Reclaiming Conversation Sherry Turkle.2016-10-04 "In a time in which the ways we communicate and connect are constantly changing, and not always for the better, Sherry Turkle provides a much needed voice of caution and reason to help explain what the f*** is going on." —Aziz Ansari, author of *Modern Romance* Renowned media scholar Sherry Turkle investigates how a flight from conversation undermines our relationships, creativity, and productivity—and why reclaiming face-to-face conversation can help us regain lost ground. We live in a technological universe in which we are always communicating. And yet we have sacrificed conversation for mere connection. Preeminent author and researcher Sherry Turkle has been studying digital culture for over thirty years. Long an enthusiast for its possibilities, here she investigates a troubling consequence: at work, at home, in politics, and in love, we find ways around conversation, tempted by the possibilities of a text or an email in which we don't have to look, listen, or reveal ourselves. We develop a taste for what mere connection offers. The dinner table falls silent as children compete with phones for their parents' attention. Friends learn strategies to keep conversations going when only a few people are looking up from their phones. At work, we retreat to our screens although it is conversation at the water cooler that increases not only productivity but commitment to work. Online, we only want to share opinions that our followers will agree with - a politics that shies away from the real conflicts and solutions of the public square. The case for conversation begins with the necessary conversations of solitude and self-reflection. They are endangered: these days, always connected, we see loneliness as a problem that technology should solve. Afraid of being alone, we rely on other people to give us a sense of ourselves, and our capacity for empathy and relationship suffers. We see the costs of the flight from conversation everywhere: conversation is the cornerstone for democracy and in business it is good for the bottom line. In the private sphere, it builds empathy, friendship, love, learning, and productivity. But there is good news: we are resilient. Conversation cures. Based on five years of research and interviews in homes, schools, and the workplace, Turkle argues that we have come to a better understanding of where our technology can and cannot take us and that the time is right to reclaim conversation. The most human—and humanizing—thing that we do. The virtues of person-to-person conversation are timeless, and our most basic technology, talk, responds to our modern challenges. We have everything we need to start, we have each other. Turkle's latest book, *The Empathy Diaries* (3/2/21) is available now.

The Devil's Grin Annelie Wendeborg.2015-02-09 In Victorian London's cesspool of crime and disease, a series of murders remains undiscovered until a cholera victim is found floating in the city's drinking water supply. Dr Anton Kronberg, England's best bacteriologist, is called upon to investigate and finds evidence of abduction and medical maltreatment. While Scotland Yard has little interest in pursuing the case, Kronberg pushes on and crosses paths with Sherlock Holmes. The detective immediately discovers Kronberg's secret - a woman masquerading as a man in order to practice medicine - a criminal deed that could land her in prison for years to come. But both must join forces to stop a crime so monstrous, it outshines Jack the Ripper's deeds in brutality and cold-bloodedness.

Piggybook Anthony Browne.2008 Illus. in full color. Mr. Piggott and his sons are a male chauvinist lot who, outside of yelling for their dinner, don't exercise themselves much around the house. When Mrs. Piggott finally tires of the endless chores that sandwich her workday, she leaves the menfolk on their own, with a note saying, 'You are pigs.' With the cooking and housework untended, they soon turn genuinely porcine, a transformation Browne foreshadows with pig faces on the wallpaper, vases, fireplace, phone. As in most of Browne's art, there is more than a touch of irony and visual humor here. Fun to read aloud.--Bulletin, Center for Children's Books.

Cat Sense John Bradshaw.2013-09-10 Cats have been popular household pets for thousands of years, and their numbers only continue to rise. Today there are three cats for every dog on the

planet, and yet cats remain more mysterious, even to their most adoring owners. Unlike dogs, cats evolved as solitary hunters, and, while many have learned to live alongside humans and even feel affection for us, they still don't quite "get us" the way dogs do, and perhaps they never will. But cats have rich emotional lives that we need to respect and understand if they are to thrive in our company. In *Cat Sense*, renowned anthrozoologist John Bradshaw takes us further into the mind of the domestic cat than ever before, using cutting-edge scientific research to dispel the myths and explain the true nature of our feline friends. Tracing the cat's evolution from lone predator to domesticated companion, Bradshaw shows that although cats and humans have been living together for at least eight thousand years, cats remain independent, predatory, and wary of contact with their own kind, qualities that often clash with our modern lifestyles. Cats still have three out of four paws firmly planted in the wild, and within only a few generations can easily revert back to the independent way of life that was the exclusive preserve of their predecessors some 10,000 years ago. Cats are astonishingly flexible, and given the right environment they can adapt to a life of domesticity with their owners—but to continue do so, they will increasingly need our help. If we're to live in harmony with our cats, Bradshaw explains, we first need to understand their inherited quirks: understanding their body language, keeping their environments—however small—sufficiently interesting, and becoming more proactive in managing both their natural hunting instincts and their relationships with other cats. A must-read for any cat lover, *Cat Sense* offers humane, penetrating insights about the domestic cat that challenge our most basic assumptions and promise to dramatically improve our pets' lives—and ours.

