Golf for Enlightenment Deepak Chopra, M.D..2003-03-04 Deepak Chopra has discovered the delights—and frustrations—of golf, and he is passionate about the game. Confronted by the wild ups and downs of his own play, he consulted with golf professionals and developed a new approach to the game that any golfer can follow—from the novice to the expert. The results can be measured not only in increased enjoyment and skill, but also in greater wisdom about life beyond the 18th hole. Chopra’s own game has improved dramatically since incorporating the elements of his program. Instead of focusing on the mechanics of a “perfect” swing, Chopra reveals how golf can be mastered through mindfulness, a form of awareness that combines sharp focus and relaxation at the same time. Expanded awareness, he tells us, can accomplish much more than external mechanics to improve one’s game. But Golf for Enlightenment is also an engrossing story about Adam, an Everyman who is playing a terrible round of golf when he meets a mysterious young teaching pro named Leela. In seven short but profound lessons detailing spiritual strategies, she teaches Adam the essence of a game that has much to explain about life itself. Chopra has spent the last year taking the unique message in Golf for Enlightenment nationwide, teaching the essential tenets of his program at lectures and seminars to golfers everywhere. His message continues to help players turn an obsession into a positive life path.

Crossing Over John Edward.2010-09-07 John Edward takes his fans with him on the extraordinary journey that has been his life. In the style of his TV show and personal appearances—poignant, funny, and remarkably candid—John Edward deals head-on with the controversial issues he has confronted on his voyage as a psychic medium. On his way to success and fame, John had to learn his own lessons about the meaning of his work, the motivations of some of the people he encountered, and the spirits who accompanied them. Through his very personal stories, John has brought peace and insight to those grieving for their loved ones—but what makes Edward’s memoir unique is how readily he exposes his own vanities and ego bruising. In addition, he provides a behind-the-scenes look at being a television medium, offering an amusing—and at times disturbing—look at how the ethereal world clashes with the celebrity world. John Edward’s wit, warmth, and passion will captivate readers—just as it has riveted the millions who view his landmark program.

The Book of Secrets Deepak Chopra, M.D..2004-09-28 The Book of Secrets is the finest and most profound of Deepak Chopra’s books to date. Want the answers to the secrets of life? Let me recommend that you start right here. —Ken Wilber, author of A Brief History of Everything We all want to know how to find a soul mate, what career would be most fulfilling, how to live a life with meaning, and how to teach our children well. We are looking for a personal breakthrough, a turning point, a revelation that brings with it new meaning. The Book of Secrets—a crystalline distillation of insights and wisdom accumulated over the lifetime of one of the great spiritual thinkers of our time—provides an exquisite new tool for achieving just that. Every life is a book of secrets, ready to be opened. The secret of perfect love is found there, along with the secrets of healing, compassion, faith, and the most elusive one of all: who we really are. We are still mysteries to ourselves, despite the proximity of these answers, and what we most long to know remains lodged deep inside. Because answers to the questions at the center of life are counterintuitive, they are often hidden from view, sequestered from our everyday gaze. In his ongoing quest to elevate our experience, bestselling author Deepak Chopra has isolated fifteen secrets that drive the narrative of this inspiring book—and of our lives. From The World Is in You and What You Seek, You Already Are to Evil Is Not Your Enemy and You Are Truly Free When You Are Not a Person, The Book of Secrets is rich with insights. It is a priceless treasure that can transport us beyond change to transformation, and from there to a sacred place where we can savor the nectar of enlightenment.

Karma has become a popular term in the West, often connected with somewhat naive or deterministic ideas of rebirth and reincarnation or equated with views of morality and guilt. Chögyam Trungpa unpacks this intriguing but misunderstood topic. He viewed an understanding of karma as good news, showing us that liberation is possible and that the future is never predetermined. His unique approach to presenting the Buddhist teachings lends itself to an insightful and profound view of karma, its cause and effects, and how to cut the root of karma itself.

I David R. Hawkins, M.D., Ph.D..2014-03-03 Experience spiritual enlightenment and personal transformation from world-renowned author, psychiatrist, clinician, spiritual teacher, and researcher of consciousness, David R. Hawkins, M.D., Ph.D. This book combines consciousness studies with transpersonal psychology, providing an accessible gateway into the deeper dimensions of self and reality. It concludes the presentation of a long-predicted major advance in critical human knowledge. It explains and describes the very substrate and essence of consciousness as it evolved from its primordial appearance as life on earth on up through evolution as the human ego, and hence, to the ego’s transcendence as the spiritual Reality of Enlightenment and the Presence of Divinity. It completes the description of the evolution of human consciousness from the level of approximately 800 to its peak experience at 1,000, which historically has been the ultimate possibility in the human domain. This is the realm of the mystic whose truth stems solely from the radical subjectivity of divine revelation. The text of the material is taken from lectures, dissertations, and dialogues with students, visitors, and spiritual aspirants from around the world who have different spiritual and religious backgrounds and varying levels of consciousness. On the referenced Scale of the Levels of consciousness, which calibrates the levels of Truth from 1 to 1,000, Power versus Force calibrates at 850, The Eye of the I at 980, and the final volume of the trilogy, I, calibrates at a conclusive 999.8. The uncommon clarity and lucidity with which the highly evolved subject matter is presented facilitates understanding. As with the reading of Power versus Force or The Eye of the I, the reader’s level of consciousness increases measurably as a consequence of exposure to this material itself, which is presented from a powerful field of exposition. Conflict is resolved within the mind of the student by means of recontextualization, which solves the dilemma. Argument and adversity are resolvable by identifying the positionalities of the ego which are the basis of human suffering. Some Chapters Include: The Process Spiritual Purification The ‘Ego’ and Society Spiritual Reality Realization The Realization of Divinity The Radical Reality of the Self The Mystic The Levels of Enlightenment The Nature of God The Obstacles Transcending the World The Emotions “Mind” Considerations Karma The Final Doorway The Transcendence The Inner Path “No Mind” The Way of the Heart The Recontextualization Spiritual Research Homo Spiritus This masterpiece is a revolutionary tool for personal transformation, blending quantum physics with spirituality, and a perfect read for anyone seeking enlightenment and a deeper understanding of the

universe.

