Town Planning Practice Lawrence Wai-Chung Lai, Ki Fong. 2000-07-01 This book is the first systematic attempt to introduce the current practice and statistics of town planning in Hong Kong. Part I gives an analytical account of the practical and ideological context, discusses design principles and describes procedures of town planning with particular reference to change in use. The emphasis is on skills of plan interpretation and an appreciation of the intellectual disposition of planners and various objective constraints confronting them. Part II is the first of its kind in presenting and analysing the statistics of planning applications for 11 zones from 1978 to 1998. The success rates of planning applications as well as the main reasons used by the Town Planning Board for rejecting planning applications are elucidated.

Tibet Claude Arpi. 2019-06-01 Volume 3 of this series "India-Tibet Relation" looks into the consequences of the Chinese presence on the Tibetan plateau. Ironically, the period 1954-1957 saw the first Chinese intrusions into Indian territory, particularly in Barahoti, a small flat grazing ground in today's Uttarakhand. On the diplomatic front, it starts with the Chinese Premier Zhou Enlai's visit to Delhi in June 1954, followed by Jawaharlal Nehru's trip to Beijing in October; at the end of 1956. It culminates with the visit of the Dalai Lama and the Panchen Lama, accompanied by Zhou, to Delhi

for the 2500th anniversary of the birth of the Buddha. We witness the slow erosion of the Tibetan control over the Land of Snow's administration and the rapid building of roads towards the Indian borders...including through the Aksai Chin of Ladakh.

Practical Applications in Business Aviation Management James R. Cannon, Franklin D.

Richey. 2012-01-16 Business aviation is one of America's most important yet least understood industries. Most organizations (about 85%) operating business aircraft are small and medium-size enterprises. They include a wide range of organizations: state governments, universities, charitable organizations, and all types of businesses. While the organizations that rely on business aviation are varied, they all have one thing in common: the need for fast, flexible, safe, and secure access to destinations worldwide. Many small U.S. businesses rely on business aviation. They are located in markets where the airlines have reduced or eliminated service, making business aviation an important connection to the rest of the world. Business aviation fosters efficiency and productivity, and is essential in an intensely competitive global marketplace. This textbook, *Practical Applications in Business Aviation Management*, systematically examines business aviation and provides you with a complete understanding of one of America's most dynamic industries. In this comprehensive guide to business aviation management, authors James R. Cannon and Franklin D. Richey provide in-depth and useful information on all aspects of managing a corporate aviation program. The book begins with a brief look at the history of business aviation and its important role in the aviation industry. It then moves on to focus on the practical issues facing all corporate aviation programs, such as: Regulatory compliance Administrative issues Aircraft and facility maintenance Finances and budgeting Aircraft selection and acquisition Standard operating procedures International operations Human resource management Training Communication and teambuilding Safety and security And

much more The book also includes a foreword by Ed Bolen, the President and CEO of the National Business Aviation Association. It is an essential tool for students and professionals who need comprehensive, accurate, and practical information on managing a corporate aviation program.

Economic Developments In India : Monthly Update, Volume -65 Analysis, Reports, Policy Documents Editors : Raj Kapila & Uma Kapila.2003

Power, Politics, and Performance Michelle Adato,John Hoddinott,Lawrence James Haddad.2005
Since 1994, public works programs with community participation have been part of South Africa's efforts to reduce poverty through increasing employment, skills, infrastructure, and local capacities. This report is an analysis of the intended and actual responsibilities of community forums and community-based committees; the value added by community participation in project selection, design, and management, and the problems introduced; the impact of community participation on project performance; and the factors that have constrained the ability of community-based committees to play the role envisioned for them in policy documents. The research provides a window into the developmental changes and challenges faced by South Africa since its transition to democracy in 1994 and reveals the dilemmas and possibilities pertaining to community-driven development projects.

Proceedings of the Third Purdue Linguistics, Literature, and Second Language Studies Conference Libby Chernouski,David O'Neil.2019-07-18 This collection brings together scholarship in theoretical and applied linguistics, literary and cultural studies, and second language studies. The contributors here investigate the nature of linguistic, cultural, and cognitive diversity, offering rich insights for theoretical advancement in multiple disciplines. Their theoretical and practical explications on discourse, literature, and linguistic structure contribute to a multifaceted conversation about diversity in language structure and use. From the relationships between eye

contact and mindfulness, to the question of the universality of critical thinking, the topics in this volume represent a wide variety of approaches to the study of language. Specific areas in which advances are made here include sociolinguistics, second language pedagogy, and literature studies.

