*In den Nachmittag geflüstert* Georg Trakl. 2015-03-06 Georg Trakls lyrisches Werk besticht durch die sinnliche Kraft seiner Bilder und eine Lyrik in Moll. Er wird zu den bedeutendsten Frühexpressionisten deutscher Sprache gezählt. Sein hermetisches Schaffen weist jedoch weit darüber hinaus. Gebrandmarkt als Vertreter der Décadence, die den Verfall stilisiert anstatt eine soziale Utopie zu entwerfen, träumt er von einem neuen, natürlichen Menschen, von einer Erneuerung der paradiesischen Unschuld in der Gesellschaft. Charakteristisch für seine Gedichte sind Visionen von düsterer Farbenpracht und eine melodisch-rhythmische Sprache. Im vorliegenden Band sind die Gedichte aus den Jahren 1909/1914 nebst einer Einführung von Katharina Maier enthalten.

Europe and Its Interior Other(s) Helge Vidar Holm, Sissel Lægveid, Torgeir Skorgen.2014-11-01 Who were and who are the European other(s), and how have their socio-cultural circumstances been aesthetically expressed and discussed in works of literature and art in European history? Members of the interdisciplinary group of researchers The Borders of Europe address these questions in this book and shed new light on the notion of European transnational identity, self-conscience and exclusion. Making a mental, space-time journey across and beyond internal and external borders of Europe - moving from medieval times to the present, from Istanbul to the northernmost tip of Norway - the authors show how the dangerous dynamics of othering, estrangement, intolerance and

hatred have become an inherent part of the continent's history.

**Saturn's Moons** Jo Catling. 2017-07-05 The German novelist, poet and critic W. G. Sebald (1944-2001) has in recent years attracted a phenomenal international following for his evocative prose works such as *Die Ausgewanderten* (The Emigrants), *Die Ringe des Saturn* (The Rings of Saturn) and *Austerlitz*, spellbinding elegiac narratives which, through their deliberate blurring of genre boundaries and provocative use of photography, explore questions of Heimat and exile, memory and loss, history and natural history, art and nature. *Saturn's Moons: a W. G. Sebald Handbook* brings together in one volume a wealth of new critical and visual material on Sebald's life and works, covering the many facets and phases of his literary and academic careers -- as teacher, as scholar and critic, as colleague and as collaborator on translation. Lavishly illustrated, the Handbook also contains a number of rediscovered short pieces by W. G. Sebald, hitherto unpublished interviews, a catalogue of his library, and selected poems and tributes, as well as extensive primary and secondary bibliographies, details of audiovisual material and interviews, and a chronology of life and works. Drawing on a range of original sources from Sebald's Nachlass - the most important part of which is now held in the Deutsches Literaturarchiv Marbach - *Saturn's Moons* will be an invaluable sourcebook for future Sebald studies in English and German alike, complementing and augmenting recent critical works on subjects such as history, memory, modernity, reader response and the visual. The contributors include Mark Anderson, Anthea Bell, Ulrich von Buelow, Jo Catling, Michael Hulse, Florian Radvan, Uwe Schuette, Clive Scott, Richard Sheppard, Gordon Turner, Stephen Watts and Luke Williams. Jo Catling teaches in the School of Literature at the University of East Anglia and Richard Hibbitt in the Department of French at the University of Leeds.

**Shadows of the Past** Hans H. Schulte, Gerald Chapple.2009 How did Austrian writers grapple with their country's problematic twentieth-century history? Nine scholars investigate how the complex role of the national past changed the content and context of Austria's literature. Contributions range from Klaus Zeyringer's aggressive argument for an authentically Austrian literature, to the late Harry Zohn's autobiographical insights of a transplanted Viennese. Probing essays examine the Liberal and the National-Socialist era writers in exile and in their roles as post-war social critics. *Shadows of the Past* also puts the authors themselves in the spotlight: A «mini-reader» of hard-hitting as well as humorous narrative texts complements the literary history that begins the volume. Written by Barbara Frischmuth, Elisabeth Reichart, and Erich Wolfgang Skwara, these six texts are accompanied by helpful introductions to each author. As a further aid for English-speaking readers, the original in German literary and critical texts are translated for the first time. *Shadows of the Past* allows students of European culture and comparative literature to experience a dramatic century in Austrian literature and history.

