

Explain The Purpose Of Prioritise Requests

College Success Amy Baldwin.2020-03

Getting Things Done David Allen.2015-03-17 The book *Lifehack* calls *The Bible of business and personal productivity*. A completely revised and updated edition of the blockbuster bestseller from 'the personal productivity guru'—Fast Company Since it was first published almost fifteen years ago, David Allen's *Getting Things Done* has become one of the most influential business books of its era, and the ultimate book on personal organization. "GTD" is now shorthand for an entire way of approaching professional and personal tasks, and has spawned an entire culture of websites, organizational tools, seminars, and offshoots. Allen has rewritten the book from start to finish, tweaking his classic text with important perspectives on the new workplace, and adding material that will make the book fresh and relevant for years to come. This new edition of *Getting Things Done* will be welcomed not only by its hundreds of thousands of existing fans but also by a whole new generation eager to adopt its proven principles.

The Focused Organization Antonio Nieto-Rodriguez.2016-03-16 In *The Focused Organization* Antonio Nieto-Rodriguez shows you how fewer, more effectively elected and managed projects are the key to strategic and long-term success. Using his own research and work experience he explains how and why those organizations that focus on just a few key initiatives can perform significantly better than unfocused organizations, not only financially but also in achieving their strategic objectives and motivating their staff. The author introduces a new way of looking at a company through two very different and often conflicting dimensions: running-the-business and changing-the-business. What you add to one dimension you have to subtract from the other one. Finding the right balance between these two dimensions represents one of the major challenges to successful strategy execution. Becoming a focused organization involves a radical change in the way companies are organized and the way they select and manage projects - the creation of a new culture. *The Focused Organization* discusses the characteristics that comprise a focused organization. It describes key areas where a focused organization builds its levels of maturity; provides examples of focused organizations that outperform the rest; and explains in practical steps how all enterprises can become focused. The book finishes with a unique and inspiring case study that transports us to the early days of the current business world. Through the main character, Benny White, we learn how a business was conducted and how management evolved over decades with the introduction of business theories, including project management.

An Executive's Guide to Fundraising Operations Christopher M. Cannon.2011-02-23 A straightforward guide to the principles of effective fundraising operations *An Executive Guide to Fundraising Operations* provides fundraisers with easy-to-understand approaches to evaluate and address fundraising operations needs and opportunities. This guide simplifies and focuses on the analysis of problems and needs, allowing a quick return to fundraising. Provides the essential framework to improve and innovate development operations Includes dozens of practical tools, including sample policies for data, database, reporting, and business processes Offers sample workflow illustrations for gift processing and acknowledgment, report specification, and other processes Features sample reports for campaign management, performance management, and exception management Delivers effective calculators for operational rules of thumb No matter what the department is called, most fundraisers struggle with evaluating operational issues. This guide leads you through principles of effective fundraising operations, simplifies complicated topics, and offers solutions to some of the most vexing operations dilemmas.

Product Leadership Richard Banfield,Martin Eriksson,Nate Walkingshaw.2017-05-12 In today's lightning-fast technology world, good product management is critical to maintaining a competitive advantage. Yet, managing human beings and navigating complex product roadmaps is no easy task, and it's rare to find a product leader who can steward a digital product from concept to launch without a couple of major hiccups. Why do some product leaders succeed while others don't? This insightful book presents interviews with nearly 100 leading product managers from all over the world. Authors Richard Banfield, Martin Eriksson, and Nate Walkingshaw draw on decades of experience in product design and development to capture the approaches, styles, insights, and techniques of successful product managers. If you want to understand what drives good product leaders, this book is an irreplaceable resource. In three parts, *Product Leadership* helps you explore: Themes and patterns of successful teams and their leaders, and ways to attain those characteristics Best approaches for guiding your product team through the startup, emerging, and enterprise stages of a company's evolution Strategies and tactics for working with customers, agencies, partners, and external stakeholders

