

Alms Foundation Course

The Charities of London, 1480 - 1660 W. K. Jordan.2013-10-28 In this work, Professor Jordan continues his study of the origins of modern social and cultural institutions in England. He is concerned with the momentous shift which occurred in men's aspirations for their society in the course of the sixteenth and seventeenth centuries, as reflected in the charities which were established by gifts and bequests. This volume deals with the immense contribution made by London to this process of historical change, a change so swift as to be revolutionary in its institutional implications. The author describes the vast charitable system which London created, examines at length the aspirations and the social philosophy of the merchant aristocracy which controlled its affairs, and seeks to assess the social dominance exerted by London in this era as the flood of its charitable generosity poured out across the face of the realm. It is Professor Jordan's estimate that more than a third of the whole of the great charitable endowments created in England during this period were London's gift, while almost a third of London's benefactions were made for the benefit of communities in other parts of the realm. It is not too much to say that London's almost prodigal generosity was fashioning for all of England the institutions of a new age. Here is recorded the annal of a proud achievement by a city which discovered its own greatness in the period under discussion. It is perhaps not too much to say that few authors have quite so fully mastered the rich and variegated life and aspirations of the city as has Professor Jordan, certainly none have recounted the triumph of its achievement with greater understanding and pride. This book was first published in

1960.

Nonprofit Organizations Helmut K. Anheier. 2006-08-21 This text is the first to dedicate itself to the nonprofit sector. It provides a comprehensive overview of nonprofit and voluntary organizations, nongovernmental organizations, philanthropic foundations and civil society institutions. Taking an international perspective, it details the background and concepts behind these organizations and examines the theory, management and policy which informs them. Questions answered include: What are nonprofit and voluntary organizations? What is the history of the nonprofit sector? What is the scale and structure of the nonprofit sector? How can we explain the existence and behaviour of nonprofit organizations? How do nonprofits obtain funding and how do they manage resources? With strong pedagogical features and the author's own extensive experience, this book is a valuable reference for all those involved in non-profit making organizations, as well as those in the wider public administration and management arena.

Jesuit Ethos, The Enyegue, Jean Luc, SJ. The Jesuit Ethos aims at revisiting important moments in Jesuit history from the margins, and in light of the current global challenges. It argues that by examining Jesuit history from the margins, one better appreciates this history as a spiritual journey, a constant quest for the unity of hearts and minds among the members. Their cultural and political origins, the diversity of their ministries, their apostolic dispersion amid the “First Globalization,” and constant assaults from declared enemies kept the Jesuits on the verge of implosion and immolation and made the unity among their members a matter of survival. By analyzing how the Jesuits exploited their diversity of cultures and politics to build a global ethos, and how this global organization was sustained for the last 500 years, relevant lessons can be learned to address the ongoing challenges of our global community. While speaking to a broader, global-oriented audience, such a history might be the first of such by an African (thus its originality), in a context of shifting demographics in the Church and Society of Jesus, and questions about the identity of its institution and mission.

The Gentleman's Magazine .1859 The Gentleman's magazine section is a digest of selections from the weekly press; the (Trader's) monthly intelligencer section consists of news (foreign and domestic), vital statistics, a register of the month's new publications, and a calendar of forthcoming trade fairs.

Philanthropy in England, 1480 - 1660 W. K. Jordan.2013-10-28 This study documents a momentous shift which occurred in men's aspirations for their society in the course of the sixteenth and seventeenth centuries. The author has examined gifts and bequests left for charitable causes over a period of nearly two centuries. in ten English counties, in order to assess the changing pattern of social aspirations and observe the different 'velocities of change' among the several social classes. Professor Jordan examines the problem of poverty in the early modern world and discusses the various measures taken by the Tudors and Stuarts to deal with the needs of the poor. He concludes that poverty was principally relieved by an immense outpouring of charitable wealth. This wealth flowed principally from an urban aristocracy determined not only to care for the hopelessly destitute but so to enlarge the 'area of opportunity' so that poverty could be prevented. At the same time, the Elizabethan law of charitable uses marshalled this generous wealth into effective agencies. The study closes with a full assessment of the noble achievements of the period: the founding of a widespread and effective system of education, the establishment of almshouses in all parts of England, and extraordinary and fertile experiments with the several agencies of social rehabilitation. The author records in this volume a great and enduring historical achievement; he records as well the triumph of the secular preoccupations of mankind. This book was first published in 1959.

