The Girl From Number 7, Windsor Avenue Vivienne Grilliot Worthington.2023-01-12 While growing up in a post-World War II English village, Vivienne Worthington believed she lived in the most wonderful place on Earth: with her loving maternal grandparents on a street named for the Royal Family and the newly crowned queen. But when she was six years old, Vivienne's idyllic life was uprooted when she was summoned to America to live with her parents. Her father, an American airman, was being transferred from Patrick Air Force Base in Florida to Ball State Teacher's College in Muncie, Indiana to teach ROTC, and her mother thought it was time that Vivienne joined them. In a fascinating retelling of her life, the author shares insight into her personal experiences as a military dependent who resided in England, France, and America during the fifties and sixties. While detailing the traumatic death of her younger brother (Eisenhower's biggest fan), the tumultuous years of living in Mississippi during the Kennedy administration, and then, ultimately witnessing the loss of friends to military service during the Viet Nam War, Worthington provides a rare glimpse into a world populated by the men, women, and families who live to serve. *The Girl from Number 7, Windsor Avenue* is the humorous and poignant account of an English-American girl growing up as an Air Force brat in a post-World War II world.

Mummy Movies Bryan Senn.2024-01-25 In 1932, *The Mummy*, starring Boris Karloff, introduced another icon to the classic monster pantheon, beginning a journey down the cinematic Nile that has yet to reach its end. Over the past century, movie mummies have met everyone from Abbott and

Costello to Tom Cruise, not to mention a myriad of fellow monsters. Horrifying and mysterious, the mummy comes from a different time with uncommon knowledge and unique motivation, offering the lure of the exotic as well as the terrors of the dark. From obscure no-budgeters to Hollywood blockbusters, the mummy has featured in films from all over the globe, including Brazil, China, France, Hong Kong, India, Mexico, and even its fictional home country of Egypt--with each film bringing its own cultural sensibilities. Movie mummies have taken the form of teenagers, superheroes, dwarves, kung fu fighters, Satanists, cannibals and even mummies from outer space. Some can fly, some are sexy, some are scary and some are hilarious, and mummies quickly moved beyond horror cinema and into science fiction, comedy, romance, sexploitation and cartoons. From the Universal classics to the Aztec Mummy series, from Hammer's versions to Mexico's Guanajuato variations, this first-ever comprehensive guide to mummy movies offers in-depth production histories and critical analyses for every feature-length iteration of bandaged horror.

I Was a Teenage Movie Maker Don Glut.2007-06-18 In 1953, a nine-year-old boy watched a prehistoric film called *Beast From 20,000 Fathoms* featuring the special effect magic of Ray Harryhausen. Enthralled by the movie but unsatisfied with what was available for at-home movie consumption, he decided to make his own science fiction thriller from dinosaurs to superheroes. This volume takes a firsthand look at the movie-making career of Don Glut. Beginning with his first movie, *Diplodocus At Large*, at age nine, it explores Glut's various attempts and the increasingly creative processes he used to bring his vision to life. Through the course of the work, Glut discusses his filmmaking experiences at the University of Southern California; the inspiration he received (and gave) through fanzines such as *Famous Monsters of Filmland* and *Castle of Frankenstein*; and the interest which his movies still generate. Films discussed include *The Earth Before Man*, *Spy Smasher vs. the Purple Monster*, *Dinosaur Valley Girls*, and *Frankenstein Meets Dracula*. A chronological filmography lists each of Glut's 41 films with notes regarding cast and a brief synopsis.

