**Making and Remaking Italy** Albert Russell Ascoli, Krystyna Von Henneberg. 2001-05 This important new book considers many of the ways in which national identity was imagined, implemented and contested within Italian culture before, during and after the period of Italian unification in the mid-nineteenth century. Taking a fresh approach towards national icons cherished by both Left and Right, the collection's authors examine the complex interaction between a perceived need for national identity and the fragmented nature of the Italian peninsula. In so doing, they draw on examples from a wide range of artistic and cultural media. The book opens with an introduction which defines the case of the Italian 'Risorgimento' and places it within a large context of European and global nation-building and nationalism. Authors discuss how episodes from the distant past were used by nineteenth- and twentieth-century artists, musicians, and writers to recreate narratives of nationhood, as well as how the problem of Italian identity was before and during the Risorgimento. The question of who belonged in the new Italy, who remained outsiders, and how social and sexual differences entered into defining these groups is also addressed. The book concludes with an analysis of twentieth-century attempts to appropriate and reforge the 'spirit' of the Risorgimento, under Fascism and in our own time.

His most pressing task is to improve camp morale and he establishes a chess club, and allows officers and enlisted men to gamble on the games. Soon Meissner learns that chess is also played among the prisoners, and there are rumors of an unbeatable Jew known as the Watchmaker. Meissner's superiors begin to demand that he demonstrate German superiority by pitting this undefeated Jew against the best Nazi players. Meissner finds Emil Clément, the Watchmaker, and a curious relationship arises between them. As more and more games are played, the stakes rise, and the two men find their fates deeply entwined. Twenty years later, the two meet again in Amsterdam—Meissner has become a bishop, and Emil is playing in an international chess tournament. Having lost his family in the horrors of the death camps, Emil wants nothing to do with the ex-Nazi officer despite their history, but Meissner is persistent. **Hogarth Reynolds Turner** Carolina Brook,Valter Curzi.2014 From Hogarth to Reynolds, from Gainsborough to Turner, the great protagonists of English painting between the eighteenth and nineteenth centuries. This is the first comprehensive overview of the extraordinary development of British painting during the eighteenth century, which anticipated themes, styles, and techniques that later became paradigms of modernity. This volume focuses on the English context at a time when the growth of artistic standing was accompanied by the country's conquest of hegemony on a historical, political, and economic plane. The volume is arranged chronologically in seven sections, which include a selection of over 100 masterpieces by the most significant English painters. The main objective is to enable readers to rediscover the genres of portrait and landscape, which have always characterized British art. Readers can admire the work of artists like William Hogarth, Henry Fuseli (Johann Heinrich Füssli), Sir Joshua Reynolds, Thomas Gainsborough, Joseph Wright of Derby, George Stubbs, John Constable, and William Turner, who offer a completely original cross section of eighteenth- and early nineteenth-century painting in Great Britain.

**Ancient Rhetoric** .2017-11-30 Classical rhetoric is one of the earliest versions of what is today known as media studies. It was absolutely crucial to life in the ancient world, whether in the courtroom, the legislature, or on ceremonial occasions, and was described as either the art of the persuasion or the art of speaking well. This anthology brings together all the most important ancient writings on rhetoric, including works by Cicero, Aristotle, Quintilian and Philostratus. Ranging across such themes as memory, persuasion, delivery and style, it provides a fascinating introduction to classical rhetoric and will be an invaluable sourcebook for students of the ancient world.

**Rites of Spring** Modris Eksteins.2012-03-13 Named One of the 100 best books ever published in Canada (The Literary Review of Canada), Rites of Spring is a brilliant and captivating work of cultural history from the internationally acclaimed scholar and writer Modris Eksteins. Dazzling in its originality, witty and perceptive in unearthing patterns of behavior that history has erased, Rites of Spring probes the origins, the impact and the aftermath of World War I--from the premiere of Stravinsky's ballet Le Sacre du Printemps in 1913 to the death of Hitler in 1945. The Great War, Eksteins writes, was the psychological turning point...for modernism as a whole. The urge to create and the urge to destroy had changed places. In this extraordinary book, Eksteins goes on to chart the seismic shifts in human consciousness brought about by this great cataclysm through the lives and words of ordinary people, works of literature, and such events as Lindbergh's transatlantic flight and the publication of the first modern bestseller, All Quiet on the Western Front. Rites of Spring is a remarkable and rare work, a cultural history that redefines the way we look at our past

and toward our future.