Foundations of Community Medicine, 2/e Dhaar.2008 The special features that distinguish Foundations of Community Medicine in its present form are: Contains well-organized material which is singularly free from repetition, confusion and uncertainty and which ensures availability of all the relevant information on a topic at one place. Lays adequate stress on applied aspects of preventive medicine and public health with focus on Indian situation. Contains detailed description of public health practices, namely, immunization, disinfection and sterilization, notification, isolation and quarantine, public health surveillance and population screening. Extends a managerial treatment to the description of health organizations, health programmes and health care systems existing in the country. Incorporates a comprehensive coverage of physical, social and biological environments laying due stress on environmental pollution and its control. Provides adequate information on occupational hazards and industrial problems in consideration of the advancing industrialization in India. Encompasses an elaborate exposition on important issues concerning maternal health, infant health, child health, adolescent health and geriatric health in an exclusive section devoted to personal health care. Presents a uniquely simplified and readily intelligible discourse on basic concepts of epidemiology and statistics which are usually abhorred by medical students. Incorporates a detailed description of the National Population Policy and National Health Policy in consideration of their crucial importance in the formulation of National Health Care Programmes for the country. Contains numerous comparison tables, flowcharts, graphs and diagrams to improve

comprehension and facilitate retention of the subject matter. Encloses multiple solved examples on epidemiology, vital statistics and basic statistics to enable the students to calculate rates, ratios and statistical values of applied significance. Contains elaborate discussion on Indian population problem, human disasters as well as emerging and re-emerging diseases. Provides adequate information on Indian health systems, hospital acquired infection and hospital waste management. Covers detailed discussion on adolescent health care, mental disorders and millennium development goals. About the Author : - G.M. Dhaar, Professor, Department of Community Medicine, SKIMS, Srinagar, India. Irfan Robbani, Associate Professor, Department of Community Medicine, SKIMS, Srinagar, India.

Reconnecting Education and Foundations Ray Bacchetti, Thomas Ehrlich. 2007 Praise for Reconnecting Education & Foundations Ray Bacchetti and Thomas Ehrlich have brought together an impressive constellation of thinkers to consider philanthropy's fundamentally important role in American education—past, present, and future. —Thomas Toch, cofounder and codirector, Education Sector This volume provides a critical and constructive analysis of relationships between foundations and education institutions. It offers thoroughly researched, well reasoned, and very practical suggestions for increasing foundations' impact on the quality of K-12 and university education. —Deborah Stipek, dean, Stanford University School of Education This fascinating book, the outcome of a project to mark the one hundredth anniversary of the Carnegie Foundation for the Advancement of Teaching, asks the crucial question whether foundations can and should invest in 'educational capital' in this new century, now that the historic consensus on what makes for good education has given way to an era of uncertainty and politicization as to the goals of education. The book will convince readers that the stakes are high in resolving this dilemma in educational investment.

—Stanley N. Katz, director, Center for Arts and Cultural Policy Studies, Woodrow Wilson School, Princeton University This impressive book by Bacchetti, Ehrlich, and their knowledgeable coauthors unveils through sound research and analysis the interlocking and often tension-ridden tripartite relationships among the institutions of private philanthropy (i.e., foundations), schools, and colleges. It is a must read for Messrs. Buffett and Gates along with thoughtful practitioners, academics, and policy analysts in the fields of philanthropy and education. It doesn't provide all of the answers but raises many very important questions. —Donald M. Stewart, visiting professor, the Harris School of Public Policy Studies, University of Chicago

The Beguines of Medieval Paris Tanya Stabler Miller. 2014-03-20 In the thirteenth century, Paris was the largest city in Western Europe, the royal capital of France, and the seat of one of Europe's most important universities. In this vibrant and cosmopolitan city, the beguines, women who wished to devote their lives to Christian ideals without taking formal vows, enjoyed a level of patronage and esteem that was uncommon among like communities elsewhere. Some Parisian beguines owned shops and played a vital role in the city's textile industry and economy. French royals and nobles financially supported the beguinages, and university clerics looked to the beguines for inspiration in their pedagogical endeavors. The Beguines of Medieval Paris examines these religious communities and their direct participation in the city's commercial, intellectual, and religious life. Drawing on an array of sources, including sermons, religious literature, tax rolls, and royal account books, Tanya Stabler Miller contextualizes the history of Parisian beguines within a spectrum of lay religious activity and theological controversy. She examines the impact of women on the construction of medieval clerical identity, the valuation of women's voices and activities, and the surprising ways in which local networks and legal structures permitted women to continue to identify as beguines long

after a church council prohibited the beguine status. Based on intensive archival research, *The Beguines of Medieval Paris* makes an original contribution to the history of female religiosity and labor, university politics and intellectual debates, royal piety, and the central place of Paris in the commerce and culture of medieval Europe.

A History of Doughty's Hospital, Norwich, 1687-2009 Nigel Goose,Leanne Moden.2010 Based on primary resources and interviews with current residents and recent trustees, this well researched history traces the growth and progress of Doughty's Hospital, an almshouse in Norwich, England, while examining the various philanthropic initiatives and social policies in Britain as a whole. From the hospital's foundation at the bequest of the departed William Doughty in 1687 to its present condition, this record considers key aspects of the hospital's development, including its residents,

staff, financial management, and rules and regulations. With chapters on the 18th, 19th, and 20th centuries, this account makes a valuable contribution to the history of social welfare.

Philanthropy in England W. K. Jordan.2016-09-17 In these works Professor Jordan studies the origins of modern social and cultural institutions in England. He is concerned with the momentous shift which occurred in men's aspirations for their society in the course of the sixteenth and seventeenth centuries, as reflected in the charities which were established by gifts and bequests. In a fascinating account of the measures taken by the Tudors and Stuarts to deal with the problem of poverty, Jordan concludes that it was principally dealt relieved by an immense outpouring of charitable wealth.
