*Khubilai Khan* Morris Rossabi.2009-11-02 Living from 1215 to 1294, Khubilai Khan is one of history's most renowned figures. Morris Rossabi draws on sources from a variety of East Asian, Middle Eastern, and European languages as he focuses on the life and times of the great Mongol monarch. This 20th anniversary edition is updated with a new preface examining how twenty years of scholarly and popular portraits of Khubilai have shaped our understanding of the man and his time.

*Loomshuttles, Warpaths, 2010 - 2018* Ines Doujak, John Barker.2018-06 The Austrian artist Ines Doujak presents her highly unusual fashion collections. Citing and at the same time calling into question the glamour of the fashion world, Doujak's works are characterized both by their determined criticism and their beauty. The artist brings into play the exploitative structures and the gender and class order hardwired into haute couture and the garment industry and deliberately blurs the demarcation line separating fashion statement and art. The focus is on textile workers burnt to death in their factories, on total exhaustion as the lot of men and women in the low-wage sector, on dirty secrets, animal and human skins, Carnival and masquerade, drugs, war and the devil himself. Motifs and themes are directly inscribed on the textiles as carrier material. Fabrics, patterns, garments and accessories as well as texts, publications, objects, videos, dance interludes and pieces of music deal with the links between fashion, colonialism and globalized relations of production. Exhibition: Württembergische Kunstverein, Stuttgart, Germany (15.10.2016 - 15.01.2017) / Lentos Kunstmuseum, Linz,

Austria (2.2. - 21.5.2018).

**Chinese Script** Thomas O. Höllmann.2017-11-14 In this brisk and accessible history, sinologist Thomas O. Höllmann explains the development of the Chinese writing system and its importance in literature, religion, art, and other aspects of culture. Spanning the earliest epigraphs and oracle bones to writing and texting on computers and mobile phones today, *Chinese Script* is a wide-ranging and versatile introduction to the complexity and beauty of written text and calligraphy in the Chinese world. Höllmann delves into the origins of Chinese script and its social and political meanings across millennia of history. He recounts the social history of the writing system; written and printed texts; and the use of writing materials such as paper, silk, ink, brush, and printing techniques. The book sheds light on the changing role of literacy and education; the politics of orthographic reform; and the relationship of Chinese writing to non-Han Chinese languages and cultures. Höllmann explains the inherent complexity of Chinese script, demonstrating why written Chinese expresses meaning differently than oral language and the subtleties of the relationship between spoken word and written text. He explores calligraphy as an art, the early letter press, and other ways of visually representing Chinese languages. *Chinese Script* also provides handy illustrations of the concepts discussed, showing how ideographs function and ways to decipher them visually.

**Facing India** Ralf Beil.2018-04-24 How do female Indian artists position themselves today? How do they deal with their responsibilities to society, as well as with the legacy of their feminist predecessors? What kind of language do they invent to express that which has been unarticulated? In *Facing India*, six

female, Indian artists devote themselves not only to the history and future of India, but also to their country in the present day. Torn between tradition and the modern world, India's patriarchal society is in the midst of a socio-cultural transformation. In their multimedia works Vibha Galhotra (\*1978), Shilpa Gupta (\*1976), Bharti Kher (\*1969), Prajakta Potnis (\*1980), Reena Saini Kallat (\*1973), Mithu Sen (\*1971), and Tejal Shah (\*1979) examine boundaries--a central theme in Indian society, whether they are gender-related limitations, or political, territorial, ecological, or religious boundaries. This richly illustrated publication accompanies the first thematic exhibition of Indian women artists in Germany. Exhibition: April 29 - August 26, 2018, Kunstmuseum Wolfsburg

Water Unites Jenniver Sehring. 2012 Central Asia is a fascinating part of the world. It is rich in culture, natural resources, unique landscapes, wonderful people and of course water. The exhibition catalogue *From the Glaciers to the Aral Sea - Water Unites* wants to foster a better understanding of the Central Asian countries we associate with the Silk Road. The exhibition shows how people live in Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan and Uzbekistan. It also shows how water serves all the living beings in the region. The book has two parts: An analytical part, which contains background information on water and transboundary water resources management and a second part with photos, which aim to bring the region closer to the reader.

