**Presenting the Past** Susan Porter Benson, Stephen Brier, Roy Rosenzweig.1986 In recent years, history has been increasingly popularized through television docudramas, history museums, paperback historical novels, grassroots community history projects, and other public representations of historical knowledge. This collection of lively and accessible essays is the first examination of the rapidly growing field called public history. Based in part on articles written for the *Radical History Review*, these eighteen original essays take a sometimes irreverent look at how history is presented to the public in such diverse settings as children's books, Colonial Williamsburg, and the Statue of Liberty. *Presenting the Past* is organized into three areas which consider the role of mass media (Packaging the Past), the affects of applied history (Professionalizing the Past) and the importance of grassroots efforts to shape historical consciousness (Politicizing the Past). The first section examines the large-scale production and dissemination of popular history by mass culture. The contributors criticize many of these Hollywood and Madison Avenue productions that promote historical amnesia or affirm dominant values and institutions. In *Professionalizing the Past*, the authors show how non-

university based professional historians have also affected popular historical consciousness through their work in museums, historic preservation, corporations, and government agencies. Finally, the book considers what has been labeled people's history--oral history projects, slide shows, films, and local exhibits--and assesses its attempts to reach such diverse constituents as workers, ethnic groups, women, and gays. Of essential interest to students of history, *Presenting the Past* also explains to the general reader how Americans have come to view themselves, their ancestors, and their heritage through the influence of mass media, popular culture, and public history. Author note: Susan Porter Benson is Associate Professor and Chair of History at Bristol Community College in Massachusetts. Stephen Brier is Director of the American Social History Project and Senior Research Scholar at the Graduate Center, City University of New York. Roy Rosenzweig is Associate Professor of History and Director of the Oral History Program at George Mason University in Virginia.

**The Pontificate of Clement VII** Sheryl E. Reiss.2017-03-02 The pontificate of Clement VII (Giulio de' Medici) is usually regarded as amongst the most disastrous in history, and the pontiff characterized as timid, vacillating, and avaricious. It was during his years as pope (1523-34) that England broke away from the Catholic Church, and relations with the Holy Roman Emperor deteriorated to such a degree that in 1527 an Imperial army sacked Rome and imprisoned the pontiff. Given these spectacular political and military failures, it is perhaps unsurprising that Clement has often elicited the scorn of historians, rather than balanced and dispassionate analysis. This interdisciplinary volume, the first on the subject, constitutes a major step forward in our understanding of Clement VII's pontificate. Looking beyond Clement's well-known failures, and anachronistic comparisons with more 'successful' popes, it provides a fascinating insight into one of the most pivotal periods of papal and European history. Drawing on long-neglected sources, as rich as they are abundant, the contributors address a wide variety of important aspects of Clement's pontificate, re-assessing his character, familial and personal relations, political strategies, and cultural patronage, as well as exploring broader issues including the impact of the Sack of Rome, and religious renewal and reform in the pre-Tridentine period. Taken together, the essays collected here provide the most expansive and nuanced portrayal yet offered of Clement as pope, patron, and politician. In reconsidering the politics and emphasizing the cultural vitality of the period, the collection provides fresh and much-needed revision to our understanding of Clement VII's pontificate and its critical impact on the history of the papacy and Renaissance Europe.

**Mehr als eine Tracht / Wecej ako drastwa** Thomas Mietk, Sabrina Kuschy.2023-08-01 Das sorbische/wendische Leben im Landkreis Dahme-Spreewald (niedersorbisch: Wokrejs Dubja-Blota) ist reich an Traditionen und Bräuchen. Bis in die heutige Zeit bewahrten sich die Sorben/Wenden ihre eigene Sprache, Kultur und Identität. Sie bereichern und prägen mit der Pflege zahlreicher Traditionen und Bräuche auf vielfältige Weise die Region, die sich mitten im UNESCO Biosphärenreservat Spreewald befindet. Zum reizvollen Erscheinungsbild gehören die sorbischen/wendischen Trachten, die vielerorts zu besonderen Anlässen getragen werden. Dieser Band bietet einen Überblick zur sorbischen/wendischen Geschichte, zur Entwicklung der Bräuche und Trachten sowie zu den Menschen, die sich mit ihrer Heimat, der Kultur und der Sprache der Sorben/Wenden im Landkreis Dahme-Spreewald verbunden fühlen. Er dokumentiert das Wirken vieler engagierter Menschen, nicht nur von Sorben/Wenden, und zeigt auch Wege auf, wie Tradition und Sprache erhalten werden können.