**Local - Global Narratives** Renate Rechten, Karoline Von Oppen.2007 Over the past decade and a

half, Germany has experienced a period of political and cultural turbulence which many have attributed to the combined challenges of unification and globalisation. In response to growing exposure to global markets, politics and migration debates about identity have increasingly been re-nationalised. At the same time, there has been a notable reappraisal in Germany (and in German Studies) of the regional and global as spaces for the construction of identity. This volume sets out to explore these complex and at times contradictory trends, focusing in particular on developments in Germany since the 1970s, although chapters treating earlier periods are also included. The volume brings together British, Irish, German, Canadian and American scholars working in the field, and resulted from a conference organised by Women in German Studies at the University of Bath. The first section is primarily concerned with the specifically German concept of locality known as *Heimat* and its changing relationship with the global. Included are explorations of the writings of Kafka, Bachmann, Johnson, Sell, Wolf, Brinkmann and Jelinek amongst others as well as films by Schlöndorff and Steyerl. The second section focuses on the impact of the global on institutions and rituals such as commemoration, memorialisation, and architecture, which have traditionally been influential in shaping national self-images. Overall, this volume concludes that the nature of the relationship to the local has fundamentally changed under the impact of globalisation.

Thinking the Poetic Measure of Justice Charles Bambach. 2013-05-21 A new reading of justice engaging the work of two philosophical poets who stand in conversation with the work of Martin Heidegger. What is the measure of ethics? What is the measure of justice? And how do we come to measure the immeasurability of these questions? *Thinking the Poetic Measure of Justice* situates the problem of justice in the interdisciplinary space between philosophy and poetry in an effort to explore the sources of ethical life in a new way. Charles Bambach engages the works of two

philosophical poets who stand as the bookends of modernity—Friedrich Hölderlin (1770–1843) and Paul Celan (1920–1970)—offering close textual readings of poems from each that define and express some of the crucial problems of German philosophical thought in the twentieth century: tensions between the native and the foreign, the proper and the strange, the self and the other. At the center of this philosophical conversation between Hölderlin and Celan, Bambach places the work of Martin Heidegger to rethink the question of justice in a nonlegal, nonmoral register by understanding it in terms of poetic measure. Focusing on Hölderlin’s and Heidegger’s readings of pre-Socratic philosophy and Greek tragedy, as well as on Celan’s reading of Kabbalah, he frames the problem of poetic justice against the trauma of German destruction in the twentieth century. Charles Bambach is Professor of Philosophy at the University of Texas at Dallas. He is the author of *Heidegger’s Roots: Nietzsche, National Socialism, and the Greeks* and *Heidegger, Dilthey, and the Crisis of Historicism*.

*Of the Sublime: Presence in Question* Jean-François Courtine.1993-01-01 Today, the sublime has again become the focus of sustained reconsideration, but now for its epistemological and ontological--or presentational--aspects. As an unmasterable excess of beauty, the sublime marks the limits of representational thinking. These essays will be indispensable reading for anyone whose work is concerned with the sublime or, more generally, with the limits of representation, including philosophers, literary scholars and art historians.

**Assembly and its Other in German Romantic Literature and Thought** Robert E.

Mottram, Christopher R. Clason. 2022-10-15 This collection of essays turns on a shift in Romantic studies from viewing wholeness as an absolute value to critiquing it as a limiting construction. Wholeness and its concomitant sense of harmony, rather than a natural given, is a construct that was assembled and disassembled, theorized and criticized, by diverse authors and artists in a wide variety of disciplines and socio-historical contexts, and instrumentalized for diverse purposes. The plurality of these constructions – that Goethe’s *Urpflanze*, for example, is not synonymous with Friedrich Schlegel’s universal progressive poetry – is but one manifestation of how “assembly” strives but fails to be absolute. The “other” of assembly referenced in the title suggests two divergent but inseparable tendencies: firstly, how a construction can take on the appearance of a natural given; and secondly, how assemblages of wholeness harbor within themselves their own principle of disarticulation. These two tendencies underlie the “inexhaustible” character of Romantic “gatherings”. As a construction passes itself off as nature, the natural fails to account for itself as a whole. The scope of this volume encompasses the establishment, mapping, and interrogation of assembly and its other in German Romanticism through interdisciplinary studies on literature, aesthetics, philosophy, drama, music, synaesthesia, mathematics, science, and exploration. List of contributors: Beate Allert, Frederick Burwick, Alexis B. Smith, Margaret Strair, Christina Weiler, Joshua Wilner.

'**Heimat**' Friederike Eigler, Jens Kugele. 2012-10-01 The concept of *Heimat* with its seemingly pre- or anti-modern connotations of rootedness in a place of origin is central to a critical understanding of German history and culture. Over the course of the past fifteen years, scholars across a range of disciplines have found new ways to examine the changing notions of *Heimat* – its multifaceted

cultural, literary, and visual history, its gendered connotations, and its national and ideological appropriations. This anthology is the first to examine cultural manifestations of Heimat by giving special consideration to issues of memory and space. The contributions to this volume challenge static notions of place often associated with Heimat. Instead, they explore the social and cultural production of places of belonging as they emerge in literary and visual narratives ranging from 1800 to 2000 and beyond. Although the anthology includes historical perspectives on Heimat, its overall objective is not to trace its cultural or literary history, but to place this complex term into new conceptual contexts. Drawing attention to manifestations of Heimat within German literary and cultural studies provides a rich ground for exploring the transformation of locality in trans/national contexts.

