A Very Irregular Head Rob Chapman.2010-10-26 “I don't think I'm easy to talk about. I've got a very irregular head. And I'm not anything that you think I am anyway.”—Syd Barrett’s last interview, Rolling Stone, 1971 Roger Keith “Syd” Barrett (1946–2006) was, by all accounts, the very definition of a golden boy. Blessed with good looks and a natural aptitude for painting and music, he was a charismatic, elfin child beloved by all, who fast became a teenage leader in Cambridge, England, where a burgeoning bohemian scene was flourishing in the early 1960s. Along with three friends and collaborators—Roger Waters, Richard Wright, and Nick Mason—he formed what would soon become Pink Floyd, and rock ‘n’ roll was never the same. Starting as a typical British cover band aping approximations of American rhythm ‘n’ blues, they soon pioneered an entirely new sound, and British psychedelic rock was born. With early, trippy, Barrett-penned pop hits such as “Arnold Layne” (about a clothesline-thieving cross-dresser) and “See Emily Play” (written specifically for the epochal “Games For May” concert), Pink Floyd, with Syd Barrett as their main creative visionary, captured the zeitgeist of “Swinging” London in all its Technicolor glory. But there was a dark side to all this new-found freedom. Barrett, like so many around him, began ingesting large quantities of a revolutionary new drug, LSD, and his already-fragile mental state—coupled with a personality inherently unsuited to the life of a pop star—began to unravel. The once bright-eyed lad was quickly replaced, seemingly overnight, by a glowering, sinister, dead-eyed shadow of his former self, given to erratic, highly eccentric, reclusive, and sometimes violent behavior. Inevitably sacked from the band, Barrett retreated from London to his mother’s house in Cambridge, where he would remain until his death, only rarely seen or heard, further fueling the mystery. In the meantime, Pink Floyd emerged from the underground to become one of the biggest international rock bands of all time, releasing multi-platinum albums, many that dealt thematically with the loss of their friend Syd Barrett: The Dark Side of the Moon, Wish You Were Here, and The Wall are all, on many levels, about him. In A Very Irregular Head, journalist Rob Chapman lifts the veil of secrecy that has surrounded the legend of Syd Barrett for nearly four decades, drawing on exclusive access to family, friends, archives, journals, letters, and artwork to create the definitive portrait of a brilliant and tragic artist. Besides capturing all the promise of Barrett’s youthful years, Chapman challenges the oft-held notion that Barrett was a hopelessly lost recluse in his later years, and creates a portrait of a true British eccentric who is rightfully placed within a rich literary lineage that stretches through Kenneth Graham, Hilaire Belloc, Edward Lear, Lewis Carroll, John Lennon, David Bowie, and on up to the pioneers of Britpop. A tragic, affectionate, and compelling portrait of a singular artist, A Very Irregular Head will stand as the authoritative word on this very English genius for years to come.

The Passage of Love Alex Miller.2018-03-01 Robert Crofts, a young Englishman, arrives in Australia in the 1950s, determined to inhabit the outback. After five years of life on the land, he makes his way to Melbourne where, living in a boarding house, working as a cleaner, he finds himself consumed by a burning need to read, write, draw, create. When he meets the enigmatic Lena, she instantly becomes his staunchest champion but as their tortured marriage evolves and gradually erodes she ultimately becomes an obstacle. This intensely autobiographical novel has much to say about the compulsion to create, and the fundamental unknowability of even our most intimate partners. As the reader sinks into the text of this singular book, the artifice of fiction gradually melts away, leaving nothing but truth on the page. In The Passage of Love Alex Miller has given us a masterful work which will come to define his career as one of the great writers of our time.

Good Taste Peter Trifonas, Effie Balomenos.2016-07-18 What do professional wrestling, Pot Noodle and Feng Shui have in common? Well, not much -

but they all appear in this book. Critic and cultural philosopher Peter Trifonas and art historian Effie Balomenos explore the curious concept of good - and bad - taste. But where does taste come from? Is there a true standard of taste? Are we slaves to the cruel whims of fashion? Who's in control? Good Taste is an enthralling exploration of the cultural history of an idea. In this enticing book - divided into chapters exploring cultural artefacts of absolutely all kinds - Trifonas and Balomenos warn: you are what you choose! Highlights include: TV chefs * Ozzy Osbourne and Reality TV * The 70s fashion conspiracy * Disney * Madonna * Lamborghini * The history of cleavage * High heels * Elvis * Body piercing * Hip-hop * Oprah Winfrey * Ageing rock bands * Turn-ups * Harry Potter * Fake tans and much, much more ...

