Rape on the Contemporary Stage Lisa Fitzpatrick. 2018-01-22 This book investigates the representation of rape in British and Irish theatre since the second wave of the Women's Movement. Mainly focusing on the period from the 1990s to the present, it identifies key feminist debates on rape and gender, and introduces a set of ideas about the function of rape as a form of embodied, gendered violence to the analysis of dramaturgical and performance strategies used in a range of important and/or controversial works. The chapters explore the dramatic representation of consent; feminist performance strategies that interrogate common attitudes to rape and rape survivors; the use of rape as an allegory for political oppression; the relationships of vulnerability, eroticism and affect in the understanding and representation of sexual violence; and recent work that engages with anti-rape activism to present women's personal experiences on stage.

The English New England Voyages, 1602-1608 David B. Quinn. 2017-05-15 The publication of the narrative accounts of the voyages of Gisnold (1602) and Weymouth (1605) opened up for English readers what was then known as Norumbega, the later New England; They are the first documents of exploration of that region to have been published since that of Verrazzano's voyage (1524) in 1556. To the accounts of these voyages by John Brereton and James Rosier there was added by Purchas in 1625 the material of Martin Pring's voyage of 1603 and some scraps of information on the attempted colony by the Virginia Company of Plymouth at Sagadahoc on the Kennebec River in 1607-1608. The narrative of the voyage of the *Mary and John*, discovered in the 19th century, and now attributed to Robert Davies, remains our main authority for the 1607 voyage. Many ancillary documents are added to these essential sources. Most of these narratives have been edited in the distant past but they are now furnished with full information on fauna, flora, and above all, ethnography. The material which has become available on Indians of both northern and southern New England has enabled a full account to be given of them, while expert advice has been obtained in the edition of the Eastern Abenaki vocabulary of 1605. Considerable attention has been paid to topographical problems, to which new solutions are offered in a number of cases (though conflicting views are discussed in an appendix). The volume thus makes up a collection which is basic for the understanding of how Englishmen began to explore

New England (and how its inhabitants learnt something of the English) and on how that important territory first came to light in detail. The narratives are of great interest in themselves and the biographical information which it has been possible to assemble in the introduction about a number of the authors and actors in the voyages and the colonising attempt of 1607 is valuable in enabling the reader to understand what they wrote and what they omitted. Professor and Mrs Quinn have worked on this volume for a number of years and their introduction and notes constitute an important addition to our knowledge.

*Refugee Imaginaries* Cox Emma Cox.2019-11-01 Charts new directions for interdisciplinary research on refugee writing and representationPlaces refugee imaginaries at the centre of interdisciplinary exchange, demonstrating the vital new perspectives on refugee experience available in humanities researchBrings together leading research in literary, performance, art and film studies, digital and new media, postcolonialism and critical race theory, transnational and comparative cultural studies, history, anthropology, philosophy, human geography and cultural politicsThe refugee has emerged as one of the key figures of the twenty-first-century. This book explores how refugees imagine the world and how the world imagines them. It demonstrates the ways in which refugees have been written into being by international law, governmental and non-governmental bodies and the media, and foregrounds the role of the arts and humanities in imagining, historicising and protesting the experiences of forced migration and statelessness. Including thirty-two newly written chapters on representations by and of refugees from leading researchers in the field, *Refugee Imaginaries* establishes the case for placing the study of the refugee at the centre of contemporary critical enquiry.

*A History of Rwandan Identity and Trauma* Randall Fegley.2016-03-18 Few societies have faced the difficulties of identity building experienced by Rwanda. This book's introduction reviews literature on the concepts of myth and trauma, and then introduces basic information on Rwanda and how it has been viewed by the outside world. Chapter One describes early Rwanda's political and cultural development, traditional narratives, group migrations, the effects of German and later Belgian colonialism, and the introduction of Christianity. It concludes with a look at how this early history has been interpreted and reinterpreted. The second chapter discusses the end of Tutsi dominance and the 1959 Hutu Revolution. It details Hutu Power ideology, Belgian domestic politics, early acts of genocide, refugee movements, and economic and political stagnation. The text documents the development of the Rwandan Patriotic Front, its 1990 invasion, and the Arusha peace process. An account of the 1994 genocide follows. However, as this has been covered in numerous other works, descriptions are limited to key events and general patterns. The chapter ends with a review of films, books, and other publications that brought Rwanda's plight to a worldwide audience, but that also created new myths. Chapter Three examines the country's post-genocide reconstruction and attempts to bring justice and reconciliation through the International Criminal Tribunal for Rwanda in Tanzania and gacaca courts domestically. Rwanda's impressive record of economic progress over the last two decades is detailed. However, prospects for democracy have diminished, as its leaders have become increasingly sensitive to criticism and fearful of renewed divisions.

Descriptions of the process of developing school curriculums to explain past atrocities, the new myths it created, and their possible consequences comprise most of Chapter Four. The final chapter offers conclusions on the effects of past mythologies and the trauma they have wrought. It draws comparisons with other divided societies and their approaches to dealing with the past. These include Burundi, Ethiopia, South Africa, the United States, Taiwan, Canada, Belgium, Switzerland, and Singapore. An extensive bibliography of books, theses, conference papers, official documents, articles, periodicals, journals, films, websites, other media, and interviews includes translations of titles in Kinyarwanda, French, Dutch, and German.

*I Have Before Me A Remarkable Document Given To Me By A Young Lady From Rwanda* Sonja Linden.2017-02-01 Inspired by the real life experiences of Rwandan refugees in the UK, the play tells the story of two people from entirely different worlds who meet at a Refugee Centre in London: Juliette is a young Rwandan asylum seeker, determined to write a book on the genocide that killed her family; Simon is a middle-aged failing novelist, whose job is to help people write. The play follows their funny and touching relationship and tackles issues that face many refugees who live in the UK today. Nominated as Time Out Critics' Choice, the play has been broadcast by the BBC World Service and was toured nationally by iceandfire in Autumn 2004 with the support of the Arts Council England.