**Art of the Hellenistic Kingdoms** Seán Hemingway, Kiki Karoglou, Dorothy H. Abramitis, Sophie Descamps-Lequime, Ariel Herrmann, Marsha Hill, Christine Kondoleon, Christopher S. Lightfoot, Carmelo Malacrino, Joan R. Mertens, Olga Palagia, Dominique Robcis, Susan I. Rotroff, Andreas Scholl, Agnes Schwarzmaier, R. R. R. Smith, Jeffrey Spier, Karen Stamm, Lillian Bartlett Stoner, Alessandro Viscogliosi, Ute Wartenberg, Mark Wypyski, Paul Zanker. 2019-04-29 This handsome newly designed addition to The Metropolitan Museum of Art's symposia series

further the study of one of the most influential but less known periods of Greek art and culture. It is based on papers given at a two-day scholarly symposium held in conjunction with the award-winning exhibition "Pergamon and the Hellenistic Kingdoms of the Ancient World," on view at the Metropolitan in 2016. The twenty diverse essays exemplify the international scope of the Hellenistic arts, which cover the three centuries between the death of Alexander the Great in 323 B.C. and the suicide of Cleopatra in 30 B.C. Subjects range from twenty-first century approaches to museum displays of archaeological material to the circulation of artists and works of art throughout the Mediterranean and the influence of Hellenistic art and its legacy in the ancient Roman world. Among the topics discussed are aspects of royal self-presentation and important elements of iconography and style in coins, gems, mosaics, sculpture, vessels, and wall paintings, in mediums including bronze, faience, glass, marble, silver, and terracotta. Authored by a number of internationally renowned scholars, the essays in this volume highlight the holdings of the Metropolitan and markedly demonstrate the artistic innovations and technical mastery of Hellenistic artists, offering new insights into the vitality and complexity of Hellenistic art. p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 14.0px Verdana}

**Transmitting Culture** Régis Debray.2000 In a departure, author Régis Debray redefines communication as the inescapable conditioning of civilization's meanings and messages by their technologies of transmission and lays the groundwork for a science of the transmission of cultural forms.

Superpower Interrupted Michael Schuman.2020-06-09 This global history as the Chinese would write it gives brilliant and unconventional insights for understanding China's role in the world, especially the drive to Make China Great Again. We in the West routinely ask: What does China want? The answer is quite simple: the superpower status it always had, but briefly lost. In

this colorful, informative story filled with fascinating characters, epic battles, influential thinkers, and decisive moments, we come to understand how the Chinese view their own history and how its narrative is distinctly different from that of Western civilization. More important, we come to see how this unique Chinese history of the world shapes China's economic policy, attitude toward the United States and the rest of the world, relations with its neighbors, positions on democracy and human rights, and notions of good government. As the Chinese see it, for as far back as anyone can remember, China had the richest economy, the strongest military, and the most advanced philosophy, culture, and technology. The collision with the West knocked China's historical narrative off course for the first time, as its 5,000-year reign as an unrivaled superpower came to an ignominious end. Ever since, the Chinese have licked their wounds and fixated on returning their country to its former greatness, restoring the Chinese version of its place in the world as they had always known it. For the Chinese, the question was never if they could reclaim their former dominant position in the world, but when.

**The Emperor's New Road** Jonathan E. Hillman.2020-09-29 A prominent authority on China's Belt and Road Initiative reveals the global risks lurking within Beijing's project of the century China's Belt and Road Initiative is the world's most ambitious and misunderstood geoeconomic vision. To carry out President Xi Jinping's flagship foreign-policy effort, China promises to spend over one trillion dollars for new ports, railways, fiber-optic cables, power plants, and other connections. The plan touches more than one hundred and thirty countries and has expanded into the Arctic, cyberspace, and even outer space. Beijing says that it is promoting global development, but Washington warns that it is charting a path to global dominance. Taking readers on a journey to China's projects in Asia, Europe, and Africa, Jonathan E. Hillman reveals how this grand vision is unfolding. As China pushes beyond its borders and deep into dangerous territory, it is

repeating the mistakes of the great powers that came before it, Hillman argues. If China succeeds, it will remake the world and place itself at the center of everything. But Xi may be overreaching: all roads do not yet lead to Beijing.

