

Rebels Without Borders

Border Patrol Nation Todd Miller. 2014-03-24 In his scathing and deeply reported examination of the U.S. Border Patrol, Todd Miller argues that the agency has gone rogue since the Sept. 11 terrorist attacks, trampling on the dignity and rights of the undocumented with military-style tactics. . . . Miller's book arrives at a moment when it appears that part of the Homeland Security apparatus is backpedaling by promising to tone down its tactics, maybe prodded by investigative journalism, maybe by the revelations of NSA leaker Edward Snowden. . . . Border Patrol is quite possibly the right book at the right time . . . --Tony Perry, Los Angeles Times "At the start of his unsettling and important new book, *Border Patrol Nation*, Miller observes that these days 'it is common to see the Border Patrol in places--such as Erie, Pennsylvania; Rochester, New York; or Forks, Washington--where only fifteen years ago it would have seemed far-fetched, if not unfathomable.'"--Barbara Spindel, Christian Science Monitor Miller's approach in *Border Patrol Nation* is to offer a glimpse into the secretive operations of the Border Patrol, reporting with a journalist's objectivity and nose for a good story. Miller's book is full of facts, and it's clear he's outraged, but he gives voices to people on every side of the issue. . . . Miller's book is a fascinating read. . . and bring the work of Susan Orlean to mind.--Amanda Eyre Ward Kirkus Reviews Todd Miller's invaluable and gripping book, *Border Patrol Nation: Dispatches from the Front Lines of Homeland Security* is the story of how this country's borders are being transformed into up-armored, heavily militarized zones run by a border-industrial complex. It's an achievement and an eye opener.--Tom Engelhardt, TomDispatch

What Jeremy Scahill was to Blackwater, Todd Miller is to the U.S. Border Patrol!--Tom Miller, author, *On the Border: Portraits of America's Southwestern Frontier* Todd Miller has entered a secret world, and he has gone deep. . . . Powerful.--Luis Alberto Urrea, author of *The Devil's Highway: A True Story* Journalist Miller tells an alarming story of U.S. Border Patrol and Homeland Security's ever-widening reach into the lives of American citizens and legal immigrants as well as the undocumented. In addition to readers interested in immigration issues, those concerned about the NSA's privacy violations will likely be even more shocked by the actions of Homeland Security.-- Publishers Weekly, Starred Review Armed authorities watch from a military-grade surveillance tower as lines of people stream toward the security checkpoint, tickets in hand, anxious and excited to get through the gate. Few seem to notice or care that the US Border Patrol is monitoring the Super Bowl, as they have for years, one of the many ways that forces created to police the borders are now being used, in an increasingly militarized fashion, to survey and monitor the whole of American society. In fast-paced prose, Todd Miller sounds an alarm as he chronicles the changing landscape. Traveling the country—and beyond—to speak with the people most involved with and impacted by the Border Patrol, he combines these first-hand encounters with careful research to expose a vast and booming industry for high-end technology, weapons, surveillance, and prisons. While politicians and corporations reap substantial profits, the experiences of millions of men, women, and children point to staggering humanitarian consequences. *Border Patrol Nation* shows us in stark relief how the entire country has become a militarized border zone, with consequences that affect us all. Todd Miller has worked on and written about US border issues for over fifteen years.

Transnational Dynamics of Civil War Jeffrey T. Checkel.2013-01-24 Combining innovative theory with detailed case studies, this book offers a novel account of the border-crossing processes of civil

war.

Democracy and Displacement in Colombia's Civil War Abbey Steele.2017-12-15 Democracy and Displacement in Colombia's Civil War is one of few books available in English to provide an overview of the Colombian civil war and drug war. Abbey Steele draws on her own original field research as well as on Colombian scholars' work in Spanish to provide an expansive view of the country's political conflicts. Steele shows how political reforms in the context of Colombia's ongoing civil war produced unexpected, dramatic consequences: democratic elections revealed Colombian citizens' political loyalties and allowed counterinsurgent armed groups to implement political cleansing against civilians perceived as loyal to insurgents. Combining evidence collected from remote archives, more than two hundred interviews, and quantitative data from the government's displacement registry, Steele connects Colombia's political development and the course of its civil war to purposeful displacement. By introducing the concepts of collective targeting and political cleansing, Steele extends what we already know about patterns of ethnic cleansing to cases where expulsion of civilians from their communities is based on nonethnic traits.

Age of Rogues Ramazan Hakki Öztan, Alp Yenen.2021-06-30 In *Age of Rogues*, leading scholars engage with themes of historical and cultural legacies, contentious interactions within imperial regimes, and the biographical trajectory of men and women who challenged the political status quo of their time. Rebels, revolutionaries and racketeers played central roles in the violent process of imperial disintegration as it unfolded in the frontiers of the Ottoman, Habsburg, Romanov and Qajar empires. This is a history of these transgressive actors from the late-19th century to the interwar years. This time was marked by similar, if not shared, revolutionary experiences and repertoires of contention across the connected geography of the Balkans, the Middle East and the Caucasus.

