The New Environmentalism? Davide Torsello.2016-03-03 Drawing on rich ethnographic work in both Eastern and Western Europe, *The New Environmentalism?* presents a range of case studies to explore the impact of corruption in EU-funded structural development projects. With detailed analyses of the forms and contexts of environmentalism, the book reveals the manner in which corruption is generated by the planning and implementation procedures of the projects, demonstrating in each case that environmental movements emerge as by-products of these processes, using corruption as part of a discourse employed in support of their action against political (regional and state) institutions, as well as to communicate their goals to local citizens. Shedding light on the ways in which revelations about corruption are adopted as a means to fostering civic participation in environmental movements and influencing institutional trust, this book contributes to our understanding of the loss of legitimacy and trust in local and global political institutions. Comparative in approach, *The New Environmentalism?* provides new insights into the emergence of strong civic movements at local and trans-local levels, in resistance to citizens' sense of increasing alienation from political participation and decision making. As such, it will be of interest to anthropologists, sociologists and political scientists concerned with questions of legitimacy, corruption and activism.

Guardian P. B. Hughes. 2019-07-15 Seven months have passed since the Arena Massacre. Thousands of Miraclists lie dead, and with the loss of its elite fighting force, the Empire shakes with instability. Senator Greavus is building an army. Cries of revolution rise from the south, and the goblin tribes mobilize to the north. With Orsidia on the brink of destruction, the world looks to the remaining Miraclists for aid. Brightcastle Hall has its new Guardians, but suspicion and fear threaten to tear the school apart. Conspiracies fly over Jude Elm and his connection with the Cythes. Caden Baine is missing, and the succession of the second-place Gregory McPherson stirs doubt. But one question haunts them above all: when will the Cythes strike again? Now, Daniel and his friends must rise among the remnant Miraclists and prove themselves not just as leaders, but heroes. For only Orsidia's mightiest can hope to stand against the rising darkness.

Redefining Airmanship (PB) Tony T. Kern. 1997-01-22 Redefining Airmanship offers the first concrete model of the abstract ideal of airmanship, and gives the reader step-by-step guidance for self-appraisal and improvement in the areas of flight proficiency, teamwork, and good judgment in crisis situations. The author, Major Tony Kern, draws on his extensive flight and crew-training experience in the U.S. Air Force, but his model is invaluable for all pilots, whether military,

recreational, or commercial. Kern's work is a breakthrough, and a benchmark. --John J. Nance, author of *Blind Trust*

It's also worth noting that although Wikibooks' editors are sharp-eyed, some less scrupulous contributors may plagiarize copyright-protected work by other authors. Some recipes, for example, appear to be paraphrased from well-known chefs.
