Representations of G.F. Watts Colin Trodd.2019-07-16 Originally published in 2004. Once the most popular Victorian artist, G. F. Watts was also a complex and elusive figure. Influenced by evolutionary theory, he reinterpreted the tradition of the classical body, while his philanthropic and educational interests informed projects for a more affective public art. This book is the first modern account of the full range of Watts's different artistic interests and practices. Offering fresh approaches to his historical, allegorical and mythological paintings, it also traces his increasingly radical approach to portraiture and sculpture and examines the institutional and biographical factors behind his immense public profile. Together the essays present a comprehensive analysis of Watts's work and his vital relationship to the intellectual, cultural and social forces of his time.

G.F. Watts Veronica Franklin Gould.2004 George Frederic Watts (1817–1904) was a titanic figure in nineteenth-century British art. The father of British Symbolism and portrait painter of his age, he forged a controversial career that spanned the reign of Queen Victoria. This book, the first in-depth biography of Watts, sheds new light on the pioneering spirit and breadth of mind of the artist. Drawing on Watts's abundant personal correspondence and diaries and an array of other contemporary documents, the book chronicles the artist's career and personal life, including his friendships with Edward Burne-Jones, Frederic Leighton, William Gladstone, and Alfred Tennyson and his relationships with a series of singular women. The book also examines Watts's wide reforming zeal and political agenda as well as his role and dealings in the Victorian art world.

Julia Margaret Cameron Julian Cox,Colin Ford.2003-03-20 According to one of Julia Margaret Cameron's great-nieces, "we never knew what Aunt Julia was going to do next, nor did anyone else." This is an accurate summation of the life of the British photographer (1815–1879), who took up the camera at age forty-eight and made more than twelve hundred images during a fourteen-year career. Living at the height of the Victorian era, Cameron was anything but conventional, experimenting with the relatively new medium of photography, promoting her own art through exhibition and sale, and pursuing the eminent personalities of her age—Alfred Tennyson, Charles Darwin, Thomas Carlyle, and others—as subjects for her lens. For the first time, all known images by Cameron, one of the most important nineteenth-century artists in any medium, are gathered together in a catalogue raisonné. In addition to a complete catalogue of Cameron's photographs, there is information on her life and times, initial experiments, artistic aspirations, techniques, small-format images, albums, commercial strategies, sitters, and sources of inspiration. Also provided are a selected bibliography of publications on Cameron, a list of exhibitions of her work held both in her time as well as our own, and a summary of important collections where her pictures can be found.

G.F. Watts G.K. Chesterton.2022-11-22 G.F. Watts by G.K. Chesterton is a detailed autobiography of George Frederic Watts. George Frederic Watts OM RA was a British painter and sculptor associated with the Symbolist movement. Watts became famous in his lifetime for his allegorical works, such as Hope, Love, and Life. Studio Lives Louise Campbell.2019 By examining the studios and studio-houses used by British artists between 1900 and 1940, this book reveals the ways in which artists used architecture - occupying and adapting Victorian studios and commissioning new ones. In doing so, it shows them coming to terms with the past, and inventing different modes of being modern, collaborating with architects and influencing the modernist style. In its scrutiny of the physical surroundings of artistic life during this period, the book sheds insight into how the studio environment articulated personal values, artistic affinities and professional aspirations. Not only does it consider the studio in terms of architectural design, but also in the light of the artist's work and life in the studio, and the market for contemporary art. By showing how artists navigated the volatile market for contemporary art during a troubled time, the book provides a new perspective on British art.

The Diary of Mary Watts 1887-1904 Mary S. Watts.2016 Never previously published, due to the tiny, almost illegible handwriting, the diary volumes have now been painstakingly transcribed and edited by Desna Greenhow, who has extracted the most illuminating passages. Including detailed annotations, an introductory essay and short commentaries at the start of each year represented, this book chronicles life in the artistic, literary and political circles of the time, while also providing invaluable insights into Mary's own considerable achievements--most notably her management of the building and decorating of her unique Watts Cemetery Chapel.--Publisher's description.

An Artist's Village Mark Bills.2011-06-30 This book tells the story of the impact of George Frederic Watts OM RA (1817-1904) and his wife Mary Seton Watts (nee Fraser-Tytler, 1849-1938) on Compton, a small village in Surrey. Initially, the village acted as an autumnal and winter retreat for the artist and the designer, but became the permanent base for their work and the home of the Watts Gallery, the Compton Pottery with its studios and workshops, and the extraordinary Cemetery Chapel. A nationally significant site, it includes a gallery that holds an internationally important collection, and Arts and Crafts chapel by Mary Watts, a Great Studio house named 'Linnerlease' designed by Sir Ernest George, and the Compton Pottery buildings. More than a guide book, it presents a complete history and guide that will appeal to readers who wish to know the story of a unique artists' village. The book is richly illustrated with new photography, historic photographs and contextual material which give a sense of the significance of art and artists in the late nineteenth-century, and reveal a continuous and living philosophy at the heart of a Surrey village.--BOOK JACKET.

The Drawings of G.F. Watts Chloe M. Kroeter,Chloe Ward.2016-01-30 George Frederic Watts (1817-1904) is considered to be one of the Victorianera's greatest painters. Yet his drawings - which served as the preparatory designs for his paintings and, in some cases, the final products of his creative efforts - have been the subject of surprisingly little scholarship. Watts Gallery holds the largest collection of Watts's works on paper, comprising approximately 800 studies, sketches, copies, and finished artworks that span Watts's entire artistic career. These range from remarkable copies of engravings made when he was a mere ten years old to figurative sketches drawn up to two months before his death in 1904 at the age of 87. Representing the most complete record of his development as an artist, Watts's drawings offer unequalled insight into his techniques, compositional decisions, and working processes. His studies provide an uncensored record of his thought process, and reveal the choices and changes he made as he developed some of his most celebrated

works. This book is the first in depth study of Watts's drawings.
