**Sal** Mick Kitson.2018-03-01 'Just \*wonderful\*. A breath of fresh air in a book. Sal is a story with incredible heart, told so beautifully and with such clarity and grace I can hardly believe it's a debut! I loved it' JOANNA CANNON, author of THE TROUBLE WITH GOATS AND SHEEP AN OBSERVER 'NEW FACE OF FICTION 2018' This is a story of something like survival. Sal planned it for almost a year before they ran. She nicked an Ordnance Survey map from the school library. She bought a compass, a Bear Grylls knife, waterproofs and a first aid kit from Amazon using stolen credit cards. She read the SAS Survival Handbook and watched loads of YouTube videos. And now Sal knows a lot of stuff. Like how to build a shelter and start a fire. How to estimate distances, snare rabbits and shoot an airgun. And how to protect her sister, Peppa. Because Peppa is ten, which is how old Sal was when Robert started on her. Told in Sal's distinctive voice, and filled with the silent, dizzying beauty of rural Scotland, Sal is a disturbing, uplifting story of survival, of the kindness of strangers, and the irrepressible power of sisterly love; a love that can lead us to do extraordinary and unimaginable things.

*ICT and Changing Mindsets in Education* Kathryn Toure,Thérèse Mungah Tchombé,Thierry Karsenti.2008 The debate is no longer whether to use information and communication technologies (ICT) in education in Africa but how to do so, and how to ensure equitable access for teachers and learners, whether in urban or rural settings. This is a book about how Africans adopt and adapt ICT. It is also about how ICT shape African schools and classrooms. Why do we use ICT, or not? Do girls and boys use them in the same ways? How are teachers and students in primary and secondary schools in Africa using ICT in teaching and learning? How does the process transform relations among learners, educators and knowledge construction? This collection by 19 researchers from Africa, Europe, and North America, explores these questions from a pedagogical perspective and specific socio-cultural contexts. Many of the contributors draw on learning theory and survey data from 36 schools, 66000 students and 3000 teachers. The book is rich in empirical detail on the perceived importance and appropriation of ICT in the development of education in Africa. It critically examines the potential for creative use of ICT to question habits, change mindsets, and deepen practice. The contributions are in both English and French.

**Believe in Yourself** Dr. Joseph Murphy.2021-09-04 Dr. Joseph Murphy (20th May 1898 - 16th Dec 1981), the author of the book grew up in a devout religious home. His father, Denis Murphy, was a deacon and professor at the National School of Ireland. The major focus of Dr. Murphy was to explain things lucidly so that it would explain how it affects any individual. His basic theme was that the solution to all the problems lies within oneself. We are not affected by the outside circumstances rather by our own mindset. He wrote more than 30 books. His best seller is The Power of your Unconscious Mind. The book, Believe in yourself narrates - How to fulfill your Dreams, through best utilization of your capabilities and talent. Thus achieve a big success in your life. Everyone has inborn talent and capability So it is the matter of attitude. One has to stimulate her conscious mind. The book focuses on - 'Making your dreams come true' and 'how to use Subconscious mind in business'. In the author's words - It is just as easy to imagine yourself Successful, as is to imagine failures but far more interesting. The master architect within you will project on the screen of visibility what you impress on your mind. Here mental attitude means your mental reaction to people, circumstances and objects in space. The

circumstances can affect you only as you permit them. Your capacity to imagine causes you and enables you to remove all barriers of time and space. You can reconstruct the past through your inner eye. So the most important thing is imagination. If you don't develop imagine power then all the hard work or burning midnight lamp is all fullfile. In nutshell - Always believe in yourself. This attitude surely brings success in life.

The language dimension in all subjects Jean-Claude Beacco, Mike Fleming, Francis Goullier, Eike Thürmann, Helmut Vollmer, Joseph Sheils. 2016-10-24 Mastering the language of schooling is essential for learners to develop the skills necessary for school success and for critical thinking. It is fundamental for participation in democratic societies, and for social inclusion and cohesion. This handbook is a policy and working document which promotes convergence and coherence between the linguistic dimensions of various school subjects. It proposes measures to make explicit - in curricula, pedagogic material and teacher training - the specific linguistic norms and competences which learners must master in each school subject. It also presents the learning modalities that should allow all learners, and in particular the most vulnerable among them, to benefit from diversified language-learning situations in order to develop their cognitive and linguistic capacities.
