Unlocking markets to smallholders Herman D. van Schalkwyk,Jan A. Groenewald,Gavin C.G. Fraser,Ajuruchukwu Obi,Aad van Tilburg.2012-03-10

This book assesses the institutional, technical and market constraints as well as opportunities for smallholders, notably, emerging farmers in disadvantaged areas such as the former homelands of South Africa. Emerging farmers are previously disadvantaged black people who started or will start their business with the support of special government programs. Public support programs have been developed as part of the Black Economic Empowerment strategy of the South African government. These programs aim to improve the performance of emerging farmers. This requires, first and foremost, upgrading the emerging farmers skills by providing access to knowledge about agricultural and entrepreneurial practices. To become or to remain good farmers they also need access to suitable agricultural land and sufficient water for irrigation and for feeding their cattle. Finally, for emerging farmers to be engaged in viable farming operations, various factors need to be in place such as marketing and service institutions to give credit for agricultural inputs and investments; input markets for farm machinery, farm implements, fertilizers and quality seeds; and accessible output markets for their end products. This book develops a policy framework and potential institutional responses to unlock the relevant markets for smallholders.

Cribsheet Emily Oster.2019-04-23 From the author of *Expecting Better* and *The Family Firm*, an economist's guide to the early years of parenting.

“Both refreshing and useful. With so many parenting theories driving us all a bit batty, this is the type of book that we need to help calm things down.” —LA Times “The book is jam-packed with information, but it’s also a delightful read because Oster is such a good writer.” —NPR With *Expecting Better*, award-winning economist Emily Oster spotted a need in the pregnancy market for advice that gave women the information they needed to make the best decision for their own pregnancies. By digging into the data, Oster found that much of the conventional pregnancy wisdom was wrong. In *Cribsheet*, she now tackles an even greater challenge: decision-making in the early years of parenting. As any new parent knows, there is an abundance of often-conflicting advice hurled at you from doctors, family, friends, and strangers on the internet. From the earliest days, parents get the message that they must make certain choices around feeding, sleep, and schedule or all will be lost. There's a rule—or three—for everything. But the benefits of these choices can be overstated, and the trade-offs can be profound. How do you make your own best decision? Armed with the data, Oster finds that the conventional wisdom doesn't always hold up. She debunks myths around breastfeeding (not a panacea), sleep training (not so bad!), potty training (wait until they're ready or possibly bribe with M&Ms), language acquisition (early talkers aren't necessarily geniuses), and many other topics. She also shows parents how to think through freighted questions like if and how to go back to work, how to think about toddler discipline, and how to have a relationship and parent at the same time. Economics is the science of decision-making, and *Cribsheet* is a thinking parent's guide to the chaos and frequent misinformation of the early years. Emily Oster is a trained expert—and mom of two—who can empower us to make better, less fraught decisions—and stay sane in the years before preschool.

Apartheid Guns and Money Hennie van Vuuren.2019-03-01 In its last decades, the apartheid regime was confronted with an existential threat. While internal resistance to the last whites-only government grew, mandatory international sanctions prohibited sales of strategic goods and arms to South

Africa. To counter this, a global covert network of nearly fifty countries was built. In complete secrecy, allies in corporations, banks, governments and intelligence agencies across the world helped illegally supply guns and move cash in one of history's biggest money laundering schemes. Whistleblowers were assassinated and ordinary people suffered. Weaving together archival material, interviews and newly declassified documents, *Apartheid Guns and Money* exposes some of the darkest secrets of apartheid's economic crimes, their murderous consequences, and those who profited: heads of state, arms dealers, aristocrats, bankers, spies, journalists and secret lobbyists. These revelations, and the difficult questions they pose, will both allow and force the new South Africa to confront its past.

Art, Creativity, and Politics in Africa and the Diaspora Abimbola Adelakun, Toyin Falola. 2018-07-26 This book explores the politics of artistic creativity, examining how black artists in Africa and the diaspora create art as a procedure of self-making. Essays cross continents to uncover the efflorescence of black culture in national and global contexts and in literature, film, performance, music, and visual art. Contributors place the concerns of black artists and their works within national and transnational conversations on anti-black racism, xenophobia, ethnocentrism, migration, resettlement, resistance, and transnational feminisms. Does art by the subaltern fulfill the liberatory potential that critics have ascribed to it? What other possibilities does political art offer? Together, these essays sort through the aesthetics of daily life to build a thesis that reflects the desire of black artists and cultures to remake themselves and their world.

