Universities and the Public Sphere Brian Pusser, Ken Kempner, Simon Marginson, Imanol Ordorika. 2012-05-22 Universities have been propelled into the center of the global political economy of knowledge production by a number of factors: mass education, academic capitalism, the globalization of knowledge, the democratization of communication in the era of the Internet, and the emergence of the knowledge and innovation economy. The latest book in the International Studies in Higher Education series, *Universities and the Public Sphere* addresses the vital role of research universities as global public spheres, sites where public interaction, conversation and deliberation take place, where the nature of the State and private interests can be openly debated and contested. At a time of increased privatization, open markets, and government involvement in higher education, the book also addresses the challenges facing the university in its role as a global public sphere. In this volume, international contributors challenge prevalent views of the global marketplace to create a deeper understanding of higher education's role in knowledge creation and nation building. In nearly every national context the pressures of globalization, neo-liberal economic restructuring, and new managerial imperatives challenge traditional norms of autonomy, academic freedom, access and affordability. The authors in *Universities and the Public Sphere* argue that universities are uniquely suited to have transformative democratic potential as global public spheres.

*Building the Skills for Economic Growth and Competitiveness in Sri Lanka* Halil Dundar, World Bank, Benoît Millot, Yevgeniya Savchenko, Harsha Aturupane, Tilkaratne A. Piyasiri. 2014-05-30 This book examines skills demand and supply in Sri Lanka, and offers insightful analysis of the education and training system, and its responsiveness to changes in demand for skills. The book also provides suggestions on how the skills development system can be improved to better achieve Sri Lanka's development goals.

*ECIE 2018 13th European Conference on Innovation and Entrepreneurship* Professor Carlos Costa, Dr. Manuel Au-Yong-Oliveira, Dr. Marlene Paula Castro Amorim. 2018-09-20

Funny Boy Shyam Selvadurai. 2013-01-29 In this remarkable debut novel, a boy's bittersweet passage to maturity and sexual awakening is set against escalating political tensions in Sri Lanka, during the seven years leading up to the 1983 riots. Arjie Chelvaratnam is a Tamil boy growing up in an extended family in Colombo. It is through his eyes that the story unfolds and we meet a delightful, sometimes eccentric cast of characters. Arjie's journey from the luminous simplicity of childhood days into the more intricately shaded world of adults - with its secrets, its injustices, and its capacity for violence - is a memorable one, as time and time again the true longings of the human heart are held against the way things are.

Applied Anatomy and Biomechanics in Sport Timothy R. Ackland, Bruce Elliott, John Bloomfield. 2009 *Applied Anatomy and Biomechanics in Sport*, Second Edition, offers a variety of information for coaches and sport scientists that can be integrated and applied to the elements of body structure, body composition, assessment, physiology, and biomechanics.

**Cultural Sustainable Tourism** Uglješa Stankov, Sofia-Natalia Boemi, Sahar Attia, Stella Kostopoulou, Nabil Mohareb. 2019-04-23 This book includes research papers submitted to and presented during the first international conference on Cultural Sustainable Tourism (CST) that was held in Thessaloniki, Greece in November of 2017. Discussing complex relations between Culture, tourism, and the role of planners and architects in their maintenance, this conference was jointly organized by IEREK -International Experts for Research Enrichment and Knowledge Exchange- and Aristotle University of Thessaloniki. The conference was an attempt to shed a light on the significance of Culture and Heritage as two important factors attracting tourists and promoting

economic growth and convey civilizations through tourism. Themes covered in this book give an overview on current research and topics of discussion that focus on Cultural sustainable tourism through several sections. The first section, titled "Art, Architecture and Culture", discusses urban regeneration as a road to the preservation of cultural and tourist destinations and the importance of understanding and benefitting from our heritage to allow for modern day improvements. "Heritage Tourism", the section 2 of the book, is more focused on offering nontraditional solutions and management plans to sustain cultural tourism and improve quality of life around historically significant areas. The third section on the "City and Rural Tourism" follows by providing sustainable strategies to attract tourists and promoting the use of existing resources. The last and final section with the title of "Sustainable Tourism, Development and Environmental Management" maneuvers around the different yet common environmental issues existing today and proposes new and innovative solutions for their elimination. Presenting a wide range of topics in chapters, this book provides the scientific community with a collection of unique and enlightening literature.

