Detroit David Lee Poremba.1999-08-09 As the roaring twenties came to an end and a new decade dawned, the United States found itself locked in the grips of the Great Depression. The City of Detroit was no exception as industry laid off workers and bread lines formed across the city. Detroit Mayor Frank Murphy let the country in supporting state and federal welfare programs to help people through the economic crisis. By the middle of the 1930s, Detroit began picking itself up out

of the economic mud and was soon flexing its industrial muscle as manufacturing, led by the auto industry, put the Motor City back into shape. As the decade ended and war approached, the city was ready to take its place on the world stage. The country reeled from the shock of the attack on Pearl Harbor and had to shift its industrial might from civilian use to the war effort. Nowhere was that more evident than in Detroit. Its huge manufacturing capabilities, when turned to the making of the implements of war, earned the city a new nickname. The Motor City became to the Arsenal of Democracy and began to evolve once more. The influx of workers from the Deep South to the war industry added yet another facet to the city's society and culture. As the Second World War came to a close and production re-tooled for the return to civilian life, an economic boom swept through Detroit. The city celebrated its 250th birthday in 1951, prompting an outpouring of funds to build with. Major additions were made to the Art Institute, the Detroit Historical Museum, and the riverfront.

Detroit's Corktown Armando Delicato, Julie Demery, Workman's Rowhouse Museum. 2007-10-22 Detroit's Corktown celebrates the history of Detroit's oldest neighborhood. From Irish immigrants in the 1840s to urban pioneers of the 21st century, this community has beckoned to the restless of spirit, the adventurous, and those who have sought to escape poverty and oppression to make a new life in America. While the city of Detroit has undergone tremendous change over the years,

Corktown has never forgotten the solid working-class roots established by brave pioneers in the mid-19th century. Many of their shotgun homes are still occupied, and many commercial buildings have served the community for decades. Today the neighborhood is the scene of increasing residential and commercial development and has attracted attention throughout the region. No longer exclusively Irish, the community has also been important historically to the large German, Maltese, and Mexican populations of Detroit. Today it is a diverse and proud community of African Americans, Hispanics, working-class people of various national origins, and a growing population of young urban pioneers. It is still the sentimental heart of the Irish American community of metropolitan Detroit, and the Irish Plaza on Sixth Street honors the city's Irish pioneers and their 600,000 descendants living in the region.

Grand River Avenue Jon Milan and Gail Offen.2014 Grand River Avenue details the history of this historical Michigan roadway, which has served as a footpath, wagon rut, and ultimately a two-lane highway. Grand River Avenue, or Michigan US-16 as it was ultimately designated, is one of Michigan's true Blue Highways--an original two-lane, blacktop road still serving as a direct path through roadside America. Originally a Native American trail, this ancient path has been a westbound route from the Straits of Detroit to the eastern shores of Lake Michigan for more than 1,000 years. Over time, it has served as a footpath, horse trail, wagon rut, stagecoach route, plank road, and ultimately a two-lane highway that gave some of America's earliest motorists their first taste of long-distance automobile travel.

Art Deco in Detroit Rebecca Binno Savage, Greg Kowalski. 2004 Since the 1920s, Art Deco, or The Modern Style, has delighted people with its innovative use of materials and designs that capture the spirit of optimism to create the style of the future. Although the Detroit metro area is primarily known as an industrial region, it boasts some of the finest examples of Art Deco in the country. Forgotten Detroit Paul Vachon.2009 Detroiters know their history well. Founded in 1701 by Antoine de la Mothe Cadillac, the city subsisted on a variety of industries: fur trading, stove building, and, of course, the automobile. Names such as Henry Ford and Charles Lindbergh resonate in Detroiters' common memory. Detroit's meteoric rise during the 20th century established the city as an influential leader in commerce, culture, and religion. This growth spawned the development of numerous businesses, organizations, and institutions, many now forgotten. Albert Kahn left his indelible mark. Mary Chase Stratton created a new art form. And Henry Ford II changed the course of his family legacy. *Forgotten Detroit* delves into the wellspring of history to retell some of these lesser-known stories within Detroit's rich heritage.

