Aristotle's Animals in the Middle Ages and Renaissance Carlos G. Steel, Guy Guldentops, Pieter Beullens. 1999 Aristotle's zoological writings with their wealth of detailed investigations on diverse species of animals have fascinated medieval and Renaissance culture. This volume explores how these texts have been read in various traditions (Arabic, Hebrew, Latin), and how they have been incorporated in different genres (in philosophical and scientific treatises, in florilegia and encyclopedias, in theological symbolism, in moral allegories, and in manuscript illustrations). This multidisciplinary and multilinguistic approach highlights substantial aspects of Aristotle's animals.

On the Politics of Ugliness Sara Rodrigues, Ela Przybylo. 2018-08-29 Ugliness or unsightliness is
much more than a quality or property of an individual's appearance—it has long functioned as a
social category that demarcates access to social, cultural, and political spaces and capital. The
editors of and authors in this collection harness intersectional and interdisciplinary approaches in
order to examine ugliness as a political category that is deployed to uphold established notions of
worth and entitlement. *On the Politics of Ugliness* identifies and challenges the harmful effects that
labels and feelings of ugliness have on individuals and the socio-political order. It explores ugliness
in relation to the intersectional processes of racialization, colonization and settler colonialism,
gender-making, ableism, heteronormativity, and fatphobia. *On the Politics of Ugliness* asks that we
fight against visual injustice and imagine new ways of seeing.

Feminizing the Fetish Emily Apter.2018-03-15 Shoes, gloves, umbrellas, cigars that are not just objects—the topic of fetishism seems both bizarre and inevitable. In this venturesome and provocative book, Emily Apter offers a fresh account of the complex relationship between representation and sexual obsession in turn-of-the-century French culture. Analyzing works by authors in the naturalist and realist traditions as well as making use of documents from a contemporary medical archive, she considers fetishism as a cultural artifact and as a subgenre of realist fiction. Apter traces the web of connections among fin-de-siècle representations of perversion, the fiction of pathology, and the literary case history. She explores in particular the theme of female fetishism in the context of the feminine culture of mourning, collecting, and dressing.

The Marbled Swarm Dennis Cooper.2011-11-01 From literary cult hero Dennis Cooper comes his most haunting work to date. “An American master.... Cooper is the most important transgressive literary artist since Burroughs.” --Salon In secret passageways, hidden rooms, and the troubled mind of our narrator, a mystery perpetually takes shape—and the most compelling clue to its final nature is “the marbled swarm” itself, a complex amalgam of language passed down from father to son. Cooper ensnares the reader in a world of appearances, where the trappings of high art, old money, and haute cuisine obscure an unspeakable system of coercion and surrender. And as the narrator stalks an elusive truth, traveling from the French countryside to Paris and back again, the reader will be seduced by a voice only Dennis Cooper could create.

Indecent Theology Marcella Althaus-Reid.2002-09-11 Indecent Theology brings liberation theology

up to date by introducing the radical critical approaches of gender, postcolonial, and queer theory. Grounded in actual examples from Latin America, Marcella Althaus-Reid's highly provocative, but immaculately researched book reworks three distinct areas of theology - sexual, political and systematic. It exposes the connections between theology, sexuality and politics, whilst initiating a dramatic sexual rereading of systematic theology. Groundbreaking, intriguing and scholarly, *Indecent Theology* broadens the debate on sexuality and theology as never before.

Célébrons Nos Réussites Féministes Karen Blackford, Marie-Luce Garceau, Sandra Kirby. 1999
Abuses by international corporations, withdrawal of social services and implementation of regressive legislation continue to impoverish women and reduce the quality of their everyday lives: women have reason to be demoralized. Recognizing this challenging and difficult situation, this volume reviews women's successes at feminizing Canadian institutions. It is intended to hearten the women's movement and show the potential for feminist change and suggest ways to realize this potential. Bilingual edition.

Human rights in culturally diverse societies Council of Europe. 2016-08-16 This updated publication contains the Committee of Ministers' guidelines to member States on the protection and promotion of human rights in culturally diverse societies as well as the Compilation of Council of Europe standards relating to the principles of freedom of thought, conscience and religion and links to other human rights upon which the Guidelines are inspired. These standards are based mainly on the European Convention on Human Rights and the jurisprudence of the European Court of Human Rights, but also on conclusions and recommendations of other monitoring mechanisms and other Council of Europe bodies. The Guidelines are innovative as they do not consider these standards in

isolation, rather they rethink and recast them through their interaction with other human rights: freedom of expression, freedom of association and assembly, the right to private life. They are intended as a realistic and usable tool which reflects the often complex interplay of different rights within diverse societies.

