**An Analysis and Brief History of the Three Great Monotheistic Faiths Judaism, Christianity, Islam** Andrea C Paterson, Dr.2004-08 This book is a comparison of the three monotheistic faiths of Judaism, Christianity, and Islam. In it, the author sought to show that Christianity is the more viable faith and the only path to God. Numerous sources, such as books, periodicals, videos, and the Internet, were used to reach her conclusion. The author desired to express that, of the three, Christianity is the vehicle and it is only through Jesus Christ that we find the way to God (John 14:6).

The Monotheists F. E. Peters.2003-11-01 p>The world's three great monotheistic religions have spent most of their historical careers in conflict or competition with each other. And yet in fact they sprung from the same spiritual roots and have been nurtured in the same historical soil. This book--an extraordinarily comprehensive and approachable comparative introduction to these religions--seeks not so much to demonstrate the truth of this thesis as to illustrate it. Frank Peters, one of the world's foremost experts on the monotheistic faiths, takes Judaism, Christianity, and Islam, and after briefly tracing the roots of each, places them side by side to show both their similarities and their differences. Volume I, *The Peoples of God*, tells the story of the foundation and formation of the three monotheistic communities, of their visible, historical presence. Volume II, *The Words and Will of God*, is devoted to their inner life, the spirit that animates and regulates them. Peters takes us to where these religions live: their scriptures, laws, institutions, and intentions; how each seeks to worship God and achieve salvation; and how they deal with their own (orthodox and heterodox) and

with others (the goyim, the pagans, the infidels). Throughout, he measures--but never judges--one religion against the other. The prose is supple, the method rigorous. This is a remarkably cohesive, informative, and accessible narrative reflecting a lifetime of study by a single recognized authority in all three fields. *The Monotheists* is a magisterial comparison, for students and general readers as well as scholars, of the parties to one of the most troubling issues of today--the fierce, sometimes productive and often destructive, competition among the world's monotheists, the siblings called Jews, Christians, and Muslims.

*Triologue of the Abrahamic Faiths* Ismail Raji al-Faruqi.1995-01-01 This book, *Triologue of the Abrahamic Faiths*, edited by the late Dr. Ismail Raji al-Faruqi is certain to be hailed as a historical milestone in Muslim-Christian-Jewish dialogue. Perhaps not since the early Middle Ages when the grand courts of Damascus, Baghdad, and Qurtubah (Cordova) witnessed numerous dialogues and debates between the adherents of these three Abrahamic faiths, has there been such a successful effort made by religious scholars to communicate with one another on matters of faith and understanding. This book, readers may note, goes beyond the modern-day ostensible studies in comparative religion, and each of the contributing scholars evinces an appreciation and more-than-cursory knowledge of all the three faiths. The authors take up three major topics: *The Other Faiths*, *The Nation-State as a Form of Social Organization*, and *The Faith-Community as a Transnational Actor for Justice and Peace*. Jewish, Christian, and Muslim contributors offer their respective enlightened views on the subjects discussed.

*The Making of the Abrahamic Religions in Late Antiquity* Guy G. Stroumsa.2015-07-30 This book presents how ancient Christianity must be understood from the viewpoint of the history of religions in late antiquity. The continuation of biblical prophecy runs like a thread from Jesus through Mani to

Muhammad. And yet this thread, arguably the single most important characteristic of the Abrahamic movement, often remains outside the mainstream, hidden, as it were, since it generates heresy. The figures of the Gnostic, the Holy man, and the mystic are all sequels of the Israelite prophet. They reflect a mode of religiosity that is characterized by high intensity. It is centripetal and activist by nature and emphasizes sectarianism and polemics, esoteric knowledge, or gnosis and charisma. The other mode of religiosity, obviously much more common than the first one, is centrifugal and irenic. It favours an ecumenical attitude, contents itself with a widely shared faith, or *pistis*, and reflects, in Weberian parlance, the routinisation of the new religious movement. This is the mode of priests and bishops, rather than that of martyrs and holy men. These two main modes of religion, high versus low intensity, exist simultaneously, and cross the boundaries of religious communities. They offer a tool permitting us to follow the transformations of religion in late antiquity in general, and in ancient Christianity in particular, without becoming prisoners of the traditional categories of Patristic literature. Through the dialectical relationship between these two modes of religiosity, one can follow the complex transformations of ancient Christianity in its broad religious context.