Think Like a Monk Jay Shetty.2020-09-08 Jay Shetty, social media superstar and host of the #1 podcast *On Purpose*, distills the timeless wisdom he learned as a monk into practical steps anyone can take every day to live a less anxious, more meaningful life. When you think like a monk, you'll understand: -How to overcome negativity -How to stop overthinking -Why comparison kills love -How to use your fear -Why you can't find happiness by looking for it -How to learn from everyone you meet -Why you are not your thoughts -How to find your purpose -Why kindness is crucial to success -And much more... Shetty grew up in a family where you could become one of three things—a doctor, a lawyer, or a failure. His family was convinced he had chosen option three: instead of attending his college graduation ceremony, he headed to India to become a monk, to meditate every day for four to eight hours, and devote his life to helping others. After three years, one of his teachers told him that he would have more impact on the world if he left the monk's path to share his experience and wisdom with others. Heavily in debt, and with no recognizable skills on his résumé, he moved back home in north London with his parents. Shetty reconnected with old school friends—many working for some of the world's largest corporations—who were experiencing tremendous stress, pressure, and unhappiness, and they invited Shetty to coach them on well-being, purpose, and mindfulness. Since then, Shetty has become one of the world's most popular influencers. In 2017, he was named in the *Forbes* magazine 30-under-30 for being a game-changer in the world of media. In 2018, he had the #1 video on Facebook with over 360 million views. His social media following totals over 38 million, he has produced over 400 viral videos which have amassed more than 8 billion views, and his podcast, *On Purpose*, is consistently ranked the world's #1 Health and Wellness podcast. In this inspiring, empowering book, Shetty draws on his time as a monk to show us how we can clear the roadblocks to our potential and power. Combining ancient wisdom and his own rich experiences in the ashram, *Think Like a Monk* reveals how to overcome negative thoughts and habits, and access the calm and purpose that lie within all of us. He transforms abstract lessons into advice and exercises we can all apply to reduce stress, improve relationships, and give the gifts we find in ourselves to the world. Shetty proves that everyone can—and should—think like a monk.

Scientific Opportunities and Public Needs Institute of Medicine,Committee on the NIH Research Priority-Setting Process.1998-07-30 The National Institutes of Health (NIH) is the single largest funder of health research in the United States, and research it has supported has been pivotal to the explosion of biomedical knowledge over the past century. As NIH's success has grown, so has pressure from advocacy groups and other members of

the public to devote more spending to their health concerns. In response to a request from Congress, this IOM study reviewed NIH's research priority-setting process and made recommendations for possible improvement. The committee considered the: Factors and criteria used by NIH to make funding allocations. Process by which the funding decisions are made. Mechanisms for public input. Impact of congressional statutory directives on funding decisions. Among other recommendations, the book recommends that NIH seek broader public input on decisions about how to spend its nearly \$14 billion budget; it also urged the agency to create new Offices of Public Liaison in the Office of the Director and in each of the 21 research institutes to allow interested people to formally take part in the process.

User-Centric Networking Alessandro Aldini, Alessandro Bogliolo. 2014-05-07 This work represents a milestone for the ULOOP User-centric Wireless Local Loop project funded by the EU IST Seventh Framework Programme. ULOOP is focused on the robust, secure, and autonomic deployment of user-centric wireless networks. Contributions by ULOOP partners as well as invited tutorials by international experts in the field. The expected impact is to increase awareness to user-centric networking in terms, e.g., of business opportunities and quality of experience, and to present adequate technology to sustain the growth of user-friendly wireless architectures. Throughout the last 3 years, ULOOP has developed enabling technologies for user-centricity in wireless networks, with particular emphasis on social trust management, cooperation incentives, community building, mobility estimation, and resource management. This work will be of interest to researchers, policymakers, operators, vendors, and end-users interested in the current and future directions of user-centric access networks.

Euro-Par 2021: Parallel Processing Leonel Sousa, Nuno Roma, Pedro Tomás. 2021-08-28 This book constitutes the proceedings of the 27th International Conference on Parallel and Distributed Computing, Euro-Par 2021, held in Lisbon, Portugal, in August 2021. The conference was held virtually due to the COVID-19 pandemic. The 38 full papers presented in this volume were carefully reviewed and selected from 136 submissions. They deal with parallel and distributed computing in general, focusing on compilers, tools and environments; performance and power modeling, prediction and evaluation; scheduling and load balancing; data management, analytics and machine learning; cluster, cloud and edge computing; theory and algorithms for parallel and distributed processing; parallel and distributed programming, interfaces, and languages; parallel numerical methods and applications; and high performance architecture and accelerators.