Rethinking Cancer Bernhard Strauss,Marta Bertolaso,Ingemar Ernberg,Mina J. Bissell.2021-04-27 Leading scientists argue for a new paradigm for cancer research, proposing a complex systems view of cancer supported by empirical evidence. Current consensus in cancer research explains cancer as a disease caused by specific mutations in certain genes. After dramatic advances in genome sequencing, never before have we known so much about the individual cancer cell--and yet never before has it been so unclear what to do with this knowledge. In this volume, leading researchers argue for a new theory framework for understanding and treating cancer. The contributors propose a complex systems view of cancer, presenting conceptual building blocks for a new research paradigm supported by empirical evidence. The contributors first discuss the new research framework in terms of theoretical foundations and then take up the relevance of a systems approach, reviewing such topics as nonlinearity, recurrence after treatment, the cellular attractor concept, network theory, and non-coding DNA--the dark matter of our genome. They address the temporality of cancer progression, drawing on evolutionary theory and clinical experience. Finally, they cover the dominant role of the tissue microenvironment in cancer, analyzing topics including altered metabolic pathways, the disease-defining influence on metastasis, and the interconnectedness of different environmental niches across levels of organization.

This Whispering in Our Hearts Revisited Henry Reynolds.2018-08-01 How is it our minds are not satisfied? What means this whispering in the bottom of our hearts?' Listening to the whispering in his own heart, Henry Reynolds was led into the lives of remarkable and largely forgotten white humanitarians who followed their consciences and challenged the prevailing attitudes to Indigenous people. His now-classic book *This Whispering in Our Hearts* constructed an alternative history of Australia through the eyes of those who felt disquiet and disgust at the brutality of dispossession. These men and women fought for justice for Indigenous people even when doing so left them isolated and criticised by their fellow whites. The unease of these humanitarians about the morality of white settlement has not dissipated and their legacy informs current debates about reconciliation between black and white Australia. Revisiting this history, in this new edition Reynolds brings fresh perspectives to issues we grapple with still. Those who argue for justice, reparation, recognition and a treaty will find themselves in solidarity with those who went before. But this

powerful book shows how much remains to be done to settle the whispering in our hearts. An updated edition of a classic text, now includes reflections on native title, the apology, international conventions, reparations, recognition and the treaty.

Information Highlighting in Advanced Learner English Marcus Callies.2009 This book presents the first detailed and comprehensive study of information highlighting in advanced learner language, echoing the increasing interest in questions of near-native competence in SLA research and contributing to the description of advanced interlanguages. It examines the production and comprehension of specific means of information highlighting in English by native speakers and German learners of English as a foreign language, presenting triangulated experimental and learner corpus data as corroborating evidence. The study focuses on learners' use of discourse-pragmatically motivated variations of the basic word order such as inversion, preposing, and it- and wh-clefts, an underexplored field in SLA research to date. The book also provides a critical re-assessment of the study of pragmatics within SLA. It has largely been neglected to date that L2 pragmatic knowledge includes more than the sociopragmatic and pragmalinguistic abilities for understanding and performing speech acts. Thus, the book argues for an extension of the scope of inquiry in interlanguage pragmatics beyond the cross-cultural investigation of speech acts. It also discusses pedagogical implications for foreign language teaching and will be of interest to applied linguists and SLA researchers, language teachers and curriculum designers.

The New Zealand Jewish Community Stephen I. Levine.1999 Part of a large study of diaspora Jews worldwide in comparison with those in Israel, based on Daniel Elazer's *People and Polity: The Organizational Dynamics of World Jewry* (1989). Levine (politics, Victoria U. of Wellington) does not, therefore, offer either a history of Jews in New Zealand nor an anecdotal account of their experience, but an analysis that follows Elazer's data, approach, and arrangement so it can be compared with analogous studies of other countries. The topics are Jewish commitment, organizational structure, religion, education, culture, welfare and defense, Israel and world Jewry, constitutional documents, and future prospects. Guarding Eden Deborah Hart.2015-06-01 Guarding Eden tells the personal stories of twelve ordinary people who were so concerned about climate change that they altered their lives to do something about it. Some did quiet backroom work in research, drafted submissions or wrote to politicians; others decided to go public, really public - one was part of the team occupying a 160-metre power-plant chimney, one went on a hunger strike publicised around the world, another started the Lock the Gate Alliance. They come from all walks of life: there's a nurse, a musician, an insurance broker, a teacher, a lawyer, a vet. Surprisingly touching, Guarding Eden makes an issue as complex and controversial as climate change feel human and deeply real.