Daring Greatly Brené Brown. 2013-01-17 Researcher and thought leader Dr. Brené Brown offers a powerful new vision in *Daring Greatly* that encourages us to embrace vulnerability and imperfection, to live wholeheartedly and courageously. 'It is not the critic who counts; not the man who points out how the strong man stumbles, or where the doer of deeds could have done them better. The credit belongs to the man who is actually in the arena, whose face is marred by dust and sweat and blood; who strives valiantly; . . . who at best knows in the end the triumph of high achievement, and who at worst, if he fails, at least fails while daring greatly' -Theodore Roosevelt Every time we are introduced to someone new, try to be creative, or start a difficult conversation, we take a risk. We feel uncertain and exposed. We feel vulnerable. Most of us try to fight those feelings - we strive to appear perfect. Challenging everything we think we know about vulnerability, Dr. Brené Brown dispels the widely accepted myth that it's a weakness. She argues that vulnerability is in fact a strength, and when we shut ourselves off from revealing our true selves we grow distanced from the things that bring purpose and meaning to our lives. *Daring Greatly* is the culmination of 12 years of groundbreaking social research, across the home, relationships, work, and parenting. It is an invitation to be courageous; to show up and let ourselves be seen, even when there are no guarantees. This is vulnerability. This is daring greatly. 'Brilliantly insightful. I can't stop thinking about this book' -Gretchen Rubin Brené Brown, Ph.D., LMSW is a #1 New York Times bestselling author and a research professor at the University of Houston Graduate College of Social Work. Her groundbreaking work was featured on Oprah Winfrey's Super Soul Sunday, NPR, and CNN. Her TED talk is one of the most watched TED talks of all time. Brené is also the author of *The Gifts of Imperfection* and *I Thought It Was Just Me (but it isn't)*.

Theories of Reading Karin Littau.2006-12-04 Why do literary theorists see reading as an act of dispassionate textual analysis and meaning production, when historical evidence shows that readers have often read excessively, obsessively, and for sensory stimulation? Posing these and other questions, this is the first major work to bring insights from book history to bear on literary history and theory. In so doing, the book charts a compelling and innovative history of theories of reading. While literary theorists have greatly contributed to our understanding of the text-reader relation, they have rarely taken into account that the relation between a book and a reader is also a relation between two bodies: one made of paper and ink, the other flesh and blood. This is why, Karin Littau argues, we need to look beyond the words on the page, and pay attention to the technical innovations in the physical format of the book. Only then is it possible to understand more fully how media technology has changed our experience of reading, and why media history presents a challenge to our conceptions of what reading is. Each chapter places the reader in specific disciplinary and historical contexts: literature, criticism, philosophy, cultural history, bibliography, film, new media. Overall, the history recounted in this book points to a split between modern literary study which regards reading as a reducibly mental activity, and a tradition reaching back to antiquity which assumed that reading was not only about sense-making but also about sensation. *Theories of Reading: Books, Bodies and Bibliomania* will be essential reading for all students and scholars of literary theory and history as well as of great interest to students of the history of the book and new media.

Children and Peace Nikola Balvin, Daniel J. Christie.2019-10-20 This open access book brings together discourse on children and peace from the 15th International Symposium on the Contributions of Psychology to Peace, covering issues pertinent to children and peace and approaches to making their world safer, fairer and more sustainable. The book is divided into nine sections that examine traditional themes (social construction and deconstruction of diversity, intergenerational transitions and memories of war, and multiculturalism), as well as contemporary issues such as Europe's "migration crisis", radicalization and violent extremism, and violence in families, schools and communities. Chapters contextualize each issue within specific social ecological frameworks in order to reflect on the multiplicity of influences that affect different outcomes and to discuss how the findings can be applied in different contexts. The volume also provides solutions and hope through its focus on youth empowerment and peacebuilding programs for children and families. This forward-thinking volume offers a multitude of views, approaches, and strategies for research and activism drawn from peace psychology scholars and United Nations researchers and practitioners. This book's multi-layered emphasis on context, structural determinants of peace and conflict, and use of research for action towards social cohesion for children and youth has not been brought together in other peace psychology literature to the same extent. *Children and Peace: From Research to Action* will be a useful resource for peace psychology academics and students, as well as social and developmental psychology academics and students, peace and development practitioners and activists, policy makers who need to make decisions about the matters covered in the book, child rights advocates and members of multilateral organizations such as the UN.