Global Forum on Transparency and Exchange of Information for Tax Purposes Peer Reviews: Latvia 2015 Phase 2: Implementation of the Standard in Practice OECD. 2015-10-30 This report contains the 2014 "Phase 2: Implementation of the Standards in Practice" Global Forum review of Latvia.

The Law of Priorities John C. Maxwell. 2012-08-27 Jack Welch took a company that was already flying high and rocketed it into the stratosphere. What did he use as the launching pad? The Law of Priorities, of course.

How to Sell Value - Demystified Crispin Manners. 2023-10-19 The book demystifies how to charge according to the value delivered so agencies are more resilient, flexible and successful. It is a book that leaders will give to their people to use and reuse as a simple to follow guide.

How to Lead in Product Management: Practices to Align Stakeholders, Guide Development Teams, and Create Value Together Roman

Pichler. 2020-03-10 This book will help you become a better product leader. Benefitting from Roman Pichler's extensive experience, you will learn how to align stakeholders and guide development teams even in challenging circumstances, avoid common leadership mistakes, and grow as a leader. Written in an engaging and easily accessible style, *How to Lead in Product Management* offers a wealth of practical tips and strategies. Through helpful examples, the book illustrates how you can directly apply the techniques to your work. Coverage includes: * Choosing the right leadership style * Cultivating empathy, building trust, and influencing others * Increasing your authority and empowering others * Directing stakeholders and development teams through common goals * Making decisions that people will support and follow through * Successfully resolving disputes and conflicts even with senior stakeholders * Listening deeply to discover and address hidden needs and interests * Practising mindfulness and embracing a growth mindset to develop as a leader Praise for *How to Lead in Product Management*: Roman has done it again, delivering a practical book for the product management community that appeals to both heart and mind. *How to Lead in Product Management* is packed with concise, direct, and practical advice that addresses the deeper, personal aspects of the product leadership. Roman's book shares wisdom on topics including goals, healthy interactions with stakeholders, handling conflict, effective conversations, decision-making, having a growth mindset, and self-care. It is a must read for both new and experienced product people. ~Ellen Gottesdiener, Product Coach at EBG Consulting Being a great product manager is tough. It requires domain knowledge, industry knowledge, technical skills, but also the skills to lead and inspire a team. Roman Pichler's *How to Lead in Product Management* is the best book I've read for equipping product managers to lead their teams. ~Mike Cohn, Author of *Succeeding with Agile, Agile Estimating and Planning, and User Stories Applied* This is the book that has been missing for product people. Roman has created another masterpiece, a fast read with lots of value. It's a must read for every aspiring product manager. ~Magnus Billgren, CEO of Tolpagorni Product Management *How Lead in Product Management* is for everyone who manages a product or drives important business decisions. Roman lays out the key challenges of product leadership and shows us ways of thoughtfully working with team members, stakeholders, partners, and the inevitable conflicts. ~Rich Mironov, CEO of Mironov Consulting and Smokejumper Head of Product

