How to Teach Poetry Writing at Key Stage 3 Pie Corbett.2013-10-23 How to Teach Poetry Writing at Key Stage 3 is a practical manual for teachers, to be used directly in the classroom. The book begins with a series of poetry games designed to warm up creativity and strengthen the imagination. These are followed by a series of creative poetry workshops, based on the writer's own experience both as a teacher and poet running workshops in schools, which focus on developing a 'poetry base' for young writers. This imaginative base provides a range of poetic techniques and gives pupils experience in developing a repertoire of different forms. The book also offers advice on how to organize an effective workshop, and demonstrates how to teach poetry writing in a dynamic, creative and imaginative way in relationship with the KS3 national framework. Pie Corbett also provides useful advice on working with visiting poets in school, addresses for relevant web-sites, a list of books for follow-up work and a glossary of poetic forms and techniques. Workshops include writing from first hand observation; autobiography - valuing our lives; writing about paintings, sculpture and music; surreal boxes and the bag of words; secrets, lies, wishes and dreams; creating images, taking word snapshots; riddles - hiding the truth; and red wheelbarrows and messages for mice.

The Primary ICT & E-learning Co-ordinator's Manual James Wright.2007-05-23 [This book is] absolutely wonderful. It will be my new Bible... I have used it loads already in preparation for my ICT Mark assessment. Taking on the role of ICT co-ordinator can be quite a daunting task but this step by step guide, breaking things down into manageable chunks will be very supportive. I love the blogging idea - the comments made by the characters are very realistic. This is just what new co-ordinators need, I wish I'd had this when I took over co-ordination of ICT! - Christine Beedham, Primary ICT adviser, Warrington Every primary school has the daunting task of embedding ICT and e-learning into their curriculum. This practical manual is the first part of a two volume set that together makes up a detailed two year training programme for primary ICT and e-learning co-ordinators. The books combine key strategies and information with a weblog discussion from a group of 'virtual' co-ordinators who share their problems, fears and successes over the two-year programme, based on the author's wide experience of working with new co-ordinators and experienced staff on training programmes and in general support. Book 1 is designed specifically for co-ordinators new to the role who need starting points and broad support. It presents a structured training programme split over three terms, guiding co-ordinators through the key stages of developing and implementing ICT policy and practice, including: o auditing existing school systems o reviewing and revising the school policy for ICT o reviewing the ways in which ICT is used as a teaching and learning tool across the curriculum o examining methods for the management of technical support services o establishing a clear overview of standards in ICT, including a review of assessment procedures, moderating work, monitoring teaching and learning and creating E Portfolios. The books have a companion website, which will offer downloadable versions of the photocopiable sheets from the book, as well as links to other sources of help and advice.
