The End of the World in Medieval Thought and Spirituality Eric Knibbs, Jessica A. Boon, Erica Gelser.2019-04-27 This essay collection studies the Apocalypse and the end of the world, as these themes occupied the minds of biblical scholars, theologians, and ordinary people in Antiquity, the Middle Ages, and Early Modernity. It opens with an innovative series of studies on "Gendering the Apocalypse," devoted to the texts and contexts of the apocalyptic through the lens of gender. A second section of essays studies the more traditional problem of "Apocalyptic Theory and Exegesis," with a focus on authors such as Augustine of Hippo and Joachim of Fiore. A final series of essays extends the thematic scope to "The Eschaton in Political, Liturgical, and Literary Contexts." In these essays, scholars of history, theology, and literature create a dialogue that considers how fear of the end of the world, among the most pervasive emotions in human experience, underlies a great part of Western cultural production.

Trailing the Schoolchildren's Blizzard B. Lois Thieszen Preheim.2021-03-18 This is a story of the January 12, 1888 blizzard as experienced by families living in ten locations along the storm's route. The storm struck suddenly and caught people off guard as it trailed through the Great Plains of Canada, the United States, and Territories. Many found ingenious ways to reach safety and/or pass the time while waiting for the storm to subside. Family stories are capsulized in a poem preceding the ten stand-alone chapters. Tying the chapters together is the common thread of experiencing the storm's fury. People of all ages will identify with elements of decision-making.

On Stone and Scroll James K. Aitken, Katharine J. Dell, Brian A. Mastin.2011-07-27 The volume *On Stone and Scroll* addresses biblical exegesis from the historical, archaeological, theological, and linguistic perspectives, and discusses many of the issues central to the interpretation of the Bible. It is written by colleagues and former students of Graham Davies in his honour on his retirement. It covers three main areas central to his work: inscriptional and archaeological, including socio-historical, studies; theological and exegetical studies, especially of Exodus and the Prophets; and semantic studies. A lasting focus of Graham's work has been the combination of sources that he has utilised in the interpretation of the biblical text. His approach has been distinctive in biblical studies in his combining of archaeological, inscriptional, linguistic and theological evidence for a deeper understanding of text. His work has ranged from archaeological studies, through an edition of Hebrew inscriptions, contributions to Hebrew semantics and biblical theology, to exegesis of the Pentateuch and Prophets. The essays in this volume reflect that broad view of Old Testament study.
