

Rough Tome 04

Hitler Triumphant Peter G Tsouras.2021-04-30 Edited by the author of *Disaster at D-Day*, a collection of alternative histories that force readers to consider what could happen if the Nazis won World War II. What if Winston Churchill's plane had been shot down and Halifax had become Prime Minister? Or what if Goering had taken power after a successful assassination of Hitler? Or what if Italy had not joined the Third Reich and the Axis? Inspired by a series of hypothetical questions posed by leading military historians, this compelling collection of alternate histories rewrites moments in World War II that could conceivably have altered the entire course of the war and led to a German victory. Based on real battles, actions, and characters, each scenario has been carefully constructed to reveal how different decisions or minor incidents could have set in motion an entirely new chain of events, altering history forever. Other scenarios in this volume include the fall of Malta in 1942, a successful Stalingrad breakout, and a disastrous attempt to open a second front on the Cherbourg peninsula in 1943. Contributors include John Prados, editor of *The White House Tapes: Eavesdropping on the President*; David Isby, editor of *Fighting the Invasion* and *The Luftwaffe Fighter Force*; and Nigel Jones, author of *The War Walk* and *Rupert Brooke, Life, Death and Myth*. Praise for *Hitler Triumphant* "An entertaining work of counter-factual history, with some thought-provoking material on the overall course of the war." —*History of War* "The analysis of battle strategy and military might makes for a top pick for military readers seeking more than fantasy speculation." —*Midwest Book Review*

Wilderness Navigation Handbook Fred Touche.2005-09-28 Designed for both land and water use, this comprehensive guide helps unlock the complexity of map and chart reading as it relates to navigation. Beginning with detailed technical descriptions of the tools of navigation—a compass, an altimeter, a GPS system, and a sextant—this handbook shows how to use these tools either individually or in combination with each other to navigate any area. Factors that cause tools and techniques to fail are discussed, such as why an altimeter often shows the wrong elevation, a GPS

position is sometimes off track, and the sun often points in an unexpected direction. Twenty-one real-life scenarios provide practical wisdom for even the most intrepid navigator. Specific information on using the moon for directions and the stars for position, measuring boiling water temperature for elevation, map projections, map datums, great circle routes, and the UTM/UPS grid system is included.

To War with the 4th Martin King,David Hilborn,Jason Nulton.2016-11-30 The 4th Infantry Division has always been there in America's modern wars. On 14 September 1918 the men of the 4th Infantry Division stood up in their trenches and prepared to attack. It would be one of the first times that American troops would operate autonomously, aside from Anglo-Franco command. They would go over the top on uneven ground to be blown to pieces by German artillery and fall in their hundreds to the spitting of German machine guns, yet nevertheless win the day. In World War II on D-Day they scrambled ashore across the sands of Utah beach and remained fighting in Europe until Hitler was dead and Germany had surrendered. From the Normandy campaign to the hell of the Hurtgen Forest and the Battle of the Bulge, no other American division suffered more casualties in the European theater than the 4th, and no other division accomplished as much. In Vietnam they would execute precarious search and destroy missions in dense jungles against a determined and resourceful enemy. They experienced a series of major engagements that would entail 33 consecutive days of vicious, close-quarters combat in the battle of Dak To in 1967. For their actions in Indochina they

would receive no less than 11 Medals of Honor. They fought in Iraq to topple Saddam Hussein, and in May 2009, at the height of Operation Enduring Freedom, the 4th Infantry Brigade Combat Team deployed to Afghanistan for a 12-month combat mission. They operated in the birthplace of the Taliban along the Arghandab River Valley, west of Kandahar City, a place often ominously referred to as The Heart of Darkness. The 2nd Battalion 12th Infantry Regiment saw heavy combat throughout. Through firsthand interviews with veterans, across the decades, and the expert analysis of the authors, the role of one of America's mainstay divisions in its modern conflicts is in these pages illuminated.

Mendler. 2018-04-16 In this revised and updated 4th edition, *Discipline with Dignity* provides in-depth guidance for implementing a proven approach to classroom management that can help students make better choices and teachers be more effective. Emphasizing the importance of mutual respect and self-control, the authors offer specific strategies and techniques for building strong relationships with disruptive students and countering the toxic social circumstances that affect many of them, including dysfunctional families, gangs, and poverty. Educators at all levels can learn * The difference between formal and informal discipline systems and when to use each. * The role of values, rules, and consequences. * How to address the underlying causes of discipline problems that occur both in and out of school. * What teachers can do to defuse or prevent classroom disruptions and disrespectful behavior without removing students from the classroom. * Why traditional approaches such as threats, punishments, and rewards are ineffective--and what to do instead. * How to use relevance, teacher enthusiasm, choice, and other elements of curriculum and instruction to motivate students. * How to reduce both teacher and student stress that can trigger power struggles. With dozens of specific examples of student-teacher interactions, *Discipline with Dignity* illustrates what you can do--and not do--to make the classroom a place where students learn and teachers maintain control in a nonconfrontational way. The goal is success for all, in schools that thrive.