**Transforming Education** Unesco.2011 Este informe cita ejemplos de utilización de las TIC en diferentes regiones del mundo - África, la región árabe, Asia y América Latina - y proporciona un buen ejemplo de los cambios que las TIC aportan a los sistemas y políticas de educación. La gran diversidad que ofrecen los países seleccionados - Jordania, Namibia, Rwanda, Singapur y Uruguay - en términos de desarrollo económico y educativo, sugiere que lo que está en juego no se limitan a un determinado grupo de países privilegiados.

Indepth Insights Into the Human Factor Kai Roer, Gregor Petric.2017-05-07 The 2017 Security Culture Report - Insights into the human factor, is the first annual report to analyse security culture across industry sectors, countries and gender. The report provides deep insights into security culture based on the seven dimensions Attitude, Cognition, Norms, Behaviours, Communication, Responsibilities and Compliance and samples more than 10 000 employees across 30+ companies in 5 distinct industries. The findings are interesting, revealing for instance how gender balance is a crucial factor to control risky behaviours, and how age and experience improves security culture.

**Innovative Strategies in Higher Education for Accelerated Human Resource Development in South Asia** Asian Development Bank.2016-01-01 This publication is part of a series of six country reports on technical and vocational education and training (TVET) and higher education in Bangladesh, Nepal, and Sri Lanka. Each report presents current arrangements and initiatives in the respective country's skills development strategies. These are complemented by critical analyses to determine key issues, challenges, and opportunities for innovative strategies toward global competitiveness, increased productivity, and inclusive growth. The emphasis is to make skills training more relevant, efficient, and responsive to emerging domestic and international labor markets. The reports were finalized in 2013 under the Australian AID-supported Phase 1 of Subproject 11 (Innovative Strategies for Accelerated Human Resource Development) of Regional Technical Assistance 6337 (Development Partnership Program for South Asia).

**The Challenge of Youth Employment in Sri Lanka** Ramani Gunatillaka, Markus Mayer, Milan Vodopivec.2010-05-11 Sri Lanka has long been regarded as a model of a successful welfare state in a low-income setting, yet it has not succeeded in creating a sufficient number of good jobs for the increasing number of young people. Hence, young Sri Lankans perceive their country as an unjust and unequal society, in which mainstream institutions have failed to address inequalities in the distribution of resources, as well as of benefits deriving from economic growth. Against this background, 'The Challenge of Youth Employment in Sri Lanka' aims to identify ways to improve the opportunities available to new job market entrants by addressing existing inequalities and to help young people more fully realize their potentials. Drawing from original research and a review of existing studies, the authors use the 4Es conceptual framework to analyze four key aspects of labor markets employment creation, employability, entrepreneurship, and equal opportunity identifying main issues and results, current trends, and possible new approaches.

*Shadow Education* Mark Bray, Chad Lykins. 2012-05-01 In all parts of Asia, households devote considerable expenditures to private supplementary tutoring. This tutoring may contribute to students' achievement, but it also maintains and exacerbates social inequalities, diverts resources from other uses, and can contribute to inefficiencies in education systems. Such tutoring is widely called shadow education, because it mimics school systems. As the curriculum in the school system changes, so does the shadow. This study documents the scale and nature of shadow education in different parts of the region. Shadow education has been a major phenomenon in East Asia and it has far-reaching economic and social implications.

**Errors in Language Learning and Use** Carl James. 2013-12-02 *Errors in Language Learning and Use* is an up-to-date introduction and guide to the study of errors in language, and is also a critical survey of previous work. Error Analysis occupies a central position within Applied Linguistics, and seeks to clarify questions such as 'Does correctness matter?', 'Is it more important to speak fluently and write imaginatively or to communicate one's message?' Carl James provides a scholarly and well-illustrated theoretical and historical background to the field of Error Analysis. The reader is led from definitions of error and related concepts, to categorization of types of linguistic deviance, discussion of error gravities, the utility of teacher correction and towards writing learner profiles. Throughout, the text is guided by considerable practical experience in language education in a range of classroom contexts worldwide.

