edge research on the complex processes of identity formation in the transatlantic world of the Hispanic Baroque. Identities in the Hispanic world are deeply intertwined with sociological concepts such as class and estate, with geography and religion (i.e. the mixing of Spanish Catholics with converted Jews, Muslims, Dutch and German Protestants), and with issues related to the ethnic diversity of the world's first transatlantic empire and its various miscegenations. Contributors to this volume offer the reader diverse vantage points on the challenging problem of how identities in the Hispanic world may be analyzed and interpreted. A number of contributors relate earlier processes and formations to Neo-Baroque and postmodern conceptualisations of identity. Given the strong interest in identity and identity-formation within contemporary cultural studies, the book will be of interest to a broad group of readers from the fields of law, geography, history, anthropology and literature.

Shades of Noir Joan Copjec. 1993 For this was the summer when, after the hiatus of the Second World War, French critics were again given the opportunity to view films from Hollywood. The films they saw, including *The Maltese Falcon*, *Double Indemnity*, *Laura*, *Murder, My Sweet*, and *The Woman in the Window*, prompted the naming and theorization of a new phenomenon: film noir. Much of what has been written about the genre since has remained within the orbit of this preliminary assessment. While sympathetic towards the early French critics, this collection of original essays attempts to move beyond their first fascinated look. Beginning with an autonomy of that look—of the 'poujadist' climate that nourished it and the imminent collapse of the Hollywood studio system that gave it its mournful inflection—*Shades of Noir* re-explores and calls into question the object first constructed by it. The impetus for this shift in perspective comes from the films themselves, viewed in the light of contemporary social and political concerns, and from new theoretical insights. Several contributions analyze the re-emergence of noir in recent years, most notably in the hybrid forms produced in the 1980s by the merging of noir with science fiction and horror, for example *Blade Runner* and *Angel Heart*, and in films by black directors such as *Deep Cover*, *Straight out of Brooklyn*, *A Rage in Harlem* and *One False Move*. Other essays focus on the open urban territory in which the noir hero hides out; the office spaces in *Chandler*, and the palpable sense of waiting that fills empty warehouses, corridors and hotel rooms. Finally, *Shades of Noir* pays renewed attention to the lethal relation between the sexes; to the femme fatale and the other women in noir. As the role of women expands, the femme fatale remains deadly, but her deadliness takes on new meanings. Contributors: Janet Bergstrom, Joan Copjec, Elizabeth Cowie, Manthia Diawara, Frederic Jameson, Dean MacCannel, Fred Pfeil, David Reid and Jayne L. Walker, Marc Vernet, Slavoj Žižek.

Learning Through Practice Stephen Billett.2010-06-02 Practice-based learning—the kind of education that comes from experiencing real work in real situations—has always been a prerequisite to qualification in professions such as medicine. However, there is growing interest in how practice-based models of learning can assist the initial preparation for and further development of skills for a wider range of occupations. Rather than being seen as a tool of first-time training, it is now viewed as a potentially important facet of professional development and life-long learning. This book provides perspectives on practice-based learning from a range of disciplines and fields of work. The collection here draws on a wide spectrum of perspectives to illustrate as well as to critically appraise approaches to practice-based learning. The book's two sections first explore the conceptual foundations of learning through practice, and then provide detailed examples of its implementation. Long-standing practice-based approaches to learning have been used in many professions and trades. Indeed, admission to the trades and major professions (e.g. medicine, law, accountancy) can only be realised after completing extended periods of practice in authentic practice settings. However, the growing contemporary interest in using practice-based learning in more extensive contexts has arisen from concerns about the direct employability of graduates and the increasing focus on occupation-specific courses in both vocations and higher education. It is an especially urgent issue in an era of critical skill shortages, rapidly transforming work requirements and an aging workforce combined with a looming shortage of new workforce entrants. We must better understand how existing models of practice-based learning are enacted in order to identify how they can be applied to different kinds of employment and workplaces. The contributions to this volume explore ways in which learning through practice can be conceptualised, enacted, and appraised through an analysis of the traditions, purposes, and processes that support this learning—including curriculum models and pedagogic practices.

The Chartist Movement Mark Hovell.1966 Chartism was a Victorian era working class movement for political reform in Britain between 1838 and 1848. It takes its name from the People's Charter of 1838. The term Chartism is the umbrella name for numerous loosely coordinated local groups, often named Working Men's Association, articulating grievances in many cities from 1837. Its peak activity came in 1839, 1842 and 1848. It began among skilled artisans in small shops, such as shoemakers, printers, and tailors. The movement was more aggressive in areas with many distressed handloom workers, such as in Lancashire and the Midlands. It began as a petition movement which tried to mobilize moral force, but soon attracted men who advocated strikes, General strikes and physical violence, such as Feargus O'Connor and known as physical force chartists.-- Wikipedia

The Eleven Comedies, Volume 1 Aristophanes.2019-09-27 *Assemblywomen* is a comedy written by the Greek playwright Aristophanes in 391 BC. The play invents a scenario where the women of Athens assume control of the government and instate communist reforms that ban private wealth and enforce sexual equality for the old and unattractive.