IT Governance: Policies and Procedures, 2021 Edition Wallace, Webber. 2020-11-06 The role of IT management is changing even more quickly than information technology itself. *IT Governance Policies & Procedures, 2021 Edition*, is an updated guide and decision-making reference that can help you to devise an information systems policy and procedure program uniquely tailored to the needs of your organization. This valuable resource not only provides extensive sample policies, but also gives the information you need to develop useful and effective policies for your unique environment. For fingertip access to the information you need on IT governance, policy and planning, documentation, systems analysis and design, and much more, the materials in this ready-reference desk manual can be used by you or your staff as models or templates to create similar documents for your own organization. The 2021 Edition brings you the following changes: The chapter on Information Technology Infrastructure Library (ITIL) has been thoroughly revised to incorporate the recent launch of ITIL version 4. The sections on causes of employee burnout, as well as the potential pitfalls of poor recruiting practices, have been expanded. New material has been added to address the increased use of video conferencing for virtual workers, as well as the need to safeguard personal smartphones that store company information. Tips for developing a mobile device policy have been added. Additional pitfalls associated with end-user computing have been added. A new subsection regarding data storage guidelines for documents subject to data retention laws has been added. Additional tips regarding data management have been added. Appendix A has been updated to include data breach notification laws for Puerto Rico and the Virgin Islands, and also to reflect changes to Vermont's data breach notification laws. Data from recent surveys and reports has been added and updated in the Comment sections throughout. In addition, exhibits, sample policies, and worksheets are included in each chapter, which can also be accessed at WoltersKluwerLR.com/ITgovAppendices. You can copy these exhibits, sample policies, and worksheets and use them as a starting point for developing your own resources by making the necessary changes. Previous Edition: *IT Governance: Policies & Procedures, 2020 Edition* ISBN 9781543810998

Implementing the DMA: substantive and procedural principles Alexandre de Streel, Marc Bourreau, Richard Feasey, Amelia Fletcher, Jan Krämer, Giorgio Monti. 2024-01-17 In the dynamic landscape of EU digital platforms regulation, we are at a focal point of discussions shaping the future of implementation of the Digital Markets Act – arguably one of the most important pieces of legislation of the current times' digital policy sphere. With the DMA aiming for contestability and fairness in digital markets, designated gatekeeper platforms are set to unveil their compliance plans on March 2024. The European Commission, in its unique role as an enforcer, will lead the work of determining non-compliance and ensure that the DMA fulfils its ambitious goals. However, the success of implementation will depend on the principles on which the new law will be applied. This CERRE report recommends that the DMA implementation process should be guided by the substantive principles of effectiveness, proportionality, non-discrimination, legal predictability, and consistency with other EU laws. Furthermore, the Commission will have to approach enforcement taking into account the procedural principles of responsive regulation and participation, due process, and ex ante and ex post evaluation. The report then applies those principles to series of specific DMA obligations: choice architecture, horizontal and vertical interoperability and data related obligations. It is also essential to agree on how the Commission, gatekeepers, and third parties will engage with each other. The DMA provides a

model of compliance which is not based solely on deterrence; instead, the gatekeepers are encouraged to and will comply by engaging co-operatively with the Commission and third parties. However, it is still up for question how this principle will be applied, what it expects from the stakeholders, and how the Commission itself will exercise its deterring powers to enforce compliance. On top of it all, this CERRE DMA edition is also proposing a set of quantitative measurement indicators, so-called output indicators, each relating to a particular obligation or set of obligations, in order to better understand the impact of obligations on the relations between gatekeepers and third parties. These quantitative indicators will not represent specific targets or thresholds against which compliance should be assessed. They will neither attempt to measure the effect of changes in conduct on market outcomes for users nor, more generally, competition. These quantitative measures will be added to other evidence, such as complaints or qualitative representations from affected parties, including gatekeepers, which the Commission will consider in its compliance assessments. This report was written in the framework of a 8-months-long, multi-stakeholder CERRE initiative entitled the 'DMA Compliance Forum' that created a neutral and trusted platform and facilitated dialogue among CERRE members and academics to contribute to the effective and proportionate enforcement of the regulation.

User Story Mapping Jeff Patton, Peter Economy. 2014-09-05 User story mapping is a valuable tool for software development, once you understand why and how to use it. This insightful book examines how this often misunderstood technique can help your team stay focused on users and their needs without getting lost in the enthusiasm for individual product features. Author Jeff Patton shows you how changeable story maps enable your team to hold better conversations about the project throughout the development process. Your team will learn to come away with a shared understanding of what you're attempting to build and why. Get a high-level view of story mapping, with an exercise to learn key concepts quickly. Understand how stories really work, and how they come to life in Agile and Lean projects. Dive into a story's lifecycle, starting with opportunities and moving deeper into discovery. Prepare your stories, pay attention while they're built, and learn from those you convert to working software.

