*Manufacture and Distillation of Alcoholic Liquors by P. Duplais. the Most Important 19th Century Distilling Guide and the Bible O* David Nathan-Maister.2008-06 Pierre Duplais' seminal *Traite de la Fabrication des Liqueurs et de la Distillation des Alcools* is the authoritative French distillation guide. It went through seven editions from 1855 to 1900 and is the basis of our understanding of 19th century French distillation techniques. A single English edition was published in Philadelphia in 1871, translated by M. McKennie. The special section on absinthe is of particular importance - this is our most accurate and comprehensive guide to the recipes and techniques used by late 19th century absinthe distillers, and is informally regarded as the bible of those seeking to duplicate their recipes today. McKennie's translation appears to have been issued in a very small print run, and surviving copies are extremely scarce. This new facsimile edition published by The Virtual Absinthe Museum has been painstakingly compiled from scans of a rare original copy. This perfect-bound PAPERBACK version is just under 700 pages.

**Parental Care: Evolution, Mechanisms, And Adaptive Significance** .1996-11-18 *Advances in the Study of Behavior* presents its first thematic volume, focusing on the physiological and behavioral mechanisms underlying parental care. The book discusses parental care both within and across taxa, with coverage of invertebrates and early vertebrates, fishes, amphibia, reptiles, mammals, birds, and nonhuman primates. A running theme throughout the chapters shows that parental care is anchored to the ecology, reproductive physiology, and embryonic development of a species. Coverage also includes mechanisms of parental care, including analysis of the stimuli that parents respond to and how parental care is initiated, maintained, and terminated. Individual differences within species are also explored, examining stable differences in maternal style, how they arise, and the consequences for both mother and infant.
