**India's Path to Prosperity 2022-2047** Subodh Mathur.2021-09 Key question: What do we have to do to make India a prosperous country by 2047, when we will celebrate 100 years of political independence? That's only 25 years away. In this fast-changing world, it is unrealistic to have a concrete 25-year plan. Instead, the book lays out the key issues that must be resolved in the next 10-15 years (Phase 1). This will lay the foundations of prosperity. After that, India can move quickly in the remaining years (Phase 2) on its path to prosperity, taking advantage of opportunities as they arise. These fundamental issues are complex, and their workable solutions have yet to be agreed upon. For example, in India, the average marginal and small farmers are poor. What will their children and grandchildren do? They can never become well-off on the small piece of land the family has. Plus, they go to lousy schools, and tend to be undernourished. So, their skill levels are low. Will they still be poor in 2047? If yes, how will India be prosperous? Hence, the book does not provide detailed solutions - just broadly defined options, where possible. The idea is to set off national discussions about the key issues. The book has no mathematics or jargon; it has plenty of charts. It is written at the reading level of Standard 9-10 students.

It is argued that in light of this diversity and complexity, it is useful to think of digital literacies - the plural as well the singular. The first part of the book presents a rich mix of conceptual and policy perspectives; in the second part contributors explore social practices of digital remixing, blogging, online trading and social networking, and consider some legal issues associated with digital media.

Hindutva or Hind Swaraj U. R. Ananthamurthy.2018-03-05 Born out of a meditation on the ideas of the nation state and nationalism, and what the new power structures and centres mean for the very idea of India, *Hindutva or Hind Swaraj* is a manifesto -- written in the form of aphorisms, using shifting tones and styles to make a deep, elegant and heartfelt point about the human cost of radicalization. This last work of Jnanpith award winner and pre-eminent writer U.R. Ananthamurthy is a creative response to the rise of Hindutva nationalism in India. Juxtaposing V.D. Savarkar's idea of Hindutva with M.K. Gandhi's concept of Hind Swaraj, the book examines the two directions that were open to India at the time of Independence.

The International Botanical Community recognizes that plants create the ecological habitat for all terrestrial organisms, and that their management and conservation depend on a good understanding of their taxonomy. Biodiversity is considered as an immense economic resource. Its conservation and sustainable use ensures food security, safeguards human health, and provides ecological as well as aesthetic and cultural benefits. Systematics, as a fundamental science, serves as a very important discipline for understanding biodiversity. In this volume, emphasis has been laid on the simplest Prokaryotic organisms, the diverse Algae, the Adaptive Strategies of Bryophytes and the Diversity in Pteridophytes. There is stress on the importance of Ethnic Knowledge, Botanic Gardens, and Reproductive Biology in conservation. Interesting aspects of 'Invasive Plant Species', 'Analysis of Plant Biodiversity and Evolution at Genome Level' and 'Leaf Epidermal Diversity in Grasses' are discussed. Detailed accounts of the fauna and flora of Punjab have also been provided. Dr. Prithipalsingh is a Senior Reader in Botany in Kirorimal College. He has been teaching since 1971. The areas of special interest in which he is recognized as an expert include, besides Plant Taxonomy, Biodiversity Studies, Ecology and Environmental Biology. **Alternative Schooling in India** Sarojini Vittachi, Neeraja Raghavan, Kiran Raj.2007-12-18 This book brings into focus the innovative methods of learning in many Indian schools. It sheds light on schools that make the learning process fun for the teacher as well as the taught, in contrast to the whirl of examination-oriented learning in mainstream schools. The researched data on alternative schools in the country offer the reader an array of institutions all over the country, where efforts are being made to move away from traditional and mainstream learning. It includes exclusive articles by leading practitioners in the field, who offer an insight into the ground reality when a certain philosophy is applied to a school, and also experiential accounts of how such alternative practices mould the learner, teacher and impact the parent as well. The book also consists of a directory of alternative schools in India, including many schools that are tucked away in remote corners of the country. Interestingly, the common thread binding these ‘alternative schools’ is concern for the welfare of the child by teachers who see their work as much more than a job.