Financing Education in Sub-Saharan Africa UIS, UNESCO-IIEP, UNESCO Office Dakar and Regional Bureau for Education in Africa. 2011-01-01 In the current economic climate, how can African governments provide every child with a decent education? This report provides the statistical evidence to evaluate the policy trade-offs in responding to the rising demand for primary and secondary education in sub-Saharan Africa. The report presents the most comprehensive and timely data available on the financing of education in 45 sub-Saharan African countries. In addition, historical data enable the authors to track trends since the World Education Forum in 2000 and examine the financial impact of the steadfast commitment of many African governments to provide universal primary education. Over the past ten years, real expenditure on education has risen by 6% annually across the region. It is often assumed that the resources were used to widen enrollment. Yet, recent data show that many countries also made significant investments to improve their educational services. The report also introduces new indicators on critical issues, such as the qualifications and salaries of teachers, the running costs of schools, and the provision of textbooks. The authors examine financing trends in private education, as well as official development assistance, which accounts for more than 50% of public education budgets in some countries. In short, this report provides the facts -- not assumptions -- to analyse policy options and optimise the use of limited financial resources.--P. [4] of cover.

Kenya Today Ndirangu Mwaura. 2005 Examining the impact of foreign aid, trade policies, study-abroad programs, religion, entertainment, the media and other forms of foreign influence on Kenya and other under-developed African nations, the author finds that initiatives billed as assistance in many cases serve instead to keep in place the colonial status of dependency--Provided by publisher.

Mindset Is Everything Connor LaRocque. 2016-06-29 Luck is an illusion. Mindset is Everything demonstrates the fact that your mind matters in goal achievement. Firstly, you need a target to aim for. Secondly, you need a game plan that will lead you in the direction of your target. Lastly, you

need to be able to follow through with your game plan to be able to hit your target. This book is your guide to unlimited fulfillment. Whether you're a tortoise or a hare, this book will get you there! This book will use real life practical solutions that demonstrate how to persevere in times when you are discouraged or when things don't go according to the game plan. Life is complicated and will present challenges that you need to be able to adapt to. Inevitably, in taking control of your mindset which is internal, you can control what happens externally in the environment presented to you. What I've discovered through my ongoing research in personal development is that most people because of no target to aim for are uncertain towards what they truly want from their life. Essentially, when an incentive is high enough to hit a target, we will find a way to do so. This disproving the myth that luck is real.

Achtung-Panzer! Heinz Guderian. 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Future-proof Your Child Graeme Codrington. 2012-10-19 This world has changed. The future has changed. Childhood is changing. Raising children has never been more challenging - or potentially rewarding. It is becoming increasingly obvious that the world into which our young children will enter as adults, somewhere between 2020 and 2030, will be nothing like the world their parents grew up in, or even the world we currently inhabit. We need a better understanding of the world of the future in order to prepare our children and to 'future-proof' them. *Future-proof Your Child* is a very different kind of parenting book. It contains many useful, practical hints and tips but also focuses on the context for parenting and child development today. It convinces 21st-century parents of the need to change their approach to parenting future generations and is relevant, accessible, practical and inspirational. *Future-proof Your Child* highlights the critical importance of making choices, having conversations and consciously connecting with tomorrow's children today.

More Than a Showroom Daniel G. Bachrach, Jessica Ogilvie, Adam Rapp, Joe Calamusa IV. 2016-04-29 The growing phenomenon of showrooming plagues sales managers and small retailers in ever increasing numbers as technology has evolved to create smarter and more empowered consumers. Showrooming refers to the phenomenon of consumers - or potential consumers - browsing products in a retail store, and then ultimately purchasing online at a lower price through another store. In the age of the Internet, the sight of a customer who will visit a store and use their smartphone to scan the barcode, hoping to find the same item at a cheaper price from a different vendor has become commonplace. Through exhaustive research, the authors of this book investigate this exploding trend and offer strategies, tools, and training approaches that can help to transform showrooming customers into in-store sales. Offering retail managers and owners deep insight into how they can stem the loss of resources to showrooming, this book, through a close, systematic examination of showrooming, provides insight and understanding of the value added through customer service and expert salesperson knowledge. Retailers will learn how to implement essential, incremental changes to infuse value in the customer experience and entice significantly improved in-store sales while building core customer relationships and enhancing loyalty.

Regional Parallelism and Corruption Scandals in Nigeria Muhammad Jameel Yusha'u. 2018-10-04 Regional Parallelism and Corruption Scandals in Nigeria is a ground-breaking book that offers fresh perspectives on the character and role of the African media in covering corruption scandals. It explores whether reports regarding corruption stem from the efforts of journalists who employ investigative journalism, or if it is a mere coincidence promoted by the activities of anti-corruption agencies. To that end, the book develops a media systems theory for Africa based on the coverage of corruption scandals in the Nigerian press. This new theoretical paradigm, defined as regional parallelism, argues that African countries are nations within nations, and that therefore any comparative study of the media system should recognize this understanding. The book combines both interviews with journalists as well as qualitative content analysis of newspapers to determine the patterns and issues that influence the reporting of corruption. It also looks at corruption within the media itself, taking into account factors such as regionalism and ethnicity within the practice of journalism.

