*The Sounds of Milan, 1585-1650* Robert L. Kendrick.2002-11-21

In this book, a follow-up to his 1996 monograph *Celestial Sirens*, Robert Kendrick examines the cultural contexts of music in early-modern Milan. This book describes the churches and palaces that served as performance spaces in Milan, analyzes the power structures in the city, discusses the devotional rites of the Milanese, and explores the connections among city politics, cityscape, and music.

*Music in Renaissance Ferrara 1400-1505* Lewis

Lockwood.2009-05-04 Based on extensive documentary and archival research, *Music in Renaissance Ferrara* is a documentary history of music for one of the most important city-states of the Italian Renaissance. Lockwood shows how patrons and musicians created a musical center over the course of the fifteenth-century, tracing the growth of music and musical life in rich detail. It also sheds new light on the careers of such important composers as Dufay, Martini, Obrecht, and Josquin Desprez. This paperback edition features a new preface that re-introduces the book and reflects on its contribution to our modern knowledge of music in the culture of the Italian Renaissance.

Arabian Medicine Edward G. Browne.2008-10 PREFACE. THE

Author of this very practical treatise on Scotch Loch - Fishing desires clearly that it may be of use to all who had it. He does not pretend to have written anything new, but to have attempted to put what he has to say in as readable a form as possible.

Everything in the way of the history and habits of fish has been

studiously avoided, and technicalities have been used as sparingly as possible. The writing of this book has afforded him pleasure in his leisure moments, and that pleasure would be much increased if he knew that the perusal of it would create any bond of sympathy between himself and the angling community in general. This section is interleaved with blank sheets for the readers notes. The Author need hardly say that any suggestions addressed to the case of the publishers, will meet with consideration in a future edition. We do not pretend to write or enlarge upon a new subject. Much has been said and written-and well said and written too on the art of fishing but loch-fishing has been rather looked upon as a second-rate performance, and to dispel this idea is one of the objects for which this present treatise has been written. Far be it from us to say anything against fishing, lawfully practised in any form but many pent up in our large towns will bear us out when we say that, on the whole, a days loch-fishing is the most convenient. One great matter is, that the loch-fisher is depend-ent on nothing but enough wind to curl the water, -and on a large loch it is very seldom that a dead calm prevails all day, -and can make his arrangements for a day, weeks beforehand whereas the stream- fisher is dependant for a good take on the state of the water and however pleasant and easy it may be for one living near the banks of a good trout stream or river, it is quite another matter to arrange for a days river-fishing, if one is looking forward to a holiday at a date some weeks ahead. Providence may favour the expectant angler with a good day, and the water in order but experience has taught most of us that the good days are in the minority, and that, as is the case with our rapid running streams, -such as many of our northern streams are, -the water is either too large or too small, unless, as previously remarked, you live near at hand, and can catch it at its best. A common belief in regard to loch-fishing is, that the tyro and the experienced angler have nearly the same chance in fishing, -the one from the stern and the other from the bow of the

same boat. Of all the absurd beliefs as to loch-fishing, this is one of the most absurd. Try it. Give the tyro either end of the boat he likes give him a cast of ally flies he may fancy, or even a cast similar to those which a crack may be using and if he catches one for every three the other has, he may consider himself very lucky. Of course there are lochs where the fish are not abundant, and a beginner may come across as many as an older fisher but we speak of lochs where there are fish to be caught, and where each has a fair chance. Again, it is said that the boatman has as much to do with catching trout in a loch as the angler. Well, we dont deny that. In an untried loch it is necessary to have the guidance of a good boatman but the same argument holds good as to stream-fishing...

### **Music and Patronage in Sixteenth-Century Mantua: Volume**

**1** Iain Fenlon.2008-10-30 Viewed traditionally, the history of sixteenth-century Mantuan music is almost a catalogue of some of the most distinguished composers of the age, from Tromboncino and Cara, via Jacquet of Mantua, to Wert, Palestrina, Marenzio, Pallavicino, Gastoldi, Rossi and Monteverdi. The remarkable achievements of composers under Gonzaga patronage, practically synonymous with Mantuan patronage during this period, are treated here in their social context. The arguments proceed not just from the music itself, but from detailed examination of archival sources, from which Dr Fenlon reconstructs employment patterns and describes the social structure and institutional life of the city. The aim of the book is to show how the patterns of patronage, and music and musicians, reflect and illuminate the temperaments and prime preoccupations of successive rulers. The book contains a substantial appendix of unpublished archival documents, a small proportion only of the scholarly and comparative sources on which the study is based.

**Patronage in the Renaissance** Guy Fitch Lytle, Stephen Orgel.2014-07-14 The fourteen essays in this collection explore the dominance of patronage in Renaissance politics, religion,

theatre, and artistic life. Originally published in 1982.
