Film Festivals Cindy Hing-Yuk Wong.2011-08-29 Movies, stars, auteurs, critics, and the sheer excitement of cinema come together in film festivals as quintessential constellations of art, business, and glamour. Yet, how well do we actually understand the forces and meanings that these events embody? *Film Festivals* offers the first comprehensive overview of the history, people, films, and multiple functions of the festival world. From Sundance to Hong Kong, from the glitter of Cannes to edgier festivals that challenge boundaries or foster LGBTQ cultural production, film festivals celebrate art, promote business, bring cinema to diverse audiences, and raise key issues about how we see our world. Cindy Hing-Yuk Wong situates festivals within changing global practices of film, including their important ties to both Hollywood and independent cinema. She explores how these events have become central in the construction of cinema knowledge as well as the behind-the-scene mechanics of finance, distribution, and evaluation. By linking general structures and connections to specific films and auteurs, Wong addresses the components and creation of film festivals that continue to reshape filmmaking as art and business.

Zhang.2011-03-29 *Genre in Asian Film and Television* takes a dynamic approach to the study of Asian screen media previously under-represented in academic writing. Bananas, Beaches and Bases Cynthia Enloe.2014-05-16 In this brand new radical analysis of globalization, Cynthia Enloe examines recent events—Bangladeshi garment factory deaths, domestic workers in the Persian Gulf, Chinese global tourists, and the UN gender politics of guns—to reveal the crucial role of women in international politics today. With all new and updated chapters, Enloe describes how many women's seemingly personal strategies—in their marriages, in their housework, in their coping with ideals of beauty—are, in reality, the stuff of global politics. Enloe offers a feminist gender analysis of the global politics of both masculinities and femininities, dismantles an apparently overwhelming world system, and reveals that system to be much more fragile and open to change than we think.

Online Film Production in China Using Blockchain and Smart Contracts Patrice Poujol.2019-03-04 This book explores the use of Blockchain and smart contract technologies to develop new ways to finance independent films and digital media worldwide. Using case studies of Alibaba and in-depth, on-set observation of a Sino-US coproduction, as well as research collected from urban China, Hong Kong, Europe, and the USA, *Online Film Production in China Using Blockchain and Smart Contracts* explores new digital platforms and what this means for the international production of creative works. This research assesses the change in media consciousness from young urban audiences, their emergence as a potential participative and creative community within dis-intermediated, decentralised and distributed crowdfunding and crowdsourcing models. This research proposes solutions on how these young emerging local creative talents can be identified and nurtured early on, particularly those who now produce creative and artistic audiovisual content whether these works are related to film, Virtual Reality (VR), video game, graphic novels, or music. Ultimately, a new media content finance and production platform implementing blockchain is proposed to bring transparency in the film sector and open doors to emerging artists in digital media. Appropriate for both professionals and academics in the film industry as well as computer science.

Film and Everyday Eco-disasters Robin L Murray,Joseph K Heumann.2014-06-01 Eco-disasters such as coal-mining accidents, oil spills, and food-borne diseases appear regularly in the news, making them seem nearly commonplace. These ecological crises highlight the continual tensions between human needs and the environmental impact these needs produce. Contemporary documentaries and feature films explore environmental-human conflicts by depicting the consequences of our overconsumption and dependence on nonrenewable energy. *Film and Everyday Eco-disasters* examines changing perspectives toward everyday eco-disasters as reflected in the work of filmmakers from the silent era forward, with an emphasis on recent films such as *Dead Ahead*, an HBO dramatization of the Exxon Valdez disaster; *Total Recall*, a science fiction action film highlighting oxygen as a commodity; *The Devil Wears Prada*, a comment on the fashion industry; and *Food, Inc.*, a documentary interrogation of the food industry. The authors evaluate not only the success of these films as rhetorical arguments but also their rhetorical strategies. This interdisciplinary approach to film studies fuses cultural, economic, and literary critiques in articulating an approach to ecology that points to sustainable development as an alternative to resource exploitations and their associated everyday eco-disasters.