**Jews, Christians and Muslims in Encounter** Edward Kessler. 2013-07-15 This book reflects on one of the most pressing challenges of our time: the current and historical relationships that exist between the faith-traditions of Judaism, Christianity and Islam. It begins with discussion on the state of Jewish-Christian relations, examining antisemitism and the Holocaust, the impact of Israel and theological controversies such as covenant and mission. Kessler also traces different biblical stories and figures, from the Hebrew Bible and the New Testament, demonstrating Jewish-Christian contact and controversy. Jews and Christians share a sacred text, but more surprisingly, a common exegetical tradition.

**Another Look** A. J. Abraham.2013-12-06 Another Look: One God and Three Faiths is a unique study of sacred history and monotheism. This book lends a refreshing sense of clarity to the misunderstandings between the three western religions: Judaism, Christianity, and Islam. Another Look compares the three faiths, emphasizing their similarities and differences. A. J. Abraham's research is prodigious, reconstructing religious roots with insight and originality. This comprehensive introduction will prove useful for both monotheists and followers of other religions

**The Life of One Chosen by God** Elena Narinskaya.2022 Moses is an inspirational prophetic figure in Jewish, Christian and Muslim religious traditions. This book journeys through the Abrahamic faiths and illustrates their respective depictions of the Moses' stories. In exploring the differences and similarities between the Hebrew Bible, Jewish rabbinical commentaries, Syriac Christian exegesis and the Qur'an, this book seeks for a deeper understanding of the Prophet Moses in the religious history of humanity--

Charity and Giving in Monotheistic Religions Miriam Frenkel,Yaacov Lev.2009-08-17 This book deals with various manifestations of charity or giving in the contexts of the Christian, Jewish, and Muslim societies in Late Antiquity and Early Middle Ages. Monotheistic charity and giving display many common features. These underlying similarities reflect a commonly shared view about God and his relations to mankind and what humans owe to God and expect from him. Nevertheless, the fact that the emphasis is placed on similarities does not mean that the uniqueness of the concepts of charity and giving in the three monotheistic religions is denied. The contributors of the book deal with such heterogeneous topics like the language of social justice in early Christian homilies as well as charity and pious endowments in medieval Syria, Egypt and al-Andalus during the 11th-15th centuries. This wide range of approaches distinguish the book from other works on charity and giving in

monotheistic religions.

*Passing on the Faith* James Heft. 2006 From the beginning, the Abrahamic faiths? Judaism, Christianity, and Islam? have stressed the importance of transmitting religious identity from one generation to the next. Today, that sustaining mission has never been more challenged. Will young people have a faith to guide them? How can faith traditions anchor religious attachments in this secular, skeptical culture? The fruit of a historic gathering of scholars and religious leaders across three faiths and many disciplines, this important book reports on the religious lives of young people in today's world. It's also a unique inventory of crea.

*Do We Worship the Same God?* Professor of Systematic Theology and Christian Ethics Miroslav Volf. 2014-05-14 Often the differences between the three Abrahamic religions -- Judaism, Christianity, and Islam -- seem more obvious than their commonalities, leading to the question Do we worship the same God? Can the answer be yes without denying our differences? This volume brings Jewish, Christian, and Muslim philosophers and theologians together to answer this question,

offering rare insight into how representatives of each religion view the other monotheistic faiths. Each of their contributions uniquely approaches the primary question from a philosophical perspective that is informed by the practice of worship and prayer. Concepts covered include sameness and oneness, the nature of God, epistemology, and the Trinity. *Do We Worship the Same God?* models serious-minded, honest, and respectful interreligious dialogue and gives us new ways to address an ongoing question.

**The Monotheistic Religions** Abe M. Cohen. 2010 Since the events of September 11, 2001, today's society is more aware than ever of Islam, often with erroneous facts. This series seeks to educate and enlighten youth to one of the world's most predominant religions in an easy-to-read format.

