**Flugabwehr 9/11** Tobias Audersch.2020-07-01 Thema des Buchs ist der 11. September 2001, innerhalb dieser Nische die Flugabwehr und innerhalb dieser Nische die Auseinandersetzung mit alternativen Deutungen (sog. Verschwörungstheorien). Das Buch seziert an diesem Spezialthema, wie konspiratives Denken aufgebaut ist, und stellt dem ein methodisch kontrolliertes Arbeiten mit dem Quellmaterial entgegen. Es erörtert hierbei im Detail Geschehnisse in der militärischen und zivilen Flugabwehr im Krisenereignis 9/11. Warum wurde trotz einer Attackendauer von rund zwei Stunden nicht ein einziges der 9/11 entführten Flugzeuge durch das Militär abgefangen? Das Buch bietet eine eigene organisationstheoretische Erklärung für diesen Sachstand an und weist alternative Deutungen im selben Atemzug zurück. Vertreter alternativer Deutungen von 9/11, die mit Büchern in die Bestsellerlisten wanderten und Filme mit Millionen Views auf Youtube produzierten, gehen von einem gezielten Sabotageakt aus, der durch Elemente innerhalb des Militärs gesteuert wurde. Die entworfenen Szenarien sind vielfältig: Es wurde durch gleichzeitige Kriegsspiele eine gezielte Verwirrung geschaffen. Auf den Radarschirmen wurden künstliche Signale simuliert. Reaktionsketten wurden gezielt verschleppt. In die Türme des World Trade Centers wurden ferngelenkte Flugzeuge gelenkt. Im Nachgang der Anschläge wurden Gegenbeweise gezielt unterdrückt und gefälschte Beweise in Umlauf gebracht. Die Anwürfe sind überprüfbar, da durch Archivierungsvorgänge und Freigabeklageverfahren eine große Menge an Primärdaten zur Flugabwehr der Forschung zugänglich ist. Diese Primärdaten umfassen u.a. militärischen Funkverkehr, zivilen Funkverkehr, Black-Box-Daten und Radardaten. Diesen Datenbestand gleicht das Buch mit den verschiedenen Szenarien ab.

*The Hitler Book* Fyodor Parparov,Igor Saleyev,Otto Günsche,Heinz Linge.2005-11-07 This eyewitness account was compiled for one man's eyes only: those of Josef Stalin. One of the first biographies of Adolf Hitler, it derives from the testimony of his two closest assistants, interrogated at the Soviet leader's command, in order to understand the psychology of his greatest enemy - and to be certain that he was dead.--BOOK JACKET.

**The Business Affairs of Mr Julius Caesar** Bertolt Brecht.2016-01-28 Bertolt Brecht's extraordinary historical novel presents an aspiring scholar's efforts to write an idealized life of Julius Caesar twenty years after his death. But the historian abandons his planned biography, confronted by a baffling range of contradictory views. Was Caesar an opportunist, a permanently bankrupt businessman who became too big for the banks to allow him to fail - as his former banker claims? Did he stumble into power while trying to make money, as suggested by the diary of his former slave? Across these different versions of Caesar's career in the political and economic life of Rome, Brecht wryly contrasts the narratives of imperial progress with the reality of grasping self-interest, in a sly allegory that points to the Weimar Republic and perhaps even to our own times. Brecht reminds his readers of the need for constant vigilance and critical suspicion towards the great figures of the past. In an echo of his dramatic theories, the audience is confronted with its own task of active interpretation rather than passive acceptance -- we have to work out our own views about Mr Julius Caesar. This edition is translated by Charles Osborne and features an introduction and editorial notes by Anthony Phelan and Tom Kuhn.

**Suicide and the Body Politic in Imperial Russia** Susan K. Morrissey.2007-01-04 In early twentieth-century Russia, suicide became a public act and a social phenomenon of exceptional scale, a disquieting emblem of Russia's encounter with modernity. This book draws on an extensive range of sources, from judicial records to the popular press, to examine the forms, meanings, and regulation of suicide from the seventeenth century to 1914, placing developments into a pan-European context. It argues against narratives of secularization that read the history of suicide as a trajectory from sin to insanity, crime to social problem, and instead focuses upon the cultural politics of self-destruction. Suicide - the act, the body, the socio-medical problem - became the site on which diverse authorities were established and contested, not just the priest or the doctor but also the sovereign, the public, and the individual. This panoramic history of modern Russia, told through the prism of suicide, rethinks the interaction between cultural forms, individual agency, and systems of governance.

