Seeing Hitler's Germany K. Semmens.2005-03-23 Seeing Hitler's Germany is the first fully researched, wide-ranging study of commercial tourism under the swastika. The book demonstrates how effectively the Nazi regime coordinated all German tourism organizations. At the same time, it emphasizes the apparent 'normality' of many everyday tourist experiences after 1933. These certainly helped some Germans and many foreign visitors to overlook the regime's brutality. However, tourism also celebrated the most racist, chauvinist aspects of the 'new Germany', which in turn became a normal part of being a tourist under Hitler. While violence and terror have continued to dominate many recent studies of the Third Reich, this book takes a different view. By investigating a range of 'normal' experiences - such as taking a tour, visiting a popular sightseeing attraction, reading a guidebook or sending a postcard - Seeing Hitler's Germany deepens our understanding of the popular legitimization of Nazi rule.

Tourism Impacts, Planning and Management Peter Mason.2012-08-06 Tourism Impacts, Planning and Management is a unique text, which links these three key areas of tourism: impacts, planning and management. Tourism impacts are multi-faceted and therefore are difficult to plan for and manage. This book looks at all the key players involved - be they tourists, host communities or industry members - and considers a number of approaches and techniques for managing tourism successfully. Divided into four parts, this text discusses: * The growth, development and impacts of tourism * Tourism planning and management: concepts, issues and key players * Tools and techniques in tourism planning and management: education, regulation and information technology * The future of tourism planning and management: issues of sustainability and the future Up-to-date, international case studies are used, for example the impacts of 9/11 and terrorism in Bali, to illustrate and provide a real-life context for the theories discussed. Exercises are also included to consolidate learning.

Professional Hotel Management (P.B.) J M S Negi. This book, an essential text for hospitality management students, examines the relevance and applications of general management theory and principles to hospitality organizations. Using contemporary material and case studies, the book indicates ways in which performance may be improved through better use of human resources. Rigorous academic theory is related to hospitality practice, based on the authors' great knowledge of the hospitality industry. The text takes a vocational basis and the illustration of the theory with the real-life examples of hospitality management in action provides a solid and stimulating introduction to the subject.

Dictionary of Building and Civil Engineering Don Montague.2003-09-02 This dual-language dictionary lists over 20,000 specialist terms in both French and English, covering architecture, building, engineering and property terms. It meets the needs of all building professionals working on projects overseas. It has been comprehensively researched and compiled to provide an invaluable reference source in an increasingly European marketplace.

The Legal and Regulatory Framework for Environmental Impact Assessments Mohamed Abdelwahab Bekhechi,Jean-Roger Mercier.2002-01-01 An Environmental Impact Assessments (EIA) is a procedure for evaluating the impact of proposed activities on the environment. In modern Africa, EIAs are a growing reality and a matter of law in 22 sub-Saharan African countries. This volume examines various aspects of EIA legislation in these countries, including: definitions and prescribed activities; public participation and consultation; the review process and the quality of EIA reports; monitoring and enforcement; compatibility; and transboundary issues. It highlights the role and degree of public participation for the further development of EIA law and policy.

A Theory of Enclaves Evgeny Vinokurov.2007 Providing a fully fledged theory of enclaves and exclaves, this comprehensive book covers a wide span of almost 300 territories throughout the world. Rather than viewing each enclave as a unique case, or even as an anomaly, A Theory of Enclaves provides a systematic investigation of enclave-related political and economic issues.

Vygotskian Approaches to Second Language Research James P. Lantolf,Gabriela Appel.1994 In many ways, this edited volume can be read as a showcase for the state of affairs in SLA research. It exemplifies what makes current SLA work so energetic and vibrant, topically and methodologically innovative, insightful in its results, and intellectually and epistemologically expansive in its implications and significance beyond second language acquisition. - Applied Linguistics This text brings together the work of scholars attempting to extend Vygotsky's theory to second language research. The papers included, are organized according to three of the major topics of interest in Vygotskian research: zone of proximal development, inner and private speech, and activity theory. All of the papers report on the results of empirical research carried on in these three areas. Readers will recognize the potential sociocultural theory and research has for developing a fuller understanding of L2 learning and use.