**The Singer's Guide to German Diction** Valentin Lanzrein, Richard Cross. 2018-06-26 The Singer's Guide to German Diction is the essential foundation for a complete course in German diction for singers, vocal coaches, choral conductors, and anyone wishing to learn the proper pronunciation of High German. Written by Valentin Lanzrein and Richard Cross, who each have years of experience on stage, in the voice studio, and in the diction classroom, it provides an all-encompassing and versatile reference for the rules of German diction and their exceptions. Featuring an easily navigable format that uses tables and charts to support a visual understanding of the text, this guide allows the reader to find information on diction rules and quick help with the formation of each sound. It also places an emphasis on exceptions to the rules, which are crucial in learning the proper pronunciation of any language. Exceptions are not only provided with the diction rules, but are also gathered in a specific section for ease of reference. A glossary of difficult words, names, and exceptions is provided in the appendix, along with a section on Latin pronounced in the German

manner. Extensive pronunciation exercises, as well as IPA transcription worksheets and short examples from the vocal literature, are used for practical application of the diction rules, and feature musical exercises drawn from art song, opera, and oratorio. The book's companion website supplements these musical exercises with high-quality audio clips recorded by leading professional singers, providing an invaluable resource for independent study. A comprehensive companion for teachers, students, and singers alike, *The Singer's Guide to German Diction* brings German diction to life through its well-structured system of practice and reference materials.

**Samtliche Gedichte, v.2** Friedrich Schiller. 1965

**Memory** Dmitri Nikulin. 2015-07-30 In recent decades, memory has become one of the major concepts and a dominant topic in philosophy, sociology, politics, history, science, cultural studies, literary theory, and the discussions of trauma and the Holocaust. In contemporary debates, the concept of memory is often used rather broadly and thus not always unambiguously. For this reason, the clarification of the range of the historical meaning of the concept of memory is a very important and urgent task. This volume shows how the concept of memory has been used and appropriated in different historical circumstances and how it has changed throughout the history of philosophy. In ancient philosophy, memory was considered a repository of sensible and mental impressions and was complemented by recollection—the process of recovering the content of past thoughts and perceptions. Such an understanding of memory led to the development both of mnemotechnics and the attempts to locate memory within the structure of cognitive faculties. In contemporary philosophical and historical debates, memory frequently substitutes for reason by becoming a predominant capacity to which one refers when one wants to explain not only the personal identity but also a historical, political, or social phenomenon. In contemporary interpretation, it is memory,

and not reason, that acts in and through human actions and history, which is a critical reaction to the overly rationalized and simplified concept of reason in the Enlightenment. Moreover, in modernity memory has taken on one of the most distinctive features of reason: it is thought of as capable not only of recollecting past events and meanings, but also itself. In this respect, the volume can be also taken as a reflective philosophical attempt by memory to recall itself, its functioning and transformations throughout its own history.

*From Pariah to Patriot* John G. Gagliardo.2021-10-21 Until late in the eighteenth century, the peasantry of the German states had been dismissed contemptuously by the aristocracy and middle classes as brutish and virtually subhuman. With the advent of organized movements for peasant emancipation and agrarian reform, however, many German writers and publicists began also to reassess the role of the peasant in society. Within less than a century, the public image of the German peasant had been completely changed. Where formerly he had been scorned as untermenschlich, by 1840 he was firmly established in the public mind as an embodiment of the highest national virtues—a patriotic citizen with special qualities of singular importance to the fatherland. Mr. Gagliardo's study is a suggestive inquiry into the origins and development of a

modern rural ideology and its relationship to German doctrines of nationality.

ManyBooks is one of the best resources on the web for free books in a variety of download formats. There are hundreds of books available here, in all sorts of interesting genres, and all of them are completely free. One of the best features of this

site is that not all of the books listed here are classic or creative commons books. ManyBooks is in transition at the time of this writing. A beta test version of the site is available that features a serviceable search capability. Readers can also find books by browsing genres, popular selections, author, and editor's choice. Plus, ManyBooks has put together collections of books that are an interesting way to explore topics in a more organized way. Now you can make this easier and filter out the irrelevant results. Restrict your search results using the search tools to find only free Google eBooks. The Literature Network: This site is organized alphabetically by author. Click on any author's name, and you'll see a biography, related links and articles, quizzes, and forums. Most of the books here are free, but there are some downloads that require a small fee.
