Slob Ellen Potter.2020-02-25 *A sensitive, touching, and sometimes heartbreakingly funny picture of middle school life.--School Library Journal, starred review Outrageously funny and smart, this story of an obese boy who takes on his bullies is as heartwarming as it is clever. Twelve-year-old Owen Birnbaum is the fattest kid in school. But he also invents cool contraptions--like a TV that can show the past--because there is something that happened two years ago which he needs to see if he ever hopes to unravel a dreadful mystery. But inventor or not, there is a lot Owen can't figure out. Like how his Oreos keep disappearing from his lunch. Or why his sister suddenly wants to be called by a boy's name. Or why a diabolical, scar-faced bully at school seems to be on a mission to destroy him. He's sure that if only he can get the TV to work, things will start to make sense. But it will take a revelation, not a cool invention, for Owen to see that the answer is not in the past, but the present. That no matter how large he is on the outside, he doesn't have to feel small on the inside. With her trademark humor, Ellen Potter has created a larger-than-life character and story whose weight is immense when measured in heart. Praise for Slob: A Junior Library Guild Selection! Potter delicately and confidently delivers a pitch-perfect story of self-worth This is a book for everyone: smart, devious, overweight, underweight, shy, courageous and everyone in between. --The Children's Book Review

The Brain That Changes Itself Norman Doidge. 2007-03-15 "Fascinating. Doidge's book is a remarkable and hopeful portrait of the endless adaptability of the human brain."—Oliver Sacks, MD, author of *The Man Who Mistook His Wife for a Hat* What is neuroplasticity? Is it possible to change your brain? Norman Doidge's inspiring guide to the new brain science explains all of this and more An astonishing new science called neuroplasticity is overthrowing the centuries-old notion that the human brain is immutable, and proving that it is, in fact, possible to change your brain. Psychoanalyst, Norman Doidge, M.D., traveled the country to meet both the brilliant scientists championing neuroplasticity, its healing powers, and the people whose lives they've transformed—people whose mental limitations, brain damage or brain trauma were seen as unalterable. We see a woman born with half a brain that rewired itself to work as a whole, blind people who learn to see, learning disorders cured, IQs raised, aging brains rejuvenated, stroke patients learning to speak, children with cerebral palsy learning to move with more grace, depression and anxiety disorders successfully treated, and lifelong character traits changed. Using these marvelous stories to probe mysteries of the body, emotion, love, sex, culture, and education, Dr. Doidge has written an immensely moving, inspiring book that will permanently alter the way we look at our brains, human nature, and human potential.

It covers marijuana's mechanism of action, acute and chronic effects on health and behavior, potential adverse effects, efficacy of different delivery systems, analysis of the data about marijuana as a gateway drug, and the prospects for developing cannabinoid drugs. The book evaluates how well marijuana meets accepted standards for medicine and considers the conclusions of other blue-ribbon panels. Full of useful facts, this volume will be important to anyone interested in informed debate about the medical use of marijuana: advocates and opponents as well as policymakers, regulators, and health care providers.

An Occurrence at Owl Creek Bridge Ambrose Bierce. 2019-12-11 *An Occurrence at Owl Creek Bridge* (1890) is a short story by the American writer and Civil War veteran Ambrose Bierce. Described as one of the most famous and frequently anthologized stories in American literature, it was originally published by *The San Francisco Examiner* on July 13, 1890, and was first collected in Bierce's book *Tales of Soldiers and Civilians* (1891).

The story, which is set during the American Civil War, is known for its irregular time sequence and twist ending. Bierce's abandonment of strict linear narration in favor of the internal mind of the protagonist is an early example of the stream of consciousness narrative mode. Peyton Farquhar, a civilian and plantation owner, is being prepared for execution by hanging from an Alabama railroad bridge during the American Civil War. Six military men and a company of infantrymen are present, guarding the bridge and carrying out the sentence. Farquhar thinks of his wife and children and is then distracted by a noise that, to him, sounds like an unbearably loud clanging; it is actually the ticking of his watch. He considers the possibility of jumping off the bridge and swimming to safety if he can free his tied hands, but the soldiers drop him from the bridge before he can act on the idea. Famous works of the author Ambrose Bierce: A Psychological Shipwreck, Killed at Resaca,, An Inhabitant of Carcosa, One of the Missing, A Tough Tussle, An Unfinished Race, One of Twins, A Horseman in the Sky, The Spook House, The Middle Toe of the Right Foot, The Man and the Snake, An Occurrence at Owl Creek Bridge, The Realm of the Unreal, The Boarded Window, The Secret of Macarger's Gulch, The Death of Halpin Frayser, The Damned Thing, The Eyes of the Panther, Moxon's Master, The Moonlit Road, Beyond the Wall.

But just when it seems they will never be reunited, Marcel is sent to join Oliver in Vietnam.