Internationalizing Higher Education Rhiannon D. Williams,Amy Lee.2015-04-23 Higher education is facing unprecedented change as today's graduates need particular skills, awareness, and knowledge to successfully navigate a complex and interconnected world. Higher education institutions and practitioners are under pressure to be attentive to internationalization initiatives that support increasingly diverse student populations and foster the development of global citizenship competencies which include, "problem-defining and solving perspectives that cross disciplinary and cultural boundaries" (Hudzik, 2004, p. 1 as cited in Leask & Bridge, 2013). *Internationalizing Higher Education: Critical Collaborations across the Curriculum* is for current and future faculty, student affairs staff, and administrators from diverse disciplinary, institutional, and geographic contexts. This edited volume invites readers to investigate, better understand, and inform intercultural pedagogy that supports the development of mindful global citizenship. This edited volume features reflective practitioners exploring the dynamic and evolving nature of intercultural learning as well as the tensions and complexities. Contributors include institutional researchers, directors and key implementers of EU/Bologna process in Poland (one of the newest members and one that is facing unprecedented change in the diversity of its students), international partners in learning abroad programs, and scholars and instructors across a range of humanities, STEM, and social sciences.

Governance of Security and Ignored Insecurities in Contemporary Europe Salvatore Palidda.2016-04-14 This book explores changes in security governance in Europe from the 1990s, focusing on some of the most important consequences: the proliferation of ignored insecurities, including the increase of oncological diseases, environmental disasters, shadow economies reproducing neo-slavery and fiscal fraud, and the general damage to the *res publica*. What is the articulation of removal, reclamation and consequently the implementation of devices and the establishing of prevention practices? Why are the majority of victims and also the control agency professionals seemingly resigned to these ignored insecurities? Following more than 20 years of research in the area, the authors examine these questions and how the securitisation of society has been exacerbated. They argue that the primary cause of the increase in ignored insecurities is the consequence of the neoliberal turn in security governance. This book proposes an innovative approach to security governance, not only through a serious analysis of the balance of the costs and benefits, but also highlighting what is here termed 'ignored insecurities'. The authors propose a review of the problems, showing that the governance of security is a crucial element of the contemporary political organisation of society. The book ends with an innovative reflection on the Anthropocene debate and the COP21 summit which took place in Paris in December 2015.

Labour Productivity, Investment in Human Capital and Youth Employment Olga Rymkevich.2010-01-01 Unemployment levels are on the rise nearly everywhere, and the rate is particularly high among young people. If this trend is not reversed, the potential long-term economic and social damage is incalculable. For this reason a particular urgency attended an international conference on the subject held in March 2009 at the Marco Biagi Foundation in Modena, Italy, in the course of which specialists in labour law, human resources management, labour economics, sociology, education, and statistics met to present and compare research. This issue of the *Bulletin of Comparative Labour Relations* includes a selection of the papers presented at that conference. Although the selected essays present findings on specific issues in particular countries, the general applicability at the global level is evident. Assessing measures taken to deal with youth unemployment in thirteen countries (Italy, Spain, Russia, Sweden, Bulgaria, Estonia, Hungary, Poland, Israel, Nigeria, the United States, China, and Singapore), twenty-five leading authorities describe and analyse such aspects of the problem as the following: vocational education and training; quality of employment as well as quantity; links between educational institutions and local, national and international enterprises; consultation and co-operation between employers' associations and trade unions; job security vs. employment security; funding for postgraduate programmes, internships, and on-the-job vocational training; career development for

future managers; safeguards for workers in a framework of flexibility; labour market pressure from unskilled immigrant workers; 'earn-as-you-learn' schemes; work in the informal economy; and the rationale behind the phasing out of passive labour market measures for school leavers such as unemployment benefits.