Men of Bronze Donald Kagan, Gregory F. Viggiano. 2015-11-24 A major contribution to the debate over ancient Greek warfare by some of the world's leading scholars *Men of Bronze* takes up one of the most important and fiercely debated subjects in ancient history and classics: how did archaic Greek hoplites fight, and what role, if any, did hoplite warfare play in shaping the Greek polis? In the nineteenth century, George Grote argued that the phalanx battle formation of the hoplite farmer citizen-soldier was the driving force behind a revolution in Greek social, political, and cultural institutions. Throughout the twentieth century scholars developed and refined this grand hoplite narrative with the help of archaeology. But over the past thirty years scholars have criticized nearly every major tenet of this orthodoxy. Indeed, the revisionists have persuaded many specialists that the evidence demands a new interpretation of the hoplite narrative and a rewriting of early Greek history. *Men of Bronze* gathers leading scholars to advance the current debate and bring it to a broader audience of ancient historians, classicists, archaeologists, and general readers. After explaining the historical context and significance of the hoplite question, the book assesses and pushes forward the debate over the traditional hoplite narrative and demonstrates why it is at a crucial turning point. Instead of reaching a consensus, the contributors have sharpened their differences, providing new evidence, explanations, and theories about the origin, nature, strategy, and tactics of the hoplite phalanx and its effect on Greek culture and the rise of the polis. The contributors include Paul Cartledge, Lin Foxhall, John Hale, Victor Davis Hanson, Donald Kagan, Peter Krentz, Kurt Raaflaub, Adam Schwartz, Anthony Snodgrass, Hans van Wees, and Gregory Viggiano.

Battle Exhortation Keith Yellin. 2013-06-10 In this groundbreaking examination of the symbolic strategies used to prepare troops for imminent combat, Keith Yellin offers an interdisciplinary look into the rhetorical discourse that has played a prominent role in warfare, history, and popular culture from antiquity to the present day. *Battle Exhortation* focuses on one of the most time-honored forms of motivational communication, the encouraging speech of military commanders, to offer a pragmatic and scholarly evaluation of how persuasion contributes to combat leadership and military morale. In illustrating his subject's conventions, Yellin draws from the Bible, classical Greece and Rome, Spanish conquistadors, and American military forces. Yellin is also interested in how audiences are socialized to recognize and anticipate this type of communication that precedes difficult team efforts. To account for this dimension he probes examples as diverse as Shakespeare's *Henry V*, George C. Scott's portrayal of General George S. Patton, and team sports.

**Knowing History in Schools** Arthur Chapman . 2021-01-07 The 'knowledge turn' in curriculum studies has drawn attention to the central role that knowledge of the disciplines plays in education, and to the need for new thinking about how we understand knowledge and knowledge-building. *Knowing History in Schools* explores these issues in the context of teaching and learning history through a dialogue between the eminent sociologist of curriculum Michael Young, and leading figures in history education research and practice from a range of traditions and contexts. With a focus on Young's 'powerful knowledge' theorisation of the curriculum, and on his more recent articulations of the 'powers' of knowledge, this dialogue explores the many complexities posed for history education by the challenge of building children's historical knowledge and understanding. The book builds towards a clarification of how we can best conceptualise knowledge-building in history education. Crucially, it aims to help history education students, history teachers, teacher educators and history curriculum designers navigate the challenges that knowledge-building processes pose for learning history in schools.

