*Eastern Europe!* Tomek E. Jankowski.2014-05-20 Eastern Europe! is a brief and concise (but informative) introduction to Eastern Europe and its myriad customs and history. When the legendary Romulus killed his brother Remus and founded the city of Rome in 753 BCE, Plovdiv -- today the second-largest city in Bulgaria -- was already thousands of years old. Indeed, London, Paris, Berlin,

Vienna, Madrid, Brussels, Amsterdam are all mere infants compared to Plovdiv. This is just one of the paradoxes that haunts and defines the New Europe, that part of Europe that was freed from Soviet bondage in 1989 which is at once both much older than the modern Atlantic-facing power centers of Western Europe while also being in some ways much younger than them. Even those knowledgeable about Western Europe often see Eastern Europe as terra incognita, with a sign on the border declaring Here be monsters. This book is a gateway to understanding both what unites and separates Eastern Europeans from their Western brethren, and how this vital region has been shaped by, but has also left its mark on, Western Europe, Central Asia, the Middle East and North Africa. Ideal for students, businesspeople, and those who simply want to know more about where Grandma or Grandpa came from, Eastern Europe! is a user-friendly guide to a region that is all too often mischaracterized as remote, insular, and superstitious. Illustrations throughout include: 40 photos, 40 maps and 40 figures (tables, charts, etc.) From the Trade Paperback edition.

**Regional Overview of Food Security and Nutrition in Europe and Central Asia 2020** Food and Agriculture Organization of the United Nations, World Food Programme, United Nations Children's Fund, World Health Organization, World Meteorological Organization, United Nations. 2021-05-12 This report consists of two main sections: 1) a situation analysis of Sustainable Development Goal 2 Target 2.1 (to end hunger and ensure access to food by all) and Target 2.2 (to end all forms of malnutrition) and analyses of the diets of children and of current food consumption patterns relative to dietary guidelines; and 2) a special look at the cost and affordability of healthy diets in Europe and Central Asia. The new estimates confirm that the prevalence of hunger at chronic or severe levels is relatively low in the ECA region. However, the prevalence of food insecurity at moderate or severe levels can be quite high. The ongoing COVID-19 pandemic

continues to add people to the ranks of the food insecure. The ECA region is making progress overall in reducing malnutrition, but it is not on track regarding childhood overweight, adult obesity, anaemia and exclusive breastfeeding. Healthy diets protect against the effects of malnutrition, in all its forms, and promote better health. This report shows that healthy diets cost, on average, five times more than diets that meet only dietary energy needs, making them unaffordable for many people throughout the region. To increase the affordability of healthy diets, the costs of nutritious foods must be lowered. This report also shows that hidden costs are much lower with healthy diets than with current consumption patterns, meaning that adopting healthy diet alternatives could lead to large cost savings.