*Rethinking Learning for a Digital Age* Rhona Sharpe, Helen Beetham, Sara de Freitas. 2010-07-02 *Rethinking Learning for a Digital Age* addresses the complex and diverse experiences of learners in a world embedded with digital technologies. The text combines first-hand accounts from learners with extensive research and analysis, including a developmental model for effective e-learning, and a wide range of strategies that digitally-connected learners are using to fit learning into their lives. A companion to *Rethinking Pedagogy for a Digital Age* (2007), this book focuses on how learners' experiences of learning are changing and raises important challenges to the educational status quo. *Rethinking Learning for a Digital Age*: moves beyond stereotypes of the net generation to explore the diversity of e-learning experiences today analyses learners' experiences holistically, across the many technologies and learning opportunities they encounter reveals digital-age learners as creative actors and networkers in their own right, who make strategic choices about their use of digital applications and learning approaches. Today's learners are active participants in their learning experiences and are shaping their own educational environments. Professors, learning practitioners, researchers, and policy-makers will find *Rethinking Learning for a Digital Age* invaluable for understanding the learning experience, and shaping their own responses.

*Sri Lanka at the Crossroads of History* Zoltán Biedermann, Alan Strathern. 2017-06-07 The peoples of Sri Lanka have participated in far-flung trading networks, religious formations, and Asian and European empires for millennia. This interdisciplinary volume sets out to draw Sri Lanka into the field of Asian and Global History by showing how the latest wave of scholarship has explored the island as a 'crossroads', a place defined by its openness to movement across the Indian Ocean. Experts in the history, archaeology, literature and art of the island from c.500 BCE to c.1850 CE use Lankan material to explore a number of pressing scholarly debates. They address these

matters from their varied disciplinary perspectives and diverse array of sources, critically assessing concepts such as ethnicity, cosmopolitanism and localisation, and elucidating the subtle ways in which the foreign may be resisted and embraced at the same time. The individual chapters, and the volume as a whole, are a welcome addition to the history and historiography of Sri Lanka, as well as studies of the Indian Ocean region, kingship, colonialism, imperialism, and early modernity.

**The Cambridge Introduction to Postcolonial Literatures in English** C. L. Innes.2007-10-25

The past century has witnessed the extraordinary flowering of fiction, poetry and drama from countries previously colonised by Britain, an output which has changed the map of English literature. This introduction, from a leading figure in the field, explores a wide range of Anglophone post-colonial writing from Africa, Australia, the Caribbean, India, Ireland and Britain. Lyn Innes compares the ways in which authors shape communal identities and interrogate the values and representations of peoples in newly independent nations. Placing its emphasis on literary rather than theoretical texts, this book offers detailed discussion of many internationally renowned authors, including James Joyce, Chinua Achebe, Salman Rushdie, Les Murray and Derek Walcott. It also includes historical surveys of the main countries discussed, a glossary, and biographical notes on major authors. Lyn Innes provides a rich and subtle guide to a vast array of authors and texts from a wide range of sites.

**Shellfish Processing and Preservation** Nalan Gökoğlu.2021-01-04 Shellfish is a broad term that covers various aquatic mollusks, crustaceans and echinoderms that are used as food. They have economic and ecological importance and have been consumed as food for centuries. Shellfish provide high quality protein with all the dietary amino acids essential for maintenance and growth of the human body. Shellfish are a major component of global seafood production, with shellfish aquaculture rapidly growing in recent years. There are many different processing methods used across the world. Shellfish are very perishable foods and must be preserved just after catching or harvesting. This makes the preservation of seafood a critical issue in terms of quality and human health. To date there have been a number of books on seafood processing and preservation, but all of them have been mostly focused on fish. Shellfish Processing and Preservation is the first reference work to focus specifically on shellfish, providing comprehensive coverage of the production methods, biological makeups and preservation methods of all major shellfish species. Individual sections focus on crustaceans such as shrimps and prawns, crabs and lobsters plus molluscans including mussels, scallops and oysters. Cephalopods such as squid and octopus are also covered in depth. For each species processing and preservation methods such as chilling, freezing, canning and curing are examined, plus the important safety aspects specific to each shellfish type. Shellfish Processing and Preservation is an essential publication for any researchers or industry professionals in search of a singular and up-to-date source for the processing and preservation of shellfish.

