*Zoological Collections of Germany* Lothar A. Beck. 2018-02-05 This book is devoted to the knowledge of up to 250 years of collecting, organizing and preserving animals by generations of scientists. Zoological Collections are a huge resource for modern animal research and should be available for national and international scientists and institutions, as well as prospective public and private customers. Moreover, these collections are an important part of the scientific enterprise, supporting scientific research, human health, public education, and the conservation of biodiversity. Much of what we are beginning to understand about our world, we owe to the collection, preservation, and ongoing study of natural specimens. Properly preserved collections of marine or terrestrial animals are libraries of Earth's history and vital to our ability to learn about our place in its future. The approach employed by the editor involves not only an introduction to the topic, but also an external view on German collections including an assessment of their value in the international and national context, and information on the international and national collection networks. Particular attention is given to new approaches of sorting, preserving and researching in Zoological Collections as well as their neglect and/or threat. In addition, the book provides information on all big Public Research Museums, on important Collections in regional Country and local District Museums, and also on University collections. This is a highly informative and carefully presented book, providing scientific insight for readers with an interest in biodiversity, taxonomy, or evolution, as well as natural history collections at large.

*Borobudur* John N. Miksic.1990 This glorious ninth-century Buddhist monument - the largest Buddhist monument in the world - stands in the midst of the lush Kedu plain of central Java in Indonesia, where it is visited annually by over a million people. Borobudur consists of over a thousand exquisite relief sculptures extending along its many terraces for a total distance of more than a mile. The monument is constructed to symbolically represent the pilgrimage to enlightenment. The visitor ascends Borobudur, past scenes depicting the world of desire, through the life story of the Buddha and the heroic deeds of other famous enlightened beings, finally arriving at the great circular terraces at the very top of the structure, symbolizing the formless world of emptiness and the attainment of enlightenment. With over eighty color photographs and an informative text, this book celebrates the art and architecture of this famous Buddhist monument.

This is the first volume to be published since the ten-year restoration and reconstruction of Borobudur was completed in 1985. In addition to illuminating the archaeological history, religious symbolism, and cultural context of the monument, it presents a detailed description of the sculptured panels and their significance in Buddhist history and philosophy. This book not only provides a scholarly introduction to Borobudur and its historical context, but it also retells - in text and stunning color photographs - the major stories illustrated in the hundreds of bas-relief panels that rank among the masterpieces of Asian and Buddhist art. --

*We Are Prisoners* Oskar Graf. 2019-12-07 The autobiography of Oskar Maria Graf, his first major work, was published in 1927. It covers his early youth growing up in the village of Berg by Lake Starnberg, his cruel abuse by his older brother, his escape to Munich, where he worked as a baker, and then to anarchist communes in Switzerland. Graf is drafted into the army, where he reluctantly serves as a horse-groom on the supply trains. He is discharged as mentally unfit, spends a year in an asylum, then returns to Munich, working in a biscuit factory, starting his literary career and making money on the black market. *We Are Prisoners* paints a fascinating picture of bohemian life in Schwabing, the radical politics of the time, and climaxes with the short-lived Bavarian Soviet Republic of 1919. Many of the characters in the novel became well known artists and writers in Weimar Germany. *We Are Prisoners (A Confession)* is an honest and blithe personal account of momentous events. Graf's quirky literary style combines a self-deprecating and anarchic sense of humour, sympathy for the downtrodden and the Heimat genre of German culture. He behaves

disgracefully and provokes laughter and disbelief, but in so doing, he wins our hearts. THOMAS MANN Translated and introduced by Ed Walker.

Public Health, Mental Health, and Mass Atrocity Prevention Jocelyn Getgen Kestenbaum, Caitlin O. Mahoney, Amy E. Meade, Arlan F. Fuller. 2021-07-29 This multidisciplinary volume considers the role of both public health and mental health policies and practices in the prevention of mass atrocity, including war crimes, crimes against humanity, and genocide. The authors address atrocity prevention through the framework of primary (pre-conflict), secondary (mid-conflict), and tertiary (post-conflict) settings. They examine the ways in which public health and mental health scholars and practitioners currently orient their research and interventions and the ways in which we can adapt frameworks, methods, tools, and practice toward a more sophisticated and truly interdisciplinary understanding and application of atrocity prevention. The book brings together diverse fields of study by global north and global south authors in diverse contexts. It culminates in a narrative that demonstrates the state of the current fields on intersecting themes within public health, mental health, and mass atrocity prevention and the future potential directions in which these intersections could go. Such discussions will serve to influence both policy makers and practitioners in these fields toward developing, adapting, and testing frames and tools for atrocity prevention. Multidisciplinary perspectives are represented among editors and authors, including law, political science, international studies, public health, mental health, philosophy, clinical psychology, social psychology, history, and peace studies.

**Africa and the Americas** José C. Curto, Renée Soulodre-LaFrance. 2005 A collection of essays reflecting an important structural feature of the slave trade: its circularity. Starting with the removal

from Africa, the collection then carries into discussions of ethnic identity, religion and creolisation. Comparative essays develop the theme of root experience in Africa against the facts of life for disenfranchised slaves, painting a picture of a cohesive worldview shaped by the slave voyage and African beliefs. The collection returns to Africa with analyses of the impact on Africa of formerly slaveholding nations.