The Last Testament Jonas Bendiksen.2017 Imagined as a sequel to the Old and New Testaments of the Bible, The Last Testament features visual accounts and stories of seven men around the world who claim to be the Second Coming of Jesus Christ.

Building on biblical form and structure, chapters dedicated to each Jesus include excerpts of their scriptural testaments, laying out their theology and demands on mankind in their own words.

Jonas Bendiksen takes at face value that each one is the true Messiah returned to Earth, to forge an account that is a work of apocalyptic journalism and compelling artistic imagination.

*Life Along the Silk Road* Susan Whitfield.1999 The Silk Road was the most traveled trade route for over 1,000 years until it was eclipsed by maritime trade. Whitfield presents composite stories of merchants, soldiers, artists, and princesses who traveled the route, and presents its history through their personal experiences.

*Sarmada* Fadi Azzam.2021-10-19 Sarmada, Arabic for “perpetuate” or “the eternally-not-changed,” is the novel’s fictitious setting. In the title, Fadi Azzam creates a new word (a derivative female form of noun-verb, which does not exist in Arabic) and in so doing immediately lets the reader know that women are the protagonists of this story that spans several generations, from Syria to Paris and back again. The novel is set in the Druze area and is a declaration of love for tolerance and for the peaceful coexistence of the many religious groups that live in close proximity. Myths, communists, nationalists, murder, illicit love, superstition, erotic trees and women’s breasts make up the tapestry of this strange, beautifully written, first novel. Fadi Azzam narrates, just as he writes poetry: Sarmada is direct, ruthless and full of fire.

Xinjiang S. Frederick Starr.2015-03-04 Eastern Turkestan, now known as Xinjiang or the New Territory, makes up a sixth of China's land mass. Absorbed by the Qing in the 1880s and reconquered by Mao in 1949, this Turkic-Muslim region of China's remote northwest borders on formerly Soviet Central Asia, Afghanistan, Kashmir, Mongolia, and Tibet, Will Xinjiang participate in twenty-first century ascendancy, or will nascent Islamic radicalism in Xinjiang expand the orbit of instability in a dangerous part of the world? This comprehensive survey of contemporary Xinjiang is the result of a major collaborative research project begun in 1998. The authors have combined their fieldwork experience, linguistic skills, and disciplinary expertise to assemble the first multifaceted introduction to Xinjiang. The volume surveys the region's geography; its history of military and political subjugation to China; economic, social, and commercial conditions; demography, public health, and ecology; and patterns of adaption, resistance, opposition, and evolving identities.

*China's Vanishing Worlds* Matthias Messmer, Hsin-Mei Chuang. 2013-10-25 Photographs and text document disappearing cultural landscapes and lifestyles in rural China, capturing poignant scenes far from Beijing or Shanghai. Just a few kilometers from the glittering skylines of Shanghai and Beijing, we encounter a vast countryside, an often forgotten and seemingly limitless landscape stretching far beyond the outskirts of the cities. Following traces of old trade routes, once-flourishing marketplaces, abandoned country estates, decrepit model villages, and the sites of mystic rituals, the authors of this book spent seven years exploring, photographing, and observing the vast interior of China, where the majority of Chinese people live in ways virtually unchanged for centuries. *China's Vanishing Worlds* is an impressive documentation in images and text of modernization's effect on traditional ways of life, and a sympathetic portrait of lives burdened by hardship but blessed by simplicity and tranquility. The scars of China's recent history and the decay of centuries-old traditions are made visible in this volume, but so is the lure and promise of technology and another life for young people. In the next twenty years, an estimated 280 million Chinese villagers will become city dwellers, leaving their ancestral homes in search of urban jobs and opportunities. In striking and evocative color photographs, we see picturesque villages set against a background of rolling hills, planned centuries ago according to the principles of feng shui; a restaurant with bright pink resin chairs and a wide-screen television; traditional buildings preserved by the accident of poverty and isolation; ramshackle rooms decorated with portraits of Chairman Mao; backpack-wearing children walking to school; festivals with elaborately costumed performers; old men playing cards; buyers and sellers at open-air markets. *China's Vanishing Worlds* offers readers a rare opportunity to glimpse China as it

