

Il Ciclope

Euripides: Cyclops Carl A. Shaw.2018-02-08 With its ribald chorus of ithyphallic, half-man / half-horse creatures, satyr drama was a peculiar part of the Athenian theatrical experience. Performed three times each year after a trilogy of tragedies, it was an integral part of the 5th- and 4th-century City Dionysia, a large festival in honour of the god Dionysus. Euripides: Cyclops is the first book-length study of this fascinating genre's only complete, extant play, a theatrical version of Odysseus' encounter with the monster Polyphemus. Shaw begins with a look at the history of the genre, following its development from early 6th-century religious processions up to the Hellenistic era. He then offers a comprehensive analysis of the Cyclops' plot and performance, using the text (alongside ancient literary fragments and visual evidence) to determine the original viewing experience: the stage, masks, costumes, actions and emotions. A detailed examination of the text reveals that Euripides associates and distinguishes his version of the story from previous iterations of the myth, especially book nine of Homer's Odyssey. Euripides handles many of the same themes as his predecessors, but he updates the Cyclops for the Athenian stage, adapting his work to reflect and comment upon contemporary religious, philosophical and literary-musical trends.

Narratives of Mediterranean Spaces Silvia Caserta.2022-10-31 Narratives of Mediterranean Space: Literature and Art across Land and Sea presents a comparative analysis of contemporary literary and visual narratives of movement and migration produced in Italian, Arabic and French. It analyzes how these works create a dialogue across the Mediterranean Sea. By paying attention to the multiple ways in which the Mediterranean is being narrated by contemporary writers and artists, Silvia Caserta aims to propose a reconceptualization of the Mediterranean as a polyphonic space of movement and resistance. The Mediterranean space that emerges from this study is a space that, by virtue of the instability and porosity of its geographical and cultural borders, is able to overcome normative dichotomies between north and south, east and west, local and global. This book proposes the Mediterranean is a fruitful area from which to investigate the wider contradictions of the contemporary global world while avoiding the traps of "Mediterraneanism". For this reason, the book highlights the contradictions and dissonances that emerge from reading Mediterranean works, opening up multiple perspectives on the Sea and on the different lands that surround it.

Petronius the Poet Catherine Connors.1998-01-15 The ancient novel, previously relegated to the margins of literary study, has recently taken its place at centre stage. Petronius' Satyricon, the oldest surviving work of prose fiction, is in many respects an arrestingly modern ancient novel but the inclusion within it of thirty short poems and two long ones introduces an alien feature in need of investigation. In this study, Catherine Connors

draws on developments in Latin literary criticism to take a comprehensive approach to the Satyricon's poems, reminiscences of poetic texts, and the figure of the poet, assessing the ways in which they fragment and refashion established literary forms into a new amalgam of prose fiction. This book will be of interest to students of Latin literature, Neronian culture, and the early history of the novel. All Latin and Greek is translated.

Seeing Tongues, Hearing Scripts Victoria Rimell.2007-06-01 The Greek and Roman novels can be seen as an important transitional moment in the trajectory from performance to reading, from oralism to textuality, that has underpinned the history of discourse in European consciousness since the 5th century BC. In different and intriguing ways, they explore the contrast, tension, conflict, competition or dialogue between modes of discourse, which frame the novel's concern with identity and self-fashioning, as well as advertising innovation more generally. This volume brings together an international group of scholars interested in ancient and modern constructions of orality and writing and how they are reflected and manipulated in the ancient novel. The essays deal not only with questions of genre, oral poetics and traditions, but also with how various ways of pitting or collapsing modes of representation can become loaded articulations of wider world-views, of cultural, literary, epistemological anxieties and aspirations. The contributors focus in particular on issues surrounding theatricality, gender identity, rhetorical performance, epistolarity, monumentality and power in the ancient novel.

Modern Italian Poets Jacob S.D. Blakesley.2014-01-01 Modern Italian Poets shows how the new genre shaped the poetic practice of the poet-translators who worked within it.

Il Ciclope di Euripide Euripides.1955

A manual of classical bibliography Joseph William Moss.1825

Συναγωνίζεσθαι: Studies in Honour of Guido Avezzù. Vol. 1.2 Silvia Bigliuzzi, Gherardo Ugolini, Francesco Lupi.2018-12-20 Συναγωνίζεσθαι, the ancient Greek verb chosen as the title of this volume, belongs to the jargon of dramaturgy as employed by Aristotle in Poetics, where he emphasizes the function of the Chorus as an active co-protagonist in the dynamics of drama. Here it suggests the collaborative nature of this Festschrift offered to Guido Avezzù in the year of his retirement by friends and colleagues. The volume collects a wide selection of contributions by international scholars, grouped into four sections: Greek Tragedy (Part 1), Greek Comedy (Part 2), Reception (Part 3), and Theatre and Beyond (Part 4). The Authors. A. Andrisano, P. Angeli Bernardini, A. Bagordo, A. Bierl, S. Bigliuzzi, M.G. Bonanno, S. Brunetti, D. Cairns, G. Cerri, V. Citti, A.T. Cozzoli, F. Dall'Olio, M. Di Marco, M. Duranti, S. Fornaro, A. Grilli, S. Halliwell, E.M. Harris, O. Imperio, P. Judet de La Combe, W. Lapini, V. Liapis, L. Lomiento, F. Lupi, A. Markantonatos, G. Mastromarco, E. Medda, F. Montana, F. Montanari, C. Neri, E. Nicholson, R. Nicolai, H. Notsu, G. Paduano, N. Pasqualicchio, M.P. Pattoni, A. Provenza, J. Redondo, A. Scafuro, S.L. Schein, A. Sidiropoulou, R. Tosi, P. Totaro, M. Treu, M. Tulli, G. Ugolini, P. Volpe, M. Zanolla