The Oxford Handbook of the Abrahamic Religions Adam Silverstein, Guy G. Stroumsa, Moshe Blidstein. 2015-10-01 The Oxford Handbook of the Abrahamic Religions includes authoritative yet accessible studies on a wide variety of topics dealing comparatively with Judaism, Christianity, and Islam, as well as with the interactions between the adherents of these religions throughout history. The comparative study of the Abrahamic Religions has been undertaken for many centuries. More often than not, these studies reflected a polemical rather than an ecumenical approach to the topic. Since the nineteenth century, the comparative study of the Abrahamic Religions has not been pursued either intensively or systematically, and it is only recently that the comparative study of Judaism, Christianity, and Islam has received more serious attention. This volume contributes to the emergence and development of the comparative study of the Abrahamic religions, a discipline which is now in its formative stages. This Handbook includes both critical and supportive perspectives on the very concept of the Abrahamic religions and discussions on the role of the figure of Abraham in these religions. It features 32 essays, by the foremost scholars in the field, on the historical

interactions between Abrahamic communities; on Holy Scriptures and their interpretation; on conceptions of religious history; on various topics and strands of religious thought, such as monotheism and mysticism; on rituals of prayer, purity, and sainthood, on love in the three religions and on fundamentalism. The volume concludes with three epilogues written by three influential figures in the Christian, Jewish, and Muslim communities, to provide a broader perspective on the comparative study of the Abrahamic religions. This ground-breaking work introduces readers to the challenges and rewards of studying these three religions together.

A slight misunderstanding from this trajectory can lead to spiteful destruction, including death and injuries. Notably, the most fundamental element that triggers controversies is the concept of a superior being in which a particular religious group believes.

The Abrahamic Religions: a Very Short Introduction Charles L. Cohen. 2020-01-08 In the book of Genesis, God bestows a new name upon Abram--Abraham, a father of many nations. With this name and his Covenant, Abraham would become the patriarch of three of the world's major religions: Judaism, Christianity, and Islam. Connected by their mutual--if differentiated--veneration of the One God proclaimed by Abraham, these traditions share much beyond their origins in the ancient Israel of the Old Testament. This Very Short Introduction explores the intertwined histories of these monotheistic religions, from the emergence of Christianity and Islam to the violence of the Crusades and the cultural exchanges of al-Andalus. Each religion continues to be shaped by this history but has also reacted to the forces of modernity and politics. Movements such as the Reformation and that led by seventh-century Kharijites have emerged, intentioned to reform or restore traditional religious practice but quite different in their goals and effects. Relationships with states, among them Israel and Saudi Arabia, have also figured importantly in their development. The Abrahamic Religions: A Very Short Introduction brings these traditions together into a common narrative, lending much needed context to the story of Abraham and his descendants. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm

to make interesting and challenging topics highly readable.

**Muslim, Christian, Jew** Arthur G. Gish.2012-06-01 A major challenge for people of faith is to resist the growing demonization of Islam, Christianity, and Judaism . . . I want to do something to build bridges between the three religions. I feel called to embody in my own life the healing, the reconciliation, the unity I long for between people of different religions. Art Gish became involved in the life and worship of all three religions; he considered himself a Christian, a Muslim, and a Jew, and worked at integrating those three perspectives into his life. Acknowledging that Judaism, Islam, and Christianity are all threatened by narrow-minded, violent extremists who put the particular interests of their own people above our common interests, he tells inspiring stories of open-minded Muslims, Jews, and Christians who struggle together for reconciliation and who confront injustices that spawn hostility. Gish looks not only at the disagreements but also at the unity of the three Abrahamic faiths. He writes, When people cross boundaries, exciting things happen. Each time in Israel/Palestine that I experience Jews, Muslims, and Christians eating, working, laughing, and crying together, I sense a foretaste of the coming kingdom of God, a demonstration of how things could be, and one day will be.

