Building Great Sentences Brooks Landon.2013-06-25 Based on the bestselling series from The Great Courses, Building Great Sentences celebrates the sheer joy of language—and will forever change the way you read and write. Great writing begins with the sentence. Whether it's two words ("Jesus wept.") or William Faulkner's 1,287-word sentence in Absalom! Absalom!, sentences have the power to captivate, entertain, motivate, educate, and, most importantly, delight. Yet, the sentence-oriented approach to writing is too often overlooked in favor of bland economy. Building Great Sentences teaches you to write better sentences by luxuriating in the pleasures of language. Award-winning Professor Brooks Landon draws on examples from masters of long, elegant sentences—including Don DeLillo, Virginia Woolf, Joan Didion, and Samuel Johnson—to reveal the mechanics of how language works on thoughts and emotions, providing the tools to write powerful, more effective sentences.

Reading Foundations Jessica Grainger.2010 Reading Foundations addresses the issue of teaching phonemic and orthographic skills to beginning and struggling readers. A program is outlined that provides a step-by-step process and structure with fully-developed practice exercises. These exercises are designed so that they can be used in the classroom. Reading Foundations includes three programs that examine ways to overcome reading failure for those having problems in the early stages of reading acquisition. The three programs include: 1) The Good Feedback Program: provided for teachers, paraprofessionals, and parents who have become aware that a child has developed a set of negative self-attributions about their ability to learn. 2) The Step-By-Step Phonemic and Orthographic Intervention Program: a systematic program for developing phonemic and orthographic skills, using the most common units of sound and written language that are vital in 'cracking the code.' 3) The Story Tree Program: a novel method of allowing the learner to overlearn common words and develop a sight vocabulary, while still holding interest by using a detextualized set of sentences that can be used in almost any order to make different story structures. Reading Foundations' three related programs allow for movement between an explicit phonics approach and a text approach (and vice versa). These three programs are unique in that they support struggling readers who have had successive learning failure.

As useful for the drama novice as for the busy literacy co-ordinator, these flexible activities are designed to help teachers meet National Curriculum and National Literacy Strategy (NLS) requirements, particularly through speaking and listening. The book is divided into three parts: Part 1 looks at literacy and the power of drama as a 'brain-friendly' medium for teaching and learning. Part 2 contains ten structured, practical units of work, each based on a different story, poem, play or traditional tale or rhyme and each linked directly to the requirements and objectives of the NLS and the QCA objectives for speaking and listening. Part 3 contains photocopiable Literacy Support Sheets for teachers to use and adapt for their own classroom needs. All units of work have been tried and tested by the authors, giving teachers a springboard from which to enhance and extend their literacy lessons, and engage the imagination of their pupils. The book is also the ideal resource for student teachers.

The Writing Revolution Judith C. Hochman, Natalie Wexler.2017-08-07 Why you need a writing revolution in your classroom and how to lead it The Writing Revolution (TWR) provides a clear method of instruction that you can use no matter what subject or grade level you teach. The model, also known as The Hochman Method, has demonstrated, over and over, that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback. Insurmountable as the challenges faced by many students may seem, The Writing Revolution can make a dramatic difference. And the method does more than improve writing skills. It also helps: Boost reading comprehension Improve organizational and study skills Enhance speaking abilities Develop analytical capabilities The Writing Revolution is as much a method of teaching content as it is a method of teaching writing. There's no separate writing block and no separate writing curriculum. Instead, teachers of all subjects adapt the TWR strategies and activities to their current curriculum and weave them into their content instruction. But perhaps what's most revolutionary about the TWR method is that it takes the mystery out of learning to write well. It breaks the writing process down into manageable chunks and then has students practice the chunks they need, repeatedly, while also learning content.
