**Politics, Poetics, and Gender in Late Qing China** Nanxiu Qian.2015-05-06 In 1898, Qing dynasty emperor Guangxu ordered a series of reforms to correct the political, economic, cultural, and educational weaknesses exposed by China's defeat by Japan in the First Sino-Japanese War. The Hundred Day's Reform has received a great deal of attention from historians who have focused on the well-known male historical actors, but until now the Qing women reformers have received almost no consideration. In this book, historian Nanxiu Qian reveals the contributions of the active, optimistic, and self-sufficient women reformers of the late Qing Dynasty. Qian examines the late Qing reforms from the perspective of Xue Shaohui, a leading woman writer who openly argued against male reformers' approach that subordinated women's issues to larger national concerns, instead prioritizing women's self-improvement over national empowerment. Drawing upon intellectual and spiritual resources from the freewheeling, xianyuan (worthy ladies) model of the Wei-Jin period of Chinese history (220–420) and the culture of women writers of late imperial China, and open to Western ideas and knowledge, Xue and the reform-minded members of her social and intellectual networks went beyond the inherited Confucian pattern in their quest for an ideal womanhood and an ideal social order. Demanding equal political and educational rights with men, women reformers challenged leading male reformers' purpose of achieving national wealth and power, intending instead to unite women of all nations in an effort to create a just and harmonious new world.

**Polyandry and Wife-Selling in Qing Dynasty China** Matthew H. Sommer.2015-09-15 This book is a study of polyandry, wife-selling, and a variety of related practices in China during the Qing dynasty (1644-1912). By analyzing over 1200 legal cases from local and central court archives, Matthew Sommer explores the functions played by marriage, sex, and reproduction in the survival strategies of the rural poor under conditions of overpopulation, worsening sex ratios, and shrinking farm sizes. Polyandry and wife-selling represented opposite ends of a spectrum of strategies. At one end, polyandry was a means to keep the family together by expanding it. A woman would bring in a second husband in exchange for his help supporting her family. In contrast, wife sale was a means to survive by breaking up a family: a husband would secure an emergency infusion of cash while his wife would escape poverty and secure a fresh start with another man. Even though Qing law prohibited both practices under the rubric illicit sexual relations, Sommer shows how magistrates charged with propagating and enforcing a fundamentalist Confucian vision of female chastity tried to cope with their social reality in the face of daunting poverty. This contradiction illuminates both the pragmatism of routine adjudication and the increasingly dysfunctional nature of the dynastic state in the face of mounting social crisis. By casting a spotlight on the rural poor and the experiences of both men and women, Sommer provides an alternative to the standard paradigms of women's history that have long dominated scholarship on gender and sexuality in late imperial China.

**Biographical Dictionary of Chinese Women** Lily Lee.1999 This new volume of the Biographical Dictionary of Chinese Women spans more than 2,000 years from antiquity to the early seventh century. It recovers the stories of more than 200 women, nearly all of them unknown in the West. The contributors have sifted carefully through the available sources, from the oracle bones to the earliest legends, from Liu Xiang's didactic Biographies to official and unofficial histories, for glimpses and insights into the lives of women.

**Fiction's Family** Ellen Widmer.2020-10-26 At the end of the Qing dynasty, works of fiction by male authors placed women in new roles. Fiction's Family delves into the writings of one literary family from western Zhejiang whose works were emblematic of shifting attitudes toward women. The mother, Wang Qingdi, and the father, Zhan Sizeng, published their poems during the second half of the nineteenth century. Two of their four sons, Zhan Xi and Zhan Kai, wrote novels that promoted reforms in women's lives. This book explores the intergenerational link, as well as relations between the sons, to find out how the conflicts faced by the parents may have been refigured in the novels of their sons. Its central question is about the brothers' reformist attitudes. Were they based on the pronouncements of political leaders? Were they the result of trends in Shanghai publishing? Or did they derive from Wang Qingdi's disappointment in her "companionate marriage," as manifested in her poems? By placing one family at the center of this study, Ellen Widmer illuminates the diachronic bridge between the late Qing and the period just before it, the synchronic interplay of genres during the brothers' lifetimes, and the interaction of Shanghai publishing with regions outside Shanghai.

**Precious Records** Susan Mann.1997 Most analyses of gender in High Qing times have focused on literature and on the writings of the elite; this

book broadens the scope of inquiry to include women's work in the farm household, courtesan entertainment, and women's participation in ritual observances and religion. In dealing with literature, it shows how women's poetry can serve the historian as well as the literary critic, drawing on one of the first anthologies of women's writing compiled by a woman to examine not only literary sensibilities and intimate emotions, but also political judgments, moral values, and social relations.