Beauvoir in Time Meryl Altman.2020-11-23 Beauvoir in Time situates Simone de Beauvoir's *The Second Sex* in the historical context of its writing and in later contexts of its international reception, from then till now. The book takes up three aspects of Beauvoir's work more recent feminists find embarrassing: bad sex, dated views about lesbians, and intersections with race and class. Through close reading of Beauvoir's writing in many genres, alongside contemporaneous discourses (good and bad novels in French and English, outmoded psychoanalytic and sexological authorities, ethnographic surrealism, the writing of Richard Wright and Franz Fanon), and in light of her travels to the U.S. and China, the author uncovers insights more recent feminist methodologies obscure, showing that Beauvoir is still good to think with today.

Andre Gide and Curiosity Victoria Reid.2009 This comprehensive exploration of curiosity in the fiction and life-writing of André Gide (1869-1951) is an important modernist contribution to the field of curiosity in literature and cultural studies more broadly. Curiosity was a credo for Gide. By observing the world and then manifesting in writing these observations, he stimulates the curiosity of readers, conceived as virtual conduits of a curiosity once his own. Using a thematic structure of sexual, scientific and writerly curiosity, this volume identifies processes of curiosity in the life-writing (including the travel-writing) which illuminate processes in the fiction, and vice versa. Theories of fetishism, gender and sexuality are applied to Gide's corpus to illustrate his championing of a masculine curiosity of enlightenment and adventure over a feminised 'curiosité-défaillance' of disobedience and harm, and to explore objects eliciting his incuriosity. Gide's creativity is nourished by his curiosity, as close readings of his work informed by Melanie Klein's psychoanalytic writing on epistemophilia reveal. Curiosity is a rewarding, non-reductionist perspective from which the exceptional variety of Gide's subject matter, style and genre can be more coherently understood. Research draws principally on the six Pléiade volumes of Gide's oeuvre, published 1996-2009.

Abnormal Michel Foucault.2016-09-01 Three decades after his death, Michel Foucault remains one

of the towering intellectual figures of the last half-century. His works on sexuality, madness, the prison, and medicine are enduring classics. From 1971 until his death in 1984, Foucault gave public lectures at the famous Collge de France. These seminal events, attended by thousands, created the benchmarks for contemporary social enquiry. The lectures comprising *Abnormal* begin by examining the role of psychiatry in modern criminal justice, and its method of categorising individuals who resemble their crime before they commit it. Building on the themes of societal self-defence developed in earlier works, Foucault shows how defining normality became a prerogative of power in the nineteenth century, shaping the institutions-from the prisons to the family-meant to deal with monstrosity, whether sexual, physical, or spiritual. The Collge de France lectures add immeasurably to our appreciation and understanding of Foucault's thought.

Lais of Marie De France Marie de France, Wyatt North. 2020-01-11 ** A Christian Classic ** ** Active Table of Contents ** This book comes complete with a Touch-or-Click Table of Contents, divided by each section. The Lais of Marie de France are a series of twelve short narrative Breton lais by the poet Marie de France. They are written in the Anglo-Norman and were probably composed in the late 12th century. The short, narrative poems generally focus on glorifying the concept of courtly love through the adventures of their main characters. Despite her stature in Anglo-Norman literature and medieval French literature generally, little is known of Marie herself, though it is thought that she was born in France and wrote in England. Marie de France's lais, told in octosyllabic, or eight syllable verse, are notable for their celebration of love, individuality of character, and vividness of description - hallmarks of the emerging literature of the times. Five different manuscripts contain one or more of the lais, but only one, Harley 978, a thirteenth century manuscript housed in the British Library, preserves all twelve. It has been suggested that if the

author had indeed arranged the Lais as presented in Harley 978, that she may have chosen this overall structure to contrast the positive and negative actions that can result from love. In this manuscript, the odd lais — Guigemar, Le Fresne, etc. — praise the characters who express love for other people. By comparison, the even lais, such as Equitan, Bisclavret and so on, warn how love that is limited to oneself can lead to misfortune. The Harley 978 manuscript also includes a 56-line prologue in which Marie describes the impetus for her composition of the lais. In the prologue, Marie writes that she was inspired by the example of the ancient Greeks and Romans to create something that would be both entertaining and morally instructive. She also states her desire to preserve for posterity the tales that she has heard. Two of Marie's lais - Lanval, a very popular work that was adapted several times over the years (including the Middle English Sir Launfal), and Chevrefoil (The Honeysuckle), a short composition about Tristan and Iseult - mention King Arthur and his Knights of the Round Table. Marie's lais were precursors to later works on the subject, and Marie was probably a contemporary of Chrétien de Troyes, another writer of Arthurian tales. You can buy other wonderful religious books from Wyatt North Publishing! Enjoy.

