Soldier Training Publication STP 8-91P15-SM-TG Soldier's Manual and Trainer's Guide MOS 91P Radiology Specialist Skill Levels

1/2/3/4/5 United States Government Army.2013-05-11 This publication is for skill level 1, 2, 3, 4, and 5 soldiers holding military occupational specialty (MOS) 91P and for trainers and first-line supervisors. It contains standardized training objectives, in the form of task summaries, to train and evaluate soldiers on critical tasks that support unit missions during wartime. Trainers and first-line supervisors should ensure soldiers holding MOS/SL 91P1/2/3/4/5 have access to this publication. This manual applies to both Active and Reserve Component soldiers.

International Medical Corps Training Manual Robert R Simon MD, Henry H Hood MD.2018 UNIT SEVEN: Hematology and Oncology An overview of the physiology of the hematological system, diagnosis and treatment of diseases such as anemia, leukemia, and lymphoma. This Manual provides a resource for the training of field medics and community health workers who serve in under-resourced areas during conflicts or disasters. It targets those with a basic educational background and little or no prior medical education and, in conjunction with an intensive 4-8 week training program, will allow medics to diagnose and treat the most common 90% of illnesses and traumas. Based on a Systems approach (rather than symptom or specific disease orientation), the Manual covers basic anatomy and physiology and then focuses on the symptoms, physical findings, natural history, and differential diagnoses of the illnesses and injuries most likely to be encountered by health workers in the field. Treatment protocols are outlined, using those medications and materials likely to be found in under-resourced environments, including the generic medications of the WHO Essential Drugs List. The purpose is to train field health workers quickly and give them the skills to treat the majority of wounded and ill in situations when whatever previous health care system there may have been is overwhelmed. Developing capacity and self-reliance by training persons from affected areas empowers individuals and communities - even those displaced from their homes - to regain control of their lives and destinies. This is the foundation of emergency humanitarian assistance. This Manual is also meant to be carried into the field as a ready reference for field health workers including trauma medics and community health workers as well as more highly trained medical personnel who may happen to find themselves practicing out of their areas of expertise. This could include national and international physicians, paraprofessionals, and nurses responding to a humanitarian emergency. This Manual does not intend to supersede local or national healthcare systems or protocols, but to provide an adjunct in an emergency when, as often happens, the perfect may be the enemy of the good.

Department of Veterans Affairs Peer Specialist Training Manual M P a J D Harrington, CPS Steve, Steve Harrington, M.P.A., J.D., CPS, Kathleen Docent, Psy.D., CPRP.2015-04-30 This is the first edition of this manual. It has been revised, expanded, and updated to meet the most recent demands for Peer Specialist training curricula in the Department of Veterans Affairs (DVA). This manual is adapted from the 2007 National Association of Peer Specialists (NAPS) Training Manual, Third Edition, with permission from Steven Harrington, founder and CEO of NAPS. It has been developed through extensive input from peer support practitioners across the United States. The author of the original manual is also an experienced peer support specialist. The major modification in this DVA version has been to focus the content on the competencies expected of Peer Specialists and Peer Support Technicians in the DVA. The competencies were developed by a DVA workgroup that synthesized information from the training programs and testing instruments of six prominent peer support specialist training and certification programs in the United States. This manual also contains DVA specific language and procedures.

The Medical Review Officer Team Manual James Lee Ferguson.2009 As demands for a safe and drug-free workplace grow, federal requirements and a burgeoning work load require that many medical review functions be carried out by medical review officer assistants (MROAs) and others on the medical review officer (MRO) team. This useful, up-to-the-minute manual has been created to help prepare MROAs for certification and to keep the entire MRO team operating at a peak level of professionalism and efficiency. Offering a complete view of the medical review process, the Medical Review Officer Team Manual covers business, scientific, legal, ethical and logistical issues. It is an ideal practical manual for MROs and MROAs and those who work with them and use their services, including employers and others interested in workplace drug testing. The guide can also be used as a companion to Swotinsky and Smith's previously published Medical Review Officer's Manual, providing how to specifics to help the entire MRO team apply the science and art of medical review. Topics in the Team Manual include core competencies established by the MROCC for MRO Assistant certification, as well as issues related to the smooth functioning of a Medical Review department: The roles and responsibilities of the various individuals and team members involved in drug and alcohol test ordering, collection, transportation, processing, and reporting Donor rights at the collection site and in the review process DOT and HHS requirements and regulations Urine specimen procedures, including when and how to look for evidence of tampering, adulteration, or substitution Policies and procedures, including chains of documentation, screening and confirmation testing, and split specimen analysis for reconfirmation What elements of a review may be completed by staff, and which must be personally completed by the Medical Review Officer How to contact the donor and what to do when the donor can't be contacted How HIPAA and other regulations aff

Training Circular TC 3-37.51 Urban Search and Rescue August 2020 United States Government Us Army.2020-08-25 This United States Army manual, Training Circular TC 3-37.51 Urban Search and Rescue August 2020, serves as a training product for US&R/urban search and extraction operations. This training circular helps the Chemical, Biological, Radiological, and Nuclear Response Enterprise task force level units conducting US&R/urban search and extraction missions and below to prepare their training plan for the unit's specific mission to the defense support of civil authorities. Using this training circular, a unit can tailor the training plan for the unit's specific mission by grouping related missions into one function. TC 3-37.51 serves as a training product for US&R/urban search and extraction operations. This training circular helps the Chemical, Biological, Radiological, and Nuclear Response Enterprise task force level units conducting US&R/urban search and extraction missions and below to prepare their training plan for the unit's specific mission to the defense support of civil authorities. Using this training circular, a unit can tailor the training plan for the unit's specific mission by grouping related missions into one function. TC 3-37.51 applies to the Active Army, Army National Guard/Army National Guard of the United States, United States Army Reserve, Air Force, Air National Guard, and the Air Force Reserve unless otherwise stated. The Chemical, Biological, Radiological, and Nuclear Response Enterprise is an insurance policy for a nuclear detonation of an improvised device or some other catastrophic chemical, biological, radiological, and nuclear (CBRN) event on what would be America's worst day. Responding to a CBRN event or any other significant disaster will require the skills outlined in this training circular. I ask that you take full

advantage of the time you have prior to an event. Read, study, and practice the tactics, techniques, and procedures outlined in this training circular to ensure that you are prepared to act decisively. Remember, if asked to respond, it will most likely be to a nonpermissive CBRN environment that is affected by fog, friction, drastically shortened decision-making cycles, and tremendous pressure to save lives. Study and train hard, America will need you at the top of your game. This urban search and rescue (US&R) training circular was developed by the Maneuver Support Center of Excellence (MSCoE) Homeland Defense/Civil Support Office in coordination with the Joint Task Force Civil Support, the National Guard Bureau, and various United States Army units as a supplementary tool for US&R personnel. It condenses and codifies technical training information collected from multiple sources, including the International Fire Service Training Association (IFSTA) manual, United States Army Corps of Engineers/Urban Search and Rescue Field Operations Guide, Pipeline and Hazardous Materials Safety Administration Emergency Response Guidebook, and multiple National Fire Protection Association (NFPA) standards. This US&R training circular includes sections expounding on common core US&R capabilities as well as rope, confined space, trench, structural collapse, vehicle, and machinery rescues.