No One Can Stop the Rain Karin Moorhouse, Wei Cheng. 2005 Set in central Angola during the final stages of the country's thirty-year civil war, *No One Can Stop the Rain* is the true story of two ordinary M(r)decins Sans Frontiers volunteers OCo a surgeon and his wife, leaving behind their comfortable lives in mid-career. In doing so they are confronted by both the best and worst aspects of humanity. Based on correspondence and diary entries, the book chronicles the couple's journey to Kuito, deep in the heart of Angola. The remnants of this provincial capital had the unenviable reputation of being one of the world's most heavily landmined cities. The events witnessed by Moorhouse and Cheng as they worked alongside civilians OCo victims of landmines, the malnourished, and the displaced OCo provide a unique insight into life in this vast humanitarian citadel. Through the couple's eyes, the reader not only experiences something of the expected, the trauma of war, but also gains a rich insight into the less expected, the ordinary life of both local residents and field volunteers.

Compliant Rebels Hyeran Jo. 2015-08-21 Seventeen million people have died in civil wars and rebel violence has disrupted the lives of millions more. In a fascinating contribution to the active literature on civil wars, this book finds that some contemporary rebel groups actually comply with international law amid the brutality of civil conflicts around the world. Rather than celebrating the existence of compliant rebels, the author traces the cause of this phenomenon and argues that compliant rebels emerge when rebel groups seek legitimacy in the eyes of domestic and international audiences that care about humanitarian consequences and human rights. By examining rebel groups' different behaviors such as civilian killing, child soldiering, and allowing access to detention centers, *Compliant Rebels* offers key messages and policy lessons about engaging rebel groups with an eye toward reducing civilian suffering in war zones.

The Habsburg Empire under Siege Georg B. Michels.2021-03-10 During the seventeenth century Hungary's diverse population of peasants, townsmen, soldiers, and county nobles rose up against the violent imposition of the Counter-Reformation, the Habsburg military occupation, and exorbitant war taxes. In *The Habsburg Empire under Siege* Georg Michels explores the little-known grassroots revolts that threatened the Habsburgs' hold over the Hungarian borderlands. Based on extensive research in Hungarian, Austrian, and Dutch archives, this revisionist study shifts attention away from high politics, diplomacy, and military confrontation to the popular revolts that took place during the two decades before the 1683 siege of Vienna. Michels reveals a complex environment in which Calvinist Hungarians, Lutheran Slovaks, Lutheran Germans, and Orthodox Ukrainians worked to defend their religion against brutal Habsburg Counter-Reformation campaigns. Challenging preconceived notions of European, Middle Eastern, and East European history, this book tells a dramatic story of Reformation and Counter-Reformation violence, covering proxy wars, guerrilla warfare, refugee flight, migration from Hungary into Ottoman territory, and largely unknown Christian-Muslim encounters. Offering a trans-imperial perspective that reassesses the complex relationship between Hungarians, Habsburgs, and Ottomans, *The Habsburg Empire under Siege* portrays the resistance of ordinary men and women and their hopes for liberation from Habsburg oppression, reclaiming their place in history.

Hillbilly Nationalists, Urban Race Rebels, and Black Power Amy Sonnie,James Tracy.2011 The historians of the late 1960s have emphasised the work of a small group of white college activists and the Black Panthers, activists who courageously took to the streets to protest the war in Vietnam and continuing racial inequality. Poor and working-class whites have tended to be painted as spectators, reactionaries and even racists. Tracy and Amy Sonnie have been interviewing activists from the

1960s for nearly 10 years and here reject this narrative, showing how working-class whites, inspired by the Civil Rights Movement, fought inequality in the 1960s.

Borders Alexander C. Diener, Joshua Hagen. 2024 This second edition of *Borders: A Very Short Introduction* challenges the perception of borders as passive lines on a map, revealing them instead to be integral forces in the economic, social, political, and environmental processes that shape our lives.

Mirrors Eduardo Galeano. 2009-05-26 Throughout his career, Eduardo Galeano has turned our understanding of history and reality on its head. Isabelle Allende said his works invade the reader's mind, to persuade him or her to surrender to the charm of his writing and power of his idealism. *Mirrors*, Galeano's most ambitious project since *Memory of Fire*, is an unofficial history of the world seen through history's unseen, unheard, and forgotten. As Galeano notes: Official history has it that Vasco Núñez Balboa was the first man to see, from a summit in Panama, the two oceans at once. Were the people who lived there blind?? Recalling the lives of artists, writers, gods, and visionaries, from the Garden of Eden to twenty-first-century New York, of the black slaves who built the White House and the women erased by men's fears, and told in hundreds of kaleidoscopic vignettes, *Mirrors* is a magic mosaic of our humanity.