*In the Sea There are Crocodiles* Fabio Geda.2011-08-09 When ten-year-old Enaiatollah Akbari’s small village in Afghanistan falls prey to Taliban rule in early 2000, his mother shepherds the boy across the border into Pakistan but has to leave him there all alone to fend for himself. Thus begins Enaiat’s remarkable and often punishing five-year ordeal, which takes him through Iran, Turkey, and Greece before he seeks political asylum in Italy at the age of fifteen. Along the way, Enaiat endures the crippling physical and emotional agony of dangerous border crossings, trekking across bitterly cold mountain pathways for days on end or being stuffed into the false bottom of a truck. But not everyone is as resourceful, resilient, or lucky as Enaiat, and there are many heart-wrenching casualties along the way. Based on Enaiat’s close collaboration with Italian novelist Fabio Geda and expertly rendered in English by an award-winning translator, this novel reconstructs the young boy’s memories, perfectly preserving the childlike perspective and rhythms of an intimate oral history. Told with humor and humanity, *In the Sea There Are Crocodiles* brilliantly captures Enaiat’s moving and engaging voice and lends urgency to an epic story of hope and survival.

**Greek Warfare** Hans van Wees.2024-12-26 From the soldier's-eye view of combat to the broad social and economic structures that shaped campaigns and wars, ancient Greek warfare in all its aspects has been studied more intensively in the last few decades than ever before. This book ranges from the concrete details of conducting raids, battles and sieges to more theoretical questions about the causes, costs and consequences of warfare in archaic and classical Greece. It argues that the Greek sources present a highly selective and idealised picture, too easily accepted by most modern scholars, and that a more critical study of the evidence leads to radically different conclusions about the Greek way of war. In this new edition the evidence from recent research is interwoven throughout the existing text along with new images to supplement the original illustrative material, which is now fully integrated. A new map and annotated timeline will support students, while a much-expanded final chapter on naval warfare will bring this important subdiscipline fully up to date.

**The Church of Solitude** Grazia Deledda.2012-02-01 A translation of Grazia Deledda's final novel, an autobiographically based portrayal of an Italian

woman coming to terms with breast cancer at the cusp of the twentieth century. The Church of Solitude tells the story of Maria Concezione, a young Sardinian seamstress living with breast cancer at the cusp of the twentieth century. Overwhelmed by the shame of her diagnosis, she decides that no one can know what has happened to her, but the heavy burden of this secrecy changes her life in dramatic ways and almost causes the destruction of several people in her life. This surprising novel paints the portrait of a woman facing the unknown with courage, faith, and self-reliance, and is the last and most autobiographical work of Grazia Deledda, who died of breast cancer in 1936, shortly after its publication. An afterword by the translator offers additional information on the author and examines the social and historical environment of that time. Grazia Deledda (1871–1936), the only Italian woman to have won the Nobel Prize for Literature (1926), is largely remembered today for her exalted prose and stark portraits of social change in early twentieth-century Sardinia. She wrote over sixty volumes, including novels, stories, and folklore of Sardinia, poetry, and essays. Her other translated works include *After the Divorce*; *Cosima*; *Elias Portolu*; *Reeds in the Wind*; and *The Mother*. E. Ann Matter is the R. Jean Brownlee Term Professor in the Department of Religious Studies at the University of Pennsylvania. She has published several books, including *The Voice of My Beloved: The Song of Songs in Western Medieval Christianity*.

*Out of the Red Shadows* Gennadii Kostyrchenko. 1995 Sifting through thousands of recently declassified documents in the formerly secret archives of the Central Committee of the Communist Party and the KGB, Gennadi Kostyrchenko uncovers irrefutable evidence of Stalin's intentionally anti-Semitic policy. The documents describe the suppression of all free manifestations of Jewish life, forced assimilation, and the purging of Jews from most official positions.