The Domino Pattern Timothy Zahn.2015-07-28 Ex-government agent Frank Compton must halt a murderous plague that threatens to turn the galaxy-spanning Quadrail into a ghost train in the fourth installment of Hugo Award-winning author Timothy Zahn's acclaimed Quadrail series The Chahwyn created the Spiders to keep their intra-galactic transportation system, the Quadrail, safe and running smoothly, and contracted ex-security agent Frank Compton to protect its integrity. So far, Compton and his half-human, half-Chahwyn partner, Bayta, have had their hands full keeping this essential link between occupied worlds open and preventing the evil collective intelligence called the Modhri from using it to spread their mind-controlling infection. But now a new threat has boarded, one that troubles even the Modhri. While the Quadrail is en route to the farthest edge of the galaxy, a murder by poison occurs—then another and another—dark happenings that are not only disturbing but also technically impossible. The system Compton and Bayta have been charged with protecting is in grave danger of derailment, and unless they can get to the deep roots of a sinister conspiracy, chaos will come to the ordered universe. This tour de force from Hugo Award winner Timothy Zahn rockets the acclaimed Quadrail series to breathtaking new heights. The

Domino Pattern is an ingenious amalgam of hard science fiction and locked-room murder mystery that would leave even the great Hercule Poirot bedazzled.

The Charlotte Anthony Mysteries Box Set. Books 1-4 Meg Wolfe.2017-02-21 The first four Charlotte Anthony Mystery novels in one box set. The Charlotte Anthony novels are traditional, character-driven amateur detective mysteries where the past informs the present, and a small town in the American Midwest is connected to the larger world in often surprising ways. An Uncollected Death introduces Charlotte Anthony, a forty-something divorcée, single mother and magazine editor who suddenly finds herself an empty-nester, unemployed, and on the verge of bankruptcy. She gratefully takes the job of editing the journals of Olivia Bernadin, a long-lost nouveau roman author. Things rapidly deteriorate, however, when she finds Olivia left for dead the first day on the job--and herself a suspect in the crime. In An Unexamined Wife, plans for an idyllic holiday in Aspen are disrupted by the discovery of a dead professor in his lab full of suspicious-looking plants. Once again, Charlotte joins forces with Detective Barnes to solve a murder that is anything but straightforward. Potential motives and suspects are many and the prof's complicated love life only adds to the confusion. An Undisclosed Vocation begins with startling events: An explosion. A death. The destruction of a popular Elm Grove business. Charlotte Anthony, caught up in the ensuing chaos, wonders what the victim meant when he said he knew something that could get us both killed. In An Uncharted

Corpse, the strange appearance of a mummy at a conference sets off a chain of events with repercussions that go far beyond the staid world of academia. A suspicious death, a secret code, and a powerful sect combine to intimately connect the past to the present.

Drawing on nearly sixty years of public service, Whatever Next? recounts captivating tales of the ups and downs of Westminster life - including choice nuggets of original correspondence, cartoons and poems - from a peer with a real twinkle in his eye.

A Mummy's New World Deborah Harrow. 2011-11-04 Finally a positive blue line or the word 'pregnant' confirming your dreams of a new life, sending shivers through your spine with excitement and huge curiosity and fear for the changes ahead. There is the feeling of wonderment and awe of the creation of a new life entwined with the expense of a baby, morning sickness and changing relationships that are combined with a feeling of complete and utter cluelessness. Questions, questions, questions... What do babies need? How do babies grow? Should I return to work or not? What childcare would be best? The book certainly does not claim to be a factual guide, instead offering an honest and reflective account of the roller coaster of emotions experienced by a 'normal' non-celebrity mum. A mum who neither has an army of helpers nor a bottom-less pot of money; just an everyday Mummy with bits of drool on her shoulder and sick on her trousers who has had the most amazing fifteen months and wants to share some of these highs and lows from conception to six months.

Obesity in the News Gavin Brookes, Paul Baker. 2021-11-25 Obesity is a pressing social issue and a persistently newsworthy topic for the media. This book examines the linguistic representation of obesity in the British press. It combines techniques from corpus linguistics with critical discourse studies to analyse a large corpus of newspaper articles (36 million words) representing ten years of obesity coverage. These articles are studied from a range of methodological perspectives, and analytical themes include variation between newspapers, change over time, diet and exercise, gender and social class. The volume also investigates the language that readers use when responding to obesity representations in the context of online comments. The authors reveal the power of linguistic choices to shame and stigmatise people with obesity, presenting them as irresponsible and morally deviant. Yet the analysis also demonstrates the potential for alternative representations which place greater focus on the role that social and political forces play in this topical health issue.