**Heroines of the Qing** Binbin Yang.2016-04-18 Heroines of the Qing introduces an array of Chinese women from the eighteenth and nineteenth centuries who were powerful, active subjects of their own lives and who wrote themselves as the heroines of their exemplary stories. Traditionally, "exemplary women" (lienu)—heroic martyrs, chaste widows, and faithful maidens, for example—were written into official dynastic histories for their unrelenting adherence to female virtue by Confucian family standards. However, despite the rich writing traditions about these women, their lives were often distorted by moral and cultural agendas. Binbin Yang, drawing on interdisciplinary sources, shows how they were able to cross boundaries that were typically closed to women—boundaries not only of gender, but also of knowledge, economic power, political engagement, and ritual and cultural authority. Yang closely examines the rhetorical strategies these "exemplary women" exploited for self-representation in various writing genres and highlights their skillful negotiation with, and appropriation of, the values of female exemplarity for self-empowerment.

*Korean Buddhist Nuns and Laywomen* Eun-su Cho.2012-01-02 Explores the roles of Korean Buddhist nuns and laywomen from the Koryo period to the present. Uncovering hidden histories, this book focuses on Korean Buddhist nuns and laywomen from the fourth century to the present. Today, South Korea's Buddhist nuns have a thriving monastic community under their own control, and they are well known as meditation teachers and social service providers. However, little is known of the women who preceded them. Using primary sources to reveal that which has been lost, forgotten, or willfully ignored, this work reveals various figures, milieux, and activities of female adherents, clerical and lay. Contributors consider examples from the early days of Buddhism in Korea during the Three Kingdoms and Unified Silla periods (first millennium CE); the Koryŏ period (982–1392), when Buddhism flourished as the state religion; the Chosŏn period (1392–1910), when Buddhism was actively suppressed by the Neo-Confucian Court; and the contemporary resurgence of female monasticism that began in the latter part of the twentieth century. Eun-su Cho is Professor of Philosophy at Seoul National University of Korea.

**Love and Women in Early Chinese Fiction** Daniel Hsieh.2009-03-02 In traditional China, upper-class literati were inevitably strongly influenced by Confucian doctrine and rarely touched upon such topics as love and women in their writings. It was not until the mid-Tang, a generation or two after the An Lushan rebellion, that literary circles began to engage in overt discussion of the issues of love and women, through the use of the newly emerging genres of zhiguai and chuanqi fiction. The debate was carried out with an unprecedented enthusiasm, since the topics were considered to be the key to understanding the crisis in Chinese civilization. This book examines the repertoire of chuanqi and zhiguai written during the Six Dynasties and Tang periods and analyzes the key themes, topics, and approaches found in these tales, which range from expressions of male fantasy, sympathy, fear, and anxiety, to philosophical debate on the place of the feminine in patriarchal Chinese society. Many of these stories reflect tensions between masculine and feminine aspects of civilization as seen, for example, in the conflict of male aspiration and female desire, as well as the ultimate longing for reconciliation of these divisions. These stories form a crucial chapter in the history of love in China and would provide much of the foundation for further explorations during the late imperial period, as seen in seminal works such as *The Peony Pavilion* and *Dream of the Red Chamber*.

Exemplary Women of Early China Anne Behnke Kinney.2014-02-18 When should a woman disobey her father, contradict her husband, or shape the policy of a ruler? According to the Lienü zhuan, or Categorized Biographies of Women, it is not only appropriate but necessary for women to offer counsel when fathers, husbands, sons, and rulers stray from virtue. The earliest Chinese text devoted to the moral education of women, the Lienü zhuan was compiled by Liu Xiang (79–8 B.C.E.) at the end of the Han dynasty (202 B.C.E.–9 C.E.) and recounts the deeds of both virtuous and wicked women. Informed by early legends, fictionalized historical accounts, and formal speeches on statecraft, the text taught generations of Chinese women to cultivate filial piety and maternal kindness and undertake such practices as suicide and self-mutilation to preserve chastity and reform wayward men. The Lienü zhuan's stories inspired artists for a millennium and found their way into local and dynastic histories. An innovative work for its time, the text remains a critical tool for mapping women's social, political, and domestic roles at a formative time in China's development.

**Desire and Fictional Narrative in Late Imperial China** Martin W. Huang.2020-03-23 In this new study of desire in Late Imperial China, Martin Huang argues that the development of traditional Chinese fiction as a narrative genre was closely related to changes in conceptions of the fundamental nature of desire. He further suggests that the rise of vernacular fiction during the late Ming dynasty should be studied in the context of contemporary debates on desire, along with the new and complex views that emerged from those debates. *Desire and Fictional Narrative in Late Imperial China* shows that the obsession of authors with individual desire is an essential quality that defines traditional Chinese fiction as a narrative genre. Thus the maturation of the genre can best be appreciated in terms of its increasingly sophisticated exploration of the phenomenon of desire.