Euripides Christopher Collard, Patrick Dominic O'Sullivan.2013 Satyric is the most thinly attested genre of Greek drama, but it appears to have been the oldest and according to Aristotle formative for tragedy. By the 5th Century BC at Athens it shared most of its compositional elements with tragedy, to which it became an adjunct; for at the annual great dramatic festivals, it was performed only together with, and after, the three tragedies which each poet was required to present in competition. It was in contrast with them, aesthetically and emotionally, its plays being considerably shorter and simpler; coarse and half-way to comedy, it burlesqued heroic and tragic myth, frequently that just dramatised and performed in the tragedies. Euripides' Cyclops is the only satyr-play which survives complete. It is generally held to be the poet's late work, but its companion tragedies are not identifiable. Its title alone signals its content, Odysseus' escape from the one-eyed, man-eating monster, familiar from Book 9 of Homer's Odyssey. Because of its uniqueness, Cyclops could afford only a limited idea of satyric drama's range, which the many but brief quotations

from other authors and plays barely coloured. Our knowledge and appreciation of the genre have been greatly enlarged, however, by recovery since the early 20th Century of considerable fragments of Aeschylus, Euripides' predecessor, and of Sophocles, his contemporary - but not, so far, of Euripides himself. This volume provides English readers for the first time with all the most important texts of satyric drama, with facing-page translation, substantial introduction and detailed commentary. It includes not only the major papyri, but very many shorter fragments of importance, both on papyrus and in quotation, from the 5th to the 3rd Centuries; there are also one or two texts whose interest lies in their problematic ascription to the genre at all. The intention is to illustrate it as fully as practicable.

Dante the Lyric and Ethical Poet Zygmunt G. Baranski.2017-12-02 This book presents the proceedings of the fifth meeting of the International Dante Seminar. As with previous volumes, the proceedings also include a carefully edited account of the extensive discussions which followed the presentations. The papers, given by some of the leading international scholars of the poet - from Italy, the UK and the USA - address four major topics of particular concern to present-day Dante studies: Dante as a lyric poet; Dante as an ethical poet; Dante and the Eclogues; and Dante in nineteenth-century Britain. These topics reflect both areas which are currently the subject of heated critical debate (several editions of the lyric poems are in preparation, and the ethical dimension of Dantes works is very much under discussion) and areas which are long overdue a reassessment (Dantes remarkable revival of Latin pastoral poetry, and the extraordinary British contribution to Dante studies in the nineteenth century). As this set of conference proceedings makes clear, in Dante and in his legacy, ethics and poetry are inseparable. The contributors include Paola Allegretti, Michael Caesar, Paolo Falzone, Manuele Gragnolati, Claudio Giunta, Claire Honess, Robin Kirkpatrick, John Lindon, Lino Pertile, Justin Steinberg, Claudia Villa, and Diego Zancani.

Greek and Roman Small Size Sculpture Giovanni Colzani,Clemente Marconi,Fabrizio Slavazzi.2023-10-23 Considerations about size and scale have always played a central role within Greek and Roman visual culture, deeply affecting sculptural production. Both Greeks and Romans, in particular, had a clear notion of “colossality” and were able to fully exploit its implications with sculpture in many different areas of social, cultural and religious life. Instead, despite their ubiquitous presence, an equal and contrary categorization for small size statues does not seem to have existed in Greek and Roman culture, leading one to wonder what were the ancient ways of conceptualizing sculptural representations in a format markedly smaller than “life-size.” Even in the context of modern scholarship on Classical Art, few notions appear to be as elusive as that of “small sculpture”, often treated with a certain degree of diffidence well summarized in the formula Klein, aber Kunst? In fact, a large and heterogeneous variety of objects corresponds to this definition: all kinds of small sculpture, from statuettes to miniatures, in a variety of materials including stone, bronze, and terracotta, associated with a great array of functions and contexts, and with extremely different levels of manufacture and patronage. It would be a major misunderstanding to think of these small sculptures in general as nothing more than a cheap and simplified alternative to larger scale statues. Compared with those, their peculiar format allowed for a wider range of choices, in terms, for example, of use of either cheap or extremely valuable materials (not only marble and bronze, but also gold and silver, ivory, hard stones, among others), methods of production (combining seriality and variation), modes of fruition (such as involving a degree of intimacy with the beholder, rather than staging an illusion of “presence”). Furthermore, their pervasive presence in both private and public spaces at many levels of Greek and Roman society presents us with a

privileged point of view on the visual literacy of a large and varied public. Although very different in many respects, small-sized sculptures entertained often a rather ambivalent relationship with their larger counterparts, drawing from them at the same time schemes, forms and iconographies. By offering a fresh, new analysis of archaeological evidence and literary sources, through a variety of disciplinary approaches, this volume helps to illuminate this rather complex dynamic and aims to contribute to a better understanding of the status of Greek and Roman small size sculpture within the general development of ancient art.