The Extended Specimen Michael S. Webster.2017-07-20 The Extended Specimen highlights the research potential for ornithological specimens, and is meant to encourage ornithologists poised to initiate a renaissance in collections-based ornithological research. Contributors illustrate how collections and specimens are used in novel ways by adopting emerging new technologies and analytical techniques. Case studies use museum specimens and emerging and non-traditional types of specimens, which are developing new methods for making biological collections more accessible and usable for ornithological researchers. Published in collaboration with and on behalf of The American Ornithological Society, this volume in the highly-regarded Studies in Avian Biology series documents the power of ornithological collections to address key research questions of global importance.

The Insect & Spider Collections of the World Ross H. Arnett, Jr.,G. Allan Samuelson,Gordon M. Nishida.2019-10-16 First published in 1993, completely rewritten, this second edition includes a list of all 210 countries of the world and all of the islands, with comments on the existence of insect and spider collections, both public and private. These listings are arranged alphabetically by country, state/province, and city, with private collections listed under the public collection with which they are registered. Part II of the directory is an alphabetical list of the codes assigned to each of the collections described in Part I. This list is also cross-referenced to variations of the codes used in

other works, which will eliminate any confusion over this duplication. This classic work provides a ready reference to all collections and is required by all insect and spider systematists.

*Nietzsche's 'On the Genealogy of Morality'* Lawrence J. Hatab.2008-10-02 Nietzsche's *On the Genealogy of Morality* (1887) is a forceful, perplexing, important book, radical in its own time and profoundly influential ever since. This introductory textbook offers a comprehensive, close reading of the entire work, with a section-by-section analysis that also aims to show how the *Genealogy* holds together as an integrated whole. The *Genealogy* is helpfully situated within Nietzsche's wider philosophy, and occasional interludes examine supplementary topics that further enhance the reader's understanding of the text. Two chapters examine how the *Genealogy* relates to standard questions in moral and political philosophy. Written in a clear, accessible style, this book will appeal to students at every level coming to read the *Genealogy* for the first time, and a wider range of readers will also benefit from nuanced interpretations of controversial elements in Nietzsche's work.

**Sakura's Cherry Blossoms** Robert Paul Weston.2018-02-20 A warm, gorgeous exploration of a little girl's experience immigrating to a new country and missing her home and her grandmother, who still lives far away. Sakura's dad gets a new job in America, so she and her parents make the move from their home in Japan. When she arrives in the States, most of all she misses her grandmother and the cherry blossom trees, under which she and her grandmother used to play and picnic. She wonders how she'll ever feel at home in this new place, with its unfamiliar language and

landscape. One day, she meets her neighbor, a boy named Luke, and begins to feel a little more settled. When her grandmother becomes ill, though, her family takes a trip back to Japan. Sakura is sad when she returns to the States and once again reflects on all she misses. Luke does his best to cheer her up -- and tells her about a surprise he knows she'll love, but she'll have to wait till spring. In the meantime, Sakura and Luke's friendship blooms and finally, when spring comes, Luke takes her to see the cherry blossom trees flowering right there in her new neighborhood. Sakura's *Cherry Blossoms* captures the beauty of the healing power of friendship through Weston's Japanese poetry-inspired text and Saburi's breathtaking illustrations.

*Alfonso the Magnanimous* Alan Frederick Charles Ryder.1990 This is the first complete biography of one of the most brilliant fifteenth-century monarchs, Alfonso V of Aragon. Ryder traces Alfonso's life from his childhood in the chivalric world of Castile to the newly-acquired states of Aragon and his subsequent accession to the Aragonese throne. In addition to being a shrewd politician, Alfonso is revealed to have been an accomplished diplomat, acutely aware of the power of commerce, and one of the greatest patrons of the early Renaissance. He brought humanism to life in Southern Italy and made his court the most brilliant in Europe. Offering not only an insightful look at Alfonso's life but a vivid portrait of political and cultural life during his reign, this volume will hold special appeal for scholars and students of early modern European history, fifteenth-century Italian and Spanish history, and Renaissance studies.

1,000 Places to See Before You Die, the second edition Patricia Schultz.2011-11-15 The world's bestselling travel book is back in a more informative, more experiential, more budget-friendly full-

color edition. A #1 New York Times bestseller, *1,000 Places* reinvented the idea of travel book as both wish list and practical guide. As Newsweek wrote, it “tells you what’s beautiful, what’s fun, and what’s just unforgettable— everywhere on earth.” And now the best is better. There are 600 full-color photographs. Over 200 entirely new entries, including visits to 28 countries like Lebanon, Croatia, Estonia, and Nicaragua, that were not in the original edition. There is an emphasis on experiences: an entry covers not just Positano or Ravello, but the full 30-mile stretch along the Amalfi Coast. Every entry from the original edition has been readdressed, rewritten, and made fuller, with more suggestions for places to stay, restaurants to visit, festivals to check out. And throughout, the book is more budget-conscious, starred restaurants and historic hotels such as the Ritz, but also moderately priced gems that don’t compromise on atmosphere or charm. The world is calling. Time to answer.

**Common Women** Ruth Mazo Karras. 1996 *Common women in medieval England were prostitutes, whose distinguishing feature was not that they took money for sex but that they belonged to all men in common. Common Women: Prostitution and Sexuality in Medieval England* tells the stories of these women's lives: their entrance into the trade because of poor job and marriage prospects or because of seduction or rape; their experiences as street-walkers, brothel workers or the medieval equivalent of call girls; their customers, from poor apprentices to priests to wealthy foreign merchants; and their relations with those among whom they lived. Through a sensitive use of a wide variety of imaginative and didactic texts, Ruth Karras shows that while prostitutes as individuals were marginalized within medieval culture, prostitution as an institution was central to the medieval understanding of what it meant to be a woman. This important work will be of interest to scholars and students of history, women's studies, and the history of sexuality.