Magnificent Rebels Andrea Wulf. 2023-10-10 A NEW YORKER ESSENTIAL READ • From the best-selling author of *The Invention of Nature* comes an exhilarating story about a remarkable group of young rebels—poets, novelists, philosophers—who, through their epic quarrels, passionate love stories, heartbreaking grief, and radical ideas launched Romanticism onto the world stage, inspiring some of the greatest thinkers of the time. A BEST BOOK OF THE YEAR: The New York Times • The Washington Post Make[s] the reader feel as if they were in the room with the great personalities of

the age, bearing witness to their insights and their vanities and rages.” —Lauren Groff, New York Times best-selling author of *Matrix* When did we begin to be as self-centered as we are today? At what point did we expect to have the right to determine our own lives? When did we first ask the question, How can I be free? It all began in a quiet university town in Germany in the 1790s, when a group of playwrights, poets, and writers put the self at center stage in their thinking, their writing, and their lives. This brilliant circle included the famous poets Goethe, Schiller, and Novalis; the visionary philosophers Fichte, Schelling, and Hegel; the contentious Schlegel brothers; and, in a wonderful cameo, Alexander von Humboldt. And at the heart of this group was the formidable Caroline Schlegel, who sparked their dazzling conversations about the self, nature, identity, and freedom. The French revolutionaries may have changed the political landscape of Europe, but the young Romantics incited a revolution of the mind that transformed our world forever. We are still empowered by their daring leap into the self, and by their radical notions of the creative potential of the individual, the highest aspirations of art and science, the unity of nature, and the true meaning of freedom. We also still walk the same tightrope between meaningful self-fulfillment and destructive narcissism, between the rights of the individual and our responsibilities toward our community and future generations. At the heart of this inspiring book is the extremely modern tension between the dangers of selfishness and the thrilling possibilities of free will.

Take A Stand Jorge Ramos. 2018-02-27 Emmy Award-winning journalist and Univision anchor Jorge Ramos looks back on groundbreaking interviews with rebels such as President Barack Obama, Supreme Court Justice Sonia Sotomayor, Spike Lee, Barbara Walters, Fidel Castro, and more. After 30 fascinating years uncovering the hard truth, journalist Jorge Ramos opens up for the first time about life-altering lessons by sharing captivating never-before-told stories. Widely recognized for his

unapologetic, no-holds-barred approach to interviewing global leaders, business titans, democratic policy makers, and dictators, Ramos unearths their one common trait—they were all rebels at one point in their lives. Rebels are different. They decided to challenge the prevailing status quo. Sometimes they rebelled to change a regime, other times to prevent abuse or discrimination, but in most cases they strived to correct an injustice. Candid and at times controversial, Ramos draws invaluable awareness of issues that influence the mindset of the largest minority in the country—Latinos—and how they will undoubtedly shape not only Presidential elections but also the future of America.

Rebels and Exiles Matthew S. Harmon. 2020-10-27 Biblical Foundations Book Awards Finalist Deep within the human psyche lies a sense that we were made for something more than this broken world. We all share an experience of exile—of longing for our true home. In this ESBT volume, Matthew S. Harmon explores how the theme of sin and exile is developed throughout Scripture. He traces a common pattern of human rebellion, God's judgment, and the hope of restored relationship, beginning with the first humans and concluding with the end of exile in a new creation. In this story we encounter the remarkable grace of a God who wants to dwell with his people, and we learn how to live well as exiles in a fallen world. *Rebels and Exiles* makes clear how the paradigm of sin leading to exile is foundational for understanding both the biblical storyline and human existence. *Essential Studies in Biblical Theology (ESBT)*, edited by Benjamin L. Gladd, explore the central or essential themes of the Bible's grand storyline. Taking cues from Genesis 1-3, authors explore the presence of these themes throughout the entire sweep of redemption history. Written for students, church leaders, and laypeople, the ESBT offers an introduction to biblical theology.

Frontier Encounters Franck Billé, Grégory Delaplace, Caroline Humphrey. 2012-08-01 China and

Russia are rising economic and political powers that share thousands of miles of border. Despite their proximity, their interactions with each other - and with their third neighbour Mongolia - are rarely discussed. Although the three countries share a boundary, their traditions, languages and worldviews are remarkably different. *Frontier Encounters* presents a wide range of views on how the borders between these unique countries are enacted, produced, and crossed. It sheds light on global uncertainties: China's search for energy resources and the employment of its huge population, Russia's fear of Chinese migration, and the precarious independence of Mongolia as its neighbours negotiate to extract its plentiful resources. Bringing together anthropologists, sociologists and economists, this timely collection of essays offers new perspectives on an area that is currently of enormous economic, strategic and geo-political relevance.

Violence without Borders World Bank.2020-06-26 Just like nearly every aspect of human experience, crime, conflict, and violence have become increasingly global. Around the world, civil wars, of which there are more today than at any time since the end of World War II, displace greater numbers of people ever farther from their countries of origin. Transnational terrorism has reached a 50-year high, in terms of both its incidence and the number of reported fatalities. Cross-border criminal markets--illicit drugs, human trafficking, wildlife trade, and so forth--take a heavy toll on the many societies they affect. This Policy Research Report, 'Violence without Borders: The Internationalization of Crime and Conflict', offers a unified framework to take stock of the theoretical and empirical literature on crime, conflict, and violence and to discuss how the international community organizes itself to address security as a regional and global public good. The increasingly global effects of crime and conflict require an equally global response to violence.