YouTube Jean Burgess, Joshua Green.2013-04-16 YouTube is one of the most well-known and widely discussed sites of participatory media in the contemporary online environment, and it is the first genuinely mass-popular platform for user-created video. In this timely and comprehensive introduction to how YouTube is being used and why it matters, Burgess and Green discuss the ways that it relates to wider transformations in culture, society and the economy. The book critically examines the public debates surrounding the site, demonstrating how it is central to struggles for authority and control in the new media environment. Drawing on a range of theoretical sources and empirical research, the authors discuss how YouTube is being used by the media industries, by audiences and amateur producers, and by particular communities of interest, and the ways in which these uses challenge existing ideas about cultural 'production' and 'consumption'. Rich with both

concrete examples and featuring specially commissioned chapters by Henry Jenkins and John Hartley, the book is essential reading for anyone interested in the contemporary and future implications of online media. It will be particularly valuable for students and scholars in media, communication and cultural studies.

Vow of Darkness Rodrigo Parra Sandoval.2014-10-27 Originally published in Spanish as Voto de tinieblas, this is a translation by Kieran Tapsell. Among the stories and characters of Vow of Darkness it unfolds a reflection around the prohibitions and dangers that a nun living the confused and violent period of independence from Spain must face when she decides to be a writer in a world where writing is an exclusively male activity. Alongside these adventures is woven a reflection about personal and collective memory. It outlines how the indigenous population extinguishes destroyed by war, smallpox and shame. And yet, there are characters trying to give sense to their own lives through generosity, compassion, understanding the other, identifying with their memory, diluting cultural distances, changing the roles and transforming the victorious on defeated or trying to solve the antagonisms that the nun draws in the written geographies of her body throughout philanthropy.

Language and Learning in the Digital Age James Paul Gee,Elisabeth R. Hayes.2011-02-01 In Language and Learning in the Digital Age, linguist James Paul Gee and educator Elisabeth Hayes deal with the forces unleashed by today's digital media, forces that are transforming language and learning for good and ill. They argue that the role of oral language is almost always entirely misunderstood in debates about digital media. Like the earlier inventions of writing and print, digital media actually power up or enhance the powers of oral language. Gee and Hayes deal, as well, with current digital transformations of language and literacy in the context of a growing crisis in traditional schooling in developed countries. With the advent of new forms of digital media, children are increasingly drawn towards video games, social media, and alternative ways of learning. Gee and Hayes explore the way in which these alternative methods of learning can be a force for a paradigm change in schooling. This is an engaging, accessible read both for undergraduate and graduate students and for scholars in language, linguistics, education, media and communication studies.

The Elusive Embrace Daniel Mendelsohn. 2012-01-04 Hailed for its searing emotional insights, and for the astonishing originality with which it weaves together personal history, cultural essay, and readings of classical texts by Sophocles, Ovid, Euripides, and Sappho, *The Elusive Embrace* is a profound exploration of the mysteries of identity. It is also a meditation in which the author uses his own divided life to investigate the rich conflictedness of things, the double lives all of us lead. Daniel Mendelsohn recalls the deceptively quiet suburb where he grew up, torn between his mathematician father's pursuit of scientific truth and the exquisite lies spun by his Orthodox Jewish grandfather; the streets of Manhattan's newest gay ghetto, where desire for love competes with love of desire; and the quiet moonlit house where a close friend's small son teaches him the meaning of fatherhood. And, finally, in a neglected Jewish cemetery, the author uncovers a family secret that reveals the universal need for storytelling, for inventing myths of the self. The book that Hilton Als calls equal to Whitman's 'Song of Myself,' *The Elusive Embrace* marks a dazzling literary debut.