The Alphabet of Light and Dark Danielle Wood.2003-08-01 And as the waves take her apart, piece by piece, she watches the message of the lighthouse spelling itself out on the surface of the water. Its message is composed in the alphabet of light and dark. Flash, eclipse, flash, eclipse. If we see only the light, we are blinded; only the dark and we will never find our way. A tiny coin found inside a Cloudy Bay oyster, a postcard of a white-haired child leaning against a beached dinghy and a coconut peeled and carved once upon a time on the Batavian coast. These trinkets, found in a sea chest, and the fragmented memories of her grandfather's tall tales are all Essie Lewis has left of her family history. After her grandfather's death, Essie returns to Bruny Island, Tasmania and to the lighthouse where her great-great-grandfather kept watch for nearly 40 years. Beneath the lighthouse, she begins to write the stories of her ancestors. But the island is also home to Pete Shelverton, a sculptor who hunts feral cats to make his own peace with the past. And as Essie writes, she finds that Pete is a part of the history she can never escape. 'Absorbing, subtle, impressive writing.' Debra Adelaide 'Wood's writing is sinewy, physical and elemental.' Liam Davison riting.' Debra Adelaide 'Its lyrical probing of several dimensions of Australian/Tasmanian experience make it a fitting recipient for this award. Wood's achievement in her sustained evocation of the bleak Bruny Island landscape and the surrounding seascape is tremendously potent and effective.' Stella Clarke 'The author has that special quality which just jumps off the page. The voice is strong and the sense of place so powerful.' James Bradley 'Wood's writing is sinewy, physical and elemental. She is very good when it comes to the melding of family mythology, storytelling, and colonial history into something which serves a range of purposes. A novel about history rather than a historical novel.' Liam Davison

The Mediterranean Armin Greder.2018-01-24 With eloquent and devastating imagery, the creator of the multi-award-winning book *The Island*

again asks us to examine our responses to the plight of refugees. How long will we remain silent witnesses? 'After finishing this book, I imagined a different story, one recounting the journey of a family with an entry visa, setting out on an aeroplane or a ship, landing or docking safe and sound in a country where they can make a new start. These are known as safe and legal pathways and Amnesty International calls on the international community to provide them to those fleeing war, torture and persecution. Routes over land, air or sea that would save people having to entrust their lives to crime rings, which is otherwise the only possibility that remains open to them. I imagine Armin Greder would enjoy writing it but he cannot. Because today he needs to tell the story of that shared sea that has become a mass grave: the Mediterranean. Unfortunately, there is also a third story to tell: a story of silence, one with no protagonists. That is how it will be if the European Union succeeds - through cooperation agreements with African countries - in moving its sea borders much further south. Then there will be no more deaths (at sea). And we will eat our fish in peace.'

The Viking Road to Byzantium H.R. Ellis Davidson.2023-08-10 *The Viking Road to Byzantium* (1976) is a major study of the Vikings who travelled east, based on the evidence of written sources and archaeology. Clues to the movements of the eastern Vikings may be found not only in Icelandic skaldic verse and runic inscriptions on memorial stones, but in such unexpected places as a Romanian chalk quarry near the Black Sea, among the carved stones of ancient Thrace and in Constantinople itself, the Miklagard of northern literature.

Abandoned Geesche Jacobsen.2011-03-04 On 24 September, 2002, Queensland mother Dianne Brimble was found dead on the floor of a cabin on the cruise ship *Pacific Sky*, less than 24 hours into what was to be the holiday of a lifetime. The cabin belonged to four men from Adelaide who were part of a group of eight colourful characters, whom the media would later describe as the most hated men in Australia. Within hours of Dianne Brimble's death it emerged that she had been showered and dressed before medical help was called. Soon there were rumours of drug use and group sex, which grew into allegations of rape and murder. P+O personnel failed to secure the cabin, allowing the men back in to collect their belongings thus making the truth even more difficult to determine. A police investigation, a high-profile inquest, a grieving family and a criminal trial probed what went on in those few crucial early morning hours ending in her death. This extraordinary case, which captivated Australia, highlights the lines between criminal and moral responsibility and how easily things can get out of hand when care is abandoned.

Time of Our Lives Mike Donaldson.1991 This book takes issue with the postfeminists, postmodernists and postmarxists, and argues that Marxism's central insights and methods of analysis are more accurate and precise than any alternative.