Bad Mexicans: Race, Empire, and Revolution in the Borderlands Kelly Lytle

Hernández.2022-05-10 Winner of the Bancroft Prize • One of The New Yorker's Best Books of 2022 • A Kirkus Best World History Book of 2022 One of Smithsonian's 10 Best History Books of 2022 • Longlisted for the 2022 National Book Award for Nonfiction • Shortlisted for the PEN/John Kenneth Galbraith Award for Nonfiction • Shortlisted for the National Book Critics Circle Award for Nonfiction • Shortlisted for the Mark Lynton History prize • Longlisted for the Cundill History Prize

"Rebel historian" Kelly Lytle Hernández reframes our understanding of U.S. history in this groundbreaking narrative of revolution in the borderlands. *Bad Mexicans* tells the dramatic story of the magonistas, the migrant rebels who sparked the 1910 Mexican Revolution from the United States. Led by a brilliant but ill-tempered radical named Ricardo Flores Magón, the magonistas were a motley band of journalists, miners, migrant workers, and more, who organized thousands of Mexican workers—and American dissidents—to their cause. Determined to oust Mexico's dictator, Porfirio Díaz, who encouraged the plunder of his country by U.S. imperialists such as Guggenheim and Rockefeller, the rebels had to outrun and outsmart the swarm of U. S. authorities vested in protecting the Diaz regime. The U.S. Departments of War, State, Treasury, and Justice as well as police, sheriffs, and spies, hunted the magonistas across the country. Capturing Ricardo Flores Magón was one of the FBI's first cases. But the magonistas persevered. They lived in hiding, wrote in secret code, and launched armed raids into Mexico until they ignited the world's first social revolution of the twentieth century. Taking readers to the frontlines of the magonista uprising and the counterinsurgency campaign that failed to stop them, Kelly Lytle Hernández puts the magonista revolt at the heart of U.S. history. Long ignored by textbooks, the magonistas threatened to undo the rise of Anglo-American power, on both sides of the border, and inspired a revolution that gave birth to the Mexican-American population, making the magonistas' story integral to modern American life.

House of Earth and Blood Sarah J. Maas.2020-03-03 A #1 New York Times bestseller! Sarah J. Maas's brand-new CRESCENT CITY series begins with *House of Earth and Blood*: the story of half-Fae and half-human Bryce Quinlan as she seeks revenge in a contemporary fantasy world of magic, danger, and searing romance. Bryce Quinlan had the perfect life-working hard all day and partying all night-until a demon murdered her closest friends, leaving her bereft, wounded, and alone. When the accused is behind bars but the crimes start up again, Bryce finds herself at the heart of the investigation. She'll do whatever it takes to avenge their deaths. Hunt Athalar is a notorious Fallen angel, now enslaved to the Archangels he once attempted to overthrow. His brutal skills and incredible strength have been set to one purpose-to assassinate his boss's enemies, no questions asked. But with a demon wreaking havoc in the city, he's offered an irresistible deal: help Bryce find the murderer, and his freedom will be within reach. As Bryce and Hunt dig deep into Crescent City's underbelly, they discover a dark power that threatens everything and everyone they hold dear, and they find, in each other, a blazing passion-one that could set them both free, if they'd only let it. With unforgettable characters, sizzling romance, and page-turning suspense, this richly inventive new fantasy series by #1 New York Times bestselling author Sarah J. Maas delves into the heartache of loss, the price of freedom-and the power of love.

The Counterrevolution Bernard E. Harcourt.2018-02-27 A distinguished political theorist sounds the alarm about the counterinsurgency strategies used to govern Americans Militarized police officers with tanks and drones. Pervasive government surveillance and profiling. Social media that distract and track us. All of these, contends Bernard E. Harcourt, are facets of a new and radical governing paradigm in the United States--one rooted in the modes of warfare originally developed to suppress anticolonial revolutions and, more recently, to prosecute the war on terror. The

Counterrevolution is a penetrating and disturbing account of the rise of counterinsurgency, first as a military strategy but increasingly as a way of ruling ordinary Americans. Harcourt shows how counterinsurgency's principles--bulk intelligence collection, ruthless targeting of minorities, pacifying propaganda--have taken hold domestically despite the absence of any radical uprising. This counterrevolution against phantom enemies, he argues, is the tyranny of our age. Seeing it clearly is the first step to resisting it effectively.

Rebel Without Borders Marc Vachon, Francois Bugingo. 2010-12-14 From reverse engineering to phonetic modifications, this innovative anthology reveals surprising meaning behind familiar subject matter. Through the Bible and other cultural narratives, the featured verse conducts numerous intriguing lyrical experiments, making this compendium a welcome addition to any collection of poetry.

