Bilingual English-Spanish Assessment (BESA) Manual Elizabeth D. Pena, Vera F. Gutierrez-Clellen, Aquiles Iglesias, Brian A. Goldstein, Lisa Bedore. 2018 When a young bilingual child experiences language difficulties, it can be hard to tell if those challenges are due to a disorder or just limited exposure to the English language. That's a critical distinction--because while limited language exposure will fix itself over time, a language impairment is a clinical issue that will cause the child difficulties in school without timely and effective intervention. Now there's a valid, reliable assessment that specifically responds to the needs of young Spanish-English bilingual children. For use with children ages 4 through 6 years who have varying degrees of bilingualism, the Bilingual English-Spanish Assessment (BESA) was developed to: - identify phonological and/or language impairment in bilingual children and English language learners using a standardized protocol - differentiate between a delay in English language acquisition and a true language disorder - document children's speech and language strengths and needs - monitor children's progress in both languages and use the information to

Bilingual Two-language Assessment Battery of Tests Adolph Caso.2005 This Battery of Tests has been created to be administered to public and private school Limited English Proficiency (LEP) students, to adults, and to potential employees. The series can also be used to determine language proficiency in languages other than English making the battery of tests useful for companies seeking to employ multi-lingual talent. The Battery of Tests appears to be quite useful to institutions who need accurate assessments of multi-language speakers. It certainly can provide a bench-mark for evaluating students as well as employees in-house in quite a number of languages. Being an assessment test, it is rather dry and unappealing necessitating users to make clear to test-takers the importance of results. The Battery of Tests is a useful tool for those who require an off-the-shelf standardised language competency tool.
