Godard On Godard Jean-luc Godard.1986-03-22 Jean-Luc Godard, like many of his European contemporaries, came to filmmaking through film criticism. This collection of essays and interviews, ranging from his early efforts for La Gazette du Cinéma to his later writings for Cahiers du Cinéma, reflects his dazzling intelligence, biting wit, maddening judgments, and complete unpredictability. In writing about Hitchcock, Welles, Bergman, Truffaut, Bresson, and Renoir, Godard is also writing about himself-his own experiments, obsessions, discoveries. This book offers evidence that he may be even more original as a thinker about film than as a director. Covering the period of 1950-1967, the years of *Breathless*, *A Woman Is a Woman*, *My Life to Live*, *Alphaville*, *La Chinoise*, and *Weekend*, this book of writings is an important document and a fascinating study of a vital stage in Godard's career. With commentary by Tom Milne and Richard Roud, and an extensive new foreword by Annette Michelson that reassesses Godard in light of his later films, here is an outrageous self-portrait by a director who, even now, continues to amaze and bedevil, and to chart new directions for cinema and for critical thought about its history.

To Live and Dine in Dixie Angela Jill Cooley.2015-05-15 This book explores the changing food culture of the urban American South during the Jim Crow era by examining how race, ethnicity, class, and gender contributed to the development and maintenance of racial segregation in public eating places. Focusing primarily on the 1900s to the 1960s, Angela Jill Cooley identifies the cultural differences between activists who saw public eating places like urban lunch counters as sites of political participation and believed access to such spaces a right of citizenship, and white supremacists who interpreted desegregation as a challenge to property rights and advocated local control over racial issues. Significant legal changes occurred across this period as the federal government sided at first with the white supremacists but later supported the unprecedented progress of the Civil Rights Act of 1964, which—among other things—required desegregation of the nation's restaurants. Because the culture of white supremacy that contributed to racial segregation in public accommodations began in the white southern home, Cooley also explores domestic eating practices in nascent southern cities and reveals how the most private of activities—cooking and dining— became a cause for public concern from the meeting rooms of local women's clubs to the halls of the U.S. Congress.