Between-Election Democracy Hanne Marthe Narud, Peter Esaiasson. 2013-10-02 Acknowledging the elitist character of representative democracy, this book seeks new approaches to empirical studies on the relationship between citizens and their elected representatives. Focusing on the way representatives and citizens interact during mandate periods between elections, it integrates research literatures that study representative parallel relationships; it identifies new research questions; and it suggests a new understanding of the key concept 'responsiveness'.

The Flexibility Paradox Heejung Chung. 2022-03-04 Does flexible working really provide a better work-life balance? Throughout the COVID-19 pandemic, flexible working has become the norm for many workers. This volume offers an original examination of flexible working using data from 30 European countries and drawing on studies conducted in Australia, the US and India. Rather than providing a better work-life balance, the book reveals how flexible working can lead to exploitation, which manifests differently for women and men, such as more care responsibilities or increased working hours. Taking a critical stance, this book investigates the potential risks and benefits of flexible working and provides crucial policy recommendations for overcoming the negative consequences.

IT Governance: Policies and Procedures, 2020 Edition Wallace, Webber. 2019-11-12 IT Governance: Policies & Procedures, 2020 Edition is the premier decision-making reference to help you to devise an information systems policy and procedure program uniquely tailored to the needs of your organization. Not only does it provide extensive sample policies, but this valuable resource gives you the information you need to develop useful and effective policies for your unique environment. Qualitative research on impacts of the Zambia Home Grown School Feeding and Conservation Agriculture Scale Up Programmes Nesbitt-Ahmed, Z., Pozarny, P.. 2021-05-12 This in-depth qualitative study in Zambia is integral to a mixed method impact evaluation of the Home Grown School Feeding (HGSF) and the Conservation Agriculture Scale Up (CASU) programmes. Zambia's HGSF (launched in 2011, and institutionalized in 2012, by the Government of Zambia in collaboration with the World Food Programme, WFP) provides nutritious cooked meals to almost one million schoolchildren and WFP's Purchase for Progress (P4P) programme procures the commodities that make up the school meals provided by HGSF. P4P aims to improve livelihoods and address food insecurity by expanding local market opportunities for smallholder farmers in rural areas. The CASU programme (implemented between 2013 and late 2017 by FAO) aimed to provide solutions to declining crop production among small- and medium-scale farmers, strengthen partnership and networking between the Zambian government and cooperating partners, non-governmental organizations (NGOs) and the private sector, and reduce hunger, improve food security and income by increasing crop production, diversification and productivity. The aim of the qualitative study is to contextualise the findings of a quantitative impact evaluation conducted between October 2017 and January 2018, and deepen understanding of how and why specific findings and impacts transpired.

IT Governance Michael Wallace, Larry Webber. 2015-09-01 IT Governance: Policies and Procedures, 2016 Edition is the premier decision-making reference to help you to devise an information systems policy and procedure program uniquely tailored to the needs of your organization. Not only does it provide extensive sample policies, but this valuable resource gives you the information you need to develop useful and effective policies for your unique environment. IT Governance: Policies and Procedures provides fingertip access to the information you need on: Policy and planning, Documentation, Systems analysis and design. And more!

First Things First Stephen R. Covey, A. Roger Merrill, Rebecca R. Merrill. 1995 A guide to managing your time by learning how to balance your life.

Revenue Operations Explained Megan Foster. 2024-02-10 A strategic roadmap to increase revenue and decrease sales cost as scale. Cracks are forming when sales organizations scale. They lack process, alignment and strategic resource allocation - so how can you do better? Revenue Operations: Explained is a strategic roadmap explaining deciphering the role of RevOps in achieving measurable and sustainable growth. Packed with seven, future-proof, proven strategies from Foster's own journey as Revenue Operations Lead at high growth SaaS companies such as Google and multiple start-ups. You will learn how to: • Understand future value of new business and allocate resources; • Focus on revenue generating insights instead of reporting; • Make automation prioritization decisions based on value and risk; • Set up a cross-departmental feedback loop to increase retention; • Enable unification and collaboration between marketing and sales through data; • Customize content at scale to stay relevant and drive 40% more revenue; • Prepare for a future in a world where generative artificial intelligence is a commodity; Revenue Operations: Explained offers essential knowledge for every founder or sales leader aspiring to do more with less.