Life of Don Quixote and Sancho Miguel de Unamuno.2023-05-02 *Life of Don Quixote and Sancho* is arguably Unamuno's most defining work, an audacious abridgment of the classic work from the seventeenth century. Finding that Miguel de Cervantes did not tell Don Quixote's story very well, Unamuno presents Cervantes's story the way he believes it should have been written, thereby weaving narration, commentary, and philosophy into a seamless whole. Unamuno here defines and exemplifies the courageous philosophy of Quixotism at length, revealing unexpected correspondences with existentialism.

Due intermezzi di lettura Pedro Salinas.2019-09-05T00:00:00+02:00 Nei due articoli del 1921, per la prima volta ripubblicati in spagnolo e tradotti in italiano in questo volume, Pedro Salinas ci invita a esplorare due opere importanti della tradizione europea, su un filo sospeso tra metaletteratura, psicologia e teatro. Il primo pezzo è un incontro con il personaggio secentesco di Sigismondo creato da Calderón de la Barca, cui Salinas si rivolge come a un personaggio in bilico tra amore e dolore, tra la grandezza dell'identità libera e le rigide regole della nobiltà spagnola. Nel secondo articolo, Salinas rende un precoce e brillante omaggio al primo volume della Recherche di Proust, inventando una scena immaginaria dove i personaggi di Du côté de chez Swann si animano al tocco delicato del romanziere francese, acrobata di finezze psicologiche e verità estetiche.

The Count Of Monte Cristo (Complete) Alexandre Dumas.2013-01-25 This carefully crafted ebook: "The Count Of Monte Cristo (Complete)" is formatted for your eReader with a functional and detailed table of contents. The Count of Monte Cristo (French: Le Comte de Monte-Cristo) is an adventure novel by French author Alexandre Dumas (père). It is one of the author's most popular works, along with *The Three Musketeers*. Dumas completed the work in 1844. The story takes place in France, Italy, islands in the Mediterranean, and in the Levant during the historical events of 1815–1838. It is an adventure story primarily concerned with themes of hope, justice, vengeance, mercy and forgiveness, it focuses on a man who is wrongfully imprisoned, escapes from jail, acquires a fortune and sets about getting revenge on those responsible for his imprisonment. However, his plans have devastating consequences for the innocent as well as the guilty. The book is considered a literary classic today. According to Luc Sante, *The Count of Monte Cristo* has become a fixture of Western civilization's literature, as inescapable and immediately identifiable as Mickey Mouse, Noah's flood, and the story of Little Red Riding Hood. This English translation was originally published in 1846 by Chapman and Hall, London.

The 71F Advantage National Defense University Press.2010-09-01 Includes a foreword by Major General David A. Rubenstein. From the editor: 71F, or 71 Foxtrot, is the AOC (area of concentration) code assigned by the U.S. Army to the specialty of Research Psychology. Qualifying as an Army research psychologist requires, first of all, a Ph.D. from a research (not clinical) intensive graduate psychology program. Due to their advanced education, research psychologists receive a direct commission as Army officers in the Medical Service Corps at the rank of captain. In terms of numbers, the 71F AOC is a small one, with only 25 to 30 officers serving in any given year. However, the 71F impact is much bigger than this small cadre suggests. Army research psychologists apply their extensive training and expertise in the science of psychology and social behavior toward understanding, preserving, and enhancing the health, well being, morale, and performance of Soldiers and military families. As is clear throughout the pages of this book, they do this in many ways and in many areas, but always with a scientific approach. This is the 71F advantage: applying the science of psychology to understand the human dimension, and developing programs, policies, and products to benefit the person in military operations. This book grew out of the April 2008 biennial conference of U.S. Army Research Psychologists, held in Bethesda, Maryland. This meeting was to be my last as Consultant to the Surgeon General for Research Psychology, and I thought it would be a good idea to publish proceedings, which had not been done before. As Consultant, I'd often wished for such a document to help explain to people what it is that Army Research Psychologists do for a living. In addition to our core group of 71Fs, at the Bethesda 2008 meeting we had several brand-new members, and a number of distinguished retirees, the grey-beards of the 71F clan. Together with longtime 71F colleagues Ross Pastel and Mark Vaitkus, I also saw an unusual opportunity to capture some of the history of the Army Research Psychology specialty while providing a representative sample of current 71F research and activities. It seemed to us especially important to do this at a time when the operational demands on the Army and the total force were reaching unprecedented levels, with no sign of easing, and with the Army in turn relying more heavily on research psychology to inform its programs for protecting the health, well being, and performance of Soldiers and their families.
