18 Progressive Exercises Justus Johann Friedrich Dotzauer.2021-09-23 Dotzauer études have been part of the standard repertoire in cello lessons for generations. Johann Friedrich Dotzauer (1783-1860) was among the major cellists and cello pedagogues of the 19th century and knew what makes a good étude: it should deal specifically with a certain technical problem and at the same time not be monotonous, but musically appealing. The cellist of the Leipzig Gewandhaus and the Dresden Hofkapelle managed to do that in an exemplary manner. Our new edition of the 18 progressive études Op. 120 follows the original sources and contains the original text. While the Dotzauer études are usually only available in selected editions today, opus 120 is edited here in its entirety, as conceived by the composer himself. Notes on studying and on the performance practice (dynamics, vibrato, change of position, ornamentation, bowings) make the new edition an ideal reference edition for music lessons.

Daily Exercises Louis R. Feuillard.2021-02-12 Louis R. Feuillard (1872-1941) has become known chiefly as the teacher of Paul Tortelier who called him a man with an extraordinary educational instinct. His 'Daily Exercises' take up the most important aspects of the cello technique, such as exercises in neck and thumb positions, double stops and bowing exercises. It is particularly because of the logical structure of the exercises that they have been among the standard works of violoncello study literature since their publication in 1919.

Position Pieces for Cello Rick Mooney. Position Pieces for Cello is designed to give students a logical and fun way to learn their way around the fingerboard. Each hand position is introduced with exercises called Target Practice, Geography Quiz, and Names and Numbers. Following these exercises are tuneful cello duets which have been specifically composed to require students to play in that hand position. In this way, students gain a thorough knowledge of how to find the hand positions and, once there, which notes are possible to play. Using these pieces (with names like I Was a Teenage Monster, The Irish Tenor, and I've Got the Blues, Baby), position study on the cello has never been so much fun!

170 Foundation Studies for Violoncello Alwin Schroeder.2020-04-15 Compiled by Alwin Schroeder, a former cellist with the Boston Symphony Orchestra and an experienced teacher, this collection of 80 exercises constitutes the first book of a three-volume set. Schroeder drew upon his extensive experience to create original études for instructing students, and in this work he combines them with several others by his distinguished nineteenth-century European colleagues: Karl Schröder. Ferdinand Büchler, Friedrich Dotzauer, Auguste Franchomme, Friedrich Grützmacher, and Sebastian Lee. The carefully selected studies are arranged in order of increasing complexity, and Schroeder provides suggestions for fingering, bowing, and dynamics. Cello students and teachers will find these exercises a splendid resource for the improvement of technique and performance.

Demanding études for lessons and performances, with beautiful melodic and harmonic ideas, some with slow expressive introductions, some with artistic arpeggios or contrapuntal polyphony. Tonalization Dr. Shinichi Suzuki. Dr. Suzuki questioned why all vocalists vocalize every day to improve their voices, but instrumentalists do not do so every day with their instruments. He believes that on any instrument, one needs to practice to make a more beautiful tone. First he talks about playing a beautiful resonant tone with the bow while plucking the string with a finger. When a pizzicato is played, the resonance goes on for a long time. Students should listen to that resonance and play the same kind of clear beautiful sound. He talks about how to make a difference in the tone by using a different bow speed, how to practice to find the resonance point, how to change the weight of the arm on the bow to produce a different kind of tone, and how to change tone color. This book includes all of Dr. Suzuki's basic ideas about tone.

Playing the Cello, 1780-1930 George Kennaway.2016-04-22 This innovative study of nineteenth-century cellists and cello playing shows how simple concepts of posture, technique and expression changed over time, while acknowledging that many different practices co-existed. By placing an awareness of this diversity at the centre of an historical narrative, George Kennaway has produced a unique cultural history of performance practices. In addition to drawing upon an unusually wide range of source materials - from instructional methods to poetry, novels and film - Kennaway acknowledges the instability and ambiguity of the data that supports historically informed performance. By examining nineteenth-century assumptions about the very nature of the cello itself, he demonstrates new ways of thinking about historical performance today. Kennaway's treatment of tone quality and projection, and of posture, bow-strokes and fingering, is informed by his practical insights as a professional cellist and teacher. Vibrato and portamento are examined in the context of an increasing divergence between theory and practice, as seen in printed sources and heard in early cello recordings. Kennaway also explores differing nineteenth-century views of the cello's gendered identity and the relevance of these cultural tropes to contemporary performance. By accepting the diversity and ambiguity of nineteenth-century sources, and by resisting oversimplified solutions, Kennaway has produced a nuanced performing history that will challenge and engage musicologists and performers alike.