A Practical Guide to Managing Information Security Steve Purser. 2004 This groundbreaking book helps you master the management of information security, concentrating on the recognition and resolution of the practical issues of developing and implementing IT security for the enterprise. Drawing upon the authors' wealth of valuable experience in high-risk commercial environments, the work focuses on the need to align the information security process as a whole with the requirements of the modern enterprise, which involves empowering business managers to manage information security-related risk. Throughout, the book places emphasis on the use of simple, pragmatic risk management as a tool for decision-making. The first book to cover the strategic issues of IT security, it helps you to: understand the difference between more theoretical treatments of information security and operational reality; learn how information security risk can be measured and subsequently managed; define and execute an information security strategy design and implement a security architecture; and ensure that limited resources are used optimally. Illustrated by practical examples, this topical volume reveals the current problem areas in IT security deployment and management. Moreover, it offers guidelines for writing scalable and flexible procedures for developing an IT security strategy and monitoring its implementation. You discover an approach for reducing complexity and risk, and find tips for building a successful team and managing communications issues within the organization. This

essential resource provides practical insight into contradictions in the current approach to securing enterprise-wide IT infrastructures, recognizes the need to continually challenge dated concepts, demonstrates the necessity of using appropriate risk management techniques, and evaluates whether or not a given risk is acceptable in pursuit of future business opportunities.

Global Forum on Transparency and Exchange of Information for Tax Purposes: Latvia 2023 (Second Round) Peer Review Report on the Exchange of Information on Request OECD.2023-11-08 This peer review report analyses the practical implementation of the standard of transparency and exchange of information on request in Latvia, as part of the second round of reviews conducted by the Global Forum on Transparency and Exchange of Information for Tax Purposes since 2016.

Take Back Your Time Christy Wright.2021-09-14 It's not about doing more. IT'S ABOUT DOING WHAT MATTERS. As a busy mom with three young kids and a career, #1 national bestselling author Christy Wright knows what it's like to try to do it all and be stretched too thin. After years of running on empty, she realized she had to do something different. It wasn't just a matter of saying no to a few things. She had to figure out why she felt overwhelmed, overcommitted, and out of balance. Here's what she discovered: Life balance isn't something you do. It's something you feel. The great news is you can feel balanced — even in your busy life. In Take Back Your Time, Christy redefines what balance is and reveals the clear path to actually achieve it. You'll learn how to: Identify what balance looks like in your unique situation and season. Find confidence in the choices that are right for you. Feel peace even during chaotic times. Learn how to be present for your life and actually enjoy it! You weren't created to live busy and burnt out, unhappy and unfulfilled. You shouldn't be haunted by some elusive idea of balancing it all. There's more for you right now. Today. And it starts with taking back your time the guilt-free way.

Harvard Business Review Project Management Handbook Antonio Nieto-Rodriguez.2021-10-19 The one primer you need to launch, lead, and sponsor successful projects. We're now living in the project economy. The number of projects initiated in all sectors has skyrocketed, and project management skills have become essential for every leader and manager. Still, project failure rates remain extremely high. Why? Leaders oversee too many projects and have too little visibility into them. Project managers struggle to translate their hands-on, technical knowledge up to senior management. The result? Worthy projects are starved of time and resources and fail to deliver benefits, while too much investment goes into the wrong projects. To compete in the project economy, you need to close this gap. The HBR Project Management Handbook shows you how. In this comprehensive guide, project management expert Antonio Nieto-Rodriguez presents a new and simple framework that will increase any project's likelihood of success. Packed with case studies from many industries worldwide, it will teach you how to manage your organization's projects, strategic programs, and agile initiatives more effectively and push the best ones ahead to completion. Timeless yet forward-looking, this book will help you win in the project-driven world. In the HBR Project Management Handbook you'll find: Everything you need to know about project management in practical, nontechnical language A definitive taxonomy of project types, from product launches to digital transformations to megaprojects A road map for becoming an effective project leader and executive sponsor A new, simple, and universal project framework, the Project Canvas, that breaks down any project into essential building blocks that can be easily understood by all project stakeholders Original concepts and exclusive case studies from public- and private-sector organizations worldwide You'll learn: A common language for project managers and executives to run successful projects across your organization When to use agile, traditional, or hybrid methods in your projects The twelve principles of successful projects, including purpose, agility, and a focus on outcomes Techniques for selecting and advancing the best projects and managing a strategic and balanced project portfolio How today's projects will help address some of the most pressing global trends, including automation, sustainability, diversity, and crisis management Why project management needed to be reinvented and what the future holds HBR Handbooks provide ambitious professionals with the frameworks, advice, and tools they need to excel in their careers. With step-by-step guidance, time-honed best practices, and real-life stories, each comprehensive volume helps you to stand out from the pack—whatever your role.

