Liber Null & Psychonaut Peter J. Carroll.2022-06-01 "The most original and probably the most important writer on Magick since Aleister Crowley.—Robert Anton Wilson, author of the Prometheus Rising and other works Peter Carroll's classic work has been profound influence on the Western magical world and on the practice of chaos magick in particular. In *Liber Null and Psychonaut*, Carroll presents an approach to the practice of magic that draws on the foundations of shamanism and animism, as well as that found in the Greek magical papyri, the occult works of Eliphas Levi and Aleister Crowley, and the esoteric meditative practices of classical India and China. Also very much at work in the text are 20th century scientific ideas of quantum physics and chaos theory. The result is a profoundly original work of magical studies that also includes a selection of extremely powerful rituals and exercises for committed occultists with instructions that lead the reader through new concepts and practices to achieve Carroll's definition of magic itself: the raising of the whole individual in perfect balance to the power of infinity. This Weiser Classics edition is a thoroughly revised republication of *Liber Null and Psychonaut*, first published by Weiser in 1987, and includes a new foreword by Ronald Hutton, a leading authority on modern witchcraft and paganism.

The Ethnicity Reader Montserrat Guibernau,John Rex.1997-10-29 The Ethnicity Reader offers a comprehensive and challenging selection of readings for students of sociology, politics, international relations and race relations. It presents a highly accessible introduction to the study of ethnicity by providing an original approach to nationalism, multiculturalism and migration. The analysis of the ethnic component present in these three topics distinguishes this reader from others and makes it indispensable to those seeking to understand the relevance of ethnicity as one of the most prominent forces in the modern world. Drawing on a wide range of examples, the selections included examine theories of nationalism and consider issues of ethnic integration and conflict in the USA, Canada, Quebec, Scotland, Northern Ireland and Catalonia among other countries and regions. The reader, however, does not confine itself to the study of nationalism. Many of the selections deal with the role of ethnicity in groups which are not nationalist at all but for which ethnicity is an important factor in the process of migration. The concept of ethnicity is therefore discussed both in relation to group rights in existing nation states and in relation to transnational communities in a globalized world. Contributors include, Anthony D. Smith, John Rex, Eric Hobsbawm, James Clifford, Michael Keating, Franke Wilmer, Benedict Anderson, Will Kymlicka, Etienne Balibar and Michel Wieviorka.

Eager to put her skills to the test, she accepts. But once she begins, she realizes she needs to brush up her skills in one critical area: teamwork. Teamwork has always been a foreign word to Laila. As a magical genius with a rocky childhood, she's learned the only person she can rely on is herself. But that isn't how Biomystic Security operates. In order for her to be successful, she needs to

learn to trust those around her. Their client, Cyril Shanton, is relying on that teamwork. If everyone in the company isn't able to work together flawlessly, Biomystic Security will be remembered as the company that got one of the last remaining dragons killed. **This is a slow burn Urban Fantasy Reverse Harem**

The Tutankhamun Prophecies Maurice Cotterell.2001-10-01 Reveals the common origins of the ancient Egyptian and Mayan civilizations. • Shows how these cultures had the ability to gaze into the heavens to predict the future unfolding of humanity and their place within the cosmic order. • The author's revelations about the Freemasons' connection to this ancient knowledge generated a firestorm of controversy in Europe. • By the author of the bestseller *The Mayan Prophecies*. Maurice Cotterell's background as a scientist, mathematician, and engineer helped him to decipher the code of the ancient Maya, revealing the mystery of their science and religion to an extent never before possible. Using the same techniques, the author turns his attention here to deciphering the secrets encoded within the tomb of Tutankhamun. His extensive research revealed that both the ancient Egyptians and the Maya possessed a sophisticated understanding of sun spot activity and other astronomical phenomena--facts recently confirmed by modern science. Knowledge of the connections between solar patterns and human destiny allowed the Egyptians and Maya to harness the energy generated by the sun to achieve spiritual enlightenment and soul growth. The link between reincarnation and solar energy encoded in the tombs of Tutankhamun and the Mayan Lord Pacal is a jealously guarded secret held by a select number of occult groups, including the higher orders of Freemasonry. The author unleashed a firestorm of controversy in Europe when he exposed much of the esoteric knowledge of the Freemasons, including one of the society's most carefully concealed secrets: incarnate gods like Lord Pacal and Tutankhamun have come to earth to help humans achieve spiritual enlightenment, soul growth, and individual realization as solar beings.

Notions and Potions Susan Bowes.1997 Yes-again Anna! Here's another in the ongoing series of children's books-illustrated and designed by one of the world's top cut-paper artist-about this irrepressible little girl. Silly Anna! She's always creating some form of mischief, even when she's trying to do the right thing. With half-page gatefolds on every spread, watch Anna as she gets herself and her favorite stuffed bunny a little messy...and a lot wet! Out in the garden with Mommy, Anna wants a cookie. She grabs for it and stamps her feet and begs. No luck! What should she do to get one? Open the flap: Anna says please, and receives a nice, big, chocolate chip cookie. Now Bunny wants one too. What a mess--and it's up to Anna to clean

him up. Kids will rush to turn the pages of this mixture of picture and novelty book, and see how Anna tries to wipe Bunny's face (very messy now!), wash him down (everybody's soaking!), and hug him better. An especially large and happy extended gatefold ends the book as Anna and her bunny dance in the bright sunshine. 24 pages (all in color), 8 1/4 x 9.