**Sacrifice in Judaism, Christianity, and Islam** David L. Weddle.2017-09-19 An examination of the practice and philosophy of sacrifice in three religious traditions In the book of Genesis, God tests the faith of the Hebrew patriarch Abraham by demanding that he sacrifice the life of his beloved son, Isaac. Bound by common admiration for Abraham, the religious traditions of Judaism, Christianity, and Islam also promote the practice of giving up human and natural goods to attain religious ideals. Each tradition negotiates the moral dilemmas posed by Abraham's story in different ways, while retaining the willingness to perform sacrifice as an identifying mark of religious commitment. This

book considers the way in which Jews, Christians, and Muslims refer to “sacrifice”—not only as ritual offerings, but also as the donation of goods, discipline, suffering, and martyrdom. Weddle highlights objections to sacrifice within these traditions as well, presenting voices of dissent and protest in the name of ethical duty. Sacrifice forfeits concrete goods for abstract benefits, a utopian vision of human community, thereby sparking conflict with those who do not share the same ideals. Weddle places sacrifice in the larger context of the worldviews of Judaism, Christianity, and Islam, using this nearly universal religious act as a means of examining similarities of practice and differences of meaning among these important world religions. This book takes the concept of sacrifice across these three religions, and offers a cross-cultural approach to understanding its place in history and deep-rooted traditions.

World Religions 101 (Revised Edition) Margaret O. Hyde, Emily G. Hyde. 2013-01-01 Many people search for spiritual meaning, hope, comfort, and inner peace in their personal lives. The most common path to spirituality around the world is through religion. Although the variety of religions may seem endless, many similarities exist among the major religions of the world, including the belief in one or more gods and the honoring of rituals, stories, ceremonies, codes of conduct, and doctrines, or sets of teachings. In this well-balanced report, respected authors Margaret O. Hyde and Emily G. Hyde take an honest look at religion in the lives of young people. This book explores the many different religions around the world, from the ten most common religions—Christianity, Islam, Hinduism, Buddhism, Sikhism, Judaism, Baha'ism, Confucianism, Jainism, and Shintoism—to modern expressions of spirituality and more. It also offers fascinating information on a field of research known as neurotheology, the study of the neurobiology of the brain and religion. Scientists are learning more about where in the brain religious thoughts take place and what it means to be human.

*Three Religions - One God* Eugene Schwartz.2018-09-18 Three Religions - One God is a historical account of the three Abrahamic Religions - Judaism, Christianity, and Islam - from each of their inceptions up to the middle of the 20th century. Based on the writings of numerous excellent historians, Eugene Schwartz's meticulous research results in a book which places a focus on how each of these religions has impacted their surrounding civilizations. Beginning with Judaism's adoption of the principle of One God and finishing with the Rebirth of Israel, Three Religions - One God is an accessible and comprehensive narrative which tells of the emergence of the three Abrahamic Religions and charts their interlinked paths through history. Topics include: accounts of the Jewish people in the Hebrew Bible; the coming of Jesus Christ and the creation of Christianity; the influence of an illiterate orphan who receives Allah's words in a cave near Mecca; the Crusades; the two World Wars and the horrors of the Holocaust; and much, much more. Presenting their histories rather than the details of their religious beliefs, Three Religions - One God provides a detailed analysis of the emergence and consolidation of the Abrahamic Religions. **The Judaeo-Christian Presbyter of Makah and Madinah** Nick Brown.2011-08 Why is Nick Brown's book important, original and controversial? Nick's been doing research for a PhD at a world renowned University. Privately he had studied for over 10 years, 3 years full time, before his book was published from New York. This all started following a premonition that Muhammad may have been a Christian, a believer in Jesus as the Messiah. All his relevant research has vindicated his intuition about Muhammad's faith. Muhammad was a follower of Early Christianity (Jewish-Christianity) and not Gentile Pauline Christianity. For many centuries, Muhammad was accused of being a heretic' by the Roman Orthodox Christians. St John of Damascus (676-749 CE) was born just 44 years after Muhammad, and wrote some of the first polemics (ecclesiastical disputation and controversy) against Muhammad. Therefore, the idea that he was preaching a heresy' dates back over 1300 years. St John's criticism was almost identical to that of St Ignatius against the Jewish Christian Ebionites some five centuries earlier. Presented here is a fresh perspective that can only bring peace and greater understanding amongst people of the Abrahamic faiths. With great respect towards all faiths, Nick has written with the sole intention of discovering the roots of Christianity and Islam. Muhammad was a staunch believer in Jesus and strictly abided by the laws of Moses. Similarly, the Ebionites were Jewish Christians who believed Jesus was a Messiah and circumcised their male children. Early Christian communities revered Jesus as a Mashiach (anointed king of the Jews chosen and blessed by God). They believed that he was human and not the son of God. These beliefs matched Muhammad's faith. Therefore, he was clearly a Judaeo-Christian. Nick believes that Islam is so akin to Early Christianity because, without a doubt, it is Early Christianity. Muhammad

