*Traduction* Harald Kittel.2004 This international encyclopedia documents and surveys, for the first time, the entire complex of translation as well as the operations and phenomena associated with it. Structured along systematic, historical and geographic lines, it offers a comprehensive and critical account of the current state of knowledge and of international research. The Encyclopedia (1) offers an overview of the different types and branches of translation studies; (2) covers translation phenomena - including the entire range of interlingual, intralingual, and intersemiotic transfer and transformation - in their social, material, linguistic, intellectual, and cultural diversity from diachronic, synchronic, and systematic perspectives, (3) documents and elucidates the most important results of the study of translation to the present day, as well as the current debates, taking into account theoretical assumptions and methodological implications; (4) identifies, where possible, lacunae in existing research, listing priorities and desiderata for further research. The languages of publication are German, English, and French

**Social Identity and the European Dimension** Michael Byram,Manuel Tost Planet.2000-01-01 This is about the way that knowledge of the culture of countries can be integrated into the teaching of their language. The curriculum development project involved more than one hundred teachers from several European countries and is the result of collaboration between the Modern Languages Division of the Council of Europe and the European Centre for Modern Languages in Graz. It is especially useful for teachers who are interested in introducing a cultural dimension to their teaching and teacher trainers who wish to provide in-service training.

*Wisdom for Life* Nuria Calduch-Benages.2014-04-01 Professor Maurice Gilbert SJ is widely acknowledged as one of the leading authorities on biblical wisdom literature, in particular the Book of Ben Sira and the Wisdom of Solomon, on which he has produced many publications. This Festschrift, the third one in his honor, brings together twenty-four essays written by both established scholars who are friends and colleagues of Professor Gilbert and younger members of the field who wrote their doctoral dissertation under his guidance at the Pontifical Biblical Institute in Rome. There he was rector (1978-1984) and full professor until his retirement (1975-2011). The volume is divided into six main sections, focusing respectively on Proverbs, Job, Qoheleth, Sirach, Wisdom of Solomon, and Psalms. Some essays display rigorous attention to textual and linguistic issues, whereas others deal with more theological questions (fear before God, joy in Qoheleth, arguments for justice in Wisdom of Solomon) or focus on the comparison between two books (for instance, Qoheleth and Sirach, Sirach and Genesis, Sirach and Tobit).

**The Sense of Community in French Caribbean Fiction** Celia Britton.2010-01-01 This groundbreaking book analyzes the theme of community in seven French Caribbean novels in relation to the work of the French philosopher Jean-Luc Nancy. The complex history of the islands means that community is often a central and problematic issue in their literature, underlying a range of other questions such as political agency, individual and collective subjectivity, attitudes towards the past and the future, and even the literary form itself. Celia Britton here studies a range of key books from the region, including Édouard Glissant's *Le Quatrième Siècle*, Patrick Chamoiseau's *Texaco*, Daniel Maximin's *L'Île et une nuit*, and Vincent Placolý's *L'eau-de-mort* guildive, among others.

**Michaël Ferrier, Transnational Novelist: French Without Borders** Akane Kawakami.2023-11-15 Michaël Ferrier is a prize-winning novelist, essayist and academic whose cosmopolitan life - he grew up in Chad and France, has Mauritian roots and lives in Japan - has inspired him to write some fascinating novels that cross generic and geographical boundaries. This book is the first ever monograph dedicated to his works, which explore themes as various as an African childhood, notions of Frenchness, inter-identities, and post-Fukushima life in Japan. Hybridity is key to his themes, forms and genres, which include - as befits a twenty-first century author - a website, called 'Tokyo-Time-Table' and discussed in this study. Kawakami uses an eclectic range of frameworks to analyse Ferrier's output, ranging from translanguaging to Environmental Humanities and Ferrier's own vision of his oeuvre, which he discloses for the first time in this book in the interview that he grants Kawakami. This interview, first published in this volume, is rich in insights into Ferrier's views on dreams, Japan, the internet, and collaborating with other artists. This book is an indispensable guide to an author who is one of the rising stars of contemporary French and Francophone literature, and a unique voice that crosses all kinds of borders across the globe.

The French Language in the Seventeenth Century Peter Rickard.1992 The sixty French texts edited here are all direct commentaries, by contemporary authors, on the French language in the 17th century. By this time, French had begun to assert its independence; in its written and printed form it was being used for a wide variety of literary, technical and administrative purposes. Its practitioners not only successfully challenged the hitherto dominant position of Latin, but also began, for the first time, to discuss and analyse for its own sake the language which was now their preferred medium for expression -- hence, in the first half of the seventeenth century, a growing number of publications on the nature and characteristics of French. The texts demonstrate the sustained critical preoccupation with the welfare of the French language in the 17th century, and illustrate the various ways in which the writers of the age contributed to its development as an instrument of literary expression and social intercourse.

**Description and Measurement of Bilingualism** Louis G. Kelly.1969-12-15 In June 1967 the Canadian National Commission for Unesco and the Université de Moncton jointly sponsored an international seminar on bilingualism. Although 1967 was Canada's centennial year, the seminar was concerned only incidentally with bilingualism in Canada. Instead, bilingualism was considered as the essential element in communication between language irrespective of national boundaries. Participants included linguists, psychologists, and sociologists. The report shows that the interdisciplinary discussions carried on at Moncton were fruitful; that significant questions about bilingualism were raised and an improvement in communication between specialists from different traditions, languages, and cultures were effected. This volumes makes a valuable contribution toward establishing a general theory of bilingualism.