Customary International Humanitarian Law Jean-Marie Henckaerts, Carolin Alvermann, Comité international de la Croix-Rouge. 2005-03-03 Customary International Humanitarian Law, Volume I:

Rules is a comprehensive analysis of the customary rules of international humanitarian law applicable in international and non-international armed conflicts. In the absence of ratifications of important treaties in this area, this is clearly a publication of major importance, carried out at the express request of the international community. In so doing, this study identifies the common core of international humanitarian law binding on all parties to all armed conflicts. Comment Don:RWI.

Mapping a Tradition Sam Haigh.2000 In recent years, critical interest in francophone literature has become increasingly pronounced. In the case of the French Caribbean, the work of several writers (Aime Cesaire, Frantz Fanon, Edouard Glissant and Patrick Chamoiseau, for example) has gained international recognition, and has formed a vital part of more general debates on history, culture, language and identity in the post colonial world. The majority of such writers, however, have been male and, perhaps recalling the preference that France has always shown for the island, have come in large part from Martinique. Mapping a Tradition: Francophone Women's Writing from Guadeloupe aims to explore a different side of francophone Caribbean writing through the examination of selected novels by Jacqueline Manicom, Michele Lacrosil, Maryse Conde, Simone Schwarz-Bart and Dany Bebel-Gisler. Placing the work of these writers in the context of that of their better-known, male counterparts, this study argues that it has provided an important mode of intervention in, and disruption of, a literary tradition which has failed to address questions of sexual difference and has often excluded issues relating to French Caribbean women. At the same time, this study suggests that Guadeloupean women's writing of the last thirty years may be seen to constitute a 'tradition' in itself, replete with its own influences and inheritances. At once within, and outside the 'dominant' tradition, women's writing from Guadeloupe - and Martinique - has come to occupy a position at the forefront of contemporary efforts to expand and redefine a still-burgeoning corpus of

literary and theoretical work.

Fashionable Nonsense Alan Sokal, Jean Bricmont.2014-01-14 In 1996 physicist Alan Sokal published an essay in *Social Text*--an influential academic journal of cultural studies--touting the deep similarities between quantum gravitational theory and postmodern philosophy. Soon thereafter, the essay was revealed as a brilliant parody, a catalog of nonsense written in the cutting-edge but impenetrable lingo of postmodern theorists. The event sparked a furious debate in academic circles and made the headlines of newspapers in the U.S. and abroad. Now in *Fashionable Nonsense: Postmodern Intellectuals' Abuse of Science*, Sokal and his fellow physicist Jean Bricmont expand from where the hoax left off. In a delightfully witty and clear voice, the two thoughtfully and thoroughly dismantle the pseudo-scientific writings of some of the most fashionable French and American intellectuals. More generally, they challenge the widespread notion that scientific theories are mere narrations or social constructions.

Why We Play Roberte Hamayon.2016 Play is one of humanity's straightforward yet deceitful ideas: though the notion is unanimously agreed upon to be universal, used for man and animal alike,

nothing defines what all its manifestations share, from childish playtime to on stage drama, from sporting events to market speculation. Within the author's anthropological field of work (Mongolia and Siberia), playing holds a core position: national holidays are called Games, echoing in that way the circus games in Ancient Rome and today's Olympics. These games convey ethical values and local identity. Roberte Hamayon bases her analysis of the playing spectrum on their scrutiny. Starting from fighting and dancing, encompassing learning, interaction, emotion and strategy, this study heads towards luck and belief as well as the ambiguity of the relation to fiction and reality. It closes by indicating two features of play: its margin and its metaphorical structure. Ultimately revealing its consistency and coherence, the author displays play as a modality of action of its own. Playing is no 'doing' in the ordinary sense once wrote Johan Huizinga. Isn't playing doing something else, elsewhere and otherwise ?

Retrieving Experience Sonia Kruks.2018-09-05 In *Retrieving Experience*, Sonia Kruks engages critically with the postmodern turn in feminist and social theory. She contends that, although postmodern analyses yield important insights about the place of discourse in constituting subjectivity, they lack the ability to examine how experience often exceeds the limits of discourse. To address this lack and explain why it matters for feminist politics, Kruks retrieves and employs aspects of postwar French existential theory—a tradition that, she argues, postmodernism has obscured by militantly rejecting its own genealogy. Kruks seeks to refocus our attention on the importance for feminism of embodied and lived experiences. Through her original readings of Simone de Beauvoir and other existential thinkers—including Sartre, Fanon, and Merleau-Ponty—and her own analyses inspired by their work, Kruks sheds new light on central problems in feminist theory and politics. These include debates about subjectivity and individual agency;

questions about recognition and identity politics; and discussion of whether embodied experiences may sometimes facilitate solidarity among groups of different women.