once was, and as it will soon no longer be.

**Global Think Tanks** James G. McGann.2010-12-16 Global Think Tanks provides a clear description of and context for the global proliferation of think tanks. Whilst these institutions are still relatively new players in global and national politics, they are becoming a significant source of strength in an increasingly transnational and less Western-led world. This work presents an important guide to the factors contributing to the proliferation of think tanks, the present nature of this proliferation, and the future of think tanks at the global, regional, and national level. The book: identifies the forces driving these phenomena by addressing some of the historical and current factors that have dominate policy debates around the world attempts to identify the range of existing global think tanks and a representative group of global public policy networks and conduct detailed profiling of these organizations. extrapolate trends in current think tank research that provide a basis for understanding the impact that think tanks have on policy makers identifies and critique the role of global think tanks and global public policy networks in civil society and analyze the challenges and opportunities facing global think tanks and policy networks. seeks to recommend improvements to think tanks and global public policy networks so that they can continue to contribute to global public policy and serve as a catalyst for civic engagement around the world. Examining the issues that face think tanks on a global scale, this book will be of great interest to all students of international relations and international organizations.

**Africa: A Modern History** Guy Arnold.2017-10-05 A magisterial and sweeping history of modern Africa. The end of the Second World War signalled the rapid end of the European African empires. In 1945, only four African countries were independent; by 1963, thirty African states created the Organization of African Unity. Despite formidable problems, the 1960s were a time of optimism as Africans enjoyed their new independence, witnessed

increases in prosperity and prepared to tackle their political and economic problems in their own way. By the 1990s, however, the high hopes of the 1960s had been dashed. Dictatorship by strongmen, corruption, civil wars and genocide, widespread poverty and the interventions and manipulations of the major powers had all relegated Africa to the position of an aid 'basket case', with some of the world's poorest and least-developed nations. By exploring developments over the last fifteen years, including the impact of China, new IT technology and the Arab Spring, the rise of Nigeria as Africa's leading country and the recent refugee crisis, Guy Arnold brings his landmark history of modern Africa up to date and provides a fresh and insightful perspective on this troubled and misunderstood continent.

**Fire Islands** Eleanor Ford.2019-05-06 Steep verdant rice terraces, ancient rainforest and fire-breathing volcanoes create the landscape of the world's largest archipelago. Indonesia is a travellers' paradise, with cuisine as vibrant and thrilling as its scenery. For these are the original spice islands, whose fertile volcanic soil grows ingredients that once changed the flavour of food across the world. On today's noisy streets, chilli-spiked sambals are served with rich noodle broths, and salty peanut sauce sweetens chargrilled sate sticks. In homes, shared feasts of creamy coconut curries, stir-fries and spiced rice are fragrant with ginger, tamarind, lemongrass and lime. The air hangs with the tang of chilli and burnt sugar, citrus and spice. Eleanor Ford gives a personal, intimate portrait of a country and its cooking, the recipes exotic yet achievable, and the food brought to life by stunning photography.

