Ancient Civilizations includes a number of features to support student learning: a wealth of images, including several new illustrations; feature boxes which expand on key sites, finds and written sources; and an extensive guide to further reading. Ancient Civilizations Dr. Brian Fagan,Chris Scarre.2015-08-13 Drawing on many avenues of inquiry: archaeological excavations, surveys, laboratory work, highly specialized scientific investigations, and on both historical and ethnohistorical records; *Ancient Civilizations, 3/e* provides a comprehensive and straightforward account of the world's first civilizations and a brief summary of the way in which they were discovered.

Ancient Civilizations of the World Denny Rose & Rowan Allen.2018-05-08 About 5,000 years ago the first urban societies developed laying the foundations for the first civilizations. Nearly all civilizations share the same few features- they have abundant food surpluses, contained cities, political bureaucracies, armies, defined religious and social hierarchies and long distance trading. Ancient Egyptian culture flourished between c. 5500 BCE with the rise of technology (as evidenced in the glass-work of faience) and 30 BCE with the death of Cleopatra VII, the last Ptolemaic ruler of Egypt. It is famous today for the great monuments which celebrated the triumphs of the rulers and honored the gods of the land. The culture is often misunderstood as having been obsessed with death but, had this been so, it is unlikely it would have made the significant impression it did on other ancient cultures such as Greece and Rome. Neolithic means e;new stonee;, even though agriculture was the crowning achievement of the period. Civilizations started out small. Agriculture at first tended to tie only small groups together. These groups also all settled along rivers, important as a reliable and predictable source of water. As time passed, families usually worked the same plot of land over successive generations, leading to the concept of ownership. Ancient mortars and grinding tools unearthed in a large mound in the Zagros Mountains of Iran reveal that people were grinding wheat and barley about 11,000 years ago. Grass pea, wild wheat, wild barley, and lentils were found throughout the site, including some of the earliest known samples. This was much further east than most sites known for early agriculture. This book furnishes with utmost facility to all classes of readers, the needed information on ancient civilization. The unusual variety of the subject makes this a work of endless fascination.

Ancient Egypt Investigated Thomas Schneider.2013-08-30 How well do we really know ancient Egypt? The world of the Egyptians seems so familiar to us: exhibitions of ancient art and archaeological discoveries in the desert sands continue to generate interest and amazement, while Egyptian motifs appear in architecture, in literature, in art works, in advertising, and in films. And yet, this modern reception can sometimes preserve the myths and inaccuracies about ancient Egypt that derive from classical antiquity and the Renaissance. It is only in the last 200 years that we have been able to read for ourselves ancient Egyptian texts and to reveal the true nature of its civilization through excavation. This modern discovery of ancient Egypt is now astonishing us with a culture of incomparable richness and remarkable diversity. This is what the internationally acclaimed Egyptologist Thomas Schneider here attempts to do: he asks What are the 101 single most important questions about ancient Egypt? The questions he has chosen-and the answers he provides-challenge almost everything we thought we knew about the ancient civilization in the Nile valley. They range from the surprising (Why did elite Egyptians not wear beards?) to the profound (Was ancient Egypt a culture of death?) and the provocative (What do we still not know about ancient Egypt?) but all the answers will surprise, inspire, and challenge a wide range of readers. In the process, they provide a completely fresh way of looking at all aspects of ancient Egypt-from history, art, and everyday life to religion and ancient attitudes to death and the afterlife.