Foreign Policy in the Age of Globalization, Populism and Nationalism Fred Aja Agwu.2022-06-27 This book propounds the thesis that it was the dysfunction of globalization and liberalism that prompted the rise of nationalism and populism. Recent developments in global affairs are challenging assumptions and the basis upon which international relations, as a broad field of specialization, and foreign policy analysis, as a sub-field, rests. In a world that is changing in fundamental and irreversible ways, this book intervenes to enable an improved sense of understanding of these developments and what they mean for people-people, state-state, continent-continent, and global relations, moving forward. The author shows anti-globalization and the growth of nationalism and populism have been particularly necessitated by the failures of liberalism and America's abdication from the world. With reference to Brexit, the pandemic, the US 2020 elections and consequent shifts in power, with a focus on their respective impacts on Africa, and Africa-Sino relations particularly, and developing countries, more broadly, this book situates these discussions within a global context. It effectively illustrates the insufficiency of the West's soft power, especially as it is foisted or supposedly imposed on the rest of the world without regard to the demands of cultural relativity. Relevant to postgraduate students, researchers, and policymakers, this is must-read within the fields of international relations and political economy.

African Youth Languages Ellen Hurst-Harosh, Fridah Kanana Erastus.2018-12-19 This book showcases current research on language in new media, the performing arts and music in Africa, emphasising the role that youth play in language change and development. The authors demonstrate how the efforts of young people to throw off old colonial languages and create new local ones has become a site of language creativity. Analysing the language of 'new media', including social media, print media and new media technologies, and of creative arts such as performance poetry, hip-hop and rap, they use empirical research from such diverse countries as Cameroon, Nigeria, Kenya, the Ivory Coast and South Africa. This original edited collection will appeal to students and scholars of African sociolinguistics, particularly in the light of the rapidly changing globalized context in which we live.

Enter Title Here Naomi Kanakia.2016-08-02 I'm your protagonist-Reshma Kapoor-and if you have the free time to read this book, then you're probably nothing like me. Reshma is a college counselor's dream. She's the top-ranked senior at her ultra-competitive Silicon Valley high school, with a spotless academic record and a long roster of extracurriculars. But there are plenty of perfect students in the country, and if Reshma wants to get into Stanford, and into med school after that, she needs the hook to beat them all. What's a habitual over-achiever to do? Land herself a literary agent, of course. Which is exactly what Reshma does after agent Linda Montrose spots an article she wrote for Huffington Post. Linda wants to represent Reshma, and, with her new agent's help scoring a book deal, Reshma knows she'll finally have the key to Stanford. But she's convinced no one would want to read a novel about a study machine like her. To make herself a more relatable protagonist, she must start doing all the regular American girl stuff she normally ignores. For starters, she has to make a friend, then get a boyfriend. And she's already planned the perfect ending: after struggling for three hundred pages with her own perfectionism, Reshma will learn that meaningful relationships can be more important than success-a character arc librarians and critics alike will enjoy. Of course, even with a mastermind like Reshma in charge, things can't always go as planned. And when the valedictorian spot begins to slip from her grasp, she'll have to decide just how far she'll go for that satisfying ending. (Note: It's pretty far.) In this wholly unique, wickedly funny debut novel, Naomi Kanakia consciously uses the rules of storytelling-and then breaks them to pieces.

EMarketing Rob Stokes,Quirk eMarketing (Firm),The Minds of Quirk.2010 Review: This book is a fantastic guide to online marketing, and the Internet in general. As a marketing practitioner, I've been finding my way own way through the online world for some time now but have always wondered if what I was doing was 'correct' and it would take me ages to find out what I needed to know through researching online articles, blogs, etc. I found this book to be fairly concise and focused. The references to other online articles that it includes are vast and can they be very absorbing. The best part about this is that it is written by someone that clearly has vast experience in the field and, unlike with some online articles, you get the

feeling that what is advised is really 'best practice'. I'd recommend this book for anyone interested in digital marketing. Adam Butchart, Digital Marketing student Blurb: We love the Internet. We love digital and the connected world that we live in. We have spent the last six months gleaning every bit of knowledge, skill and opinion from the creative minds at Quirk. Since we published the last edition of the book, it has become increasingly obvious that the various elements of digital marketing work hand in hand, not just benefiting each other through coordination, but actually relying on each other for success. - Rob Stokes (Founder and Group CEO, Quirk) In order to reflect this change, we have restructured the book to mirror our four key agency disciplines: Think, Create, Engage and Optimise.