*History of the World in 500 Railway Journeys* Sarah Baxter.2019-06-01 History is everywhere, and is never as complete as when it can be accessed on a part of history itself. The locomotive is one of the great steps in progress of civilisation that undoubtably connects us to land and history that was shaped by the machine itself. Although a basic form of railway, or rutway,

did exist in Ancient Greek and Roman times - notably the ship trackway between Diolkos and the Isthmus of Corinth around 600 BC - it would take several thousand years before the first fare-paying passenger service was launched in the early nineteenth century. Some two hundred years on, it is possible to travel by train to some of the world's most remote and remarkable destinations, and track the many wonderful legacies of the Earth's extensive history - man-made and otherwise. From prehistoric rock formations to skyscraper cities, slow steam engines to high-speed bullet trains, let *A History of the World in 500 Railway Journeys* be your guide. Through its beautifully illustrated pages, and 500 awe-inspiring railway journeys, you can chart your own transcontinental itinerary through time. Chug through canyons, steam past ancient monuments, speed through cities, luxuriate in the railcars of presidents and queens, or make express connections between key historical moments or epic eras, *A History of the World in 500 Railway Journeys* has it all. A must-read for travellers, railfans and history buffs alike, offering inspiration and information in equal measure.

**Oasis Identities** Justin Ben-Adam Rudelson.1997 Drawing upon extensive fieldwork in the Xinjiang oasis of Turpan, Rudelson assesses the factors that undermine the creation of a pan-Uyghur identity.

Predication and Ontology Alexander Kalbarczyk.2018-08-06 In *Predication and Ontology* A. Kalbarczyk provides the first monograph-length study of the Arabic reception of Aristotle's *Categories*. At the center of attention is the critical reappraisal of that treatise by Ibn Sīnā (d. 428 AH/1037 AD), better known in the Latin West as Avicenna. Ibn Sīnā's reading of the *Categories* is examined in the context of his wider project of rearranging the transmitted body of philosophical knowledge. Against the background of the late ancient commentary tradition and subsequent exegetical efforts, Ibn Sīnā's *Kitāb al-Maqūlāt* of the *Šifā'* is interpreted as a milestone in the gradual reshuffle of the

relationship between logic proper and ontology. In order to assess the philosophical impact of this realignment, some of the subsequent developments in Ibn Sīnā's writings and in the emerging post-Avicennian tradition are also taken into account. The thematic focus lies on the two fundamental classification schemes which Aristotle introduces in the treatise: the fourfold division of Cat. 2 (of a subject/in a subject) and the tenfold scheme of Cat. 4 (i.e., substance and the nine genera of accidents). They both pose the question of whether and how the manner in which an expression is predicated relates to extra-linguistic reality. As the study intends to show, this question is one of the driving forces of Ibn Sīnā's momentous reform of the Aristotelian curriculum.

**Global Communications Since 1844** Peter J. Hugill.1999-04-09  
He traces the steps that led to the British surrender of world hegemony to the United States at the end of World War II.

**House of Glass** Susan Fletcher.2019 June, 1914: Clara Waterfield is summoned to a large stone house in Gloucestershire, to fill a greenhouse with exotic plants from Kew Gardens and create a private paradise. Yet on arrival, Clara hears rumours: something is wrong with quiet wisteria-covered Shadowbrook. While its gardens are spectacular, its rooms are shuttered or empty. The owner is mostly absent; the housekeeper and maids seem afraid. And soon, Clara understands their fear: for something - or someone - is walking through the house at night. In the height of summer, she finds herself drawn deeper into Shadowbrook's dark interior - and into the secrets that haunt the house. Nothing, not even the men who claim they wish to help her, is quite what it seems...

*Gender Equality: Women's Rights in Review 2020* United Nations Publications.2020-04-13 2020 marks the 25th anniversary of the adoption of the Beijing Platform for Action. It also marks the first time that progress on the implementation of the Platform is reviewed in light of the 2030 Agenda for Sustainable Development, adopted in 2015. This report therefore takes an integrated approach to reporting on progress, gaps and challenges related to the advancement of gender equality and women's rights across six dimensions that link the Platform's critical areas of concern and the Sustainable Development Goals. It finds that there have been important gains since the adoption of the Beijing Platform in 1995, but that progress towards gender equality has stalled and even reversed in some areas in recent years. Across the globe women's movements, energized by young feminists at the helm, are challenging slow and piecemeal progress and are impatient for systemic change. World leaders can learn from the ways in which these movements work across silos and political boundaries, seeing their work to advance the rights of women and girls as inextricably linked to the achievement of economic, social and environmental justice for all. The report features their voices that must be heard and acted upon. The report also highlights catalytic policies and programmes under each of the six dimensions as well as a number of cross-cutting strategies that can accelerate the implementation of the entire Platform for Action for this generation and the next.