*Writing Homer* Minna Skafte Jensen. 2011 It is unknown, of course, who wrote the Iliad and the Odyssey, since, in general, no reliable contemporary description of how these two epics came into being is to be found. Such sources as there are - first and foremost, the two poems themselves - must be interpreted in a comparative framework built on experience from societies in the modern world that are in some respects similar to archaic Greece in order to reach a coherent picture of the process. The oral-formulaic theory, formed by Milman Parry (1902-1935) and Albert B. Lord (1912-1991), not only revolutionized Homeric studies, but also had an impact on anthropology and folklore. This led to an increased interest in oral epic traditions, and fieldworkers changed their methods towards a focus on composition in performance. The individual singer and his handling of the tradition gained importance. When possible, more than one performance of the same song was recorded - by the same singer on different occasions or by different singers - and interaction with the audience was documented. Traditions of the oral epic still exist in many parts of the world, and, during recent decades, quite a few of them have been documented and analyzed by innovative fieldworkers, leading to an overwhelming expansion of accessible knowledge of how oral epic works. *Writing Homer* explores what this means to the Parry-Lord-theory in general and the 'Homeric Question' in particular. The relationship between the Iliad, the Odyssey, and the Homeric Hymns, with the tradition of which they are part, can now be described with much more precision than before. It turns out that there is nothing unusual in very long oral epics; what is unusual is that such poems are recorded in writing. The process by which this must have taken place is discussed in detail. Old problems, such as the fact that neither illustrations of Trojan stories nor early 'quotations' agree with the written poems, can be solved. *Writing Homer* achieves a deeper understanding of the methods at work in the oral epic for building a likely social context of the Iliad and the Odyssey, and especially for speculating on the circumstances of the writing of the two great poems. Long oral narratives are flexible, and accordingly, the dictation to scribes that must be at the origin of the texts, which have been preserved in writing to this day, was a process of the utmost importance as was the composition in performance of the Iliad and the Odyssey. *Writing Homer* is directed at classical scholars, but will also be of interest to a much broader readership: folklorists, anthropologists, and whoever enjoys reading Homer in Greek, as well as in translation.

Reconstructing Illness Anne Hunsaker Hawkins.1999 Serious illness and mortality, those most universal, unavoidable, and frightening of human experiences, are the focus of this pioneering study which has been hailed as a telling and provocative commentary on our times. As modern medicine has become more scientific and dispassionate, a new literary genre has emerged: pathography, the personal narrative concerning illness, treatment, and sometimes death. Hawkins's sensitive reading of numerous pathographies highlights the assumptions, attitudes, and myths that people bring to the medical encounter. One factor emerges again and again in these case studies: the tendency in contemporary medical practice to focus primarily not on the needs of the individual who is sick but on the condition that we call disease. Pathography allows the individual person a voice-one that asserts the importance of the experiential side of illness, and thus restores the feeling, thinking, experiencing human being to the center of the medical enterprise. Recommended for medical practitioners, the clergy, caregivers, students of popular culture, and the general reader,

*Reconstructing Illness* demonstrates that only when we hear both the doctor's and the patient's voice will we have a medicine that is truly human.

**Night Without End** Jan Grabowski, Barbara Engelking.2022-09-06 Three million Polish Jews were murdered in the Holocaust, wiping out nearly 98 percent of the Jewish population who had lived and thrived there for generations. *Night Without End* tells the stories of their resistance, suffering, and death in unflinching, horrific detail. Based on meticulous research from across Poland, it concludes that those who were responsible for so many deaths included a not insignificant number of Polish villagers and townspeople who aided the Germans in locating and slaughtering Jews. When these findings were first published in a Polish edition in 2018, a storm of protest and lawsuits erupted from Holocaust deniers and from people who claimed the research was falsified and smeared the national character of the Polish people. *Night Without End*, translated and published for the first time in English in association with Yad Vashem, presents the critical facts, significant findings, and the unmistakable evidence of Polish collaboration in the genocide of Jews.

*The Town Beyond the Wall* Elie Wiesel.1972 Story based on Wiesel's own life in which a young Holocaust survivor returns to his hometown, seeking to understand the mystery of those who stood by and watched.

*The Iliad Or The Poem of Force* Simone Weil.1978

*Anthropology and Roman Culture* Maurizio Bettini.1991 How did Roman family relationships differ from our own? What metaphors did the Romans use to express abstractions such as time? What can we learn from the cultural symbols of their religion and literature? In *Anthropology and Roman Culture*, Maurizio Bettini employs the methods of structural anthropology to examine a series of social, ethical, and religious issues characteristic of Roman culture in the classical period. Bettini begins by examining the system of kinship within the extended Roman family. He shows how the stern Roman father and indulgent Roman mother had their exact counterparts elsewhere in the family: the harsh father's brother (patruus) and the tolerant mother's brother (avunculus). He discusses the complex Roman spatial conception of time (in which the future, for instance, could be said to lie behind as well as ahead of us), applying his findings in an analysis of Roman literature and culture. And he examines the cultural symbolism of the bee, the butterfly, and the bat, all of which served to represent the survival of the human soul after death. Recent classical scholarship has seen the successful application of an anthropological approach to Greek studies. Maurizio Bettini has shown the ways in which this practice can benefit Roman studies as well. Drawing on a wide range of literary and documentary sources, *Anthropology and Roman Culture* is now available for the first time in English translation.

such famous poets as Sappho and Pindar.