Waiting for the Barbarians Daniel Mendelsohn. 2012-10-16 FINALIST FOR THE NATIONAL BOOK CRITICS CIRCLE AWARD AND THE PEN ART OF THE ESSAY AWARD Over the past decade and a half, Daniel Mendelsohn's reviews for *The New York Review of Books*, *The New Yorker*, and *The New York Times Book Review* have earned him a reputation as "one of the greatest critics of our time" (*Poets & Writers*). In *Waiting for the Barbarians*, he brings together twenty-four of his recent essays—each one glinting with "verve and sparkle," "acumen and passion"—on a wide range of subjects, from *Avatar* to the poems of Arthur Rimbaud, from our inexhaustible fascination with the Titanic to Susan Sontag's *Journals*. Trained as a classicist, author of two internationally best-selling memoirs, Mendelsohn moves easily from penetrating considerations of the ways in which the classics continue to make themselves felt in contemporary life and letters (Greek myth in the *Spider-Man* musical, Anne Carson's translations of Sappho) to trenchant takes on pop spectacles—none more explosively controversial than his dissection of *Mad Men*. Also gathered here are essays devoted to the art of fiction, from Jonathan Littell's Holocaust blockbuster *The Kindly Ones* to forgotten gems like the novels of Theodor Fontane. In a final section, "Private Lives," prefaced by Mendelsohn's *New Yorker* essay on fake memoirs, he considers the lives and work of writers as disparate as Leo Lerman, Noël Coward, and Jonathan Franzen. *Waiting for the Barbarians* once again demonstrates that Mendelsohn's "sweep as a cultural critic is as impressive as his depth."

La alquimia de la motivación María Luisa de Miguel Corrales.2022-05-19 La complejidad de nuestra sociedad actual requiere, cada vez más, una voluntad fuertemente motivada en un propósito que sea capaz de ejercer el autocontrol para resistirnos a una vida de inconsciencia e impulsos descontrolados. El estrés, el cansancio, la falta de sueño, las múltiples distracciones y el cambio constante debilitan nuestra voluntad y nos impiden ejercer nuestra libertad para realizarnos y ser felices. En cada uno de nosotros habitan dos versiones de ser humano: el yo controlado que actúa con impulsividad y busca la gratificación inmediata y el yo que controla que domina sus impulsos y sabe postergar la gratificación para proteger sus aspiraciones a largo plazo y el cumplimiento de su propósito. De nosotros depende cuál queremos cultivar y de esa decisión depende nuestra felicidad. Debemos poner en jaque nuestro pensamiento y nuestro comportamiento y reflexionar acerca de cómo estamos abordando el tema de la motivación, porque su exceso y mal uso nos está volviendo personas adictas a ella y a todos los incentivos que se utilizan para activarla. La ciencia de la motivación no puede estar al servicio de mejorar la productividad y el rendimiento, porque el ser humano no es una máquina a la que se pueda programar, cambiar las piezas, amortizar y desechar por el cumplimiento de su vida útil. Somos seres sociales que existimos para la realización personal, la felicidad y la convivencia en sociedad. Ese debe ser el norte de cualquier conocimiento, incluido el nacido en torno a la motivación. Este libro es una invitación a reflexionar sobre cómo estamos viviendo, cómo estamos ejerciendo el control sobre nuestras vidas y qué influencia tiene en ello una hipermotivación extrínseca excesiva en detrimento de una voluntad más fuerte y reflexiva. Tomarnos tiempo para parar, reflexionar y decidir con conocimiento de causa, con propósito, es ganar tiempo para vivir más felices. (cont.)

If you follow each and every one, your life will become easier, more fabulous, more rewarding. Imagine what a chilled-out and wonderful human being people would think you were if you lived by the simple principle You can never fail if you never try. Your wasted life would be an inspiration to others. Think of all the pointless, unhappy striving you could simply give up. Throw away that guitar! Give up on your dreams! Embrace your astounding mediocrity. This Book Loves You has something for everyone--or at least everyone willing to give up and stop caring. If all else fails, remember: Don't be yourself. Be a pizza. Everyone loves pizza.

Living and Learning with New Media Mizuko Ito, Heather A. Horst, Matteo Bittanti, Danah

Boyd, Becky Herr Stephenson. 2009-06-05 This report summarizes the results of an ambitious three-year ethnographic study, funded by the John D. and Catherine T. MacArthur Foundation, into how young people are living and learning with new media in varied settings—at home, in after school programs, and in online spaces. It offers a condensed version of a longer treatment provided in the book Hanging Out, Messing Around, and Geeking Out (MIT Press, 2009). The authors present empirical data on new media in the lives of American youth in order to reflect upon the relationship

between new media and learning. In one of the largest qualitative and ethnographic studies of American youth culture, the authors view the relationship of youth and new media not simply in terms of technology trends but situated within the broader structural conditions of childhood and the negotiations with adults that frame the experience of youth in the United States. The book that this report summarizes was written as a collaborative effort by members of the Digital Youth Project, a three-year research effort funded by the John D. and Catherine T. MacArthur Foundation and conducted at the University of California, Berkeley, and the University of Southern California. John D. and Catherine T. MacArthur Reports on Digital Media and Learning
