Forgotten Connections Klaus Mollenhauer.2013-10-30 Klaus Mollenhauer's *Forgotten Connections: On Culture and Upbringing* is internationally regarded as one of the most important German contributions to educational and curriculum theory in the 20th century. Appearing here in English for the first time, the book draws on Mollenhauer's concern for social justice and his profound awareness of the pedagogical tension between the inheritance of the past and the promise of the future. The book focuses on the idea of *Bildung*, in which philosophy and education come together to see upbringing and maturation as being much more about holistic experience than skill development. This translation includes a detailed introduction from Norm Friesen, the book's translator and editor. This introduction contextualizes the original publication and discusses its application to education today. Although Mollenhauer's work focused on content and culture, particularly from a German perspective, this book draws on philosophy and sociology to offer internationally relevant responses to the challenge of communicating cultural values and understandings to new generations. *Forgotten Connections* will be of value to students, researchers and practitioners working in the fields of education and culture, curriculum studies, and in educational and social foundations.

**Brave Girl** Michelle Markel.2013-01-22 The true story of the young immigrant who led the largest strike of women workers in U.S. history. This picture book biography about Ukrainian immigrant Clara Lemlich tackles topics like activism and the U.S. garment industry. The art, by Caldecott Honor winner Melissa Sweet, beautifully incorporates stitching and fabric. A bibliography and an author's note on the garment industry are included. When Clara arrived in America, she couldn't speak English. She didn't know that young women had to go to work, that they traded an education for long hours of labor, that she was expected to grow up fast. But that didn't stop Clara. She went to night school, spent hours studying English, and helped support her family by sewing in a shirtwaist factory. Clara never quit, and she never accepted that girls should be treated poorly and paid little. Fed up with the mistreatment of her fellow laborers, Clara led the largest walkout of women workers the country had seen. From her short time in America, Clara learned that everyone deserved a fair chance. That you had to stand together and fight for what you wanted. And, most importantly, that you could do anything you put your mind to. This picture book biography about the plight of immigrants in America in the early 1900s and the timeless fight for equality and justice should not be missed.

*A Splash of Red: The Life and Art of Horace Pippin* Jen Bryant.2013-01-08 A Robert F. Sibert Honor Book Winner of the Schneider Family Book Award An ALA-ALSC Notable Children's Book Winner of the NCTE Orbis Pictus Award for Outstanding Nonfiction for Children As a child in the late 1800s, Horace Pippin loved to draw: He loved the feel of the charcoal as it slid across the floor. He loved looking at something in the room and making it come alive again in front of him. He drew pictures for his sisters, his classmates, his co-workers. Even during W.W.I, Horace filled his notebooks with drawings from the trenches . . . until he was shot. Upon his return home, Horace couldn't lift his right arm, and couldn't make any art. Slowly, with lots of practice, he regained use of his arm, until once again, he was able to paint--and paint, and paint! Soon, people—including the famous painter N. C. Wyeth—started noticing Horace's art, and before long, his paintings were displayed in galleries and museums across the country. Jen Bryant and Melissa Sweet team up once again to share this inspiring story of a self-taught painter from humble beginnings who despite many obstacles, was ultimately able to do what he loved, and be recognized for who he was: an artist.

problems look small enough to stomp on. But, worries a plain brown hen, can it make a quiet rooster sing? Can it save her best friend from becoming Quiet Rooster Stew? Will Joe Beebee even play for chickens? With art as fun as waltzing on the moon and with words as lively as a fiddle, this book captures the power of music to heal and of friendship to endure.

Mrs. Harkness and the Panda Alicia Potter.2012-03-13 In 1934, Ruth Harkness had never seen a panda bear. Not many people in the world had. But soon the young Mrs. Harkness would inherit an expedition from her explorer husband: the hunt for a panda. She knew that bringing back a panda would be hard. Impossible, even. But she intended to try. So she went to China, where she found a guide, built traps, gathered supplies, and had explorers' clothes made—unheard of for a woman in those days. Then she set out up the Yangtze River and into the wilderness. What she discovered would awe America: an adorable baby panda she named Su Lin, which means a little bit of something very cute. With breathtaking illustrations from Caldecott Honor artist Melissa Sweet, this little-known true story shares the tale of an adventurous woman who was bold and brave—and the unforgettable journey that helped shape American attitudes toward wildlife.

**Neighborhood Sharks** Katherine Roy.2014-09-30 Up close with the ocean's most fearsome and famous predator and the scientists who study them—just twenty-six miles from the Golden Gate Bridge! A few miles from San Francisco lives a population of the ocean's largest and most famous predators. Each fall, while the city's inhabitants dine on steaks, salads, and sandwiches, the great white sharks return to California's Farallon Islands to dine on their favorite meal: the seals that live on the island's rocky coasts. Massive, fast, and perfectly adapted to hunting after 11 million years of evolution, the great whites are among the planet's most fearsome, fascinating, and least understood animals. In the fall of 2012, Katherine Roy visited the Farallons with the scientists who study the islands' shark population. She witnessed seal attacks, observed sharks being tagged in the wild, and got an up close look at the dramatic Farallons—a wildlife refuge that is strictly off-limits to all but the scientists who work there. *Neighborhood Sharks* is an intimate portrait of the life cycle, biology, and habitat of the great white shark, based on the latest research and an up-close visit with these amazing animals.

**Six Dots: A Story of Young Louis Braille** Jen Bryant.2016-09-06 An inspiring picture-book biography of Louis Braille—a blind boy so determined to read that he invented his own alphabet. **\*\*Winner of a Schneider Family Book Award!\*\*** Louis Braille was just five years old when he lost his sight. He was a clever boy, determined to live like everyone else, and what he wanted more than anything was to be able to read. Even at the school for the blind in Paris, there were no books for him. And so he invented his own alphabet—a whole new system for writing that could be read by touch. A system so ingenious that it is still used by the blind community today. Award-winning writer Jen Bryant tells Braille's inspiring story with a lively and accessible text, filled with the sounds, the smells, and the touch of Louis's world. Boris Kulikov's inspired paintings help readers to understand what Louis lost, and what he was determined to gain back through books. An author's note and additional resources at the end of the book complement the simple story and offer more information for parents and teachers. Praise for *Six Dots*: An inspiring look at a child inventor whose drive and intelligence changed to world—for the blind and sighted alike.—Kirkus Reviews Even in a crowded field, Bryant's tightly focused work, cast in the fictionalized voice of Braille himself, is particularly distinguished.—Bulletin, starred review This picture book biography strikes a perfect balance between the seriousness of Braille's life and the exuberance he projected out into the world. — School Library Journal, starred review
