The Cambridge Handbook of the Changing Nature of Work Brian J. Hoffman,Mindy K. Shoss,Lauren A. Wegman.2020-04-23 This handbook provides an overview of the research on the changing nature of work and workers by marshalling interdisciplinary research to summarize the empirical evidence and provide documentation of what has actually changed. Connections are explored between the changing nature of work and macro-level trends in technological change, income inequality, global labor markets, labor unions, organizational forms, and skill polarization, among others. This edited volume also reviews evidence for changes in workers, including generational change (or lack thereof), that has accumulated across domains. Based on documented changes in work and worker behavior, the handbook derives implications for a range of management functions, such as selection, performance management, leadership, workplace ethics, and employee well-being. This evaluation of the extent of changes and their impact gives guidance on what best practices should be put in place to harness these developments to achieve success.

ENT MCQs for Medical Students Gurdeep Singh Mannu.2019-06-26 Ear, Nose and Throat (ENT) surgery has traditionally been a difficult and specialised topic in undergraduate medicine and for junior doctors. Many textbooks are too detailed for undergraduate use, or lack self assessment questions to help those wishing to underpin their learning. This concise and easy-to-read self-assessment guide aims to clarify the topic, and find and fill gaps in understanding. The multiple choice questions (MCQs) contained cover all levels of knowledge and the learning objectives of most of the UK medical school curricula, aiding preparation for end of unit, module and final exams for ENT. This book will be a valuable companion for clinics and teaching sessions and an indispensable revision primer for graduate entry medical curricula. 'An excellent means of preparation for medical undergraduate examinations as gaps in core knowledge are quickly revealed. Further, this text is a good guide for students to identify those subject areas requiring more focused study, especially when time is short.' - From the Foreword by Samir Soma

A Parallel Postsecondary Universe Clifford Adelman. 2000 This report describes a new system of credentialing that has arisen in the information technology and telecommunications industries over the past decade. It compares this system to traditional higher education, identifying both similarities and dissimilarities, and points to some cases in which the two interact.... The summary section of this report emphasizes the major themes of the certification system and its relationship to higher education: 1. The system is global and operates in many languages. 2. The student, not the institution, is at the center of the system. 3. The system has brought competency-based education and performance assessment to a status they have never enjoyed within traditional higher education. 4. Certification replace neither experience nor degrees, and the IT system does not pretend to be higher education. the summary also indicates the critical need for more information on certification candidates and providers of course work, since the new system is now large enough to play a role in state and national planning for postsecondary education. (HoF/text adopted).

100 Cases in Radiology Robert Thomas, James Connelly, Christopher Burke. 2012-02-24 A 36-year-old housewife presents in the emergency department complaining of progressively increasing breathlessness over the last two weeks, accompanied by wheeze and a productive cough. You are the medic on duty... 100 Cases in Radiology presents 100 radiological anomalies commonly seen by medical students and junior doctors on the ward, in outpatient clinics or in the emergency department. A succinct summary of the patient's history, examination and initial investigations, including imaging photographs, is followed by questions on the diagnosis and management of each case. The answer includes a detailed discussion of each topic, with further illustration where appropriate, providing an essential revision aid as well as a practical guide for students and junior doctors. Making clinical decisions and choosing the best course of action is one of the most challenging and difficult parts of training to become a doctor. These cases will teach students and junior doctors to recognize important radiological signs, and the medical and/or surgical conditions to which these relate, and to develop their diagnostic and management skills.

Emergency Medicine MCQs Waruna De Alwis, Yolande Weiner. 2012-10-09 An invaluable self-assessment tool for emergency medicine trainees in Australasia. Emergency Medicine MCQs is an essential resource for Australasia's emergency medicine trainees. A practical self-assessment tool, the book assists trainees as they expand and refine their knowledge of emergency medicine, and will ultimately help them pass the Australasian Emergency Medicine Fellowship examination (FACEM). The multiple-choice questions in Emergency Medicine MCQs cover both the core and non-core areas in the Australasian Emergency Medicine Fellowship. Using this text, trainees can revise alone or with their peers to identify the areas in which they need further development. The curriculum is divided into three main areas where trainees require expert level of knowledge, high level of knowledge and general level of knowledge. It covers important clinical problems encountered in everyday emergency medicine practice - from cardiovascular emergencies through to obstetric and gynaecology emergencies, disaster management and toxicology. As well as being ideal for emergency medicine trainees qualifying through AECM, the book is a useful resource for GPs taking the GEM qualification through ACEM and JMOs 'on call'. Plus, this emergency medicine text is accompanied by an app - a separate product containing 180 randomised multiple-choice questions on all the topics within the book.

Basic Science Review for Dental Board Exams and NDEB Canada Exams Scholars Dental. 2020-10-17 Scholars Dental Education specializes in online courses that prepare dentists from all over the world for the Canadian dental board exams, helping them become licensed in Canada. Scholars Dental has been providing NDEB AFK prep courses for many years with successful results and excellent reviews. Their innovative online platform includes live seminars, experienced instructors, recorded lectures, online quizzes, online mock exams, and a new way of learning and understanding dentistry all together. This course has a unique Basic Science section which is a must for all dentists taking a dental board exam such as NDEB and INBDE exams. The Scholars Dental team believes that all dentists should have the opportunity to learn basic sciences in a way specifically designed for dental students. Basic sciences, if taught properly, builds the foundation that would simplify complicated subjects such as pharmacology and pathology, which are usually major obstacles in passing dental board exams. Dr. Ahmad Hafez successfully passed the NDEB AFK exam with a score of 91 on his first attempt and passed the ACJ & ACS NDEB exams of that same year on his first attempt. Dr. Hafez was also accepted to the IDAPP program at the University of Toronto. He went on passing the written board exams and OSCE exams and received his license in early 2014. He is a member of the Royal College of Dental Surgeons of Ontario, American Academy of Implant Dentistry and has received his Fellowship Certificate from the Oral Surgery Academy for General Dentists. Dr. Hafez started teaching AFK lectures in 2013 with amazing feedback from students. Dr. Hafez's main strength is his ability to break down complicated concepts and then teach it in a simple way. His understanding of the obstacles a foreign trained dentist must overcome to pass the AFK exam is a great benefit to all of his students. Dr. Hafez has been working as a licensed dentist in Canada since January 2014, with experience in private practice and community health centers. Dr. Hafez continues to be a student of dentistry, and has taken multiple continuing education courses in fields of sedation, oral surgery, occlusion, periodontics, cosmetic dentistry and implantology.