*Developing Grammars* Willemijn M. Klein, N. Dittmar. 2012-12-06 This study deals with variation in grammar both from a theoretical and an empirical point of view. In Part I (Chaps. 1-4), an attempt is made to characterize this phenomenon within the broader context of what might be called the fluctuating character of natural language, and to develop suitable and precise descriptive techniques that account for it. The method which is proposed here is called variety grammar - roughly speaking, this is a formal grammar with probabilistic weighting for an ordered set of varieties, such as dialects, sociolects, registers, or developmental stages. In Part II (Chaps. 5-8), this technique is applied to an important area of grammatical variation - to the process of second language acquisition in social context, based on a large investigation of the language behavior of foreign migrant workers acquiring German through everyday contacts. We have tried to characterize their developing grammars and to relate this complex developmental process to social and individual factors that determine it.

Europa Vasconica - Europa Semitica Theo Vennemann gen. Nierfeld. 2011-07-20 This book presents the theory that the linguistic and cultural landscape of Europe north of the Alps and the Pyrenees was shaped in prehistoric times by the interaction of Indo-European speakers with speakers of languages related to Basque and to Semitic. These influences on the lexicon, grammar, and toponymy of the West Indo-European languages (with special focus on Germanic) are demonstrated in German and English research papers, provided here with summaries, commentaries, and a new introduction in English, and with general and etymological indexes.

Participatory Archives Edward Benoit III, Alexandra Eveleigh.2019-09-03 The rise of digitisation and social media over the past decade has fostered the rise of participatory and DIY digital culture. Likewise, the archival community leveraged these new technologies, aiming to engage users and expand access to collections. This book examines the creation and development of participatory archives, its impact on archival theory, and present case studies of its real world application. Participatory Archives is divided into four sections with each focused on a particular aspect of participatory archives: social tagging and commenting; transcription; crowdfunding; and outreach &

activist communities. Each section includes chapters summarizing the existing literature, a discussion of theoretical challenges and benefits, and a series of case studies. The case studies are written by a range of international practitioners and provide a wide range of examples in practice, whilst the remaining chapters are supplied by leading scholars from Australia, Canada, Denmark, the Netherlands, Norway, the United Kingdom, and the United States. This book will be useful for students on archival studies programs, scholarly researchers in archival studies who could use the book to frame their own research projects, and practitioners who might be most interested in the case studies to see how participatory archives function in practice. The book may also be of interest to other library and information science students, and similar audiences within the broader cultural heritage institution fields of museums, libraries, and galleries.

*Names in the Economy* Terhi Ainiala, Ulla Hakala, Paula Sjöblom. 2014-07-18 The economy has an increasingly powerful role in the contemporary global world. Academic scholars who study names have recognised this, and, as such, onomastic research has expanded from personal and place names towards names that reflect the new commercial culture. Companies are aware of the significance of naming. Brand, product and company names play an important role in business. Culture produces names and names produce culture. Commercial names shape cultures, on the one hand, and changes in cultures may affect commercial names on the other. The world of the economy and business has created its own culture of names, but this naming culture may also affect other names; even place names and personal names are influenced by it. *Names in the Economy: Cultural Prospects* is composed of 20 articles that were produced from a collection of papers presented in 2012 at the fourth *Names in the Economy* symposium in Turku, Finland. These articles will equally be of interest to both academics and professionals. The goal of this book is multidisciplinary and

theoretically diverse: it contemplates commercial-bound names from the viewpoints of linguistics and onomastics, as well as marketing and branding research. In addition to traditional onomastic standpoints, there are newer linguistic theories, sociological and communicational views, multimodality theory, and branding theories. The authors are scholars from three continents and from ten different countries.