Combating Tax Avoidance in the EU José Manuel Almudí Cid,Jorge Ferreras Gutierrez,Pablo A. Hernández González-Barreda.2018-12-20 Following each Member State's need to rebuild a strong and stable economy

after the 2007 financial crisis, the European Union (EU) has developed a robust new transparency framework with binding anti-abuse measures and stronger instruments to challenge external threats of base erosion. This is the first and only book to provide a complete detailed analysis of the Anti-Tax Avoidance Package and other recent and ongoing European actions taken in direct taxation. With contributions from both prominent tax academics and Spain's delegates to the European meetings where these rules are debated and promulgated, the book covers such issues and topics as the following: - the development of the EU Strategy towards Aggressive Tax Planning; - recent tax-related jurisprudence of the European Court of Justice; - the Anti-Tax Avoidance Directive; - tax treaties and non-tax treaties with tax consequences both between Member States and between Member States and third countries; - code of conduct for business taxation; - automatic exchange of information; - country-by-country reporting; - arbitration in tax matters; - external strategy for effective taxation regarding non-EU countries; - competition and state aid developments in direct taxation; - the Common Consolidated Tax Base; and - digital significant presence and permanent establishment. As the EU pursues its ambitious tax agenda, taxation's contribution to EU growth and competitiveness and its part in relations with the rest of the world will come into ever clearer focus. In addition to its insights into these trends, the book's unparalleled practical information and analysis will be of great value to tax practitioners dealing with investment analysis, tax planning schemes, and other features of the current international tax landscape.

Sustainable Directions in Tourism Tomás F. Espino-Rodríguez.2019-11-21 Within the framework of tourism companies and tourist destinations, the question of sustainability is gaining importance. Tourists are increasingly aware of the importance of sustainability criteria, awarding greater value to sustainable destinations. Sustainability refers to a wide range of aspects related to climate change, the economic organization of tourism, social values or questions, job creation, and the necessary protection of the culture of destinations and the environment. Therefore, there is a need for studies that consider these aspects in order to achieve the sustainable development of tourist destinations. Fundamental to this is discovering to what degree tourism companies and destinations approach these questions in the strategies they use to deal with problems stemming from their attempts to be more sustainable. Conceptual papers and empirical research on the economic, social, cultural, and environmental aspects related to tourism companies and destinations are welcome. Studies that analyze how these questions and the concept of sustainability are included in tourism companies and destinations are necessary in these modern times. This book was established for these reasons, dedicated to examining sustainability in tourism. The papers included in this Special Issue can help us to determine the new directions being addressed in the research on sustainability tourism.

Sacrifice Henri Hubert,Marcel Mauss.1981-12-15 Marcel Mauss was the nephew and most distinguished pupil of mile Durkheim, whose review L'Ann e sociologique he helped to found and edit. Henri Hubert was another member of the group of sociologists who developed under the influence of Durkheim. The present book is one of the best-known essays published in L'Ann e sociologique and has been regarded as a model for method and mode of interpretation. Its subject is at the very center of the comparative study of religion. The authors describe a basic sacrifice drawn from Indian sources and show what is fundamental and constant, comparing Indian and Hebrew practices in particular, then Greek and Roman, then additional practices from many eras and cultures.

Current Research in Bilingualism and Bilingual Education Piotr Romanowski,Małgorzata Jedynak.2018-07-24 This book covers research topics in bilingual education, language policies, language contact, identity of bilingual speakers, early bilingualism, heritage languages, and more, and provides an overview of current theory, research and practice in the field of bilingualism. Each chapter is written by a specialist in the field. Part I focuses on the numerous and heterogeneous relations between languages as well as the implications arising from bilingual speech processing. In Part II, a series of contextualized studies on bilingual classrooms are presented, with diverse research designs applied in different educational settings being a key feature of these studies. Part III bridges theory and practice by offering an insight into mono- and multilingual school settings showcasing examples of educational institutions where bilingualism successfully soared and depicts the needs related to language education.