Coping with a Bad Global Image John Franklin Copper, Ta-ling Lee. 1997 This book assesses the human rights condition in the People's Republic of China during 1993-94, focusing on how abuses have engendered difficulties for Beijing in international relations. It considers changes in the political and legal systems and Communist ideology (more correctly, its demise) in its appraisal. These, the authors contend, are causative factors of human rights abuses and need to be understood to put the human rights situation in its proper perspective. Such matters as crime, forced labor, and executions are examined in detail to delineate the worst kinds of human rights abuses as well as current trends. Dissidents, religious advocates, and intellectuals are also a focus of attention. Copublished with the East Asia Research Institute.

Subverting Mainstream Narratives in the Reagan Era Ashley M. Donnelly. 2018-03-23 Subverting Mainstream Narratives in the Reagan Era explores how artists, novelists, and directors were able to present narratives of strong dissent in popular culture during the Reagan Era. Using but subverting the tools of mainstream novels and films, these visionaries' works were featured alongside other books in major bookstores and promoted alongside blockbusters in movie theatres across the country. Ashley M. Donnelly discusses how the artists accomplished this, why it is so important, and how new artists can use these techniques in today's homogenous and mundane media.

Ghost Protocol Carlos Rojas, Ralph A. Litzinger. 2016-08-05 Even as China is central to the contemporary global economy, its socialist past continues to shape its capitalist present. This volume's contributors see contemporary China as haunted by the promises of capitalism, the institutional legacy of the Maoist regime, and the spirit of Marxist resistance. China's development does not result from historical imperatives or deliberate economic strategies, but from the effects of discrete practices the contributors call protocols, which stem from an overlapping mix of socialist and capitalist institutional strategies, political procedures, legal regulations, religious rituals, and everyday practices. Analyzing the process of urbanization and the ways marginalized communities and migrant workers are positioned in relation to the transforming social landscape, the contributors show how these protocols constitute the Chinese national imaginary while opening spaces for new emancipatory possibilities. Offering a nuanced theory of contemporary China's hybrid political economy, Ghost Protocol situates China's development at the juncture between the world as experienced and the world as imagined. Contributors. Yomi Braester, Alexander Des Forges, Kabzung, Rachel Leng, Ralph A. Litzinger, Lisa Rofel, Carlos Rojas, Bryan Tilt, Robin Visser, Biao Xiang, Emily T. Yeh

Phallic Frenzy Joseph Lanza. 2007-08-01 Ken Russell has made some of the most daring, disturbing, and beautifully photographed films of all time. Drawing from a wealth of historic and literary references, Russell's subjects are astounding: deranged Ursuline nuns in a 17th-century French province, the inner demons of Mary Shelley and Lord Byron, the sexual angst of Tchaikovsky, the emotionally drained life of Rudolph Valentino, the messianism of a pinball wizard, the fury of lesbian vampires, the introspections of prostitutes. Russell's movies offer not just brazen sensationalism but food for thought; they horrify yet inspire. And through it all, Russell maintains a simultaneously impish and intellectual sense of humor. The first full biography of the director, Phallic Frenzy is far from a dry, film-by-film analysis. It shows how Russell's real life has often been as engaging and vibrant as his film scenarios. Here you'll learn how Alan Bates and Oliver Reed compared their penis sizes for the nude wrestling scene in *Women in Love*; how Russell disfigured Paddy Chayevsky's script for *Altered States* by having the actors holler out the lines as fast as possible, accompanied by spewed food and streams of spittle; and how Russell was slated to direct *Evita*, starring Liza Minnelli, and the "creative differences" that ensued. A madcap tale full of wild ideas, surreal situations, and a cavalcade of colorful personalities, Phallic Frenzy is as thrilling a ride as any Ken Russell film.

