European Drawings 2 George R. Goldner, Lee Hendrix, Kelly Pask.1992-10-08 The Getty Museum's collection of drawings was begun in 1981 with the purchase of a Rembrandt nude and has since become an important repository of European works from the fifteenth through the nineteenth century. As in the first volume devoted to the collection (published in 1988 in English and Italian editions), the text is here organized first by national school, then alphabetically by artist, with individual works arranged chronologically. For each drawing, the authors provide a discussion of the work's style, dating, iconography, and relationship to other works, as well as provenance and a complete bibliography.

Ingres and His Critics Andrew Carrington Shelton.2005-10-03 This book examines the critical writing and journalistic reportage on Jean-Auguste-Dominique Ingres, from the time of his renunciation of the Salon in 1834 until his large retrospective at the 1855 Universal Exposition, the crucial middle decades of his career. This massive body of writing demonstrates how Ingres shaped his career in the rapidly evolving art world of mid-nineteenth century Paris. Enjoying the benefits of his affiliation with the Academy, the artist also employed certain modes of presentation, most notably the single-artist exhibition and illustrated monograph, through which he distanced himself and his work from the embattled world of artistic officialdom.