The Third Industrial Revolution Jeremy Rifkin.2011-10-04 The Industrial Revolution, powered by oil and other fossil fuels, is spiraling into a dangerous endgame. The price of gas and food are climbing, unemployment remains high, the housing market has tanked, consumer and government debt is soaring, and the recovery is slowing. Facing the prospect of a second collapse of the global economy, humanity is desperate for a sustainable economic game plan to take us into the future. Here, Jeremy Rifkin explores how Internet technology and renewable energy are merging to create a powerful Third Industrial Revolution. He asks us to imagine hundreds of millions of people producing their own green energy in their homes, offices, and factories, and sharing it with each other in an energy internet, just like we now create and share information online. Rifkin describes how the five-pillars of the Third Industrial Revolution will create thousands of businesses, millions of jobs, and usher in a fundamental reordering of human relationships, from hierarchical to lateral power, that will impact the way we conduct commerce, govern society, educate our children, and engage in civic life. Rifkin's vision is already gaining traction in the international community. The European Union Parliament has issued a formal declaration calling for its implementation, and other nations in Asia, Africa, and the Americas, are quickly preparing their own initiatives for transitioning into the new economic paradigm. The Third Industrial Revolution is an insider's account of the next great economic era, including a look into the personalities and players — heads of state, global CEOs, social entrepreneurs, and NGOs — who are pioneering its implementation around the world.

**Art and climate** Raimar Stange.2013 The Art and Climate catalog presents a wide spectrum of artwork dealing with climate change: critical analysis, provocative warning, or illustrating alternative ways of life. In addition to current positions, 'historical' works are also presented, showing that art has been reflecting climate change since the early 20th century. Furthermore, the reprint of a current NGO climate report in Art and Climate dramatically depicts probable future scenarios.--P. [4] of cover.

**Handbook of Ancient Nubia** Dietrich Raue.2019-06-04 Numerous research projects have studied the Nubian cultures of Sudan and Egypt over the last thirty years, leading to significant new insights. The contributions to this handbook illuminate our current understanding of the cultural history of this fascinating region, including its interconnections to the natural world.

House of Tides Kenneth White.2000 Whites latest work is an extraordinary hybrid of intimate autobiography, social commentary, live literary theory, geopoetic fieldwork, oceanic poem, quiet cultural manifesto, all rolled into one. His account of his journey up through England to Scotland is not only a humorous sociological analysis, it is a heartfelt homecoming, accompanied by the opening up of new intellectual and cultural perspectives.

**Always Coca-Cola** Alexandra Chreiteh.2012-11-01 The narrator

of Always Coca-Cola, Abeer Ward (fragrant rose, in Arabic), daughter of a conservative family, admits wryly that her name is also the name of her father's flower shop. Abeer's bedroom window is filled by a view of a Coca-Cola sign featuring the image of her sexually adventurous friend, Jana. From the novel's opening paragraph—"When my mother was pregnant with me, she had only one craving. That craving was for Coca-Cola"—first-time novelist Alexandra Chreiteh asks us to see, with wonder, humor, and dismay, how inextricably confused naming and desire, identity and branding are. The names—and the novel's edgy, cynical humor—might be recognizable across languages, but Chreiteh's novel is first and foremost an exploration of a specific Lebanese milieu. Critics in Lebanon have called the novel "an electric shock."