proclaimed many miracles' about Jesus including: \* Isa bin Maryam (Jesus) had a miraculous birth (born to Maryam who was a virgin) \* Jesus spoke when he was just hours old \* When he was only a boy, Jesus made clay models of birds come alive and fly away \* Jesus could bring dead people alive with extraordinary, almost divine, powers \* He cured lepers and empowered blind people to see again \* Jesus received the Gospel as revelations from God \* Jesus brought down a table loaded with wonderful food from God for his disciples. (Quran- Chapter Al Maeda/ The Table) (All the above miracles attributed to Jesus are from the Quran 5:110-115, and mentioned in other chapters too). If Muhammad had such conviction about Jesus, could he have belonged to an ancient Christian sect? Plenty has been written about the differences between Islam and Christianity, for example, polemics preached by zealous theologians, biased scholars, Jews, Christians and Muslims. Nick has attempted to investigate this subject logically, objectively and scientifically, and never with blind faith. In this book, numerous clues point to similarities between the three main Abrahamic religions. Nick's research confirms Islam as an ancient Arabic religion that hasn't changed dramatically from the time of Jesus. Many Islamic laws are archaic, based on the Torah (Old Testament), and date from 1000 BCE or earlier. When the Romans adopted Christianity in the 4th century, they tried to wipe out Jewish-Christianity as heresy'. However, it managed to survive and evolve around the world, receiving a great boost from Muhammad and his followers. Thus Islam was born.

**The Three Sons of Abraham** Jacques Doukhan.2014 Jews, Christians and Muslims all trace their history and spiritual raison d'etre to their common tribal ancestor, Abraham. Their religious identities are interrelated and even dependent on each other. Jesus lived as a Jew and Christianity was born in the heart of Judaism. Early Christianity was inherently Jewish, referring to the same scriptures-the Tanach, later called the Old Testament-and holding to the same messianic promises.

Mohammed, the prophet of Islam, knew both Christianity and Judaism. The Qur'an contains material indebted to the Old Testament and Jewish tradition, as well as stories and teachings from the New Testament; and Mohammed himself met Jews and Christians alike during his lifetime. Furthermore, the three religions share many fundamental ideas and beliefs. They testify to the same memory of Abraham; value the same divine law; urge the same ideal of righteousness; and proclaim the same hope of peace for the earth and salvation for humankind. Despite this shared heritage, the three Abrahamic faiths have sometimes been more closely identified not for what they offer to save the world but for what they bring to destabilise it. It is one of the depressing paradoxes of religion—supposedly a force for good—that it is all too frequently the occasion for conflict instead of peace, generosity and better treatment of one's neighbor. The contributors to this volume start from the premise that there is a price to be paid by the sons of Abraham: whether Jews, Muslims or Christians. And that is the cost of learning how to be brothers through mutual and attentive engagement. Mature interfaith discussion offers respect for a shared heritage while also recognising points of distinctiveness. This book explores what articulating such regardful difference, as well as commonality, might mean for the future of faith relations. Including provocative reflections by Elie Wiesel, Irving Greenberg, Hans Kung and others, the book makes a vital contribution to dialogue. In its searching analysis of issues of peace, justice, hope and forgiveness, it will engage all students and scholars of interfaith studies.—Bloomsbury Publishing.