*1914* Jean Echenoz.2014-01-07 Five Frenchmen go off to war, two of them leaving behind a certain young woman who longs for their return. But the main character in *1914* is the Great War itself. Jean Echenoz, the multi-award-winning French literary magician whose work has been compared to Joseph Conrad and Lawrence Sterne, has brought that deathtrap back to life, leading us gently from a balmy summer day deep into the insatiable—and still unthinkable—carnage of trench warfare. With the delicacy of a miniaturist and with irony both witty and clear-eyed, the author offers us an intimate epic with the atmosphere of a classic movie: in the panorama of a clear blue sky, a biplane spirals suddenly into the ground; a tardy piece of shrapnel shears the top off a man's head as if it were a soft-boiled egg; we dawdle dreamily in a spring-scented clearing with a lonely shell-shocked soldier strolling innocently to a firing squad ready to shoot him for desertion. But ultimately, the grace notes of humanity in *1914* rise above the terrors of war in this beautifully crafted tale that Echenoz tells with discretion, precision, and love.

**Paula** Isabel Allende.2020-09-29 Newly Reissued New York Times Bestselling Author “Beautiful and heartrending. . . . Memoir, autobiography, epic, perhaps even some fiction: they are all here, and they are all quite wonderful.” —Los Angeles Times When Isabel Allende's daughter, Paula, became gravely ill and fell into a coma, the author began to write the story of her family for her unconscious child. In the telling, bizarre ancestors appear before our eyes; we hear both delightful and bitter childhood memories, amazing anecdotes of youthful years, the most intimate secrets passed along in whispers. With Paula, Allende has written a powerful autobiography whose straightforward acceptance of the magical and spiritual worlds will remind readers of her first book, *The House of the Spirits*.

*Recovering Bodies* G. Thomas Couser.1997-11-01 This is a provocative look at writing by and about people with illness or disability—in particular HIV/AIDS, breast cancer, deafness, and paralysis—who challenge the stigmas attached to their conditions by telling their lives in their own ways and on their own terms. Discussing memoirs, diaries, collaborative narratives, photo documentaries, essays, and other forms of life writing, G. Thomas Couser shows that these books are not primarily records of medical conditions; they are a means for individuals to recover their bodies (or those of loved ones) from marginalization and impersonal medical discourse. Responding to the recent growth of illness and disability narratives in the United States—such works as Juliet Wittman's *Breast Cancer Journal*, John Hockenberry's *Moving Violations*, Paul Monette's *Borrowed Time: An AIDS Memoir*, and Lou Ann Walker's *A Loss for Words: The Story of Deafness in a Family*—Couser addresses questions of both poetics and politics. He examines why and under what circumstances individuals choose to write about illness or disability; what role plot plays in such narratives; how and whether closure is achieved; who assumes the prerogative of narration; which conditions are most often represented; and which literary conventions lend themselves to representing particular conditions. By tracing the development of new subgenres of personal narrative in our time, this book explores how explicit consideration of illness and disability has enriched the repertoire of life writing. In addition, Couser's discussion of medical discourse joins the current debate about whether the biomedical model is entirely conducive to humane care for ill and disabled people. With its sympathetic critique of the testimony of those most affected by these conditions, *Recovering Bodies* contributes to an understanding of the relations among bodily dysfunction, cultural conventions, and identity in contemporary America.

In this book and the companion work, War and Society in the Roman World, the wider social context of war is explored. This volume examines its impact on Greek society from Homeric times to the age of Alexander and his successors and discusses the significance of the causes and profits of war, the links between war, piracy and slavery, and trade, and the ideology of warfare in literature and sculpture.