From Envisioning to Designing E-development Nagy Hanna.2007 From Envisioning to Designing e-Development presents a concrete case in bridging the gap between vision and actionable programs. It captures how Sri Lankans worked with local stakeholders and aid agency counterparts in moving from developing a shared vision of comprehensive e-development to designing a multiyear investment program, creating a national ICT agency, and piloting, implementing, and adapting the strategy.

Re-creating and Re-positioning of Sri Lankan Universities to Meet Emerging Opportunities and Challenges in a Globalized Environment Ranjith Senaratne,Sivanandam Sivasegaram.2012

Security Sector Reform in Challenging Environments Hans Born,Albrecht Schnabel.2009 More often than not Security Sector Reform (SSR) takes place against many odds, in barely enabling political, security, economic and social environments. Such difficult contexts may be characterised by widespread corruption, ongoing violence, imprecise, open-ended or non-inclusive peace agreements and post-conflict architectures, lack of resources, 'stolen' or impending elections or referenda - all circumstances that stand in the way of full-fledged, holistic and sustainable SSR efforts. Following

an overview of 'ideal' SSR requirements, contrasted with typical obstacles inhibiting SSR efforts, the main body of this volume offers evidence-based analyses of positive and negative SSR records in barely enabling environments, drawing on the experiences of specific national and international SSR programmes and experiences in Africa, the Americas, Asia and Europe. Lessons learned from these experiences are intended to feed into theoretical re-thinking of SSR policy frameworks as well as to help practitioners in designing and implementing effective and sustainable SSR in challenging environments.

The Jewel in the Crown Paul Scott.2011-09-30 The first novel in the epic quartet about the last days of British rule in India, "as much a story of romantic love as it is of crime . . . an artful triumph" (The New Yorker). The Jewel in the Crown is the first of Paul Scott's renowned historical novels that "limn the Anglo-Indian world with its lovers, friends, family servants, soldiers, businessmen, murderers and suicides—all involved in one another's fate" (The New York Times). It opens in 1942 as the British fear both Japanese invasion and Indian demands for independence. On the night after the Indian Congress Party votes to support Gandhi, riots break out and an ambitious police sergeant arrests a young Indian for the alleged rape of the woman they both love. "What has always astonished me about The Raj Quartet is its sense of sophisticated and total control of its gigantic scenario and highly varied characters . . . The politics are handled with an expertise that intrigues and never bores, and are always seen in terms of individuals." —New Republic "Paul Scott's vision is both precise and painterly." —The New York Times Book Review "Few people have written about India quite as seductively, or as intelligently, with a sense of loss but also a sense of responsibility and fallibility." —Kirkus Reviews (starred review)

**Martyn's Notes on Jaffna** John H. Martyn.2003 This very interesting compilation, written by the son of the first photographer and journalist of Ceylon, is of the various important dates in the history starting with the advent of the Portuguese in 1505. It goes on to cover the Dutch period in a short chapter to reach the copious section of the British period that commenced in 1795 and continues till the author's time of compiling in the 1920s. Although the eras of the Portuguese and Dutch are over in a few pages. The record of the events of the British stretch over 125 pages. Another wonderful part of this book is 442 short notes on the places, people, history, scandals, poetry, celebrations, arrival of ships that make the book interesting to those who know Jaffna only by name.

**Guastavino Vaulting** John Ochsendorf.2013-09-17 The first monograph to celebrate the architectural legacy of the Guastavino family is now available in paperback. First-generation Spanish immigrants Rafael Guastavino and his son Rafael Jr. oversaw the construction of thousands of spectacular tile vaults across the United States between the 1880s and the 1950s. These versatile, strong, and fireproof vaults were built by Guastavino in more than two hundred major buildings in Manhattan and in hundreds more across the country, including Grand Central Terminal, Carnegie Hall, the Biltmore Estate, the Cathedral of St. John the Divine, the Registry Room at Ellis Island, and many major university buildings. Guastavino Vaulting blends a scholarly history of the technology with archival images, drawings, and stunning photographs that illustrate the variety and endurance of this building method.