SÁNate a Ti Mismo y Sana Tu Mundo Juan B. Prado Flores.2014-02 Partir de los conceptos ordinarios que se nos ofrecen acerca de la salud y la enfermedad puede ser inoperante, riesgoso y hasta contraproducente. Buena falta hacía una concepción de lo humano que estimara tanto su biología como su psicología, sus procesos emocionales, afectivos, espirituales y sociales no como un rompecabezas que unimos desde afuera sino como el todo orgánico desde, en y con el que vivimos la vida y todas nuestras relaciones. Este nuevo paradigma nos invita a experienciarnos desde dentro de nosotros mismos como la totalidad que somos y que tiene sus propios recursos para sostener la salud y propiciar la integración y el desarrollo. Este libro parte de los pasos ya inscritos en tu organismo que siempre van en esa dirección sin importar lo que los expertos hayan decidido al respecto y que generalmente incluye el decirte cómo debes vivir tu vida, como si ellos supieran más de ella que tú, que sabes mejor que nadie lo que es llevar tus asuntos delicados, difíciles e inconclusos y tratas de resolverlos. Es en tu propio experimentar que la Vida en ti y en nuestro planeta sigue su inmanente curso evolutivo. La invitación es a que con la compañía de este libro y con la del autor mismo, te regales el ingreso a este sendero en el cual -como todos cuantos lo practicamos- podrás tener acceso al proceso de plenitud que quizá ni siquiera habías soñado que existiera.

Gender Mosaic Daphna Joel, Luba Vikhanski. 2019-09-17 With profound implications for our most foundational assumptions about gender, Gender Mosaic explains why there is no such thing as a male or female brain. For generations, we've been taught that women and men differ in profound and important ways. Women are more sensitive and emotional, whereas men are more aggressive and sexual, because this or that region in the brains of women is smaller or larger than in men, or because they have more or less of this or that hormone. This story seems to provide us with a neat biological explanation for much of what we encounter in day-to-day life. But is it true? According to neuroscientist Daphna Joel, it's not. And in Gender Mosaic, she sets forth a bold and compelling argument that debunks the notion of female and male brains. Drawing on the latest scientific evidence, including the groundbreaking results of her own studies, Dr. Joel explains that every human brain is a unique mixture -- or mosaic -- of male and female features, and that these mosaics don't map neatly into two categories. With urgent practical implications for the way we understand ourselves and the world around us, Gender Mosaic is a fascinating look at the science of gender, sex and the brain, and at how freeing ourselves from the gender binary can help us all reach our full human potential.

The Perfect Way Osho. 2017-12-12 The book you hold in your hand or you are just ordering from an online store is a unique book. It is the first book by the contemporary mystic Osho. At the beginning of his public life, Osho who is at that time a professor of philosophy at Jabalpur University, introduces people to a new and unique understanding of meditation during experiential meditation camps. He speaks to the participants and responds to questions. This book is the first published records of Osho's first meditation camp in Rajasthan, India. In fifteen small chapters he gives a condensed presentation of his understanding of meditation which he then elaborates in many more talks and publications - but the essential message is already available in this book. Osho speaks to the individual, not to a collective, not the abstract collective of humanity, or a collective defined by religion or nationality or race but to individuals as the core element of existence. We used one of his opening comments as a longer quote on the front cover of the book as it seem so important The individual is the unit of the whole and it is through him that both evolution and revolution can take place. You are that unit. Osho, mentions this book on several occasions in his later talks. When the second prime minister of India traveled to Russia, a copy of *The Perfect Way* was with him. And when someone in contact with Osho at the age of ninety stumbled upon *The Perfect Way*, he commented, "All my learning of the scriptures was futile, only this small book is enough." In *The Perfect Way* the reader meets a human being who knows, but who also knows how to convey what he knows. His genius in full flight, he points us as far as one can with words toward the inner world of the self, toward the zone of silence. What starts on a hot summer day in the early 1960's will prove to be the first seed of a revolutionary experiment in the flowering of human consciousness - one which will eventually transform the lives of millions of people all over the world. "To be without thoughts is meditation," Osho says. "When there are no thoughts, it is then we come to know the one hidden by our thoughts. When there are no clouds, the blue sky is revealed." This book is page after page of blue sky.

The Eye of the I David R. Hawkins, M.D., Ph.D. 2016-03-15 This is the second volume of a trilogy that began with *Power vs. Force* and will be completed in the year 2002 by the publication of the third volume entitled *I: Reality and Subjectivity*. *The Eye of the I* (which calibrates at 950) is more advanced than *Power vs. Force* (which calibrates at 850) and brilliantly reveals the very core of the spiritual process critical to the state of Enlightenment. The intrinsic power of the information provided in this startling classic is sufficient of itself to elevate the consciousness of the reader. This likelihood has been anticipated and provided for by preparatory recontextualizations. Included are verbatim dialogues with advanced students, instructions, and explanations that illuminate the spiritual teachings. *The Eye of the I* is a brilliant work that dissolves the barriers between the known and the unknown, between science and spirituality, and between the Newtonian linear paradigm of the ego and the nonlinear reality of Enlightenment. With the resolution of the self, the Self shines forth and reveals one's true identity.