Artificial Intelligence for Robotics and Autonomous Systems Applications Ahmad Taher Azar, Anis Koubaa.2023-05-15 This book addresses many applications of artificial intelligence in robotics, namely AI using visual and motional input. Robotic technology has made significant contributions to daily living, industrial uses, and medicinal applications. Machine learning, in particular, is critical for intelligent robots or unmanned/autonomous systems such as UAVs, UGVs, UUVs, cooperative robots, and so on. Humans are distinguished from animals by capacities such as receiving visual information, adjusting to uncertain circumstances, and making decisions to take action in a complex system. Significant progress has been made in robotics toward human-like intelligence; yet, there are still numerous unresolved issues. Deep learning, reinforcement learning, real-time learning, swarm intelligence, and other developing approaches such as tiny-ML have been developed in recent decades and used in robotics. Artificial intelligence is being integrated into robots in order to develop advanced robotics capable of performing multiple tasks and learning new things with a better perception of the environment, allowing robots to perform critical tasks with human-like vision to detect or recognize various objects. Intelligent robots have been successfully constructed using machine learning and deep learning AI technology. Robotics performance is improving as higher quality, and more precise machine learning processes are used to train computer vision models to recognize different things and carry out operations correctly with the desired outcome. We believe that the increasing demands and challenges offered by real-world robotic applications encourage academic research in both artificial intelligence and robotics. The goal of this book is to bring together scientists, specialists, and engineers from around the world to present and share their most recent research findings and new ideas on artificial intelligence in robotics.

Agile Product Management with Scrum Roman Pichler.2010-03-11 The First Guide to Scrum-Based Agile Product Management In Agile Product Management with Scrum, leading Scrum consultant Roman Pichler uses real-world examples to demonstrate how product owners can create successful products with Scrum. He describes a broad range of agile product management practices, including making agile product discovery work,

taking advantage of emergent requirements, creating the minimal marketable product, leveraging early customer feedback, and working closely with the development team. Benefitting from Pichler's extensive experience, you'll learn how Scrum product ownership differs from traditional product management and how to avoid and overcome the common challenges that Scrum product owners face. Coverage includes Understanding the product owner's role: what product owners do, how they do it, and the surprising implications Envisioning the product: creating a compelling product vision to galvanize and guide the team and stakeholders Grooming the product backlog: managing the product backlog effectively even for the most complex products Planning the release: bringing clarity to scheduling, budgeting, and functionality decisions Collaborating in sprint meetings: understanding the product owner's role in sprint meetings, including the dos and don'ts Transitioning into product ownership: succeeding as a product owner and establishing the role in the enterprise This book is an indispensable resource for anyone who works as a product owner, or expects to do so, as well as executives and coaches interested in establishing agile product management.

The Top Books of the Year Explain The Purpose Of Prioritise Requests The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous captivating novels captivating the hearts of readers worldwide. Lets delve into the realm of top-selling books, exploring the engaging narratives that have charmed audiences this year. The Must-Read : Colleen Hoovers "It Ends with Us" This touching tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover skillfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can triumph. Explain The Purpose Of Prioritise Requests : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This captivating historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids compelling storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens "Where the Crawdads Sing" This evocative coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens weaves a tale of resilience, survival, and the transformative power of nature, entrancing readers with its evocative prose and mesmerizing setting. These bestselling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of captivating stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a exceptional and suspenseful novel that will keep you guessing until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
