Asperger's Children: The Origins of Autism in Nazi Vienna Edith Sheffer. 2018-05-01 Shortlisted for the 2019 Mark Lynton History Prize A groundbreaking exploration of the chilling history behind an increasingly common diagnosis. Hans Asperger, the pioneer of autism and Asperger syndrome in Nazi Vienna, has been celebrated for his compassionate defense of children with disabilities. But in this groundbreaking book, prize-winning historian Edith Sheffer exposes that Asperger was not only involved in the racial policies of Hitler's Third Reich, he was complicit in the murder of children. As the Nazi regime slaughtered millions across Europe during World War Two, it sorted people according to race, religion, behavior, and physical condition for either treatment or elimination. Nazi psychiatrists targeted children with different kinds of minds—especially those thought to lack social skills—claiming the Reich had no place for them. Asperger and his colleagues endeavored to mold certain autistic children into productive citizens, while transferring others they deemed untreatable to Spiegelgrund, one of the Reich's deadliest child-killing centers. In the first comprehensive history of the links between autism and Nazism, Sheffer uncovers how a diagnosis common today emerged from the atrocities of the Third Reich. With vivid storytelling and wide-ranging research, *Asperger's Children* will move readers to rethink how societies assess, label, and treat those diagnosed with disabilities.

The Indigenous World 2012 Cacilie Mikkelsen. 2012 In 61 country reports and 12 reports on international processes, *The Indigenous World 2012* gives a comprehensive update on the current situation of indigenous peoples and their human rights, and reports on the most important developments in international processes of relevance to indigenous peoples during 2011. The majority of the country reports document how the escalating momentum of the extractive industries is seriously threatening indigenous peoples' lives, livelihoods and cultures worldwide. They also reflect the importance given to discussions over indigenous peoples' right to participate in decision-making processes. On the international agenda, special focus was on the states' duty to consult indigenous peoples in order to seek their free, prior and informed consent when issues that will affect their lives and future are planned, and on defining best practices and modalities for participation and consultation processes that comply with indigenous peoples' rights. --from IWGIA Website.

Post Memes Daniel Bristow, Alfie Bown. 2019 Art-form, send-up, farce, ironic disarticulation, pastiche, propaganda, lolololol, mode of critique, mode of production, means of politicisation, even of subjectivation - memes are the inner currency of the internet's circulatory system. Independent of any one set value, memes are famously the mode of conveyance for the alt-right, the irony left, and the apoliticals alike, and they are impervious to many economic valuations: the attempts made in co-opting their discourse in advertising and big business have made little headway, and have usually been derailed by retaliative meming. *POST MEMES: SEIZING THE MEMES OF PRODUCTION* takes advantage of the meme's subversive adaptability and ripeness for a focused, in-depth study. Pulling together the interrogative forces of a raft of thinkers at the forefront of tech theory and media dissection, this collection of essays paves a way to articulating the semiotic fabric of the early 21st century's most prevalent means of content posting, and aims at the very seizing of the memes of production for the imagining and creation of new political horizons. With contributions from Scott and McKenzie Wark, Patricia Reed, Jay Owens, Thomas Hobson and Kaajal Modi, Dominic Pettman, Bogna M. Konior, and Eric Wilson, among others, this essay volume offers the freshest approaches available in the field of memes studies and inaugurates a new kind of writing about the newest manifestations of the written online. The book aims to become the go-to resource for all students and scholars of memes, and will be of the utmost interest to anyone interested in the internet's most viral phenomenon. ABOUT THE EDITORS ALFIE BOWN is the author of several books including *The Playstation Dreamworld* (Polity, 2017) and *In the Event of Laughter: Psychoanalysis, Literature and Comedy* (Bloomsbury, 2018). He is also a journalist for the Guardian, the Paris Review, and other outlets. Teacher Education in CALL Philip Hubbard, Mike Levy. 2006-09-01 This volume addresses the need for a more considered and systematic approach to teacher education and training in Computer-Assisted Language Learning (CALL), in all its forms: Technology Enhanced Language Learning, Network-Based Language Learning, Information and Communication Technologies for Language Learning and so on. The 20 chapters of the book are divided into five parts: (1) foundations of teacher education in CALL; (2) CALL degree programs; (3) CALL pre-service courses; (4) CALL in-service projects, courses, and workshops; (5) alternatives to formal CALL training. The chapters cover a broad range of levels, environments, countries, and languages. Rather than simply offering inspired speculation, the chapters provide practical information to readers, reporting on what has actually been done in a wide variety of teacher education programs and courses around the world. In many cases, the chapters describe how programs and courses have evolved, and include either qualitative or quantitative research, or both, to inform the structure of CALL courses, tasks and activities.

Handbook of Polish, Czech, and Slovak Holocaust Fiction Elisa-Maria Hiemer, Jiří Holý, Agata Firlej, Hana Nichtburgerová. 2021-06-21 The Handbook of Polish, Czech, and Slovak Holocaust Fiction aims to increase the visibility and show the versatility of works from East-Central European countries. It is the first encyclopedic work to bridge the gap between the literary production of countries that are considered to be main sites of the Holocaust and their recognition in international academic and public discourse. It contains over 100 entries offering not only facts about the content and motifs but also pointing out the characteristic fictional features of each work and its meaning for academic discourse and wider reception in the country of origin and abroad. The publication will appeal to the academic and broader public interested in the representation of the Holocaust, anti-Semitism, and World War II in literature and the arts. Besides prose, it also considers poetry and theatrical plays from 1943 through 2018. An introduction to the historical events and cultural developments in Poland, Czechoslovakia, Czech, and Slovak Republic, and their impact on the artistic output helps to contextualise the motif changes and fictional strategies that authors have been applying for decades. The publication is the result of long-term scholarly cooperation of specialists from four countries and several dozen academic centres.

America's New Democracy Morris Fiorina,Professor Morris P Fiorina,Paul Peterson,D. Stephen Voss.2002-12 The Update of this brief, highly affordable Penguin Academic Series book includes discussions about September 11th, the war on terrorism, and the midterm elections. America's New Democracy is part of Longman's highly popular Penguin Academic Series, which, in the tradition of Penguin Publishers, offers accessibly written, elegantly designed, and highly affordable trade-format books by pre-eminent scholars.Carried by a strong narrative voice and brimming with student-relevant examples, America's New Democracy provides a focused treatment of American government, one that challenges the view that government seldom listens to regular citizens. Like its parent text, The New American Democracy by Fiorina and Peterson, this book illustrates popular influence across the political system in defense of a central theme--that elections matter more in America's system than they have in the past or than they do in most democracies. The book will generate excitement as readers realize that, in a political market where votes are the main currency, both power and responsibility ultimately rest on their shoulders.This Election Update is the first edition of America's New Democracy with new discussio with the least amount of disruption to instructors. Since the page numbers don't change, instructors do not have to change their syllabi to use this Update. The currency of the book will help engage students in the text material and the discussions of September 11th will help to answer their questions about the ways in which the attacks have affected our lives and our political system.