### **Prevention of Violent Extremism in Western Muslim**

**Diasporas** Nina Käsehage.2021-11-25 At the present time, various forms of violent extremism in the left- and right-wing as well as in the jihadist milieus seem to increase all over the world. This development produces a lot of concerns within Western societies and is often fuelled by populist actors in terms of their own purposes. The present book seeks to clarify the real situations and possible threats that are currently occurring with regard to the three considered violent extremist movements in Belgium, Canada, Denmark, France, Germany, Great Britain, The Netherlands and the United States of America (USA).

Lisl Ponger. The Master Narrative Tim Sharp.2017 At the invitation of the Weltmuseum Wien, the MuKul, the (fictitious) Museum for Foreign and Familiar Cultures is presenting an exhibition of works by artist Lisl Ponger. Visitors are invited to take part in an exploratory journey that starts out from six large-scale, staged photographs in light boxes and a 2-channel installation with the title The Master Narrative und Don Durito which lasts a full museum day.0In Tahiti they will witness a conference. At a garden party in a tropical landscape (located in

the entrance hall of the Weltmuseum Vienna) Christopher Columbus chats with Margaret Mead over a glass of wine and Franz Boas puts on a performance. The artist herself is engaged in preparations for her field work as a participatory observer while Indian Jones raises the curtain on his own museum. As with the woman in Sigmund Freud's study, he has a categorised and labelled a collection of non-European objects. The list tattooed on a woman's lower arm shows the genealogy of white appropriation of foreign lands and provides hints about the contents of the installation. Statues, museums, famous people and important anniversaries are found yet again on stamps and first day covers, those small envelopes where the postal services of various nations celebrate at various times and immortalise them all for the future. Exhibition: Weltmuseum Wien, Austria (25.10.2017-25.10.2019).

*The Great Wall of China* Arthur Waldron. 1990-07-27 This is the first full scholarly study of the Great Wall of China to appear in any language, and it challenges many deeply held ideas about Chinese history. Drawing both on primary sources and on the latest archaeology, the book first demonstrates that the standard account of the Great Wall is untrue and misleading and then presents a convincing new account. It begins by tracing the various walls and systems of frontier defences that existed in early Chinese history, and shows how the greatest of these achieved a mythical symbolic stature which long survived the Wall itself. A striking concluding chapter traces how the true history of the Wall was lost in the early twentieth century as it was gradually transformed into a Chinese national symbol explained through historical myth. The book is an important contribution to the history of China's defensive policy, and her ideological attitudes, and will be of interest both to students of Chinese history and of international relations in the pre-modern world.

*50 Years Porsche 914* J. Lewandowski. 2019 The Porsche 911's

little brother... In 1969 a very special sports car was born. The 914 rose from a marriage of convenience of Volkswagen and Porsche, because both companies wanted a small, modern and affordable sports car in their product range, but for little cost. Thus, it was decided to combine the skills of both manufacturers. The result was a light mid-engine sports car with a lively road performance and even 50 years after its launch, it pleases the eye with a fresh design. Back then it was often ridiculed as a 'housewife Porsche' or 'Volks-Porsche', but now, the 914 has come out of the shadow of its big brother the 911 and has a huge fan base; today it lives on in the Boxster and Cayman models. This volume includes: the result of thorough research in the Porsche and VW archives; rich photography; all technical data; development, production, model history and racing appearances.

If you're looking for some fun fiction to enjoy on an Android device, Google's bookshop is worth a look, but Play Books feel like something of an afterthought compared to the well developed Play Music. Since it's a search engine, browsing for books is almost impossible. The closest thing you can do is use the Authors dropdown in the navigation bar to browse by authors—and even then, you'll have to get used to the terrible user interface of the site overall. Our comprehensive range of products, services, and resources includes books supplied from more than 15,000 U.S., Canadian, and U.K. publishers and more. FreeComputerBooks goes by its name and offers a wide range of eBooks related to Computer, Lecture Notes, Mathematics, Programming, Tutorials and Technical books, and all for free! It allows you to download paywalled content for free including PDF downloads for the stuff on Elsevier's Science Direct website. Even though the site continues to face legal issues due to the pirated access provided to books and articles, the site is still functional

through various domains.