**Logic's Lost Genius** Eckart Menzler-Trott.2016-05-05 Gerhard Gentzen (1909-1945) is the founder of modern structural proof theory. His lasting methods, rules, and structures resulted not only in the technical mathematical discipline called "proof theory" but also in verification programs that are essential in computer science. The appearance, clarity, and elegance of Gentzen's work on natural deduction, the sequent calculus, and ordinal proof theory continue to be impressive even today. The present book gives the first comprehensive, detailed, accurate scientific biography expounding the life and work of Gerhard Gentzen, one of our greatest logicians, until his arrest and death in Prague in 1945. Particular emphasis in the book is put on the conditions of scientific research, in this case mathematical logic, in National Socialist Germany, the ideological fight for "German logic", and their mutual protagonists. Numerous hitherto unpublished sources, family documents, archival material, interviews, and letters, as well as Gentzen's lectures for the mathematical public, make this book an indispensable source of information on this important mathematician, his work, and his time. The volume is completed by two deep substantial essays by Jan von Plato and Craig Smoryński on Gentzen's proof theory; its relation to the ideas of Hilbert, Brouwer, Weyl, and Gödel; and its development up to the present day. Smoryński explains the Hilbert program in more than the usual slogan form and shows why consistency is important. Von Plato shows in detail the benefits of Gentzen's program. This important book is a self-contained starting point for any work on Gentzen and his logic. The book is accessible to a wide audience with different backgrounds and is suitable for general readers, researchers, students, and teachers.

**Don't touch this book!** Jan van Helsing.2013-11-21 You are surely now asking yourself why you are supposed to keep your hands off this book. Is it just a clever advertising strategy? Hardly so. As you know, two books of Jan van Helsing had been banned in Germany and Switzerland due to their highly controversial contents. And the mainstream media too barely lets a day go by without warning the populace about the ideas of Germany's most dangerous author of specialized books. Now Jan van Helsing is once again shaking up someone's world view - yours! The advice, Don't touch this book! absolutely was meant to be taken seriously. Because after reading this book, it won't be easy for you to continue living your life the way you have been. Today, you could possibly still think, Nobody told me this, so how was I supposed to know? Today, you could also still hold the opinion that you, as an individual, have no say anyway and cannot change anything. However, after reading this book, this point of view will be history! If you are someone who is not interested in secrets, who has never felt the wish for internal and external wealth, who is unconcerned about success and health, then it will certainly be better if you follow the well-meant advice and keep your hands off this book. But if you have always felt that something isn't quite right with this world, if you are interested in the last secrets of this enlightened world, and if you are someone who wants to find out what else life might have in store, then this book is for you! But don't say you haven't been warned! Because Jan van Helsing will tell you about things and events that will give you a chance to have power over your own life and the power to let others partake in it. And those who have power also bear a huge responsibility. So now you have to make a choice: Do you want to continue being lived by others or has the time come for you to take charge of your own destiny? The decision is yours!

**Adrian Rollini** Ate van Delden.2019-11-29 2020 Association for Recorded Sound Collections Awards for Excellence—Best History in the category of Best Historical Research in Recorded Jazz Adrian Rollini (1903-1956), an American jazz multi-instrumentalist, played the bass saxophone, piano, vibraphone, and an array of other instruments. He even introduced some, such as the harmonica-like cuesnophone, called Goofus, never before wielded in jazz. Adrian Rollini: The Life and Music of a Jazz Rambler draws on oral history, countless vintage articles, and family archives to trace Rollini's life, from his family's arrival in the US to his development and career as a musician and to his retirement and death. A child prodigy, Rollini

was playing the piano in public at the age of five. At sixteen in New York he was recording pianola rolls when his peers recognized his talent and asked him to play xylophone and piano in a new band, the California Ramblers. When he decided to play a relatively new instrument, the bass saxophone, the Ramblers made their mark on jazz forever. Rollini became the man who gave this instrument its place. Yet he did not limit himself to playing bass parts—he became the California Ramblers' major soloist and created the studio and public sound of the band. In 1927 Rollini led a new band that included such jazz greats as Bix Beiderbecke and Frank Trumbauer. During the Depression years, he was back in New York playing with several bands including his own New California Ramblers. In the 1940s, Rollini purchased a property on Key Largo. He rarely performed again for the public but hosted rollicking jam sessions at his fishing lodge with some of the best nationally known and local players. After a car wreck and an unfortunate hospitalization, Rollini passed away at age fifty-three.

**Hitler's Prisons - Legal Terror in Nazi Germany** Nikolaus Wachsmann.2015-05-26 State prisons played an indispensable part in the terror of the Third Reich, incarcerating many hundreds of thousands of men and women during the Nazi era. This important book illuminates the previously unknown world of Nazi prisons, their victims, and the judicial and penal officials who built and operated this system of brutal legal terror. Nikolaus Wachsmann describes the operation and function of legal terror in the Third Reich and brings Nazi prisons to life through the harrowing stories of individual inmates. Drawing on a vast array of archival materials, he traces the series of changes in prison policies and practice that led eventually to racial terror, brutal violence, slave labor, starvation, and mass killings. Wachsmann demonstrates that ordinary legal officials were ready collaborators who helped to turn courts and prisons into key components in the Nazi web of terror. And he concludes with a discussion of the whitewash of the Nazi legal system in postwar West Germany.