Three Decades of Palestine Arthur Ruppin.1975 Beginning in 1907, Ruppin, a German-born lawyer, worked for the Zionist Organization, and in this collection of memoranda, addresses, financial reports, and technical recommendations, he traces conditions in Palestine from 1907 to 1935.

Yellow Roses Elizabeth Cullinan.2024-03-05 A captivating collection unveiling the intricacies of love, life, and legacy These twelve stories, told from the viewpoint of young women in life's mid-passage, explore the splendors and miseries of love, both carnal and spiritual, and cast back through sickness and health to the engraving experiences of childhood and forward to the rituals and release of death and its occasion for recall. They tell us of a dutiful but not guiltless daughter faced with the wreckage a father has made of his life, of the pain of trying to steer steadily through a doomed affair with a dearly loved married man, and of the ironies attending the funeral of a priest uncle and the birthday of an aged mother. From the outwardly unremarkable frame of a single day—on Fire Island or in New York—an entire life and an encompassment of humanity are movingly conveyed. Then, with inverted telescope, the most subjective of inner realms is explored—through a hospital stay, a sudden name change, or the surprising end of all those dreaded piano lessons. Taken together, these stories are a far greater whole than the sum of their remarkable parts, an unforgettable exploration of the paradoxical toughness and vulnerability that define the mortal condition.

The Forbidden Books of the New Testament Archbishop Wake.2016-12-08 Archbishop William Wake's translations of texts excluded or analogous with the Biblical New Testament remains an authoritative, well-regarded and wide-ranging source for scholars and enthusiasts of ancient Christendom. In this collection are books which detail the life of Mary the mother of Jesus Christ, and the miracles performed by the infant Christ. A further book details the childhood of Jesus, together with his later interactions with various individuals important or incidental to the New Testament narrative. Later in the text we encounter the various epistles such as the Magnesians, Romans, Trallians and Philadelphians. Some of these writings appear to be intended as a supplement to the existing books of the New Testament, rather than as entirely distinct books in themselves. Not all of the books contain anecdotes or conversations between the major figures of the New Testament. Many are more concerned with discussing various aspects of Christian virtue and practice such as how one may conduct a good fast, avoid slipping into deceit, and retain a strong belief in the one, true God. As such, we can consider many of these texts as wholesome instruction on matters of observance. When he first translated the apocryphal texts of the Bible in the late 17th and early 18th centuries, Archbishop William Wake was a revered figure in the Church of England. He held an intense personal interest in the ancient texts, and worked tirelessly to collate and translate them into English for the consideration of Christian audiences. Although these books are not considered canon, many date from ancient times and were under consideration for inclusion in the New Testament. In the centuries since Wake uncovered these texts, it is without doubt that substantially more on the subject has been discovered by various archaeologists, historians, researchers and Biblical scholars. However, as a single source of Biblical apocrypha, Wake's collection remains the most complete. This edition of the Forbidden Books unites all of the 17th and 18th century texts, supplementing them with an explanatory preface and referential notes appended at the conclusion of each book. The chapters and verses are set out with the greatest clarity, allowing the reader ease

of reading and comprehension.

The Exiles of Erin Charles Fanning.1997-04-28 Of immense value to anyone interested in the Irish story in America.--The Boston Globe. This collection of three generations of Irish immigrant fiction excerpted from novels, magazines, and newspapers provides new insight into the nineteenth-century immigrant experience. It captures the spirit of those who were experiencing the traumas of adjustment and assimilation. The men and women authors of these pieces vividly render the details of immigrant life in a variety of settings, from Virginia and Nebraska to San Francisco, Chicago, New York City, Philadelphia, and Boston, from 1820 to 1906. Fanning places each selection in its historical and cultural context by means of introductory notes. Together, they provide the most extended, continuous body of literature available to us by members of a single American ethnic group. This new edition provides some additional selections as well as new background material. Charles Fanning is Professor of English at Southern Illinois University, Carbondale

Magia Naturalis Et Innaturalis Johannes Faust.2019-07-17 The *Magia Naturalis et Innaturalis* was a popular grimoire in 18th Century Germany centering around the legend of Doctor Faust, to whom it was pseudo-epigraphically attributed. It contains a great array of magical practices centering around his mythical exploits aided by the spirit Mephistopheles. It remains relevant today as the foremost exemplar stemming from the Faustian Magical Literature and will prove indispensable for the scholars of Western Esotericism for its great array of magical practices dealing with topics like demonology, necromancy, the *Liber Spirituum* and divination as well as to the students of Goethe's sources for his magnum opus Faust. This critical edition, amply researched, provides historical and literary context through its introduction and commentary to students and scholars of magic and Faustian literature.
