Supporting Reading in Grades 6-12 Sybil M. Farwell, Nancy L. Teger.2012-06-11 This book presents a curricular framework for students grades 6-12 that school librarians and teachers can use collaboratively to enhance reading skill development, promote literature appreciation, and motivate young people to incorporate reading into their lives, beyond the required schoolwork. Supporting Reading Grades 6-12: A Guide addresses head-on the disturbing trend of declining leisure reading among students and demonstrates how school librarians can contribute to the development of lifelong reading habits as well as improve students' motivation and test scores. The book provides a comprehensive framework for achieving this: the READS curriculum, which stands for Read as a personal activity; Explore characteristics, history, and awards of creative works; Analyze structure and aesthetic features of creative works; Develop a literary-based product; and Score reading progress. Each of these five components is explained thoroughly, describing how school librarians can encourage students to read as individuals, in groups, and as school communities; support classroom teachers' instruction; and connect students to today's constantly evolving technologies. Used in combination with an inquiry/information-skills model, the READS curriculum enables school librarians to deliver a dynamic, balanced library program that addresses AASL's Standards for the 21st-Century Learner.

Shared Meanings in the Film Music of Philip Glass Tristian Evans.2016-03-03 The study of music within multimedia contexts has become an increasingly active area of scholarly research. However, the application of such studies to musical genres outside the 'classical' film canon, or in television and other media remains largely unexplored in any detail. Tristian Evans demonstrates how postminimal music interacts with other media forms, focusing on the film music by Philip Glass, but also taking into account works by other composers such as Steve Reich, Terry Riley, John Adams and others inspired by minimalist and postminimal practices. Additionally, Evans develops innovative ways of analysing this music, based on an interdisciplinary approach, and draws on research from areas that include philosophy, linguistics and film theory. The book offers one of the first in-depth studies of Philip Glass's music for film, considering *The Hours* and *Dracula*, *Naqoyqatsi*, *Notes on a Scandal* and *Watchmen*, while examining re-applications of the music in new cinematic and televisual contexts. The book will appeal to musicologists but also to those working in the fields of film music, cultural studies, media studies and multimedia.

The Negro Motorist Green Book Victor H. Green. The idea of The Green Book is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.

Introduction to Web Development Using HTML 5 Kris Jamsa.2013-05 Filled with thousands of real-world examples, this text: introduces Web development to first-time developers; covers all aspects of webpage design; provides detailed coverage of webpage formatting using CSS; presents the use of JavaScript and JQuery to automate webpages; presents the HTML 5 canvas that developers can use to display charts, graphs, and more within a page; covers drag-and-drop processing; introduces location-aware applications; and teaches users how to use asynchronous programming to achieve multitasking within a webpage. HTML 5 allows Web developers not only to build pages for the World Wide Web, but also to build pages for mobile devices and tablet PCs. The book starts with an introduction to standard HTML and its use in creating traditional websites. Within this context, it then teaches developers how to format and style their pages using cascading style sheets (CSS) and how to automate pages using JavaScript and JQuery. --

Blue-Eyed Son Nicky Campbell.2011-08-19 From the presenter of ITV1's Long Lost Family and the bestselling author of One of the Family, comes a moving and honest book about Nicky Campbell's own search for his birth parents. 'Blue-Eyed Son is a personal history, but its themes - family, self-identity and filial love - are universal' - Daily Mail Raised in a comfortable middle-class home, Nicky Campbell's Scottish Protestant family cared for and nurtured him as their own, while remaining open about the fact that he'd been adopted. His father - an ex-army man - and his mother helped him to a good school and a good university. Nicky rarely thought of his birth parents, until a combination of an imploding marriage and a chance meeting with a private detective led him to track down his birth mother. Nicky Campbell brilliantly recalls their reunion and tentative steps towards a relationship, evoking all the complex and deep-seated emotions that being reunited elicited in each of them. But it soon became clear that there was more to Nicky's background than he expected. In this emotionally gripping and refreshingly honest memoir, Nicky Campbell describes the many sides of a family's dark history, and how it feels to find out where you come from. 'A deeply personal book. A fascinating story and a wonderful read' - Michael Parkinson 'An extraordinary story' - Independent

David Lynch Greg Olson.2008-09-29 For nearly 40 years, David Lynch's works have enthralled, mystified, and provoked viewers. Lynch's films delve into the subjective consciousness of his characters to reveal both the depraved darkness and luminous spirituality of human nature. From his experimental shorts of the 1960s to feature films like Eraserhead, The Elephant Man, Blue Velvet, Mulholland Drive, and INLAND EMPIRE, Lynch has pushed the boundaries of cinematic storytelling. In David Lynch: Beautiful Dark, author Greg Olson explores the surreal intricacies of the director's unique visual and visceral style not only in his full-length films but also his early forays into painting and short films, as well as his television landmark, Twin Peaks. This in-depth exploration is the first full-length work to analyze the intimate symbiosis between Lynch's life experience and artistic expressions: from the small-town child to the teenage painter to the 60-year-old Internet and digital media experimenter. To fully delineate the director's life and art, Olson received unprecedented participation from Lynch, his parents, siblings, old school friends, romantic partners, children, and decades of professional colleagues, as well as on-set access to the director during the production of Twin Peaks: Fire Walk with Me. Throughout this study, Olson provides thorough analyses of the filmmaker's works as Lynch conceived, crafted, and completed them. Consequently, David Lynch: Beautiful Dark is the definitive study of one of the most influential and idiosyncratic directors of the last four decades.

The Little Blue Book for Filmmakers Carl Gottlieb,Toni Attell.2012-10-01 (Limelight). Originally conceived as a workbook for young directors, The Little Blue Book for Filmmakers has become a handbook for easy reference, with all the information a student director/actor/producer needs to create a film, from inception through production, to sales, distribution, and exhibition. The book discusses issues faced by all beginning filmmakers, with a historical perspective that explains problems and solutions that reach back to the invention of movies at the turn of the last century, and stretch forward to include new digital technology and the popularization of videography as global self-expression. A valuable addition to the shelves of all film school instructors who've not had years of practical experience working in the trade, it's also a syllabus in itself and can be the foundation for a course schedule. More important, it's something every film student will want to own as a reference and guide.

Succeeding Postmodernism Mary K. Holland.2013-04-25 While critics collect around the question of what comes after postmodernism, this book asks something different about recent American fiction: what if we are seeing not the end of postmodernism but its belated success? Succeeding Postmodernism examines how novels by DeLillo, Wallace, Danielewski, Foer and others conceptualize threats to individuals and communities posed by a poststructural culture of mediation and simulation, and possible ways of resisting the disaffected solipsism bred by that culture. Ultimately it finds that twenty-first century American fiction sets aside the postmodern problem of how language does or does not mean in order to raise the reassuringly retro question of what it can and does mean: it finds that novels today offer language as solution to the problem of language. Thus it suggests a new way of reading antihumanist late postmodern fiction, and a framework for understanding postmodern and twenty-first century fiction as participating in a long and newly enlivened tradition of humanism and realism in literature.