Detroit, 1930-1969 David Lee Poremba.1999 Presents a pictorial history of the city during the Great Depression, the World War II era, and the post-war boom period when it became the American capital of automobile manufacturing in the 1950s.

Asian Americans in Michigan Sook Wilkinson.2015-04-01 While the number of Asians in Michigan was small for a good portion of the state's history, many Asian-derived communities have settled in the area and grown significantly over time. In *Asian Americans in Michigan: Voices from the Midwest*, editors Sook Wilkinson and Victor Jew have assembled forty-one contributors to give an intimate glimpse into Michigan's Asian-American communities, creating a fuller picture of these often overlooked groups. Accounts in the collection come from a range of perspectives, including first-generation immigrants, those born in the United States, and third- and fourth-generation

Americans of Asian heritage. In five sections, contributors consider the historical and demographic origins of Michigan's Asian American communities, explore their experiences in memory and legacy keeping, highlight particular aspects of community culture and heritage, and comment on prospects and hopes for the future. This volume's vibrant mix of contributors trace their ancestries back to East Asia (China, Japan, Korea, Taiwan), South Asia (Bangladesh, India, Pakistan), and Southeast Asia (Cambodia, Laos, Philippines, Thailand, Vietnam, and the Hmong). Though each contributor writes from his or her unique set of experiences, *Asian Americans in Michigan* also reveals universal values and memories held by larger communities. *Asian Americans in Michigan* makes clear the significant contributions by individuals in many fields—including art, business, education, religion, sports, medicine, and politics—and demonstrates the central role of community organizations in bringing ethnic groups together and preserving memories. Readers interested in Michigan history, sociology, and Asian American studies will enjoy this volume.

Main Street, U.S.A., in Early Photographs Cynthia Read-Miller. 1988 Over 100 vintage photos of busy American commercial districts (ca. 1890-1915) -- from Albuquerque and El Paso to Little Rock and Baltimore. Published in association with Henry Ford Museum and Greenfield Village.

Detroit 1968 .2013 This is an extraordinary body of photographic work that was originally published in 1972 under the title *New American People*. As the fall of Detroit began, as her middle class American Dreamers began moving to greener pastures, and while the Motor City's status as one of the shining stars of the industrial revolution began to fade, Detroit became a locus for the racial conflict and political upheaval that swept the country during the late 1960s. Throughout this pivotal moment, Enrico Natali was present, empathically documenting Detroit, her people and their environments, and their lives and conditions in his compelling photographs. 41 later, Natali's

photographs of Detroit still resonate with hope and emotion, and indeed, have taken on an added pathos. These pictures capture the relative calm before the storm: people attending art exhibitions, sporting events, a high school prom; families posing together for portraits; secretaries smoking their afternoon cigarettes; children, parents and grandparents, workers of every stripe, machinists, waitresses, beauticians, plying their trades with what might be described in retrospect as innocence. The spirits of these nameless faces, young and old, are the ghosts that haunt what is now this bankrupt metropolis.

Detroit's Paradise Valley Ernest Borden.2003-07 One of the most prominent and dynamic African-American neighborhoods in U.S. history, Paradise Valley served as a social and cultural mecca for Detroit's black community from the 1920s through the 1950s. Now the site of stadiums and freeways, the area was once home to places like the Gotham Hotel and the Surf Club, and welcomed the likes of Billie Holiday, Joe Louis, and Sammy Davis Jr. This book uses more than 200 previously unpublished photographs to take readers on a rare tour of the entertainers, entrepreneurs, businesses, and events that made the now-lost Paradise Valley legendary.