Questioning Cosmopolitanism Stan van Hooft, Wim Vandekerckhove. 2010-06-16 Wim Vandekerckhove and Stan van Hooft The philosopher, Diogenes the Cynic, in the fourth century BCE, was asked where he came from and where he felt he belonged. He answered that he was a "citi- 1 zen of the world" (kosmopolitês). This made him the first person known to have described himself as a cosmopolitan. A century later, the Stoics had developed that concept further, stating that the whole cosmos was but one polis, of which the order was logos or right reason. Living according to that right reason implied showing goodness to all of human kind. Through early Christianity, cosmopolitanism was given various interpretations, sometimes quite contrary to the inclusive notion of the Stoics. Augustine's interpretation, for example, suggested that only those who love God can live in the universal and borderless "City of God". Later, the red-covery of Stoic writings during the European Renaissance inspired thinkers like Erasmus, Grotius and Pufendorf to draw on cosmopolitanism to advocate world peace through religious tolerance and a society of states. That same inspiration can be noted in the American and French revolutions. In the eighteenth century, enlightenment philosophers such as Bentham (through utilitarianism) and Kant (through universal reason) developed new and very different versions of cosmopolitanism that serve today as key sources of cosmopolitan philosophy. The nineteenth century saw the development of new forms of transnational ideals, including that of Marx's critique of capitalism on behalf of an international working class.

The Socially Responsible Feminist EFL Classroom Reiko Yoshihara. 2017-05-11 This book explores the realities of feminist EFL teachers' lives through interviews and classroom observations with eight EFL teachers at Japanese universities. The data contained in the book broaden our understanding of feminist teaching in the language classroom while also providing suggestions for practice. The book examines not only how the teachers' feminist identities influence their pedagogical beliefs and practices but also how the teachers actually practice feminist teaching in their classrooms. The tensions, dilemmas and pleasures of feminist teaching converge in this book, which attempts to shed light on a question that is often asked in either ESL or EFL teaching contexts: is teaching about gender-related topics (including controversial sociopolitical topics) in the language classroom education or indoctrination?

Film's First Family Terry Chester Shulman. 2019-10-22 Scandal, adultery, secret marriages, celebrity, divorce, custody battles, suicide attempts, and alcoholism -- the trials and tribulations of the Costellos were as riveting as any Hollywood feature film. Written with unprecedented access to the family's personal documents and artifacts -- and interviews with several family members, including Dolores Barrymore Bedell (the daughter of John Barrymore and Dolores Costello) and Helene's daughter Deirdre -- this riveting study explores the dramatic history of the Costellos and their extraordinary significance to the stage and screen. This eccentric, tragic, yet talented clan was one of the twentieth century's most accomplished families of actors -- second only to the Barrymores, with whom they intermarried and begat a film dynasty riddled with jealousy, resentment, and heartbreak. Inevitably, the Costellos' brilliant achievements would be eclipsed by their own immutable penchant for self-destruction. Patriarch Maurice Dimples Costello (1877--1950) was considered the first screen idol and the first great movie star until his screen career, marked by accusations of spousal abuse, drunkenness, and physical assault, abruptly ended. His daughter Dolores married John Barrymore, arguably the most famous man in Hollywood during the late 1920s and early '30s, and their son would carry on the Barrymore name to successive generations of

famous actors. Costello's other daughter, Helene, was the first actress to star in an all-talking picture, *The Lights of New York* (1928). However, her career was wracked by scandal in 1932 during her very public divorce from actor-director Lowell Sherman, who testified that his wife was a drunk and an avid reader of pornography. The original members of this pioneering family may be gone, but the name and legacy of the Costellos will live on through their accomplishments, films, and descendants -- most notably, actress Drew Barrymore.

Public Secrets, Public Spaces Stephanie Donald.2000 Donald (communications and media studies, Murdoch U., Australia) argues that before such terms as national of transnational cinema are settled in respect to Chinese film, the public nature of film needs to be acknowledged. She attempts to redefine the notion of civil society by looking at how Chinese film addresses questions of the public sphere, overtly or not. The redefinition, for her, is a complex task that moves beyond the liberal-democratic tradition of autonomy, informality, and non-state institutions. The Erotic Thriller in Contemporary Cinema Linda Ruth Williams.2005 This bold and original book examines in detail a relatively new genre of film--the erotic thriller. Linda Ruth Williams traces the genre's exploitation of pornography and noir, discusses mainstream stars (including Michael Douglas and Sharon Stone) as well as genre-branded direct-to-video stars, charts the work of key producers and directors, and considers home videos as a distinct form of viewing pleasure. She maps the history of the genre, analyzing hundreds of movies from blockbusters such as *Basic Instinct*, *Fatal Attraction*, and *In the Cut* to straight-to-video film titles such as *Carnal Crimes*, *Sins of Desire*, and *Night Eyes*. Williams's witty and illuminating readings tell the story of this sensational genre and contribute to the analysis of mainstream screen sex--and its censorship--at the beginning of the 21st century. She shows that as the erotic thriller plays out the sexual fantasies of contemporary America, it also provides a vehicle for marketing those fantasies globally.