**Populismus v časech krize** Kubát, Michal,Mejstřík, Martin,Kocian, Jiří.2017-02-01 Populismus se v posledních letech stal jedním z klíčových konceptů politiky. Zejména volby do Evropského parlamentu v květnu 2014 se staly mezníkem, po kterém se z populismu stal skutečný celospolečenský fenomén. K pochopení úspěchu populistů v těchto volbách je však nutné nahlédnout do předchozích událostí, zejména je třeba zabývat se vztahem mezi nedávnou ekonomickou krizí a chováním populistů v jejím průběhu. Jak ukazují jednotlivé kapitoly této knihy, nová „vlna“ evropského populismu nebyla pouhou reakcí na ekonomickou krizi, ale byla rovněž podpořena úpadkem tradičních politických stran a jejich schopnosti nabídnout voličům atraktivní program. Tato kniha podává ucelený pohled na populismus ve zkoumaných státech. Předmětem výzkumu tedy nebyla jenom samotná populistická uskupení a jejich chování v době ekonomické krize, ale také politické prostředí jednotlivých zemí, v nichž tito populisté působí. V tomto ohledu publikace přináší specifický úhel pohledu na vnitropolitický vývoj v těchto státech (nejen) v průběhu ekonomické krize a napomáhá k pochopení celospolečenských procesů a změn, které tato krize přinesla. Kniha je určena jak studentům a akademikům s odborným zájmem ve studiu evropského populismu, tak širší čtenářské obci, která se chce dozvědět více o fenoménu, jenž v poslední dekádě výrazně proměnil evropskou politiku a hraje stále významnější roli v běžném životě každého z nás.

**Wildlife Trafficking** Gian Ege,Andreas Schloenhardt,Christian Schwarzenegger.2020-10-09 Wildlife trafficking threatens the existence of many plant and animal species and accelerates the destruction of wildlife, forests, and other natural resources. It contributes to environmental degradation, destroys unique natural habitats, and deprives many countries and their populations of scarce renewable resources. Nevertheless, preventing and suppressing the illegal trade in wildlife, animal parts, and plants is presently not a priority in many countries and it remains overlooked and poorly researched. The chapters included in this volume address causes, characteristics, and actors of wildlife trafficking, analyse detection methods, and explore different international and national legal frameworks. One Small Step? Gerhard Wisnewski.2007-01-01 From the very first manned flight into orbit right up to the present day, there have been serious anomalies in the official narrative of the conquest of space. Bestselling author Gerhard Wisnewski dissects the history in minute detail from the first Russian missions to the final American moon project of Apollo 17 looking at films, photos, radio communications, personal statements, and other available material. Using forensic methods of investigation, he pieces together a complex jigsaw depicting a disturbing picture of falsifications, lies, and fakery in the Cold War struggle for supremacy between the Soviet Union and the United States. The evidence he presents casts serious doubt on the possibility of humans ever having walked on the moon.

**The Bilderbergers - Puppet-Masters of Power?** Gerhard Wisnewski.2014-11-17 Since 1954, a discrete and select group of wealthy and powerful individuals have attended a private, yearly conference to discuss matters of their choosing. This group represents European and North American elites, as well as new talent and rising stars, from the worlds of politics, business, media, academia, the military and even royalty, and has included household names such as Margaret Thatcher, Henry Kissinger and even Prince Philip. In recent years their number have featured David Cameron, Tony Blair, Angela Merkel, Bill Clinton and David Rockefeller. These are 'the Bilderbergers', named after the hotel where their secret gatherings were first hosted. What is their purpose, why do they meet, and what do they want? Investigative writer Gerhard Wisnewski explores the numerous claims of conspiracy that swirl around the group, revealing names of participants, their agendas and their goals. The scene opens in the sun-kissed seaside resort of Vouliagmeni, Greece, where Wisnewski attempts to observe and report on a Bilderberg conference. He soon attracts aggressive attention from police and undercover security, and it is made abundantly clear he is not welcome. From this rude introduction, Wisnewski works backwards to the founding of the Bilderbergers in 1954 by a shadowy Jesuit with secret service allegiances. Examining records and hidden reports, Wisnewski uncovers the true history of the organization, the alliances among key individuals and their common interests. Are the Bilderbergers puppet-masters, pulling strings behind the scenes? Are plans afoot to create a global government and a new political system? To what extent do they represent a clandestine super-government? This book offers a unique view into the workings of power, and the secret methods of those who seek to govern and control behind the scenes.

*Bellicose Entanglements 1914* Maximilian Lakitsch,Susanne Reitmair-Juárez,Katja Seidel.2015 The First World War is often described as a regional war with few repercussions beyond Europe. However, by the dawn of the 20th century, global political and economic entanglements of empires and nation states had reached unprecedented dimensions. Consequently, the war affected the lives of millions of combatants and civilians alike: politically, socially and culturally. This book shifts the Eurocentric focus of Europeans fighting and dying on European battlefields to a broader, global perspective. With local accounts and perceptions ranging from Argentina to Afghanistan, from Iran to Senegal, the volume sheds light on the multitude of contributions to and consequences of the First World War all around the world.