Female Fighters Reed M. Wood. 2019 The presence of women combatants on the battlefield--especially in large numbers--strikes many observers as a notable departure from the historical norm. Yet women have played a significant active role in many contemporary armed rebellions. Over recent decades, numerous resistance movements in many regions of the globe have deployed thousands of female fighters in combat. In *Female Fighters*, Reed M. Wood explains why some rebel groups deploy women in combat while others exclude women from their ranks, and the strategic implication of this decision. Examining a vast original dataset on female fighters in over 250 rebel organizations, Wood argues rebel groups can gain considerable strategic advantages by including women fighters. Drawing on women increases the pool of available recruits and helps ameliorate resource constraints. Furthermore, the visible presence of female fighters often becomes an important propaganda tool for domestic and international audiences. Images of women combatants

help raise a group's visibility, boost local recruitment, and aid the group's efforts to solicit support from transnational actors and diaspora communities. However, Wood finds that, regardless of the wartime resource challenges they face, religious fundamentalist rebels consistently resist utilizing female fighters. A rich, data-driven study, *Female Fighters* presents a systematic, comprehensive analysis of the impact women's participation has on organized political violence in the modern era. *Rebels and Robbers* Assis Malaquias.2007 *Rebels and Robbers* is about the political economy of violence in post-colonial Angola. This book provides the first comprehensive attempt at analyzing how the military and non-military dynamics of more than four decades of conflict created the structural violence that stubbornly defines Angolan society even in the absence of war. The book clearly demonstrates that the end of the civil war has not ushered in positive peace. The focus on structural violence enables the author to explore the continuities since colonial times, especially in the ways race, class, ethnicity, and power have been used by governing elites as mechanisms to oppress the powerless. Thus, although corruption as structural violence manifesting itself so ubiquitously in Angola today may have been taken to new levels after independence, its origin is unmistakably colonial. Similarly, the zero-sum character of political interactions that defined colonial Angola is yet to be fully exorcized. But there are also important discontinuities. The unabashed propensity to capture public resources for personal aggrandizement is purely post-colonial. So is the tendency toward personal, unaccountable rule. Given its rich endowments, the end of the civil war provides Angola with an opportunity to finally realize its developmental potential. This will depend on whether the wealth resulting from the exploration of natural resources is directed toward creating the conditions for the citizens realization of their aspirations for the good life thus ensuring sustainable peace. This book will be valuable to academics, practitioners, and the

general public interested in gaining a deeper understanding of the political economy of violence in Africa and, more specifically, the interplay between violence, wealth and power in Angola.

Rebel Mother Peter Andreas.2017-04-04 “Those who enjoyed Jeannette Walls’s *The Glass Castle* will find much to admire” (Booklist, starred review) in this “thoroughly engrossing” (The New York Times Book Review) memoir about a boy on the run with his mother, as she abducts him to Latin America in search of the revolution. Carol Andreas was a traditional 1950s housewife from a small Mennonite town in central Kansas who became a radical feminist and Marxist revolutionary. From the late sixties to the early eighties, she went through multiple husbands and countless lovers while living in three states and five countries. She took her youngest son, Peter, with her wherever she went, even kidnapping him and running off to South America after his straitlaced father won a long and bitter custody fight. They were chasing the revolution together, though the more they chased it the more distant it became. They battled the bad “isms” (sexism, imperialism, capitalism, fascism, consumerism), and fought for the good “isms” (feminism, socialism, communism, egalitarianism). Between the ages of five and eleven, Peter lived in more than a dozen homes, moving from the comfortably bland suburbs of Detroit to a hippie commune in Berkeley to a socialist collective farm in pre-military coup Chile to highland villages and coastal shantytowns in Peru. When they secretly returned to America they settled down clandestinely in Denver, where his mother changed her name to hide from his father. A “luminous memoir” (Publishers Marketplace, starred review) and “an illuminating portrait of a childhood of excitement, adventure, and love” (Kirkus Reviews) this is an extraordinary account of a deep mother-son bond and the joy and toll of growing up in a radical age. Peter Andreas is an insightful and candid narrator of “a profound and enlightening book that will open readers up to different ideas about love, acceptance, and the bond between mother and son”

(Library Journal, starred review).

The Civil War of 1812 Alan Taylor.2011-10-04 In the early nineteenth century, Britons and Americans renewed their struggle over the legacy of the American Revolution, leading to a second confrontation that redefined North America. Pulitzer Prize-winning historian Alan Taylor's vivid narrative tells the riveting story of the soldiers, immigrants, settlers, and Indians who fought to determine the fate of a continent. Would revolutionary republicanism sweep the British from Canada? Or would the British contain, divide, and ruin the shaky republic? In a world of double identities, slippery allegiances, and porous boundaries, the leaders of the republic and of the empire struggled to control their own diverse peoples. The border divided Americans—former Loyalists and Patriots—who fought on both sides in the new war, as did native peoples defending their homelands. And dissident Americans flirted with secession while aiding the British as smugglers and spies. During the war, both sides struggled to sustain armies in a northern land of immense forests, vast lakes, and stark seasonal swings in the weather. After fighting each other to a standstill, the Americans and the British concluded that they could safely share the continent along a border that favored the United States at the expense of Canadians and Indians. Moving beyond national histories to examine the lives of common men and women, *The Civil War of 1812* reveals an often brutal (sometimes comic) war and illuminates the tangled origins of the United States and Canada. Moving beyond national histories to examine the lives of common men and women, *The Civil War of 1812* reveals an often brutal (sometimes comic) war and illuminates the tangled origins of the United States and Canada.