**The Abrahamic Faiths** Jerald Dirks.2004 The book presents the similarities and contrasts between Judaism, Christianity and Islam. *Evil Religions Unmasked* Eloy Rodrigo Colombo.2020-06-18 Genuine and intrepid scholar, Colombo continues bringing us the knowledge possessed only by an elite over the Earth. Now he fearlessly answers the question of why intolerance, hatred, and genocide characterize our modern world. Scholars have failed to find the cause because they have been unable to engage in a critical examination of monotheism. The majority of Western people think that the Abrahamic religions - Judaism, Christianity, and Islam - are superior to other religions and even represent an advancement beyond "primitive" polytheism. Why have the Abrahamic religions caused more human sacrifice than any other religious system in human history, and have people overlooked it? In this marvelous journey you will come to understand how destructive the Abrahamic religions are. This book will change your mind and life forever. Life, Prosperity, and Health!

*Children of Abraham* Tallal Alie Turfe. 2013-07-19 Judaism, Christianity, and Islam have similar traditions and are deeply connected. The prevailing belief and practice of each is monotheistic, and

all believe that God revealed Himself to Prophet Abraham, the cornerstone of the three faiths. In *Children of Abraham*, author Tallal Alie Turfe, a champion for religious tolerance, explores the Scriptures, common histories, traditions, and similarities among Judaism, Christianity, and Islam. He is a strong advocate of interfaith dialogue that offers the chance for better understanding, collaboration, and partnership toward a safer and peaceful world. *Children of Abraham* offers solutions toward fostering a deeper sense of unity by bringing the followers of the three faiths together to bridge the gap and build connections across religious and cultural differences. “The author has compiled a wonderful collection of data driven facts as well as thoughtful religious views to help 21st Century followers of Abrahamic religions understand and respect each other....” Rabbi Emeritus Allen S. Maller, Temple Akiba “A must read by those who are in a position of influence such as Rabbis, Pastors, Imams, and other religious leaders. *Children of Abraham* provides a period of dialogue without imposition or conversion....” Father Dr. George H. Shalhoub, St. Mary Orthodox Church “Professor Tallal Turfe has eloquently written and thoroughly portrayed the commonalities between the Abrahamic religions. *Children of Abraham* will inspire followers of these faiths toward the common cause of peace, tolerance, ethics, and mutual respect....” Imam Abdul Latif Berry, Islamic Institute of Knowledge

*Comparative Religion* Carla Mooney.2015-10-19 Over 7 billion people live on the earth, and 84 percent of them describe themselves as being religious. Few topics incite such passion as religion. What does that mean? Why are humans invested in ideas that may never be proved? Why has religion played such an important role in history? In *Comparative Religion: Investigate the World through Religious Tradition*, readers seek answers to these questions by comparing and contrasting the cultural, spiritual, and geographical underpinnings of five different religions. By developing a

better understanding of the similarities and differences among religions of the world, readers gain a strong foothold in a dialogue that has continued for thousands of years. Combining hands-on activities with theology, history, geography, world cultures, art, and architecture, Comparative Religions encourages deeper understanding of the world's religions. Entertaining graphic art, fascinating sidebars, and links to primary sources bring the topic to life, while key questions reaffirm foundational concepts. Activities include conducting an interview with a rabbi, comparing the story of Abraham and Isaac in three sacred texts, studying the architecture of the National Cathedral in Washington, DC, studying the Hindu practice of yoga and meditation, and examining how religious doctrines shape the behavior of believers.

*Similarities in Judaism, Christianity and Islam* Habila T. Daboh. 2021-08-10 The book you are reading discusses the commonalities of the most famous Abrahamic religions. It prickles to consciousness the rudimentary needs, not just for religious coexistence but human coexistence. You will find in this book, titillating issues oscillating from Monotheism, Love, Peace, Sacredness of life, and Self-defense, among others. The author does not compare but makes the reader understand the issues that unite these religions than divide them. The book does not mince words in maintaining that religion is not a heavenly contest but a heart regalia that one has a unique right to change when one so wishes. Religion may help in paving the way to better living but can never be a competitive way of life. The book acknowledges the auspicious stand of religion in the society. Religious beliefs, values and ideas have continued to make momentous involvement and contribute to the development of every civilisation. In sophisticated societies, religion and its meaningful belief systems articulate responses to issues relating to human nature, identity and purpose. In essence, these religions provide a frame of reference for understating the word and for guiding personal and communal