Theatrum Arbitri C. Panayotakis.2018-07-17 *Theatrum Arbitri* is a literary study dealing with the possible influence of Roman comic drama (comedies of Plautus and Terence, theatre of the Greek and Roman mimes, and fabula Atellana) on the surviving fragments of Petronius' *Satyricon*. The theatrical assessment of this novel is carried out at the levels of plot-construction, characterization, language, and reading of the text as if it were the narrative equivalent of a farcical staged piece with the theatrical structure of a play produced before an audience. The analysis follows the order of each of the scenes in the novel. The reader will also find a brief general commentary on the less discussed scenes of the *Satyricon*, and a comprehensive account of the theatre of the mimes and its main features.

Cyclops Euripides.1978

The Satyricon Petronius.2009-03-26 'The language is refined, the smile not grave, My honest tongue recounts how men behave.' The *Satyricon* is the most celebrated work of fiction to have survived from the ancient world. It can be described as the first realistic novel, the father of the picaresque genre, and recounts the sleazy progress of a pair of literature scholars as they wander through the cities of the southern Mediterranean. En route they encounter type-figures the author wickedly satirizes - a teacher in higher education, a libidinous priest, a vulgar freedman turned millionaire, a manic poet, a superstitious sea-captain and a femme fatale. The novel has fascinated the literary world of Europe ever since, evoking praise for its elegant and hilarious description of the underside of Roman society, but also condemnation for some of its lewder subjects. This new and lively translation by P.G. Walsh captures the gaiety of the original, and the edition is supplemented by his superb Introduction giving an account of the plot, the various scholarly interpretations and the later history of its literary influence. There are also extensive and detailed notes which serve to illuminate the reading of a text rich in literary in-jokes and allusion. ABOUT THE SERIES: For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe. Each affordable volume reflects Oxford's commitment to scholarship, providing the most accurate text plus a wealth of other valuable features, including expert introductions by leading authorities, helpful notes to clarify the text, up-to-date bibliographies for further study, and much more.

Il Ciclope (trad. dal Greco in lingua Toscana da Anton Maria Salvini.) Euripides.1728

The Milan Institute of Physics Leonardo Gariboldi,Luisa Bonolis,Antonella Testa.2022-06-09 This book offers the first comprehensive and

authoritative text on the history of physics in Italy's industrial and financial capital, from the foundation of the University of Milan's Institute of Physics in 1924 up to the early 1960s, when it moved to its current location. It includes biographies and a historical-scientific analysis of the main research topics investigated by world-renowned physicists such as Aldo Pontremoli, Giovanni Polvani, Giovanni Gentile Jr., Beppo Occhialini, and Piero Caldirola, highlighting their contributions to the development of Italian physics in a national and international context. Further, the book provides a historical perspective on the interplay of physics and politics in Italy during both the Fascist regime and the postwar reconstruction period, which led to the creation of the CISE (Centro Informazioni Studi Esperienze, a research center for applied nuclear physics, funded by private industries) in 1946, and of the Milan division of the National Institute of Nuclear Physics (INFN) in 1951.

Cambridge Readings in Italian Literature Edward Bullough.1920

Echoing Narratives Konstantin Doulamis.2011 Intertextuality has been recognised as an important feature of ancient prose fiction and yet it has only received sporadic attention in modern scholarship, despite the recent explosion of interest in the ancient novels. This volume is intended to make a contribution towards filling this gap by drawing attention to, and throwing fresh light on, the presence in ancient Greek and Roman narratives of earlier literary echoes. While one volume is by no means sufficient to remedy the problem of the relative lack of scholarship on the topic, nevertheless it is hoped that the present collection will create scope for debate and will generate greater scholarly interest in this area. Most of the articles collected here originated in the colloquium 'The Ancient Novel and its Reception of Earlier Literature', which was held at University College Cork in August 2007. They investigate the interconnection between Graeco-Roman narratives and earlier or contemporary works, and consider ways in which intertextual exploration is invited from the readers of these texts. What prompts the reader to associate a passage with an earlier text? What triggers in a text the evocation of motifs from antecedent literature? How might we interpret an identified allusion? In what ways can intertextuality function as a device of characterisation? These are among the questions explored by the chapters in this volume, which concentrate on the 'canonical' Greek romances and the Roman novels but also cover other novel-like works, such as the Alexander Romance and Alexander's Letter to Aristotle About India, and the Story of Apollonius King of Tyre.