Strong Borders, Secure Nation M. Taylor Fravel.2008-08-25 As China emerges as an international economic and military power, the world waits to see how the nation will assert itself globally. Yet, as

M. Taylor Fravel shows in *Strong Borders, Secure Nation*, concerns that China might be prone to violent conflict over territory are overstated. The first comprehensive study of China's territorial disputes, *Strong Borders, Secure Nation* contends that China over the past sixty years has been more likely to compromise in these conflicts with its Asian neighbors and less likely to use force than many scholars or analysts might expect. By developing theories of cooperation and escalation in territorial disputes, Fravel explains China's willingness to either compromise or use force. When faced with internal threats to regime security, especially ethnic rebellion, China has been willing to offer concessions in exchange for assistance that strengthens the state's control over its territory and people. By contrast, China has used force to halt or reverse decline in its bargaining power in disputes with its militarily most powerful neighbors or in disputes where it has controlled none of the land being contested. Drawing on a rich array of previously unexamined Chinese language sources, *Strong Borders, Secure Nation* offers a compelling account of China's foreign policy on one of the most volatile issues in international relations.

Catarino Garza's Revolution on the Texas-Mexico Border Elliott Young. 2004-07-05 Catarino Garza's Revolution on the Texas-Mexico Border rescues an understudied episode from the footnotes of history. On September 15, 1891, Garza, a Mexican journalist and political activist, led a band of Mexican rebels out of South Texas and across the Rio Grande, declaring a revolution against Mexico's dictator, Porfirio Díaz. Made up of a broad cross-border alliance of ranchers, merchants, peasants, and disgruntled military men, Garza's revolution was the largest and longest lasting threat to the Díaz regime up to that point. After two years of sporadic fighting, the combined efforts of the U.S. and Mexican armies, Texas Rangers, and local police finally succeeded in crushing the rebellion. Garza went into exile and was killed in Panama in 1895. Elliott Young provides the first

full-length analysis of the revolt and its significance, arguing that Garza's rebellion is an important and telling chapter in the formation of the border between Mexico and the United States and in the histories of both countries. Throughout the nineteenth century, the borderlands were a relatively coherent region. Young analyzes archival materials, newspapers, travel accounts, and autobiographies from both countries to show that Garza's revolution was more than just an effort to overthrow Díaz. It was part of the long struggle of borderlands people to maintain their autonomy in the face of two powerful and encroaching nation-states and of Mexicans in particular to protect themselves from being economically and socially displaced by Anglo Americans. By critically examining the different perspectives of military officers, journalists, diplomats, and the Garzistas themselves, Young exposes how nationalism and its preeminent symbol, the border, were manufactured and resisted along the Rio Grande.

A Nation Without Borders Steven Hahn. 2017-12-05 A Pulitzer Prize-winning historian's breathtakingly original (Junot Diaz) reinterpretation of the eight decades surrounding the Civil War. Capacious [and] buzzing with ideas. --The Boston Globe Volume 3 in the Penguin History of the United States, edited by Eric Foner In this ambitious story of American imperial conquest and capitalist development, Pulitzer Prize-winning historian Steven Hahn takes on the conventional histories of the nineteenth century and offers a perspective that promises to be as enduring as it is controversial. It begins and ends in Mexico and, throughout, is internationalist in orientation. It challenges the political narrative of "sectionalism," emphasizing the national footing of slavery and the struggle between the northeast and Mississippi Valley for continental supremacy. It places the Civil War in the context of many domestic rebellions against state authority, including those of Native Americans. It fully incorporates the trans-Mississippi west, suggesting the importance of the

Pacific to the imperial vision of political leaders and of the west as a proving ground for later imperial projects overseas. It reconfigures the history of capitalism, insisting on the centrality of state formation and slave emancipation to its consolidation. And it identifies a sweeping era of “reconstructions” in the late-nineteenth and early twentieth centuries that simultaneously laid the foundations for corporate liberalism and social democracy. The era from 1830 to 1910 witnessed massive transformations in how people lived, worked, thought about themselves, and struggled to thrive. It also witnessed the birth of economic and political institutions that still shape our world. From an agricultural society with a weak central government, the United States became an urban and industrial society in which government assumed a greater and greater role in the framing of social and economic life. As the book ends, the United States, now a global economic and political power, encounters massive warfare between imperial powers in Europe and a massive revolution on its southern border—the remarkable Mexican Revolution—which together brought the nineteenth century to a close while marking the important themes of the twentieth.