action for the good of all. The ignorance and myopic view of religion is the reason it is accused of causing chaos as this is manifested in the disagreements between different faith ideologies and creeds. This book is important to all and sundry. Students of History, Inter-religious dialogue and Comparative Religion will find this book an invaluable treasure. Researchers on the common grounds among the Abrahamic religions will appreciate the contents of this book.

*Killing for God* Stephen Schwalbe.2020-07-15 Given the extremely high cost of overseas military operations today, the author offers readers scholarly insights as to what motivates kingdoms, countries, and groups to engage in religious conflict, beginning with those found in the Hebrew Bible. To do this, he analyzes three related religions, Judaism, Christianity, and Islam, to determine their similarities and differences regarding the killing of people. The areas of conflict analysis include Fundamentalism, Proselytization, Sacrifice (to include martyrdom), and Revenge (to include genocide). The insights of preeminent religious and political scholars are integrated into this comprehensive analysis of conflict involving religion, leading to an answer to the ultimate question: Is the killing worth it?

The Family of Abraham Carol Bakhos.2014-07-06 Abrahamic religions has gained currency in scholarly and ecumenical circles as a way to refer to Judaism, Christianity, and Islam. Carol Bakhos steps back from the convention to ask: What is Abrahamic about these three faiths? She challenges references to Judaism and Islam as sibling religions and warns against uncritical adoption of the term.

**Religion and Finance** Mervyn K. Lewis,Ahmad Kaleem.2019 Judaism, Christianity and Islam all impose obligations and constraints upon the rightful use of wealth and earthly resources. All three of these religions have well-researched views on the acceptability of practices such as usury but the

principles and practices of other, non-interest, financial instruments are less well known. This book examines each of these three major world faiths, considering their teachings, social precepts and economic frameworks, which are set out as a guide for the financial dealings and economic behaviour of their adherents.

**A Brief Guide to Islam** Paul Grieve.2013-02-07 Exploring the beliefs, history and politics of the ordinary people of Muslim countries, Grieve cuts through the complexities as he examines all aspects of Islam. He also addresses the big issues: can Islam support true democracy? Is true democracy what the West really wants for Muslim countries or are we merely seeking a cover of legitimacy for a policy of 'might is right'? Paul Grieve is an unbeliever - he is not a born-again Muslim, a proselytizer or a frustrated desert romantic. His aim is to inform. The result is an accessible but never simplistic guide that challenges stereotypical views, from women and banking to war and Malcolm X. Complete with advice for visitors to Muslim countries, and with carefully chosen primary sources, maps and illustrations, this is the ideal summary for the reader looking for an unbiased overview of the religious and political world issues that have become part of our everyday lives.

*Saints and Sanctity in Judaism, Christianity, and Islam* Alexandre Coello de la Rosa,Linda G. Jones.2020-01-22 A common objective of saint veneration in all three Abrahamic religions is the recovery and perpetuation of the collective memory of the saint. Christianity, Judaism, and Islam all yield intriguing similarities and differences in their respective conceptions of sanctity. This edited collection explores the various literary and cultural productions associated with the cult of saints and pious figures, as well as the socio-historical contexts in which sainthood operates, in order to better understand the role of saints in monotheistic religions. Using comparative religious and

anthropological approaches, an international panel of contributors guides the reader through three main concerns. They describe and illuminate the ways in which sanctity is often configured. In addition, the diverse cultural manifestations of the cult of the saints are examined and analysed. Finally, the various religious, social, and political functions that saints came to play in numerous societies are compared and contrasted. This ambitious study covers sanctity from the Middle Ages until the contemporary period, and has a geographical scope that includes Europe, Central Asia, North Africa, the Americas, and the Asian Pacific. As such, it will be of use to scholars of the history of religions, religious pluralism, and interreligious dialogue, as well as students of sainthood and hagiography.