**Empowering Interactions** Wim Blockmans, Daniel Schläppi. 2017-03-02 The emergence of the state in Europe is a topic that has engaged historians since the establishment of the discipline of history. Yet the primary focus of has nearly always been to take a top-down approach, whereby the formation and consolidation of public institutions is viewed as the outcome of activities by princes and other social elites. Yet, as the essays in this collection show, such an approach does not provide a complete picture. By investigating the importance of local and individual initiatives that contributed to state building from the late middle ages through to the nineteenth century, this volume shows how popular pressure could influence those in power to develop new institutional structures. By not privileging the role of warfare and of elite coercion for state building, it is possible to question the traditional top-down model and explore the degree to which central agencies might have been more important for state representation than for state practice. The studies included in this collection treat many parts of Europe and deal with different phases in the period between the late middle ages and the nineteenth century. Beginning with a critical review of state historiography, the introduction then sets out the concept of 'empowering interactions' which is then explored in the subsequent case studies and a number of historiographical, methodological and theoretical essays. Taken as a whole this collection provides a fascinating platform to reconsider the relationships between top-down and bottom-up processes in the history of the European state.

**Venice, Città Excelentissima** Marino Sanudo.2008-06-30 When Venice was both a center of Renaissance culture and a gathering place for news from around the world, Marin Sanudo tried to write everything down. He was the finest diarist of his time, with a keen eye for the everyday and the monumental alike. Venice, Città Excelentissima offers a broad and engaging introduction to Sanudo's detailed observations of life in his beloved city and the world it knew. This expertly translated volume glimpses into Renaissance life at a spectacular time when Venice was at the top of its game. Organized thematically, the selections offer a Venetian's viewpoint of the glories of high culture, the gritty reality and sparkling drama of daily life, the perils of diplomacy and war, and the high-risk ventures of voyages and commerce. Here, the work of the Renaissance's most assiduous historian is finally given the accessibility it warrants and the merit it is due.

*Cyberscience 2.0* Michael Nentwich,Rene Konig,René König.2012-04 At the start of the twenty-first century, the Internet was already perceived to have fundamentally changed the landscape for research. With its opportunities for digital networking, novel publication schemes, and new communication formats, the web was a game-changer for how research was done as well as what came after—the dissemination and discussion of results. Addressing the seismic shifts of the past ten years, *Cyberscience 2.0* examines the consequences of the arrival of social media and the increasing dominance of big Internet players, such as Google, for science and research, particularly in the realms of organization and communication.

Der Brand Bernhard Heinz Witzsch.2021-10-01 Darstellung einer brandenburger Landschaft vor den

Toren von Berlin. Der Brand liegt zwischen den Ausläufern des Fläming und dem Unterspreewald. Kleinteilige Adelsherrschaften waren an seiner Nutzung beteiligt. Bis 1815 gehörte das Gebiet zu Sachsen und war eine typische Heidelandschaft mit ausgeprägten Schafhaltung. Nach der Übernahme durch Preußen erfolgte die Separation mit der Auflösung der Hutungs- und Holzgerechtsame. Es folgte eine großflächige Aufforstung mit Kiefern. In der Folge waren der Bau der Berlin-Görlitzer-Eisenbahn und die militärische Nutzung prägend. Der deutsche und anschließend der sowjetisch/russische Flugplatz bestimmten 55 Jahre das Leben um und auf dem Brand. Ab 1995 wandelte sich das Gesicht des Brand. CargoLifter war eine Episode, allerdings mit dem Bau der größten freitragenden Halle. Heute prägt Tropical Islands die Landschaft und ist im Verbund mit dem Unterspreewald der wirtschaftliche Motor der Region.