Sports Science and Management Luis Mason.2017-05-22 Sports science studies in detail the response of human body to diverse extent of physical activity. Sports management has many branches such as marketing, event management, sports information management and facility management. The sports industry is a thriving economic sector that is consumer-driven and hence, dependent on the performance of athletes and related personnel. This book brings forth some of the most innovative concepts and elucidates the unexplored aspects of sports science and management. The objective of this text is to give a general view of the different areas of this discipline. It strives to provide a fair idea about this field and to help develop a better understanding of the latest advances within sports science and management. Coherent flow of topics, student-friendly language and extensive use of examples make this book an invaluable source of knowledge.

**Biometrics and Kansei Engineering** Khalid Saeed, Tomomasa Nagashima. 2012-10-16 Biometrics and Kansei Engineering is the first book to bring together the principles and applications of each discipline. The future of biometrics is in need of new technologies that can depend on people's emotions and the prediction of their intention to take an action. Behavioral biometrics studies the way people walk, talk, and express their emotions, and Kansei Engineering focuses on interactions between users, products/services and product psychology. They are becoming quite complementary. This book also introduces biometric applications in our environment, which further illustrates the close relationship between Biometrics and Kansei Engineering. Examples and case studies are provided throughout this book. Biometrics and Kansei Engineering is designed as a reference book for professionals working in these related fields. Advanced-level students and researchers studying computer science and engineering will find this book useful as a reference or secondary text book as well.

*Ceylon at the Census of 1911* Ceylon. Superintendent of Census, Sir Edward Brandis Denham. 1912  
Financial Literacy in Europe Udo Reifner. 2006 The present report written by scientists from the UK, Germany, France, Belgium and Italy tries to give an initial overview of what could truly be called financial education in these countries. Its approach is distinct from efforts in professional education, economics or marketing aimed at informing the public about financial matters. It takes the perspective of consumers, individuals who want to optimise the value of their income and target their expenditures in order to gain personal welfare through the use of financial services, while preventing over-indebtedness and the loss of income which can result from inadequate products or inadequate use of them.

**Sri Lanka's Grade Five Scholarship Examination** Ashani Abayasekara. 2019

*Getting to Work* Jennifer L. Solotaroff, George Joseph, Anne T. Kuriakose, Jayati Sethi. 2020-03-18 Sri Lanka has shown remarkable persistence in low female labor force participation rates—at 36 percent from 2015 to 2017, compared with 75 percent for same-aged men—despite overall economic growth and poverty reduction over the past decade. The trend stands in contrast to the country's achievements in human capital development that favor women, such as high levels of female education and low total fertility rates, as well as its status as an upper-middle-income country. This study intends to better understand the puzzle of women's poor labor market outcomes in Sri Lanka. Using nationally representative secondary survey data—as well as primary qualitative and quantitative research—it tests three hypotheses that would explain gender gaps in labor market outcomes: (1) household roles and responsibilities, which fall disproportionately on women, and the associated sociophysical constraints on women's mobility; (2) a human capital mismatch, whereby women are not acquiring the proper skills demanded by job markets; and (3) gender discrimination in job search, hiring, and promotion processes. Further, the analysis provides a comparison of women's experience of the labor market between the years leading up to the end of Sri Lanka's civil war (2006†'09) and the years following the civil war (2010†'15). The study recommends priority areas for addressing the multiple supply- and demand-side factors to improve women's labor force participation rates and reduce other gender gaps in labor market outcomes. It also offers specific recommendations for improving women's participation in the five private sector industries covered by the primary research: commercial agriculture, garments, tourism, information and communication technology, and tea estate work. The findings are intended to influence policy makers, educators, and employment program practitioners with a stake in helping Sri Lanka achieve its vision of inclusive and sustainable job creation and economic growth. The study also aims to contribute to the work of research institutions and civil society in identifying the most effective means of engaging more women—and their untapped potential for labor, innovation, and productivity—in Sri Lanka's future.