Badges without Borders Stuart Schrader. 2019-10-15 From the Cold War through today, the U.S. has quietly assisted dozens of regimes around the world in suppressing civil unrest and securing the conditions for the smooth operation of capitalism. Casting a new light on American empire, *Badges Without Borders* shows, for the first time, that the very same people charged with global counterinsurgency also militarized American policing at home. In this groundbreaking exposé, Stuart Schrader shows how the United States projected imperial power overseas through police training and technical assistance—and how this effort reverberated to shape the policing of city streets at home. Examining diverse records, from recently declassified national security and intelligence materials to police textbooks and professional magazines, Schrader reveals how U.S.

police leaders envisioned the beat to be as wide as the globe and worked to put everyday policing at the core of the Cold War project of counterinsurgency. A “smoking gun” book, *Badges without Borders* offers a new account of the War on Crime, “law and order” politics, and global counterinsurgency, revealing the connections between foreign and domestic racial control.

Rebel Angels Libba Bray.2010-05-01 In this thrilling sequel, Gemma continues to pursue her destiny to bind the magic of the Realms and restore it to the Order. Gemma and her friends from Spence use magical power to transport themselves on visits from their corseted world of Victorian London (at the height of the Christmas season), to the visionary country of the Realms, with its strange beauty and menace. There they search for the lost Temple, the key to Gemma's mission, and comfort Pippa, their friend who has been left behind in the Realms. After these visits they bring back magical power for a short time to use in their own world. Meanwhile, Gemma is torn between her attraction to the exotic Kartik, the messenger from the opposing forces of the Rakshana, and the handsome but clueless Simon, a young man of good family who is courting her. This is the second book in Libba Bray's engrossing trilogy, set in a time of strict morality and barely repressed sensuality, about a girl who saw another way.

How Insurgency Begins Janet I. Lewis.2020-09-03 Why do only some incipient rebel groups become viable challengers to governments? Only those that control local rumor networks survive.

Gangsters Without Borders Thomas W. Ward.2013 Based on author T.W. Ward's eight and a half years in Los Angeles conducting participant observation with MS-13, *Gangsters Without Borders: An Ethnography of a Salvadoran Street Gang* takes an inside look at gang life in the United States and in a global context. Taking us through their journey from their homeland in El Salvador to the mean streets of Los Angeles, *Gangsters Without Borders* offers a perspective from the point of view of the

hard-core members who live this hard, fast, and dangerous life. A powerful and engaging overview of gang dynamics, *Gangsters Without Borders* contextualizes the sources and severity of the marginalization felt by Salvadoran immigrants and debunks myths about street gangs in the United States. This account of gangster's lives before, during, and after their involvement with the gang, delivers an intimate and analytical portrait unlike any other.

Rebel Governance in Civil War Ana Arjona, Nelson Kasfir, Zachariah Mampilly. 2015-10-22 This is the first book to examine and compare how rebels govern civilians during civil wars in Latin America, Africa, Asia, and Europe. Drawing from a variety of disciplinary traditions, including political science, sociology, and anthropology, the book provides in-depth case studies of specific conflicts as well as comparative studies of multiple conflicts. Among other themes, the book examines why and how some rebels establish both structures and practices of rule, the role of ideology, cultural, and material factors affecting rebel governance strategies, the impact of governance on the rebel/civilian relationship, civilian responses to rebel rule, the comparison between modes of state and non-state governance to rebel attempts to establish political order, the political economy of rebel governance, and the decline and demise of rebel governance attempts.

Revolutions across Borders Maxime Dagenais, Julien Mauduit. 2019-04-30 Starting in 1837, rebels in Upper and Lower Canada revolted against British rule in an attempt to reform a colonial government that they believed was unjust. While this uprising is often perceived as a small-scale, localized event, *Revolutions across Borders* demonstrates that the Canadian Rebellion of 1837-38 was a major continental crisis with dramatic transnational consequences. In this groundbreaking study, contributors analyze the extent of the Canadian Rebellion beyond British North America and the turbulent Jacksonian period's influence on rebel leaders and the course of the rebellion. Exploring

the rebellion's social and economic dimensions, its impact on American politics, policy-making, and the philosophy of manifest destiny, and the significant changes south of the border that influenced this Canadian uprising, the essays in this volume show just how malleable borderland relations were. Chapters investigate how Americans frustrated with the young republic considered an “alternative republic” in Canada, the new monetary system that the rebels planned to establish, how the rebellion played a major role in Martin Van Buren's defeat in the 1840 presidential election, and how America's changing economic alliances doomed the Canadian Rebellion before it even started. Reevaluating the implications of this transnational conflict, *Revolutions across Borders* brings new life and understanding to this turning point in the history of North America.

Troublesome Young Men Lynne Olson.2007-04-17 Publisher description

World Report 2019 Human Rights Watch.2019-02-05 The best country-by-country assessment of human rights. The human rights records of more than ninety countries and territories are put into perspective in Human Rights Watch's signature yearly report. Reflecting extensive investigative work undertaken by Human Rights Watch staff, in close partnership with domestic human rights activists, the annual World Report is an invaluable resource for journalists, diplomats, and citizens, and is a must-read for anyone interested in the fight to protect human rights in every corner of the globe.