Regions in the Belt and Road Initiative Jonathan Fulton.2020-05-06 Introduced in 2013, China's Belt and Road Initiative (BRI) has had a significant impact within Asia and across other regions. This book provides empirical case studies examining the relations between China and the states in specific regional groupings, including South-East Asia, Central Asia, South Asia, the Persian Gulf, the Horn of Africa, and Central/Eastern Europe. At the theoretical level, Buzan and Waever's work on regional security complexes is used to develop a framework for analyzing the current impact of the BRI and its potential future effects within these regions, while the case studies explore the extent to which different International Relations and International Political Economy theories explain change in these relationships as the regional security environment shifts. The contributors address questions as diverse as the domestic political and economic drivers impacting the level of BRI cooperation; the effects of cooperation with the US; as well as the historical political and economic risk considerations for China in pursuing BRI cooperation; and the motivations of regional responses to the BRI and rivalries and variations in those responses. This book will be of interest to academics working in the fields of Chinese foreign policy, International Relations, International Political Economy, and area studies. Professionals in the corporate world and Governmental practitioners and non-government agencies will also find the contributions useful.

Surface and Apparition Yeseung Lee.2020-11-12 Surface is one of the most intensely debated topics in recent arts, humanities and social science scholarship. The changing technologies which manufacture the actual and virtual surfaces of today are radically altering our perception of thresholds and borders. In contrast to the responses to preceding industrial revolutions, contemporary concerns with surface seem preoccupied with its function of mediation or passage, rather than with that of separation or boundary. In *Surface and Apparition*, each chapter explores a different meaning and function of the material and immaterial qualities of 'surface'. Case studies include various surfaces from computer screens, 'artisanal' engines and glass architecture to gauzy veils, the planetary surface of supply chain capitalism, and spatial embodiment in street markets. International scholars of design, architecture, film, media, fine art, fashion, textiles, silversmithing, woodworking and archival practices account for how the material and the immaterial draw attention to each other in both their everyday and artistic practice. Each chapter addresses particular systems (from the human body to manually operated tools and machines); materials (for instance cloth, wood and light); modes of attention, movement and engagement. 'Surface' therefore functions in this book as a multidisciplinary method for attending to critical issues concerning human creative and technological endeavours.

Human Rights and the Ethics of Globalization Daniel E. Lee,Elizabeth J. Lee.2010-09-13 Human Rights and the Ethics of Globalization provides a balanced, thoughtful discussion of the globalization of the economy and the ethical considerations inherent in the many changes it has prompted. The book's introduction maps out the philosophical foundations for constructing an ethic of globalization, taking into account both traditional and contemporary sources. These ideals are applied to four specific test cases: the ethics of investing in China, the case study of the Firestone company's presence in Liberia, free-trade and fair-trade issues pertaining to the coffee trade with Ethiopia and the use of low-wage factories in Mexico to serve the US market. The book concludes with a comprehensive discussion of how to enforce global compliance with basic human rights standards, with particular attention to stopping abuses by multinational corporations through litigation under the Alien Tort Claims Act.