British Think Tanks After the 2008 Global Financial Crisis Marcos González Hernando.2019-06-14
This book examines the intellectual and institutional transformations of four British think tanks in the aftermath of the 2008 global financial crisis. In the context of a crisis of expert authority, González Hernando demonstrates how these organisations modified their mode of public engagement to be seen as authoritative as possible by an ever more mistrustful public. British Think Tanks After the 2008 Global Financial Crisis connects sociological thinking on knowledge with research on policy change and the economic debate, through careful analysis of interviews, public accounts, and the 'products' of think tanks themselves. González Hernando argues that demands for knowledge and advice that arose after the crisis energised the work of all four think tanks while also exposing internal tensions, affecting their sources of funding, transforming their institutional structure, and shaping how they engage with their audiences. It will appeal to students and scholars of sociology of knowledge, political sociology, policy studies, economic history, communication, political economy, organisational sociology, and British politics

Merged Methods Giampietro Gobo, Nigel G. Fielding, Gevisa La Rocca, Wander van der Vaart. 2021-10-27 A new turn in mixed methods research is here: merged methods. This provocative book offers a novel analysis of current mixed methods research, complicating traditional approaches and challenging existing techniques. Moving beyond the binary quantitative-qualitative distinction, the book presents methodologically grounded ways to merge methods in social research and integrate interpretive and structural approaches in one instrument or procedure. The book: Considers the importance of merging both epistemologies and methodologies. Showcases eight merged methods research approaches, from the Delphi method to multimodal content analysis. Explores the opportunities for merging methods using computational techniques, such as text mining. This innovative book is a must-read for any postgraduate student or researcher across the social sciences wanting to develop their understanding of mixed methods research.

Measuring Welfare beyond Economics Claudio O. Delang, Yi Hang Yu. 2015-06-26 Dissatisfaction with the Gross Domestic Product (GDP) as an indicator of a country's development or a population's wellbeing led to the development of the Genuine Progress Indicator (GPI). The GPI is an aggregate index of over 20 economic, social and environmental indicators, and accounts for both the welfare

benefits of economic growth, and the social and environmental costs which accompany that economic growth. The result is better information about the level of welfare or well-being of a country's population. This book measures the GPI of Hong Kong and Singapore from 1968 to 2010. It finds that for both countries, economic output (as measured by the GDP) has grown more than welfare (as measured by the GPI), but important differences are also found. In Hong Kong, the GPI has grown for the whole period under consideration, while in Singapore the GPI has stalled from 1993. This is in line with most countries and is explained by the threshold hypothesis which states that beyond a certain level of economic development the benefits of further economic growth are outweighed by even higher environmental and social costs. The book argues that the growth of Hong Kong's GPI is due to its favourable relationship with China and in particular its ability to export low-wage jobs and polluting industries, rather than successful domestic policies. A stalling or shrinking GPI calls for alternative policies than the growth economy promoted by neoclassical economists, and the book explores an alternative model, that of the Steady State Economy (SSE).

Proposal Planning and Writing Lynn E. Miner,Jeremy T. Miner,Jerry Griffith (Ph. D.).1998-05-07

Annotation Nationally known grants experts Lynn Miner, Jeremy Miner, & Jerry Griffith have thoroughly revised & expanded their excellent self-help book, which is designed for first-time

proposal writers & planners, or for those who are without easy access to sources & materials. The authors use a concise, straightforward approach, relying on proven examples of how to find grants & how to plan, write, & submit proposals that get results. They also share their streamlining techniques for submitting more proposals in less time & provide a list of the most likely reasons proposals are rejected. New to this edition is greatly expanded coverage of computerized grantseeking, including World Wide Web resources. Also new is a discussion of effective writing techniques.

The completion and sale of High Speed 1 Great Britain: Parliament: House of Commons: Committee of Public Accounts.2012-07-06 The high speed railway linking London to the Channel Tunnel, known as High Speed 1, has now been fully open for almost five years and has had a good performance record. There have also been some costly mistakes. The Department originally expected London & Continental Railways Limited (LCR) to service the project debt from future revenues from Eurostar UK. However by the end of 1997 revenues were substantially below LCR's forecasts. Consequently, in 1998, the Department agreed to restructure the deal and guarantee most of LCR's debt. The taxpayer is now servicing and repaying the project debt of £4.8 billion. Passenger demand for international services on the line has been much lower than forecast and that is the root cause of the failure of the original deal. Planning assumptions failed to properly consider the impact on passenger numbers of the growth of low cost airlines and the competitive response of ferry companies. The Department still does not have plans in place to evaluate fully the impact of HS1. Total taxpayer support for the line, over a 60 year period to 2070, has an estimated present value of

£10.2 billion. Benefits for passengers from shorter journey times over this period have an estimated present value of £7 billion. The basis of this cost/benefit analysis, however, is open to challenge. Also the Department will need to evaluate HS1's regeneration benefits and wider economic impacts worth many billions of pounds if the project is to demonstrate value for money. The Department must also learn the lessons as it develops its plans for HS2.