Rulers and Rebels Laurence H. Shoup.2010 Explore the forgotten history of early California from the viewpoint of the working poor, blacks, immigrants, and other disenfranchised groups who rebelled against rulers.

Militias, Rebels and Islamist Militants Wafula Okumu,Augustine Ovuoronye Ikelegbe.2010

China Marches West Peter C Perdue.2009-06-30 From about 1600 to 1800, the Qing empire of

China expanded to unprecedented size. Through astute diplomacy, economic investment, and a series of ambitious military campaigns into the heart of Central Eurasia, the Manchu rulers defeated the Zunghar Mongols, and brought all of modern Xinjiang and Mongolia under their control, while gaining dominant influence in Tibet. The China we know is a product of these vast conquests. Peter C. Perdue chronicles this little-known story of China's expansion into the northwestern frontier. Unlike previous Chinese dynasties, the Qing achieved lasting domination over the eastern half of the Eurasian continent. Rulers used forcible repression when faced with resistance, but also aimed to win over subject peoples by peaceful means. They invested heavily in the economic and administrative development of the frontier, promoted trade networks, and adapted ceremonies to the distinct regional cultures. Perdue thus illuminates how China came to rule Central Eurasia and how it justifies that control, what holds the Chinese nation together, and how its relations with the Islamic world and Mongolia developed. He offers valuable comparisons to other colonial empires and discusses the legacy left by China's frontier expansion. The Beijing government today faces unrest on its frontiers from peoples who reject its autocratic rule. At the same time, China has launched an ambitious development program in its interior that in many ways echoes the old Qing policies. *China Marches West* is a tour de force that will fundamentally alter the way we understand Central Eurasia.

Global Rebellion Mark Juergensmeyer. 2008-05-16 Examines the growing influence of religion on modern-day politics, culture, and society, as well as the interconnection among militant activists, religion, and rebellious movements, the implications of religious revolution, and ways to respond to religious activism in ways to diminish violence and reach an accommodation between radical religion and the secular world.

Rebels without Borders Idean Salehyan.2011-07-07 Rebellion, insurgency, civil war-conflict within a society is customarily treated as a matter of domestic politics and analysts generally focus their attention on local causes. Yet fighting between governments and opposition groups is rarely confined to the domestic arena. Internal wars often spill across national boundaries, rebel organizations frequently find sanctuaries in neighboring countries, and insurgencies give rise to disputes between states. In *Rebels without Borders*, which will appeal to students of international and civil war and those developing policies to contain the regional diffusion of conflict, Idean Salehyan examines transnational rebel organizations in civil conflicts, utilizing cross-national datasets as well as in-depth case studies. He shows how external Contra bases in Honduras and Costa Rica facilitated the Nicaraguan civil war and how the Rwandan civil war spilled over into the Democratic Republic of the Congo, fostering a regional war. He also looks at other cross-border insurgencies, such as those of the Kurdish PKK and Taliban fighters in Pakistan. Salehyan reveals that external sanctuaries feature in the political history of more than half of the world's armed insurgencies since 1945, and are also important in fostering state-to-state conflicts. Rebels who are unable to challenge the state on its own turf look for mobilization opportunities abroad. Neighboring states that are too weak to prevent rebel access, states that wish to foster instability in their rivals, and large refugee diasporas provide important opportunities for insurgent groups to establish external bases. Such sanctuaries complicate intelligence gathering, counterinsurgency operations, and efforts at peacemaking. States that host rebels intrude into negotiations between governments and opposition movements and can block progress toward peace when they pursue their own agendas.

Traitor to the Throne Alwyn Hamilton.2017-03-07 The sizzling, un-put-downable sequel to the New

York Times bestselling *Rebel of the Sands*, by Goodreads Choice Awards Best Debut Author of 2016 Alwyn Hamilton! Mere months ago, gunslinger Amani al'Hiza fled her dead-end hometown on the back of a mythical horse with the mysterious foreigner Jin, seeking only her own freedom. Now she's fighting to liberate the entire desert nation of Miraji from a bloodthirsty sultan who slew his own father to capture the throne. When Amani finds herself thrust into the epicenter of the regime—the Sultan's palace—she's determined to bring the tyrant down. Desperate to uncover the Sultan's secrets by spying on his court, she tries to forget that Jin disappeared just as she was getting closest to him, and that she's a prisoner of the enemy. But the longer she remains, the more she questions whether the Sultan is really the villain she's been told he is, and who's the real traitor to her sun-bleached, magic-filled homeland. Forget everything you thought you knew about Miraji, about the rebellion, about djinni and Jin and the Blue-Eyed Bandit. In *Traitor to the Throne*, the only certainty is that everything will change. *Rebel of the Sands* was a New York Times bestseller, published in fifteen countries and the recipient of four starred reviews and multiple accolades, with film rights optioned by Willow Smith. And its sequel is even better.