Water Resource and the Aquatic Environment J. M. C K. Jayawardana. 2016 One of the main challenges faced by humans today is finding a balance between economic development of respective countries and sustainable utilisation of Earth's resources. With the increase in the human population,

demand for water resources is increasing globally. One of the challenges for water conservation in the future is the sustainability of current and future water resource allocation. Finding a balance between what is needed by humans and what is needed in the environment is an important step in the sustainability of water resources. With this in mind, sustainable utilisation of water resources, and conservation and management of aquatic ecosystems on Earth is an essential step towards the sustainable management of global water resources. This book discusses the current status of water resources on Earth and challenges water resource conservation in the first chapter. The second chapter of the book describes the physical, chemical and biological properties of water, and the biological indicators that can be used as water quality indicators. The third chapter of the book discusses how water becomes polluted, factors contributing to water pollution, as well as types and sources of water pollutants. The fourth chapter discusses the importance of water quality monitoring programmes and the methods of water quality monitoring programmes. Chapters Five and Six discuss the characteristics of lotic and lentic systems, factors affecting lotic and lentic systems and possible management options for each category. Chapter Seven discusses the aspects related to watershed management and water pollution control. The final chapter discusses agricultural and urban watershed management options, common issues related to their management, and strategies to reduce waste generation and pollution control.

*Gems in the Early Modern World* Michael Bycroft, Sven Dupré. 2018-11-27 This edited collection is an interdisciplinary study of gems in the early modern world. It examines the relations between the art, science, and technology of gems, and it does so against the backdrop of an expanding global trade in gems. The eleven chapters are organised into three parts. The first part sets the scene by describing how gems moved around the early modern world, how they were set in motion, and how they were pulled together in the course of their travels. The second part is about value. It asks why people valued gems, how they determined the value of a given gem, and how the value of a gem was connected to its perceived place of origin. The third part deals with the skills involved in cutting, polishing, and mounting gems, and how these skills were transmitted and articulated by artisans. The common themes of all these chapters are materials, knowledge and global trade. The contributors to this volume focus on the material properties of gems such as their weight and hardness, on the knowledge involved in exchanging them and valuing them, and on the cultural consequences of the expanding trade in gems in Eurasia and the Americas.

*Anil's Ghost* Michael Ondaatje. 2010-10-08 Winning a Governor General's Literary Award for Fiction, the Kiriyaama Pacific Rim Book Prize and the Scotiabank Giller Prize, *Anil's Ghost* is another award-winning novel from Michael Ondaatje. Steeped in centuries of cultural achievement and tradition, Sri Lanka has been ravaged in the late twentieth century by bloody civil war. Anil Tissera, born in Sri Lanka but educated in England and the U.S., is sent by an international human rights group to participate in an investigation into suspected mass political murders in her homeland. Working with an archaeologist, she discovers a skeleton whose identity takes Anil on a fascinating journey that involves a riveting mystery. What follows, in a novel rich with character, emotion, and incident, is a story about love and loss, about family, identity and the unknown enemy. And it is a quest to unlock the hidden past—like a handful of soil analyzed by an archaeologist, the story becomes more diffuse the farther we reach into history. A universal tale of the casualties of war, unfolding as a detective story, the book gradually gives way to a more intricate exploration of its characters, a symphony of loss and loneliness haunted by a cast of solitary strangers and ghosts. The atrocities of a seemingly futile, muddled war are juxtaposed against the ancient, complex and ultimately redemptive culture and landscape of Sri Lanka.

*Research-driven Pedagogy* Nihat Polat, Peter Macintyre, Tammy Gregersen. 2019-10-17 *Research-Driven Pedagogy: Implications of L2A Theory and Research for the Teaching of Language Skills* brings together the essentials of SLA theory, research, and L2 pedagogy. Uniquely, the design of this book helps researchers and practitioners make explicit connections between theory, research and practice; learn about and conduct classroom research to contribute to the relevance and

applicability of SLA research; and improves current L2 curriculum and instruction in light of current theory and research. The volume offers critical reviews of the most relevant, current SLA theory and research about receptive, productive, complementary and nonverbal communication skills, as well as willingness to communicate. Each chapter is formatted to include five major topics about each language skill: (1) major theories, (2) critical reviews of salient/current, (3) commonly-used data collection and analysis techniques, (4) summary of specific pedagogical implications of pertinent research and theory, and (5) theory and research-driven scenarios/activities that can be used in teaching. A teacher or a researcher can pick any chapter in this volume to learn about the most important language skills (e.g., reading, writing, nonverbal communication), while having all-in-one place access to almost everything they would need.