On This Day in Detroit History Bill Loomis.2016-01-11 One day at a time, discover colorful Motor City moments in history spanning more than three centuries. On November 5, 1851, Voice of the Fugitive published a letter in support of escaped slaves. On July 3, 1904, Monk Parry became the first monkey to drive a car, and on January 16, 1919, the Statler Hotel menu offered whale meat for dinner. The legendary Steve Yzerman was named captain of the Red Wings on October 7, 1986. Local historian Bill Loomis covers the big events and remarkable stories of life and culture from Detroit's founding to its recent struggles and rebirth.

Detroit Richard Bak.1998-10-07 Postcard photographers traveled the length and breadth of the

nation snapping photographs of busy street scenes, documenting local landmarks, and assembling crowds of neighborhood children only too happy to pose for a picture. These images, printed as postcards and sold in general stores across the country, survive as telling reminders of an important era in America's history.

Works Progress Administration in Detroit Elizabeth Clemens.2008-03 In the midst of the Depression, a government agency was created that changed the lives of thousands of Americans. The Works Progress Administration (WPA) was more than a program that put the unemployed to work, it was a revolutionary concept that sought to improve the lives of Americans through the physical improvement of their surroundings and the physical and intellectual improvement of themselves. For the people of Detroit, the WPA built schools and libraries, provided clothing and shelter, and enriched their lives through literacy, health, and educational programs. It brought art, theater, and music to the masses through groundbreaking cultural programs and created the infrastructure necessary to allow Detroit to blossom into the Arsenal of Democracy and one of America's greatest cities.

Remembering Hudson's Michael Hauser, Marianne Weldon.2010-12-06 The J. L. Hudson Company redefined the way Detroiters shopped and enjoyed leisure time. Many Detroiters share memories of times spent shopping and enjoying spectacular events sponsored by Hudson's. A solid and lofty icon built by businesspeople who believed in their passion, Hudson's defined Detroit's downtown, creating trends and traditions in consumer culture that still resonate with us today. Now and in the future, as Hudson's boxes, shopping bags, and artifacts are discovered in closets, attics, basements, and flea markets, many will remember that it was once as solid a civic fixture as the City-County Building or the Detroit Public Library.

Detroit's Grand River & Greenfield Neighborhood Joseph McCauley. 2018 Grand River Avenue and Greenfield Road marked the center of a community bustling with retail, recreation, faith, and civic pride during the 1950s. Once a rural farming village, the neighborhood gained popularity following the World War II housing boom. New schools were built, local businesses filled storefronts, and the area prospered for 20-plus years until suburban life, facilitated by new superhighways, beckoned white, middle-class residents and business owners to abandon life in the city. Like a microcosm of Detroit, the neighborhood echoed the trend commonly called white flight. Today, strip malls have replaced national retailers and once well-manicured homes are in disrepair; however, another wave of dramatic change is promised as the city targets the area for urban renewal.--Back cover.

All Our Yesterdays Frank B. Woodford, Arthur M. Woodford. 2017-12-01 All Our Yesterdays is an accurate account based on extensive historical research when initially published in 1969, and is written in such a style as to make interesting and historical snapshot of the history of the city of Detroit. The authors recount the founding of the town by the French, control by the British, and growth as an American city. These episodes are recounted in the words and deeds of the people who lived and worked here, men like Judge Woodward, Father Gabriel Richard, and Governor Lewis Cass. The reader meets, among others, old General Hull surrendering the city to the British General Brock, dread cholera epidemics killing hundreds of residents, a man named Vernor making up a batch of excellent ginger ale to sell in his drug store, and Charles King building and driving the city's first motor car. Here are also accounts of the expansion of the automobile industry, the days of the Roaring Twenties, Prohibition, Great Depression, World Wars I and II, and the city of the 1950s and 1960s. This is the story of a great city; a story of past deeds, present problems, and future hopes. But more important, this is a story by and about the people of Detroit, for it is the people that have

made this city great.