Fashion Film Nick Rees-Roberts.2018-12-13 The moving image has become a key marketing tool for luxury fashion, central in enabling brands to shape their visual codes and extend their brand awareness. Fashion Film is the first detailed study of the shifting shape of fashion imagery in the digital age, investigating the role of the moving image in the promotion, communication and spectacle of contemporary fashion. Combining interdisciplinary analysis of cinema and digital culture, this ground-breaking book traces the emergence of fashion film in the 21st century through its historical roots in pre-digital forms of photography, experimental cinema, mass-media advertising and documentary film-making, right up to today's visual spread of contemporary fashion on video blogs, online magazines and live-streamed catwalk shows. Examining collaborations between fashion designers and pioneering image-makers such as Guy Bourdin, Jean-Paul Goode, William Klein and Nick Knight, the book highlights the critical tension between the fashion film conceived as a creative endeavour and as commercial enterprise. Fashion Film also includes a parallel focus on factual representations of fashion through the recent rise of documentary fashion film that goes behind the scenes to follow the processes and personalities involved in making fashion. Accessible and well-illustrated, Fashion Film will appeal to students and scholars of fashion, film, media, photography, celebrity, sociology and cultural studies.

Goth's Dark Empire Carol Siegel.2005-08-04 In Goth's Dark Empire cultural historian Carol Siegel provides a fascinating look at Goth, a subculture among Western youth. It came to prominence with punk performers such as Marilyn Manson and was made infamous when it was linked (erroneously) to the Columbine High School murders. While the fortunes of Goth culture form a portion of this book's story, Carol Siegel is more interested in pursuing Goth as a means of resisting regimes of sexual normalcy, especially in its celebration of sadomasochism (S/M). The world of Goth can appear wide-ranging: from films such as Edward Scissorhands and The Crow to popular fiction such as Anne Rice's vampire novels to rock bands such as Nine Inch Nails. But for Siegel, Goth appears as a mode of being sexually undead -- and loving it. What was Goth and what happened to it? In this book, Siegel tracks Goth down, reveals the sources of its darkness, and shows that Goth as a response to the modern world has not disappeared but only escaped underground.

Accepting Authoritarianism Teresa Wright.2010-03-08 Why hasn't the emergence of capitalism led China's citizenry to press for liberal democratic change? This book argues that China's combination of state-led development, late industrialization, and socialist legacies have affected popular perceptions of socioeconomic mobility, economic dependence on the state, and political options, giving citizens incentives to perpetuate the political status quo and disincentives to embrace liberal democratic change. Wright addresses the ways in which China's political and economic development shares broader features of state-led late industrialization and post-socialist transformation with countries as diverse as Mexico, India, Tunisia, Indonesia, South Korea, Brazil, Russia, and Vietnam. With its detailed analysis of China's major socioeconomic groups (private entrepreneurs, state sector workers, private sector workers, professionals and students, and farmers), Accepting Authoritarianism is an up-to-date, comprehensive, and coherent text on the evolution of state-society relations in reform-era China.

The Art of Useless Calvin Hui.2021-09-21 Since embarking on economic reforms in 1978, the People's Republic of China has also undergone a sweeping cultural reorganization, from proletarian culture under Mao to middle-class consumer culture today. Under these circumstances, how has a Chinese middle class come into being, and how has consumerism become the dominant ideology of an avowedly socialist country? The Art of Useless offers an innovative way to understand China's unprecedented political-economic, social, and cultural transformations, showing how consumer culture helps anticipate, produce, and shape a new middle-class subjectivity. Examining changing representations of the production and consumption of fashion in documentaries and films, Calvin Hui traces how culture contributes to China's changing social relations through the cultivation of new identities and sensibilities. He explores the commodity chain of fashion on a transnational scale, from production to consumption to disposal, as well as media portrayals of the intersections of clothing with class, gender, and ethnicity. Hui illuminates key cinematic narratives, such as a factory worker's desire for a high-quality suit in the 1960s, an intellectual's longing for fashionable clothes in the 1980s, and a white-collar woman's craving for brand-name commodities in the 2000s. He considers how documentary films depict the undersides of consumption—exploited laborers who fantasize about the products they manufacture as well as the accumulation of waste and its disposal—revealing how global capitalism renders migrant factory workers, scavengers, and garbage invisible. A highly interdisciplinary work that combines theoretical nuance with masterful close analyses, The Art of Useless is an innovative rethinking of the emergence of China's middle-class consumer culture.
